My

REPORT
ON THE
ADMINISTRATION
OF
MYSORE
FOR THE YEAR
1956-57

PUBLISHED BY ORDER OF GOVERNMENT

BANGALORE:
PRINTED BY THE DIRECTOR OF PRINTING, STATIONERY AND
PUBLICATIONS AT THE GOVERNMENT PRESS
1959

PREFATORY NOTE

THIS is the first Report of the New Mysore State after the Reorganisation. A map of the New Mysore State is also introduced in this issue.

The delay in the publication of the Report was inevitable because of the difficulty faced in getting statistical returns from the integrated districts after the Reorganisation.

The Report, in Chapter I, gives the general summary of the events of the year. The subsequent Chapters are devoted to detailed account of the various branches of the Administration.

In this Report, Sections on (i) Police, (ii) Prisons, (iii) Public Health and (iv) Medical Services refer to the Calendar year 1956. Sections on (i) Land Revenue, (ii) Co-operation refer to the Revenue year, *i.e.*, from 1st July 1956 to 30th June 1957. All the other Sections refer to the Official year, *i.e.*, from 1st April 1956 to 31st March 1957.

Figures shown within the brackets in the body of the Report indicate those pertaining to the previous year.

CONTENTS

CHAPTER I.

SECTION	PAGE
General	1-28

CHAPTER II—*Law, Order and Justice.*

i. Legislative Enactments	25
ii. Rules and Notifications under Enactments in force in Mysore	32
iii. Police	41
iv. Prisons	49
v. Civil Justice	51
vi. Criminal Justice	55

CHAPTER III—*Revenue and Finance*

i. Revenue and Finance	61
ii. Excise	61
iii. Sales-Tax	68
iv. Stamps	69
v. Registration	70
vi. The Mysore Motor Spirit (Taxation on Sales) Act, 1949	72
vii. Mysore Government Insurance Department	72

CHAPTER IV—*Local Administration.*

i. Corporation of the City of Baugalore	75
ii. Mysore City Municipality	77
iii. Davangere City Municipality	78
iv. Bellary City Municipality	79
v. Municipal Administration	81
vi. Administration of District Boards	86
vii. Kolar Gold Field Sanitary Board	89
viii. Village Panchayats and Rural Development	89
ix. Bangalore City Improvement Trust Board	93
x. Mysore City Improvement Trust Board	95

CHAPTER V—*Administration of Land.*

SECTION	PAGE
i. Land Revenue	97
ii. Land Records, Survey and Settlement	107

CHAPTER VI—*Food and Civil Supplies.*

i. Food Supplies	113
ii. Food Production	118
iii. Civil Supplies	122

CHAPTER VII—*Agriculture, Forest, Co-operation and Marketing.*

i. Weather and Crop Condition	125
ii. Agriculture	127
iii. Forests	135
iv. Co-operation	145
v. Marketing	153

CHAPTER VIII—*Vital Statistics on Public Health and Medical Services.*

i. Births, Deaths and Epidemics	157
ii. Vaccine Institute, Bangalore	162
iii. Vaccine Institute, Belgaum	163
iv. Hospitals and Dispensaries	163
v. Major Medical Institutions	168

CHAPTER IX—*Public Instruction.*

i. Education	173
ii. University of Mysore	181
iii. Karnatak University, Dharwar	184
iv. Technical Education	187
v. Government Flying Training School	190
vi. Government Museum	191

CHAPTER X—*Animal Husbandry and Veterinary Services.*

SECTION	PAGE
i. Animal Husbandry and Veterinary Services ...	193
ii. Serum Institute ...	197
iii. Composite Livestock Farm and Research Station, Hessarghatta, Bangalore ...	198
iv. Fisheries ...	203

CHAPTER XI—*Industries and Commerce.*

i. Industries and Commerce ...	207
ii. The Mysore Iron and Steel Works, Bhadravati ...	217
iii. Textiles ...	218
v. Sericulture ...	221
v. Post and Telegraphs ...	226
vi. Rural Industrialisation ...	227
vii. Labour ...	229

CHAPTER XII—*Public Works.*

i. Public Works ...	235
ii. Major Irrigation Works ...	241
iii. Mysore Government Road Transport Department ...	249
iv. Motor Vehicles Department ...	253
v. Electrical Department ...	255

CHAPTER XIII—*Social Services and Welfare.*

i. Social Welfare Department ...	261
ii. Community Development Projects and National Extension Service Blocks ...	266
iii. Relief and Rehabilitation of Displaced Persons ...	268
iv. Schemes for Rehabilitation of Ex-Servicemen ...	269
v. Beggar Relief Scheme ...	270
vi. National Employment Service ...	272

CHAPTER XIV—*Miscellaneous.*

SECTION	PAGE
i. Archæology	277
ii. Anti-Corruption and Efficiency Audit	278
iii. Geology	281
iv. Government Central Press	286
v. Government Stationery Depot	288
vi. Horticulture	289
vii. Information and Publicity	293
viii. Mysore Housing Board	295
ix. Recruitment to Public Service	297
x. Religious and Charitable Endowments	299
xi. Stores Purchase Committee	303
xii. Statistics	305

APPENDICES—*Statistical Returns.*

I. Statement showing the Receipts and Expenditure of the State for 1956-57	313
I-A. D.C. of L.R. and D.R. Misc. including cess for June 1957	318
I-B. Statement showing the Demand, Collection and Balance under several heads of Excise Revenue for 1956-57	319
II. Expenditure on Public Works	326
III. Statement B, Part I—Return of Non-Cognizable Crimes and Cases under Preventive Sections of Cr. P. C. for the year 1956—Part I: Return of Cases	340
Statement B—Part II; Return of Non-cognizable Crimes and Cases under Prosecution Sections of Cr. P. C. for the year 1956—Part II—Return of Persons concerned in Cases	344
IV. Statement showing the number and value of suits instituted in the Civil Courts in the Ex-Mysore State during 1956-57	348
IV. (a) Statement showing the general result of the trial of Civil Suits in the Courts of Original Jurisdiction in the Ex-Mysore State during the year 1956-57	349
V. Statement of Registration, Receipts and Expenditure in each Registration Office of the Mysore State	350
VI. Live-Stock and Poultry	352
VII. Statement showing the number, strength and expenditure on Educational Institutions in the Mysore State for the years 1955-56 and 1956-57	357
INDEX	

REPORT

ON THE

ADMINISTRATION OF MYSORE

FOR THE YEAR

1956-57

CHAPTER I—GENERAL.

1. A new and glorious chapter was opened in the history of Mysore on the first day of November 1956. On that day, due to the Re-organisation of the States in India, nine Kannada-speaking territories of the bordering States of Bombay (4) Hyderabad (3) Madras (1) and Coorg (1) were merged with the ten districts of the Old Mysore State, and thus the New Mysore State was born. The area of the State increased from 33,310 square miles to 74,293 square miles and the population from 98,48,684 to 19,401,477.

Chap. I
GENERAL
—

2. Thus, with the Re-organisation of States on 1st November 1956, the New Mysore has more than doubled both in area and population and it stands eighth among the fourteen States of the Indian Union, both in size and in population. Mysore State accounts for 5.9 per cent of the total area of India and 5.4 per cent of the total population of India. The density of the population of the New State is 259 as against the All-India average of 285.

3. The first of November 1956 is also a memorable day for the Kannadigas. For, it was on that day that their long cherished dream of a United Karnataka came true and the New State of Mysore was inaugurated by our President Dr. Rajendra Prasad.

4. The History of the New Mysore State or Karnataka is as interesting as it is ancient. The name "Karnataka"

GENERAL

is mentioned in the great epic "Mahabharata." The edicts of Asoka show that this region was once a part of the mighty Mauryan Empire. 'Nrupatunga, a great Kannada poet of the 9th century, defines its boundaries as extending from the River Cauveri to the River Godavari and it cradled the three great dynasties namely, the Kadambas, the Hoysalas and the Kings of Vijayanagar, who dominated Peninsular India centuries ago.

5. With the Re-organisation of States from 1st November 1956, the New Mysore State was constituted with the following areas:—

- (i) The territories that constituted the Old Mysore State ;
- (ii) Belgaum District (except Chandgad Taluk), Bijapur, Dharwar and North Kanara Districts of the former Bombay State ;
- (iii) South Kanara District (except Kasargod Taluk) and Kollegal Taluk of Coimbatore District of the State of Madras ;
- (iv) Gulberga, Raichur and Bidar Districts (except some taluks of each district) of erstwhile Hyderabad State ; and
- (v) The territories that constituted the Coorg State.

6. On the east, the New Mysore State is surrounded by the Andhra Pradesh, on the south and south-west by the Madras and Kerala States and on the north by the Bombay State. On the west it is bounded by the Arabian Sea.

7. The New Mysore State is a table-land. It consists of two natural regions (i) Malnad comprising the Western Ghats and the adjacent coastal plains and (2) the Maidan constituting the Eastern plains. Malnad area receives about 100 inches of rain annually while the Maidan area receives about 35 inches.

8. The State has rich variety of natural resources, about a sixth of its area is covered with green and semi-green forests in which teak, sandalwood and rosewood predominates. Over 60 per cent of the coffee plantations of the Country and several tea, areca, rubber and cardamom gardens are situated on the slopes of the Western Ghats.

ADMINISTRATION.

9. For administrative purposes, the nineteen districts of the New Mysore State have been divided into four Divisions as follows :—

(A) Bangalore Division, consisting of.—

(1) Bangalore, (2) Kolar, (3) • Tumkur, (4) Chitaldrug and (5) Bellary Districts ;

(B) Mysore Division, consisting of.—

(1) Mysore, (2) Mandya, (3) Hassan, (4) Chickmagalur, (5) Shimoga, (6) South Kanara and (7) Coorg Districts.

(C) Belgaum Division, consisting of.—

(1) Belgaum, (2) Dharwar, (3) Bijapur and (4) North Kanara Districts and

(D) Gulberga Division, consisting of.—

(1) Bidar, (2) Raichur and (3) Gulberga Districts.

10. The Bangalore Division has an area of 18,158 square miles and population of 60,50,380 ; the Mysore Division an area of 20,632 square miles and a population of 54,97,534 ; the Belgaum Division an area of 20,983 square miles and a population of 51,35,746 ; and the Gulberga Division an area of 13,789 square miles and a population of 27,17,817.

11. The State has 170 taluks, which comprise 25,880 villages and 288 towns. Among the districts, Bijapur is the largest (6,601 sq. miles) while Coorg is the smallest (1,586 sq. miles).

12. Each district has on an average about nine taluks. A taluk consists of approximately 150 villages and a population of 1,14,125 persons on the average. The average area of taluk is 440 sq. miles.

13. The administration is carried on by the Governor, and a Council of Ministers, which functions on the basis of joint responsibility. The Chief Minister forms the Cabinet as the leader of the majority party in the Legislature.

14. There are two Legislature Houses, viz., The Legislative Assembly and the Legislative Council. The Legislative Assembly consisting of 210 elected members and the Legislative Council consisting of 52 members as on 1st

GENERAL

November 1956. The number represented the State in the Rajya Sabha and the Lok Sabha was 12 and 26 respectively. The Legislature passed 25 Enactments during the year including amendments to the existing Enactments.

RAINFALL.

15. The climate of Mysore State is essentially tropical monsoon. The year may be broadly divided into three seasons namely :—

- (1) The cold weather season from about the middle of November to the end of February.
- (2) The hot weather season from the beginning of March to about the end of May, and
- (3) The rainy season from June to November.

16. The annual average rainfall in Mysore State ranges from about 300 inches on the Western Ghats to about 15 inches in the eastern and north-eastern parts of the State. The average annual rainfall for the State is about 47 inches. The zone of heavy rainfall (60 inches and over) extends from Coorg District to North Kanara District over a belt of 30-50 miles along the Western Ghats. This belt of land constitutes the Malnad. In the Maidan the precipitation ranges from 15 to 40 inches. The heaviest rainfall is claimed by Augumbe in Shimoga District. The precipitation is less than 25 inches in the Kolar, Chitaldrug, Bellary, Raichur and Bijapur Districts, the south-western and northern parts of Tumkur, the eastern parts of Shimoga, Hassan and northern parts of Kolar and south-eastern portions of Mysore.

General
Conditions of
the year.

17. The pre-monsoon rains in April and monsoon rains due in June during the year 1956-57 failed in some parts of the State, causing famine conditions. But, in the latter part of the year, there was abundant rainfall throughout the State and the conditions improved. There was excessive rainfall in the districts of Shimoga, Chickmagalur, result of which, there was damage to crops and breach of tanks. There was increased activity in the agricultural operations and there was also improvement in the conditions of crops. The seasonal conditions of the year, on the whole, were satisfactory as compared with the previous year. However, the prices of staple foodgrains and essential commodities

continued to remain at a high level and showed tendencies to raise. With a view to check the upward trend in prices, Fair Price Shops were opened by Government at important centres.

NATURAL RESOURCES.

18. Mysore State is a land of large rivers, swift Rivers. flowing streams, gorges and water falls which can be harnessed for irrigation and power. There are more than 50 rivers, big and small, flowing in the State. Some of the important rivers like the Cauvery, the Sharavati, the Tungabhadra and the Krishna have not only helped the irrigation of vast areas but have also been helpful in generating hydro-electric power to run hundreds of small as well as large scale industries and illumine millions of homes. The three important water falls are the Jog in the Shimoga District, the Shivasamudra in the Mandya District and the Gokak in the Belgaum District.

19. The following are some of the minor water falls:—

Jaladurga, Lalaguli, Kanheri, Magode, Unchalli, Shiradi, Mekedatu and Hogenkalu.

20. As regards the mineral wealth, it may be said that the Mysore State has vast resources of minerals and ranks third or fourth in respect of potential mineral wealth in the Indian Union. All the valuable minerals such as Gold, Iron, Manganese, Chromite, Bauxite, Copper, Corundum and other industrial minerals occur in the Dharwar schists which cover about 9,000 square miles in the State. Mineral Wealth.

21. Gold occurs widely distributed in the regions of Dharwar schists. But Kolar Gold Fields and Hutti Gold Mines are the productive mines which contribute more than 95 per cent of the present annual output of Gold in India. Iron ores of different types are found to the extent of about 500 million tons in Mysore. In Bellary District alone, the Sandur deposits are estimated to contain about 130 million tons of high grade ore while the Kemmangundi deposits in Chickmagalur District have a reserve of about 20 million tons of high grade ore. Manganese ore of various grades are

GENERAL

found to an extent of 3 million tons in Bellary, Shimoga, Chitaldrug, Tumkur and in parts of North Kanara and Belgaum Districts. Chromite is estimated to occur to the extent of about half a million ton and the chief deposits are found in Hassan and Mysore Districts. The estimated resources of Bauxite in the Belgaum District are extensive, out of which about 5,00,000 tons are of high grade, suitable for the manufacture of alumina and the metal aluminium. Extensive deposits of high grade limestones in the order of about 200 million tons occur in Tumkur, North Kanara and Bijapur Districts, while the resources of Magnesian limestones are in the order of about 500 millions. The total reserves of China clay in the various Districts of the State have been estimated to be in the order of about 5 million tons.

22. The other minerals which occur to a limited extent are Corundum, Garnet, Magnesite, Copper ore, Galena and Antimony ores.

23. The vast resources of these mineral raw materials admit possibilities of establishment of a number of industries in addition to the expansion of the industries now working.

24. There are at present, the following mineral industries in the State, utilising the mineral raw materials:—

- (i) The Mysore Iron and Steel Works, Bhadravati, (ii) The Cement Factories at Bhadravati, Shahabad and Bagalkot;
- (iii) The Government Porcelain Factory at Bangalore;
- (iv) The Mysore Stoneware Pipes and Potteries, Bangalore;
- (v) The Ferro-Manganese Plant at Dandeli.

25. Besides, Mysore State has numerous types of building stones such as Granites, Gneisses, Porphyried, Felsites, Green Quartzite, Potstone, Black dykes, many of which when dressed and polished, form beautiful ornamental stones.

26. Mysore has a long strip of 200 miles of coast line with a number of small harbours and if some of them are improved and converted into first class harbours, capable of handling minerals in bulk, the mineral trade of the State through these ports is likely to have a bright future.

27. The quantity of Gold produced during 1956 at the Kolar Gold Fields was 1,91,178 fine ozs. which realised

Rs. 5,24,21,635. The quantity of Silver produced during 1956 was 14,017 fine ozs. which realised Rs. 62,101.

28. During 1956, nearly 23,000 workers have been employed in mineral production in the State and the total value of the production of minerals in the year is about 60 lakhs of rupees.

29. The important event in the history of the Mining Industry in the State of Mysore was the nationalisation of the Gold Mines on the Kolar Gold Field. The Kolar Gold Mines Ltd., were the sole producers of Gold in India for over 70 years.

30. Inland Fisheries.—There are about 30,000 minor tanks and 4,000 major tanks and 20 big reservoirs formed across the rivers in the State. The inland fisheries are developed only in selected areas of the State. There are ten fishery divisions, 12 fish farms, 3 deep water fishing units and 20 fish seed collecting centres. The revenue from Inland Fisheries is approximately Rs. 50,000. Marine Wealth.

31. Marine Fisheries.—The New Mysore State has 200 miles of coast line on the Arabian Sea. All along this sea coast, there are many fishing villages, the most important of them being Majali, Karwar, Bingi, Chandia, Ankola, Kumta, Honnavar, Bhatkal, Gangoli, Malpe, Udiyavar, Bukkapatnum and Mangalore.

32. Nearly 40 varieties of sea fishes are landed out of which the most important are sardine, mackerel, seer and sharks. The total fish production on Mysore coast is 1/10 of the total marine fish landings in India.

33. Thus, the marine fisheries, confined to the Districts of North and South Kanara, can be regarded as one of the richest in the whole of India.

34. The Mysore Forest Department, now 93 years old, is one of the oldest in India, established on 11th January 1864. New Mysore State had 13,553.15 sq. miles of Government owned forests during the year. High forests are mostly found in the Districts of North Kanara, Shimoga, Chikmagalur, South Kanara, Coorg and Mysore. These forests contain valuable timbers like teak, rosewood, laurelwood, ventek, gumkino, white cedar, ebony, etc. Bamboos are also abundant. Mysore is the exclusive home of the finest sandalwood in the world. Forest Wealth

GENERAL

35. Now one of the biggest timber depots and saw mills in India is in greater Mysore at Dandeli. The Western Coast Paper Mill under construction at Dandeli with a production of about 15,000 tons of paper per year is expected to go into production shortly. Further, Coorg brings in an expanding saw mill at Murkal.

**Wild Life
Parks and
Wild Life
Sanctuaries.**

36. There are two wild life parks and three wild life sanctuaries in New Mysore State. They are:—

1. The Venugopal Wild Life Park in Mysore District.
2. The Jaugarvalley Wild Life Park in Shimoga District.
3. The Bandipur Wild Life Sanctuary in Mysore District.
4. The Dandeli Wild Life Sanctuary in North Kanara District.
5. The Negarhole Wild Life Sanctuary in Coorg District.

37. In addition, there is a Birds' Sanctuary at Rangan Thittu near Mysore.

38. Varieties of wild animals and birds are found in these wild life parks and sanctuaries, important among them being the elephant, bison, tiger, panther, sambhar, deer and the antelope.

INDUSTRIAL DEVELOPMENT.

39. According to the Census of Manufacturing Industries, there were 1,496 factories as on 31st December 1956 in the State. The average number of persons employed per day in these factories is about 1·57 lakhs. Out of 1,496 factories, 194 are Engineering, 303 Textiles, 98 Chemical and 435 relate to Food, Drinks and Tobacco. There were 246 Ginning and Pressing factories which are seasonal in character. The Textile Industry claims nearly 42 thousands persons as its employees, and next comes Engineering Industry with 30,000 employees.

40. Nearly 33 per cent of the total factories and 35 per cent of the total employees in the State are to be found in Bangalore District.

41. The following are the important Industrial Concerns owned and managed by the Government:—

(1) The Mysore Iron and Steel Works, Bhadravati.

The factory was established in 1918. With an initial investment of Rs. 1·87 crores, it has steadily progressed and the present investment is Rs. 6·1 crores. It is

to be noted that the Mysore Iron and Steel Works is the only producer of ferro-silicon in the whole of India.

(2) The Government Sandalwood Oil, Factory, Mysore and Shimoga.

It was started in the year 1916. It produces the finest variety of sandal oil much in demand in the medical and perfumery fields throughout the world. Incidentally, it may be mentioned that Mysore State produces 75 per cent of the world supply. After the formation of Greater Mysore, sandalwood growing areas of the States of Bombay, Madras and Coorg have been added on to Mysore and the resources of sandalwood augmented to the extent of 300 tons per annum.

(3) The Government Porcelain Factory, Bangalore.

It was started in the year 1932. It manufactures insulators for electrical undertakings and other porcelain articles. It has also recently started to produce high voltage insulators.

(4) The Government Electric Factory, Bangalore.

It was started in the year 1934. It produces scientific precision instruments, transformers, water meters and bakelite articles.

(5) The Government Soap Factory, Bangalore.

It was started in 1918. It has proved to be one of the leading soap factories in India. The factory manufactures toilet soaps of the best quality in addition to textile, rosin and soft and insecticidal soaps.

(6) The Mysore Government Silk Weaving Factory, Mysore.

It was started in the year 1932. It manufactures up-to-date crape-de-chine, georgette, satin, and other high class silk fabrics.

(7) The Government Central Industrial Workshop, Bangalore.

This factory was established in 1897. It has a capital of Rs. 5,90,554. It undertakes general engineering works such as erection of trusses, columns, etc.

(8) The Mysore Implements Factory, Hassan.

It was established in 1939 and has a capital of Rs. 10,87,000. It produces agricultural and estate implements.

GENERAL

42. The following are the important Industrial Concerns started by the Central Government —

(1) The Hindustan Aircraft Ltd., Bangalore.

It was started in 1940, and is mainly engaged in defence work for the Indian Air Force. It is the largest aircraft concern in the East. The factory is now manufacturing HT2 planes, all metal and integral rail coaches and all-metal bus bodies.

(2) The Indian Telephone Industries, Bangalore.

It was started in 1948. It is supplying telephone sets for the entire country.

(3) The Bharath Electronics, Bangalore.

It was started in 1954. It manufactures all kinds of electronic equipments.

(4) The Hindustan Machine Tools, Bangalore.

It was started in 1953. It is engaged in the manufacture of high precision machine tools.

43. The following are the important Industrial Concerns aided by Government:—

(1) The Radio and Electricals Manufacturing Co., Bangalore; (2) The Mysore Industrial and Testing Laboratory, Bangalore; (3) The Mysore Sugar Co., Mandya; (4) The Mysore Paper Mills, Bhadravathi; (5) The Mysore Spun Silk Mills, Channapatna; (6) The Mysore Chemicals and Fertilisers, Belagola; (7) The Mysore Tobacco Co., Bangalore; (8) The Mysore Coffee Curing Works, Chickmagalur, and (9) The Mysore Lamp Works, Bangalore.

44. The following are some of the important Industrial Concerns managed by private agencies:—

(1) The Kirloskar Electric Co., Ltd., Bangalore, (2) The Mysore Electrical Industries, Ltd., Bangalore, (3) The Mysore Vegetable Oil Products Ltd., Bangalore, (4) The Amco Ltd., Bangalore, (5) The Bangalore Woollen, Cotton and Silk Mills, Bangalore, (6) The Minerva Textile Mills, Bangalore, (7) The Mysore Spinning and Manufacturing Co., Bangalore, (8) Sri Krishnarajendra Spinning and Weaving Mills, Mysore, and (9) The T. R. Mills, Bangalore.

45. There are four spinning mills at Hubli, Gokak, Nargund and Gadag. There are about 50 oil mills in

Dharwar, Bijapur, Gulbarga and Raichur. There are also four sugar mills in this area. There are a number of plywood factories and saw mills also in this area. There is a cement factory at Bagalkot and a ferro-manganese industry has been established at Dandeli. There are about four hundred industrial units registered in this area under the Factories Act and the chief among them are ginning and pressing factories, oil mills, beedi-making, weaving, and general engineering industry. Handloom weaving, manufacturing of copper and brass utensils, brick-making, manufacturing of silver and gold articles and leather foot-wear making are extensively carried on.

46. The principal industries of Mangalore are tile-making, hand-weaving, coffee and cashew nut curing. Bee-keeping and saw mill industries are widely prevalent in Coorg.

47. In attempting to industrialise the State by starting these major and mechanised industries, the Government have, of course, not lost sight of the necessity for resuscitating and developing rural and cottage industries. The development of rural and cottage industries has been a special feature of the policy of the Government.

48. In order to improve the production capacity of the rural parts and to increase the income of the people residing in them and raise their standard of living, a scheme was put up by the Government to encourage the cottage industries and various cottage industry centres were started in different parts of the State. The main cottage industries in the State are mat weaving carpentry, tailoring, leather tanning and stitching, lacquerware, weaving, dyeing and printing arts and crafts.

Principal
Cottage
Industries

49. Handloom weaving ranks next in importance to agriculture and is one of the oldest industries in the State. Handloom weaving in cotton is carried on in all Maidan parts of the State.

50. Mat weaving centres are situated at Kengeri, Hassan, Hiriya, Amrutur, Nagamangala, Kumblur, and Anandapuram in Bangalore, Hassan, Chitaldrug, Tumkur, Mandya and Shimoga districts respectively. Mould making centre is situated at Krishnarajapuram in Bangalore District. Bangalore and Bijapur districts are having the

GENERAL

highest number of cottage industry centres. In North Kanara the important cottage industry is coir making. There is one Government Coir Training Institute at Honnavar and Coir Manufacturing School at Kumta. The other districts in which coir manufacturing centres are situated are Mysore, Bijapur and South Kanara. Dyeing and printing centres are situated at Yankanamardi in Belgaum district, Bannatti in Bijapur District and Gopankoppa in Dharwar District.

51. Soraba in Shimoga District is famous for pith making and sandal wood carvings. Chikmagalur and Mysore districts are known for the rattan works.

Rural Industrialisation Scheme.

52. The Rural Industrialisation Scheme sponsored by Bharata Ratna Dr. M. Visvesvaraya, was first introduced into the Mysore State in the year 1951. As the scheme had been working in the two districts of Bangalore and Kolar in a small way since 1951 with encouraging results, the Government first extended its operation to a third district, namely Mandya in the year 1953, and subsequently it was extended to the remaining seven districts of the State and it continued during 1956-57 in the districts of Old Mysore State. This scheme has been included in the Five-Year Plans.

Sericultural Industry

53. The Silk Industry is being practised in Mysore for over 200 years and has flourished on account of the natural facilities the State of Mysore is enjoying, namely, soil, climate, local conditions, etc. This industry is chiefly practised by small agriculturists as a subsidiary occupation and this affords profitable employment for women and children at home throughout the year and to the farmers during agricultural off-seasons. Thus, Sericulture forms a major cottage industry in the State giving economic stamina to the people practising this industry in various sectors, viz., mulberry cultivation, silk-worm rearing, silk reeling, silk marketing, etc. The industry affords employment for about 10 lakhs of people directly or indirectly.

54. The area under mulberry plantation during 1956-57 in the State is one lakh and fifty-six thousand acres.

55. Consequent on the Re-organisation of States, the New Mysore State holds a premier position as a silk producing State in India. Nearly 80 per cent of the raw silk

produced in India is produced in Mysore. Sericulture has immense possibilities of development in Belgaum and Dharwar Districts.

56. There are three Government Silk Filatures, four Private Filatures, 5,000 Charakas, 4,000 Handlooms and 4,600 Powerlooms engaged in silk reeling and silk weaving. The State produces about 19 lakhs of pounds of raw silk which forms about 80 per cent of the total production in India.

IRRIGATION PROJECTS.

57. The following are some of the important irrigation projects which are in different stages of progress :—

1. The Bhadra Reservoir Project in Chickmagalur District, is estimated to cost about Rs. 2,442 lakhs and is in rapid progress.

2. The Tunga Anicut Project in Shimoga District, is estimated to cost Rs. 231.12 lakhs and has progressed considerably.

3. The Nugu Reservoir Project in Mysore District, is estimated to cost Rs. 245.25 lakhs and is nearing completion.

4. The Ambligola Project in Shimoga District, is estimated to cost Rs. 56.00 lakhs and is in rapid progress.

5. The Tungabhadra Low Level Canal Project in Bellary District, is estimated to cost Rs. 35.81 lakhs and has made considerable progress.

6. The Ghataprabha Left Bank Canal Project in Belgaum District, is estimated to cost Rs. 545.00 lakhs and has almost been completed.

HYDRO-ELECTRIC PROJECTS.

58. The Mysore State was the first State to embark upon large scale hydro-electric power generation as a State venture as far back as 1898.

59. At present the enlarged State is the third largest power generating State in the Country. There are three generating stations in the State and they are (1) Sivasamudram (42,000 KW); (2) Shimsha (17,200 KW) and (3) Jog (1,20,000 KW).

60. The Sivasamudram Generating Station started as early as in the year 1902 with an humble beginning of 400 H.P. reaching to the present day capacity of 5,600 H.P. or 42,000 KW by harnessing the Cauvery waters

GENERAL

from the Krishnarajasagar Reservoir. The Mahatma Gandhi Hydro-Electric Scheme/Project with an installed capacity of 1,20,000 KW was implemented single handedly by the Mysore State Government in the year 1939 harnessing the vast power potentialities of the Sharavathi River at the famous Jog (Gersoppa) Water Falls.

61. The total installed capacity of all the three projects will amount to 1,79,200 KW. The Tungabhadra Hydro-Electric Project (Right Bank) in Bellary District is a joint venture of Mysore and Andhra States. Two units of 9,000 KW are in service at the Dam site.

62. *Projects under construction*:—The 1st stage of Sharavathi Valley Hydro-Electric Project which has an ultimate capacity of 8,91,000 KW is under execution. It is planned to instal 2 units by the end of Second Five-Year Plan. The Bhadra Hydro-Electric Project envisages power generation at both the Left and Right Banks of Bhadra Reservoir with a total installed capacity of 33,500 KW.

63. In Old Mysore State, the per capita consumption of Electricity was 64·9 K.W. Hrs.; but in the New State, the per capita consumption has come down to 37·8 KW. Hrs. In order to cope up with the industrial advancement of the State, three Hydro Electric Projects, namely, (1) Tungabhadra, (2) Bhadra and (3) Sharavathi are already in active progress. By the end of the Second Five-Year Plan, it is estimated that the State will have a total installed capacity of over 4,00,000 K.W.

EDUCATION.

64. *Primary, Middle and Secondary Education*:—It is one of the directive principles of the Constitution that the States should endeavour to provide for free and compulsory education for all children up to the age of 14 by 1961. Mysore State is well on its way to achieve this goal. For the year 1956-57, the percentage of pupils under instruction in all public institutions (excluding literacy classes) to the total estimated population of school going age of 55,93,200 was 36·5 as compared to 34·2 for Ex-Mysore in 1955-56. By the end of the Second Five-Year Plan, it is expected that among the children in the age group 6—14, the present school going percentage will be raised to 52 per cent.

65. Development of primary education is stated to be an index of educational development. In the Second Five-Year Plan, out of the total provision of about Rs. 12 crores nearly 65 per cent is for development of primary education.

66. On 31st March 1957, the total number of Educational Institutions was 26,821 and the number of pupils was 21,97,352 including 7,15,623 girls as against 14,552 institutions and 10,19,069 pupils in Ex-Mysore. On an average, there was one school (excluding literacy classes) for an area of 3.12 sq. miles and for every 807 persons as compared to 2.53 sq. miles and 837 persons in Ex-Mysore. It is estimated that for every six villages, there are five primary schools. The total number of schools imparting Primary Education in the State was 22,912 with an enrolment of 18,88,659 and total number of Middle Schools in the New State as on 31st March 1957 was 856. Each middle school serves a population of 10,000 on the average. Basic education being the accepted pattern of our educational system, the State is progressively carrying out its programme for conversion of existing elementary schools. Under the Second Five-Year Plan, 3,440 primary schools will be converted into the basic type. Three thousand new schools will be started in school-less areas and 9,680 additional teachers appointed in the existing schools for opening higher classes for meeting the needs of increasing enrolment in the existing classes.

67. Secondary education is designed to be a self contained and complete stage and to offer instruction up to the age of 17 followed by a three year integrated course for the Bachelor's degree. There were 535 high schools in the State, with a total strength of 171,083 students at the end of the year. Each high school serves an area of 150 sq. miles on the average.

68. There are now two Universities, one the Mysore University and the other the Karnatak University. Sixty-seven Colleges are affiliated to these two Universities. Of these, 45 are Arts and Science Colleges. Besides these, there are 7 Oriental Colleges and 5 Research Institutes also.

69. At the diploma and certificate level, there were 18 Government technical and 6 aided institutions in the State. Of these, eight are occupational institutes, four industrial-

Technical
and
Professional
Education.

GENERAL

cum-technical high schools, two poly-technics, one school of engineering, two technical training centres, and one girls' vocational training institute.

70. At the degree level, there are 7 Government technical colleges. Including non-Government institutions there are in the State 6 Engineering Colleges, 4 Medical, 4 Commerce, 5 Law, 2 Agricultural Colleges, and one College of Technology.

71. As a result of the Re-organisation of States, different areas of the Karnataka region with somewhat different educational patterns have come together. Steps are being taken to introduce uniform standards of education throughout the New State. An Educational Integration Advisory Committee has been set up for the purpose.

72. The re-orientation of education in accordance with modern trends has been gradually taking shape. The present emphasis is on craft centred education in the primary stage and the development of habits for co-operation and social living. At the secondary stage, diversified courses are being introduced to meet the needs of varied categories of students and to make the high school a self-sufficient stage of education.

73. The provision of a 3-year degree course and other measures for raising the standards of University Education is an important feature of the changes that have been taking place in the field of University Education.

74. The average cost per head of population in the New State during the year was Rs. 5-13 against Rs. 4-90 in 1955-56 in Ex-Mysore. The literacy percentage in the former State of Mysore was 20.3 as against the All-India average of 16.6.

MEDICAL AID.

75. The State has recognised from the very beginning that the health of the people is of utmost importance and medical aid is being made available to all. The State is well equipped with efficient hospitals, dispensaries, sanatoria and convalescent homes with specialists in some of the major hospitals. There were in all, 776 medical institutions in the New Mysore State including 191 of the integrated areas at the end of the year 1956 against 585 in the Old Mysore

State at the end of the year 1955 and on an average each institution was serving a population of 25,002 and an area of 95.5 sq. miles against 17,587 and 59.5 sq. miles in the erstwhile Mysore State.

76. The per capita expenditure on Medical Services for the year 1956 was Re. 0.76.

PUBLIC HEALTH.

77. Mysore has been considered by leading Public Health Experts of National and International repute as a pioneer State in India with regard to Public Health work.

78. Again, Mysore was the first State to start the programme of combining both curative and preventive health services under a single organisation.

79. The first Health Unit in the State was started in 1929 in the Mandya Area as an experimental work. Gradually, the number increased year after year and at present there are 218 (up to 1st January 1957) Health Units and 25 Secondary Health Centres in the State involving a recurring expenditure of nearly Rs. 23.00 lakhs, the per capita cost working out to Rs. 1-7-0. Roughly, one-third of the State is now covered by these health units. The birth rate has steadily gone up ranging from 40 to 45 per thousand population while the death rate has shown a decline varying from 11 to 15 per thousand population. Likewise, the rate of infant as well as maternal mortality has gone down considerably.

80. While the Primary Health Units have been a special feature in the former Mysore State, such units are very few in the newly integrated areas. Hence, it is proposed to start some more Primary as well as Secondary Health Units in these areas during the Second Five-Year Plan period. With regard to Coorg, the Public Health facilities obtaining in the District are comparatively high.

81. In addition to promoting the formation of Health Units, the Department has intensified its activity in other spheres, viz., in the field of Malaria, Tuberculosis.

82. Public Health Work covers not only the works like improvement of environmental sanitation and control of communicable diseases, but also includes other special services and programmes such as Family Planning, School

GENERAL

Health Services, Laboratory Services. The First Five-Year Plan envisaged an expenditure of Rs. 89 50 lakhs under Public Health for the period 1951-56.

AGRICULTURE.

83. The Department as heretofore is always in the forefront in supplying the requisite improved seeds, manures, and implements to the cultivators and get their lands ploughed with Tractors and Bulldozers. The results of the scientific experiments conducted in the research stations are brought home to the very doors of ryots in supplying improved seeds and chemical manures, by way of opening Seed Multiplication Farms, Subvention and Demonstration Farms in ryots fields. Thus, the Department is striving its best to 'serve the Mysore Farmer with Science' within the limitations of finance and personnel at its disposal.

84. The agricultural seasons in the erstwhile Mysore State are mainly the Hain and the Kar. The Hain season is the monsoon season and the Kar the summer season. The principal food-crops are grown in both the seasons depending on the availability of water resources. In Dharwar Division, the season may be divided into three *viz.*, the Rainy season, the Winter season and the Summer season while in the Raichur Division only two broad seasons are in vogue *viz.*, the Khari (Mungaru) and Rabi (Hingaru).

Principal
Soils of the
State.

85. The soils of Mysore State can be broadly classified into seven main groups as follows :—

(1) Trap soils, (2) Mixed red and black soils, (3) Deep black soils, (4) Red soils, (5) Red loams (6) Laterite soils, (7) Dark-brown clayey soil.

Land
Utilisation

86. The cultivated land forms 61·9 per cent of the total land of the State, out of this 7·9 per cent is fallow land. Out of the uncultivated land forest alone is 62·50 lakh acres or 13·8 per cent of the total land.

Agricultural
Holdings.

87. The land distribution of the State is similar to that of the country, consisting of "numerous small holdings, a large proportion of them being uneconomic, a small number of middle class peasants and sprinkling of substantial owners." According to the census of land-holdings conducted during 1955-56, there are 24·7 lakhs of holdings in the State comprising 267·8 lakhs of acres; 99·4 per cent of the holdings are below 100 acres, and these make up 8·98

per cent of the extent; 69.0 per cent; of the holdings are below 10 acres; 0.44 per cent of the holdings are in the size group of 100 to 200 acres, and comprise 5.36 per cent of the total area. Holdings above 200 acres comprise 4.84 per cent of the extent, though their number is only 0.12 per cent of the total number. The largest number of holdings is in the size groups of 2.5 to 5.0 acres. The average size of the holding is 10.8 acres for the New State as a whole; but the district average varies from 3.6 acres in North Kanara to 16.7 acres in Gulberga District.

88. The total area under important food and non-food crops in the New State during the year 1956-57 is estimated to be 22,742 thousand acres. The crops occupy an area of 16,590 thousand acres (or 73 per cent) and the non-food crops 6,152 thousand acres. Out of the total food crops, cereals alone occupy an area of 13,697 thousand acres (or 82 per cent of the area under food crop or 60 per cent of the total area under food and non-food crops), pulses occupy an area of 2,892 thousand acres. Under non-food crops oil seeds have an area of 2,497 thousand acres, plantation crops 352 thousand acres and other non-food crops 3,303 thousand acres.

Area Under
Food and
Non Food
Crops.

89. The total irrigated area in the New State is 1.63 million acres.

90. The area under Jowar during the year 1956-57 was about 65.6 lakhs of acres forming 2.6 per cent of the total cropped area and 38 per cent of the area under food crops in the State. Nearly 45.5 per cent of the total area under Jowar is in Bijapur and Gulberga Districts. The total estimated out-turn of Jowar in the State during the year was 8.9 lakhs of tons.

91. The area under Rice in the State during the year 1956-57 was 19.6 lakhs of acres which accounted for 11.3 per cent of the area under food crops. Nearly 30 per cent of the total area under Rice is in Shimoga and South Kanara Districts. The estimated out-turn of Rice during the year was 1,025 thousand tons.

92. The estimated area under Ragi which is the third important cereal crop in the State is 19 lakhs of acres. Nearly 74 per cent of the total area under Ragi is distributed in Bangalore, Kolar, Tumkur, Mysore and Hassan Districts. In Bombay and Hyderabad Karnatak, the area under Ragi

GENERAL

is negligible. The total production of Ragi during the year is estimated to be 7.4 lakhs of tons.

93. The estimated area under Cotton during the year 1956-57 was 24.03 lakhs of acres. Nearly 74 per cent of the total area under Cotton is in Dharwar, Bijapur and Raichur Districts. The estimated yield of Cotton during the year was 3.58 lakhs of bales.

**Agricultural
Research
Stations.**

94. In Mysore State, 29 Research Stations and Experimental Farms have been established. In addition to these farms, research is undertaken in the two Agricultural Colleges one in Bangalore and another at Dharwar. Research on plant breeding and agronomy in paddy and sugarcane is concentrated in Hiriyur, Mandya, Naganahally, Alnawar, Hospet and Mercara. Similarly, work on cotton is found mostly in the farms situated in the cotton belt, i.e., Raichur, Dharwar, Babbur and Mandya. Research work on Ragi, which is an important staple food in the southern districts of the State is concentrated in Research Stations at Mandya and Hebbal, Bangalore. Coffee (at Balehonnur), Areca (at Thirthahalli), Cashewnut (at Kotekar), Tobacco (at Nipani), are important crops on which research is being carried out since a number of years in the State.

CO-OPERATIVE SOCIETIES.

95. In the State there were 12,513 co-operative societies of different types on 30th June 1957 with a membership of 18,17,093. The total share capital was Rs. 6,00,48,802, and reserve funds 2,54,11,294, while the total working capital amounts to Rs. 39,42,83,127.

96. *Agricultural Credit*.—There is at the State level the State Co-operative Bank with a share capital of Rs. 13,90,822 on 30th June 1957 and total working capital of Rs. 1,87,28,851. All the 19 districts of the State have a District Central Co-operative Bank each. All these banks are affiliated to the State Co-operative Bank. There is also a Central Land Mortgage Bank at Bangalore with a share capital of Rs. 9,88,450 on 30th June 1957 and a working capital of Rs. 1,83,19,627. Besides, there are Primary Land Mortgage Banks in the State which borrow money from the Central Land Mortgage Bank, and lend it to their members. There are also Agricultural Credit and Multi-purpose Societies at the taluk and village level. Both the short term and

long term requirements of the members are being catered to by these societies. The Agricultural Societies generally cover a village while the Multi-purpose Societies cover an area of 8 to 10 miles radius. Besides, there are Rural Grain Banks and also Rural Banks as distinct from Agricultural Credit and Multi-purpose Societies.

97. There are agricultural credit, agricultural non-credit, non-agricultural credit, non-agricultural credit, non-agricultural non-credit co-operative societies and urban banks in the State. There are also house construction and house building societies.

98. There is a Central Rural Industrial Bank at Bangalore which advances loans to the primary societies of artisans for furthering their trade and also for agricultural production. In Bombay Karnatak Districts also, there are three District Industrial Banks.

99. There is one Silk Handloom Weavers' Society, one Central Handloom Society, one Central Co-operative Printing Society, about 100 Students' and Women's Co-operative Societies, 11 Sericultural Societies, and a number of Industrial Societies, Weavers' Co-operative Societies, Consumers' Societies, and Harijan Welfare Societies. There are Bee-Keepers' Societies, and a few Iron and Steel Industrial and Transport Service Co-operative Societies in the State.

100. The State Marketing Department was taking active part in marketing the agricultural produce through 49 Regulated Markets and 47 Sub-Markets spread throughout the New State in important places during the year. It also takes responsibility to keep out fraud in weights and measures. There are 31 Inspectors of Weights and Measures in the State to certify them. The daily market rates are published through the two radio stations in the State, one at Bangalore and other at Dharwar.

Regulated
Markets.

LIVESTOCK

101. According to 1956 livestock census, the total livestock in the State is 185.66 lakhs, out of which 40.59 lakhs (or 22 per cent) are sheep and 25.84 lakhs (or 13 per cent) are goats. The total poultry in the State was 67,845.

102. The most effective programme of work undertaken for cattle development is by means of Key Village Schemes. The main object of the Key Village Scheme was

GENERAL

to provide improved breeding bulls to the villages and to improve the cattle in selected areas. As a result of planned work undertaken in these Key Village Blocks, considerable progress has been achieved in the multiplication of good breeding bulls in the selected areas and much headway is made in upgrading the indigenous cattle.

**Criminal
Justice.**

103. Consequent on the Re-organisation of the States, the High Court of Mysore, which was functioning prior to 1st November 1956 (as a Part B State High Court) ceased to function and was abolished with effect from 1st November 1956 and the present High Court for the New State of Mysore was established from that date.

104. In connection with the implementation of the Scheme of Separation of the Judiciary from the Executive in the State, 10 posts of Civil Judges and District Magistrates were created during the year. A separate court of Civil Judge and District Magistrate was established at Bangalore and Mysore and the court of the Subordinate Judge, Shimoga and the courts of the Additional Subordinate Judge and I Class Magistrates at the other district head-quarters were replaced by the Courts of the Civil Judge and District Magistrates with effect from 1st June 1956.

105. The number of Judges and Magistrates exercising criminal jurisdiction at the end of the year was 53 in the Old Mysore Area, 10 in the Bellary District, 54 in the Bombay Area, 27 in the Hyderabad Area, 15 in the Madras Area and 5 in Coorg Area.

CIVIL JUSTICE.

106. The number of courts subordinate to the High Court on the civil side was 49 in the Old Mysore Area, 5 in the Bellary District, 55 in the Bombay Area, 27 in the Hyderabad Area, 13 in the Madras Area and 3 in the Coorg Area.

PRISONS.

107. The policy of the Prison Administration in Mysore State as elsewhere has been one of reformation and rehabilitation of the convicts rather than retribution. The Department is taking all possible steps to provide useful avocation to all prisoners, while in jail, so that they may earn their livelihood after release and thus become useful citizens leading a normal life in their respective communities.

108. Amnesty was granted to prisoners on account of the formation of the New State of Mysore on 1st November 1956 as a result of which 857 prisoners were released from custody and others got the benefit of remission of their sentences.

PORTS.

109. The New Mysore State has a coastline of about 200 miles as its western boundary, with two intermediate ports of Karwar and Mangalore at the northern and southern ends and 20 other minor ports lying in between the above two intermediate ports. With the exception of Mangalore, which is under the administrative control of the Mangalore Port Trust and handles a traffic of about 3,00,000 tons and derives a revenue of about Rs. 4,00,000 per annum, the rest of the ports are very small. No railway links to Karwar or to any of other ports except Mangalore exist.

110. The Government are very keen on developing the ports on the West Coast and arrangements are being made to develop Mangalore as an all-weather port at a cost of Rs. 2.05 crores. Schemes to the tune of Rs. 4,50,000 have been sanctioned for the development of minor ports. The development of Karwar and Honnavar ports would relieve the strain on the Railways and the congestion at the Bombay Port in regard to the export of manganese.

FISHERIES.

111. Twenty schemes at a total cost of Rs. 74.42 lakhs have been taken up for intensive development of fisheries in the State and a sum of Rs. 14.03 lakhs has been provided for expenditure during the current year 1957-58. During the year, eleven lakhs of fish fry have been imported from Calcutta and stocked in various sheets of water in the State. Preliminary survey for the establishment of fishing harbours has been undertaken and arrangements are being made to supply six mechanised boats to fishermen during the current year. Loans to the extent of Rs. 1,83,000 are being granted to fishermen through co-operatives and arrangements are being made to supply them with 1,00,000 maunds of salt for fish curing.

GENERAL**HOUSING.**

112. A sum of Rs. 40·84 lakhs was spent during the year by the several house-building agencies under the Low-income Group Housing Scheme and 80 houses have been completed while 555 houses are under construction by the Mysore Housing Board Co-operatives, Local Bodies and the City Improvement Trust Board. Under the subsidised industrial housing scheme, 435 houses have been completed and 353 houses are under construction. A sum of Rs. 11·31 lakhs has been spent under this scheme during the year.

LITERARY AND CULTURAL DEVELOPMENT.

113. The preliminary work regarding the compilation of the Kannada Encyclopædia has been in progress. The Editorial Board has been constituted by the Government with 30 scholars drawn from all parts of Karnataka. So far, about 1,25,000 topics have been listed. A sum of Rs. 35,700 has been spent for the encouragement of cultural activities in the State.

SOCIAL WELFARE.

114. The provision under the Second Five-Year Plan for the welfare of Scheduled Castes, Scheduled Tribes and Ex-criminal tribes has been enhanced to Rs. 296·4 lakhs excluding the scheme for the welfare of women in South Kanara. A sum of Rs. 22,18,841 was spent on various welfare schemes during the year. Another sum of Rs. 3,84,000 lakhs was spent for starting agricultural colonies for Scheduled Castes and Scheduled Tribes in Chitaldrug, Mandya, Hassan, Tumkur, Chickmagalur, Mysore and Bellary Districts under centrally sponsored schemes.

REVENUE AND FINANCE.

115. The Receipts and Expenditure for the year 1956-57 were as follows :—

.....	Budget Estimate	First seven months.	Last five months.
	(in thousands of rupees omitting 000).		
Total Actual Receipts ...	1,49,05,49	1,06,31,77	1,84,89,55
Grand total including Opening Balance ...	1,52,79,94	1,08,97,24	1,87,19,45
Total Disbursements ...	1,45,25,49	1,07,12,53	1,86,15,11
Cash Balance at the close of the year ...	7,54,45	1,84,71	1,04,84
Grand Total including Closing Balance ...	1,52,79,94	1,08,97,24	1,87,19,45

SALES-TAX.

116. A uniform Sales Tax Act for the whole of the New Mysore State was introduced with effect from 1st October 1956. The total revenue expected to be realised under the general sales tax head under the new Act roughly amounts to Rs. 6 crores per annum as against the original sum of Rs. 3·25 crores under the head. The total revenue expected from the motor spirit tax under the new Act is about Rs. 75 lakhs per annum.

117. Several other Acts like the Agricultural Income-tax Act, Sugarcane Cess Act, Prize Competitions Act, Cinema Shows Tax Act, Race Course Licensing and Betting Tax Act are also in force, all of which go a long way in increasing the revenues of the New State.

MYSORE STATE BUDGET 1957-58.

118. The Government of Mysore in the year 1957-58 is expected to collect a sum of Rs. 5092·52 lakhs by way of Revenue (gross) and to spend Rs. 6028·51 lakhs. Thus on the Revenue Account there is a deficit of Rs. 935·99 lakhs.

119. The following table gives the estimates of revenue and expenditure for the year 1957-58.

			(Rupees in lakhs).
I. Revenue Account—			
(i) Tax Revenue	2031·91	
(ii) Non-Tax Revenue	3060·61	
Total Revenue Receipts	...	5092·52	
II. Revenue Expenditure—			
(i) Development	4310·07	
(ii) Non-Development...	...	1718·44	
Total Revenue Expenditure	...	6028·51	
Excess of Revenue Expenditure over Total Revenue Receipt...		935·99	

SECOND FIVE-YEAR PLAN (1956-61).

120. The total outlay of New Mysore State under Second Five-Year Plan is Rs. 145·13 crores. Out of this, Rs. 60·28 crores amounting to 41·5 per cent has been allocated to the expenditure under Major Irrigation and

GENERAL

Power, 20·5 per cent of the total expenditure has been allocated for Agriculture and Rural Development. The expenditure pertaining to Transport and Communications is 6·3 per cent, Public Health 9·6 per cent, Education 7·9 per cent, Housing 2·9 per cent and Miscellaneous 3·2 per cent. The outlay for 1956-57 for the State was estimated at Rs. 27·2 crores. For 1957-58, the outlay is Rs. 28·2 crores.

Tours and Engagements of the Governor of Mysore.

121. As a result of the Re-organisation of States, His Highness the Maharaja Sri Jaya Chamaraja Wadiyar was appointed as Governor of the enlarged State of Mysore with effect from 1st November 1956.

122. During the year, His Highness the Maharaja attended and presided over a number of important public functions in the State.

123. His Highness presided over the Special Convocation at Crawford Hall, Mysore, on 27th May 1956, to confer the Doctorate of Science on Prof. M. S. Thacker and Doctorate of letters on Prof. K. V. Puttappa.

124. His Highness participated in the celebrations connected with the Inauguration of the New State of Mysore at Bangalore on 1st November 1956.

125. His Highness presided over the Convocation of the Karnatak University at Dharwar, on 3rd December 1956. On 15th of the same month, His Highness gave a State Dinner in honour of His Holiness the Dalai Lama and His Holiness the Panchen Lama of Tibet at Lalitha Mahal, Mysore. On 19th December 1957, His Highness addressed the Joint Session of the Mysore Legislative Council and the Mysore Legislative Assembly at Bangalore.

126. His Highness took the salute on the occasion of the Ceremonial Parade at Bangalore in connection with the Republic Day Celebrations.

127. His Highness presided at the Inaugural Ceremony of the Madras University Centenary Celebrations, on 28th January 1957. On 29th of the same month, His Highness unveiled the portrait of Dr. Sir A. Lakshmanaswamy Mudaliar, Vice-Chancellor, University of Madras at the Madras University Senate Hall, Madras.

128. On 9th March 1957, His Highness gave a Dinner at Government House to meet His Highness Shaik Ali Bin Abdulla Al Sani, K. B. Ey, Ruler of Qatar. On 18th March, His Highness addressed the Joint Session of the Legislature at Bangalore.

129. His Highness inaugurated the Expansion Project of the Government Soap Factory, Bangalore, on 25th March 1957.

130. His Highness's visit outside the State included Karaikudi, Coonoor, Madras, Calcutta, Banaras, Allahabad, Bombay and Tekkadi in Kerala State.

131. Important Distinguished Persons and Delegates visited the State—

(1) Mr. and Mrs. Mac Donald, High Commissioner, U. K.; (2) Mr. Walter P. Reuther, Vice-President of American Federation of Labour and Congress Industrial Organisation with 6 members; (3) Mr. F. C. Mann, Adviser to Export Credit Guarantee Committee; (4) Rt. Hon'ble John Strachy; (5) Prof. and Mrs. J. K. Galbraith; (6) Sri M. C. Setalvad, Chairman, Law Commission; (7) International Bank Mission, party of 8 members; (8) Dr. Radhakumund Muckerji; (9) Sri Goubert, Chief Councillor of Pondicherry; (10) Dr. John C. Hume, Health Division T. C. M. American Embassy; (11) Sri Dhebar, President, A.I.C.C.; (12) Sri Madhava Nair, Secretary, A.I.C.C.; (13) Ethiopian Delegation of Exports of Commerce and Industries; (14) Sri S. V. CONCLUSION.

133. Thus, blessed with many natural resources and with a planned programme and progressive outlook, Mysore State has been able to embark on bold enterprises contributing to the well being and prosperity of the people.

CHAPTER II—LAW, ORDER AND
JUSTICE.

(i) Legislative Enactments.

1. *The Mysore (Personal and Miscellaneous) Inams Abolition (Amendment) Act, 1956* (7 of 1956).—This Act amends the principal Act I of 1955 by conferring hereditary rights of tenancy on tenants-at-will and prescribing the rent payable by such tenants.

2. *The Bangalore Road Transport Service Act, 1956* (8 of 1956).—This Act provides for the acquisition of the undertakings belonging to the Bangalore Transport Company, Ltd., and for authorising the State Government to run and operate the Bangalore Road Transport Service to the exclusion of all others.

3. *The Mysore Legislature Salaries (Amendment) Act, 1956* (9 of 1956).—This Act amends the principal Act XX of 1952 by enhancing the Sumptuary allowance payable to the Chairman, Mysore Legislative Council, from Rs. 1,000 to Rs. 2,000 and for providing free furnished accommodation to the Speaker and the Chairman.

4. *The Mysore City and Town Municipalities (Amendment) Act, 1956* (10 of 1956).—This Act confers power for extending the period of appointment of Special Officers (appointed under the Mysore City and Town Municipalities (Amendment) Act, 1955) up to two years and for certain other consequential changes.

5. *The Mysore Stamp (Amendment) Act, 1956* (11 of 1956).—This Act amends the principal Act II of 1900 for making consequential changes in certain sections of the principal Act due to the enhancement of rates of stamp duty in respect of certain instruments by the passing of the Mysore Stamp (Amendment) Act, 1954 (2 of 1954).

6. *The State Aid to Industries (Amendment) Act, 1956* (12 of 1956).—This Act amends the principal Act XX of 1951 for liberalising the grant of industrial loans by enhancing the maximum limit as provided in section 9 of the principal Act from fifty per cent to seventy-five per cent.

7. *The Mysore Traffic Control Act, 1956* (13 of 1956).—This Act seeks to provide for the control of traffic

in public places in the State of Mysore and for this purpose vests power in the Government to frame necessary rules.

8. *The Mysore Appropriation (No. 3) Act, 1956 (14 of 1956).*—This Act authorises the payment and appropriation, from and out of the Consolidated Fund of the State, of moneys required to meet expenditure on administration, ending on 31st March 1957.

9. *The Mysore Appropriation (No. 4) Act, 1956 (15 of 1956).*—This Act authorises the appropriation of moneys out of the Consolidated Fund of the State to meet the amount spent on certain services during the financial year ended on 31st March 1952, in excess of the amounts authorised or granted for the said services.

10. *The Mysore Appropriation (No. 5) Act, 1956 (16 of 1956).*—This Act authorises the appropriation of moneys out of the Consolidated Fund of the State to meet the amount spent on certain services during the financial year ended on 31st March 1953, in excess of the amounts authorised or granted for the said services.

11. *The Mysore Appropriation (No. 6) Act, 1956 (17 of 1956).*—This Act authorises the appropriation of moneys out of the Consolidated Fund of the State to meet the amount spent on certain services during the financial year ended on 31st March 1954, in excess of the amounts authorised or granted for the said services.

12. *The Mysore Legislature (Prevention of Disqualification) Act, 1956 (18 of 1956).*—This Act removes the existing disqualification in respect of holders of office of profit under an insurer the management of whose controlled business has vested in the Central Government, from being members of State Legislature.

13. *The Mysore City and Town Municipalities (Second Amendment) Act, 1956 (19 of 1956).*—This Act provides for creation of plural member constituencies for the election to the City and Town Municipal Councils.

14. *The Mysore Registrar-General of Births, Deaths and Marriages Act, 1956 (20 of 1956).*—This Act provides for the appointment of a Registrar-General of Births, Deaths and Marriages in Mysore, and for matters connected therewith.

15. *The Mysore House Rent and Accommodation Control (Amendment) Act, 1956* (21 of 1956).—This Act extends the duration of the principal Act XXX of 1951 till the first day of January 1959.

16. *The Kolar Gold Mining Undertakings (Acquisition) Act, 1956* (22 of 1956).—This Act provides for the acquisition of the Kolar Gold Mining Undertakings for the purpose of enabling the State to carry on in the interests of the general public the business of gold mining.

17. *The Mysore University Act, 1956* (23 of 1956).—This Act provides for the reorganisation of the University of Mysore and for other incidental matters. It repeals the Mysore University Act, 1933 (III of 1933).

18. *The City of Bangalore Municipal Corporation (Amendment) Act, 1956* (1 of 1957).—This Act amends the principal Act LXIX of 1949 for enabling the State Government to extend the term of office of Councillors and Aldermen of the Corporation by one year from 1st January 1957.

19. *The Mysore Legislature Salaries Act, 1956* (2 of 1957).—This Act provides for the payment of the salaries and allowances of the Chairman, the Deputy Chairman, the Speaker, and the Deputy Speaker and members of the Legislative Assembly and the Legislative Council.

20. *The Mysore Legislature (Prohibition of Simultaneous Membership) Act, 1956* (3 of 1957).—This Act provides for the vacation by a person who is chosen as a member of both houses of the Legislature of the State of Mysore of his seat in one House or the other.

21. *The Mysore Legislature (Prevention of Disqualification) Act, 1956* (4 of 1957).—This Act declares certain offices of profit not to disqualify their holders from being chosen as, or from being members of the Mysore Legislature. The offices of profit in respect of which disqualifications removed are, the office of a Deputy Minister, a Parliamentary Secretary, a Chief Whip, Chairman and members of a Committee, etc.

22. *The Mysore Ministers Salaries and Allowances Act, 1956* (5 of 1957).—This Act provides for the payment of salaries and allowances of the Ministers of the State of Mysore and for certain other matters.

23. *The Mysore Appropriation Act, 1956* (6 of 1957).—This Act authorises payment and appropriation of certain sums from and out of the Consolidated Fund of the State for the service of the period commencing from 1st November 1956 and ending on the 31st March 1957.

24. *The Mysore Khadi and Village Industries Act, 1956* (7 of 1957).—This Act provides for the organising, developing and regulating of Khadi and Village Industries in the State of Mysore and to constitute a Board to carry out the said object.

25. *The Hyderabad Agricultural Debtors Relief (Mysore Amendment) Act, 1956* (8 of 1957).—This Act amends section 4 of the Hyderabad Agricultural Debtors Relief Act, 1956 (Hyderabad Act XVI of 1956), as in force in the Hyderabad Area, by removing the then existing limit of three months as provided in that section and vesting power in the Government to fix the period of time by the issue of a notification in this behalf.

(ii) Rules and Notifications' under Enactments in force in Mysore during the year 1956-57.

1. Notifies the issue of directions by the Governor of Mysore that all assurances of property made in the exercise of the executive power of the State of Mysore shall be executed on his behalf by the Chief Secretary to the Government or any Secretary to the Government of Mysore in the Department relating to the subject matter of the said contracts and assurances of property.

(No. H. E. 18-3 MVF 57, dated 27th March 1957)

49. In exercise of the powers conferred by clause (e) of sub-section (1) of Section 2 of the Hyderabad Motor Vehicles Taxation Act, 1955 (Hyderabad Act VI of 1955), as in force in the Hyderabad Area and in supersession of Hyderabad Government Notification No. Pol. B. DT. 3-51 (1) dated the 19th May 1955, Government appoints with effect from the 1st April 1957, the Regional Transport Officer, Gulbarga Region, to exercise the powers and perform the functions of a taxation authority under the said Act.

(No. H. D. 18-2 MVF 57, dated 27th March 1957.)

50. In exercise of the powers conferred by Section 26 of the Mysore Motor Vehicles Taxation and Tolls Act, 1951 (Mysore Act XII of 1951) as in force in the Mysore

Area, Government make the following amendments to the Mysore Motor Vehicles Taxation and Tolls Rules, 1956.

**LAW,
ORDER
AND
JUSTICE**
—

In the said rules—

1. Rule 3 shall be omitted.
2. In Rule 8 for the word "District" the word "Region" shall be substituted.
3. In Rule 26, the words "to the Additional District Magistrate of the district within whose jurisdiction the permit was granted in the case of public service vehicles and goods vehicles and in other cases" shall be omitted.
4. In Rule 27, the words "the Additional District Magistrate or" shall be omitted.

These amendments shall come into force on the 1st day of April 1957.

(No. H.D. 18-1 MVF 57, dated Bangalore the 27th March 1957)

(iii) Police.

(Calendar year 1956.)

134. With the Re-organisation of the States, the entire New Mysore State was divided into two Ranges for purposes of Police administration. The headquarters of the Northern Range was located at Belgaum, whereas that of the Southern Range at Mysore.

135. The Police Recruits School at Bidar of former Hyderabad State was transferred to the New Mysore State as the result of the States Re-organisation.

136. There were 12,011 officers and men in the erst-while Mysore State. An additional force of 10,726 officers and men has been received consequent on the Re-organisation of States.

137. Police Force.—The sanctioned strength of the permanent Police Force of the New Mysore State as on 31st December 1956 was 4,442 officers and 18,295 constables as against the strength of 2,112 officers and 9,899 constables in the Old Mysore State as on 31st December 1955.

Strength of
Police Force.

138. In addition to the permanent staff, a temporary staff of 347 officers and 1,105 constables were employed during the year.

**LAW,
ORDER
AND
JUSTICE**

139. The permanent strength of the Armed Police Force including Mysore Palace Guards was 5,386 as against 2,994 in the Old Mysore State.

Armed Police Force.

140. Radio Stations are located at all the District Headquarters of erstwhile Mysore State and also of the integrated districts. The sanctioned strength of the Police Radio Grid was 240.

Radio Grid.

There were 22 Units of Station Vigilance Committees in the Coorg District and they functioned satisfactorily. Home Guards were functioning in the Districts of Dharwar and Belgaum.

Station
Vigilance
Committees

154. The cost of the Police Force in the erstwhile Mysore State under all heads was Rs. 1,21,11,680 during the financial year 1955-56 as against Rs. 1,16,47,324 in the previous year.

Cost of the
Force.

155. Crime :—The total number of offences registered under Classes I to V under the category of True Cognizable Crimes in the districts of erstwhile Mysore State during the year 1956 was 13,075 (12,487).

True Cogni-
able Crime.

**LAW.
ORDER
AND
JUSTICE**

156. The total number of offences registered in the integrated districts for the months of November and December 1956 was 1,742.

157. The number of grave crimes reported during the calendar year 1956 in the districts of erstwhile Mysore State and the integrated districts was 10,338.

158. The following table shows the incidence of grave crimes reported during the year :—

Year			Murder	Dacoity	Robbery	House Breaking and Theft	Theft		Total
							Cattle	Ordinary	
1955	185	20	85	2,385	603	5,429	8,707
1956	152	10	80	2,300	586	6,125	9,253
Integrated Districts for Nov. and Dec. 1956.			65	14	38	408	45	515	1,085
Total for 1956			217	24	118	2,708	631	6,640	10,338

159. The percentage of detection of cognizable crimes in 1956 in the erstwhile Mysore State was 43·3 (42·05) per cent. The percentage in the integrated districts for November and December 1956 was 27·7.

160. The percentage of convictions to cases investigated was 39·8 during the year 1956 (35·6) in the erstwhile Mysore State. The percentage in the integrated districts for November and December 1956 was 15·9.

161. In the districts of erstwhile Mysore State, properties worth Rs. 13,39,314 were lost and properties worth Rs. 5,61,150 were recovered during the year. In the integrated districts properties worth Rs. 3,53,075 were lost and properties worth Rs. 54,560 were recovered.

162. The percentage of recovery of property during the year 1956 was 41·8 (41·55) in the districts of erstwhile Mysore State. The percentage of recovery of property for November and December 1956 in the integrated districts was 15·4.

163. The murder cases classified according to motive were :—

...	Erstwhile Mysore State		Integrated Districts for Nov. and Dec. 1956
	1955	1956	
1. Sexual Jealousy ...	44	27	20
2. Family Disputes ...	43	22	8
3. Faction or Fueds ...	20	23	3
4. Murder for gain ...	15	8	5
5. Other causes ...	63	72	25
Total ...	185	152	65

164. The highest number of cases of murder was 18 from Kolar District and lowest was 14 from Bangalore District whereas that of integrated districts the highest was 16 from Belgaum District and lowest was seven from Raichur District,

165. Five cases of infanticide from the erstwhile Mysore State (all from Bangalore North) and four from the integrated districts for November and December 1956 were reported during 1956. Infanticide.

166. (1) *C. I. D. Criminals*.—There were 210 C.I.D. criminals at the close of the year. Of the 210 C.I.D. criminals, 68 were present, 58 were in jail, and 84 were out of view. Habitual Criminals.

(2) *Foreign Criminals*.—There were 261 foreign criminals at the close of the year.

(3) *Habitual Offenders*.—There were 372 habitual offenders at the close of the year. The provisions of the Habitual Offenders Act were being effectively enforced.

167. There were 82,090 finger print slips on record at the close of the year (including slips from the merged districts of New Mysore). Finger Print Bureau.

LAW,
ORDER
AND
JUSTICE

13 Infant Marriage Act.
14 Coffee Stealing Act

Prohibition.

169. The Prohibition Scheme continued to be in force in six districts of Kolar, Shimoga, Tumkur, Chitradurga, Chikmagalur and Bellary and two taluks of Bangalore District (Channapatna and Ramanagaram) and four taluks of Hassan District (Belur, Saklespur, Alur and Arkalgud) of erstwhile Mysore State.

170. With the States Re-organisation, the administration of the Madras Prohibition Act, 1937 in the integrated areas of South Kanara and Kollegal and the Coorg Act in Coorg District was entrusted to the Inspector General of Police, while the administration of the Bombay Prohibition Act of 1949 was entrusted to the Commissioner of Excise and Commercial Taxes in Mysore.

171. In the integrated areas of Bombay, Madras and Coorg, the enforcement of the Prohibition Act was entrusted to the Police as part of their regular work.

172. No permits were issued for tapping toddy from the date-palm and cocoanut trees in dry districts for use

in wet districts during the year. In the integrated districts of Madras, Bombay and Coorg, the toddy tapping from the palm trees and sale of neera was, allowed under special licenses issued for the purpose.

173. In the districts of erstwhile Mysore State, 130 liquor permits were issued during the year for personal consumption of individuals in dry districts and also for addicts of wet areas for touring in dry areas. No liquor permits were issued in respect of Coorg and South Kanara Districts during the two months of November and December 1956.

174. The following were the number of cases under prohibition :—

		1955	1956
1. Illicit distillation	...	2,822	2,614
2. Smuggling	...	7,031	9,438
3. Drunkenness	...	9,810	14,569
Total	...	19,663	26,621
Erstwhile Mysore State	...	23,414 cases.	
Integrated districts	...	3,207 cases.	
Total	...	26,621	

175. The total fine levied during the year 1956 including the integrated areas was Rs. 5,35,334-50 of which Rs. 4,67,712 has been recovered. During the previous year 1955, a sum of Rs. 2,71,447-50 was levied as fine and a sum of Rs. 2,35,184 was recovered in respect of the erstwhile Mysore State.

176. The following statement shows the accidents caused by various types of vehicles during the year 1956 :—

Type of vehicle	1955	1956 (including the integrated areas)
1. Motor cars	307	461
2. Buses	208	390
3. Lorries	279	536
4. Motor cycles	62	148
5. Auto-rickshaws	4	190
6. Jeeps	15	84
7. Taxies	44	78
8. Other class of vehicles	32	92
Total	951	1,979

LAW,
ORDER
AND
JUSTICE

177. One hundred and ninety-nine persons were killed in accidents during 1956.

178. Under the Mysore Vehicles Act, 25,385 cases were convicted out of 26,944 cases reported from erstwhile Mysore State, while 376 were convicted out of 481 cases in the integrated districts.

Unnatural
Deaths.

179. The Statement of unnatural deaths reported were:—

Cases	Erstwhile Mysore State	
	1955	1956
1. Accidental Drowning ...	1,356	1,282
2. Suicidal drowning ...	443	425
3. Suicidal hanging ...	297	314
4. Poisoning ...	7	31
5. Motor accidents ...	39	33
6. Fall from heights ...	161	161
7. Railway accidents ...	43	3
8. Electric shock ...	40	27

10. Snake bite ...	59	43
11. Burns ...	100	145
12. Wild beasts ...	13	9
13. Mining ...	21	20
14. Crushed from weight ...	6	6
15. Gunshot accidents ...	4	1
16. Other causes ...	506	673
Total ...	3,100	3,192

180. Three hundred and twenty-five cases of unnatural deaths were reported from the integrated districts for November and December 1956.

Cinematograph Act.

181. The films certified by the Central Board of Film Censors and Regional Boards at Bombay, Madras and Calcutta were continued to be exhibited in the cinema houses in the State. The total number of cinema houses in the districts of erstwhile Mysore State at the close of the year 1956 was 138. There were 119 touring talkies in the erstwhile Mysore State.

182. One thousand four hundred and sixty cases were put up during the year for smoking in the auditorium of cinema houses.

183. The relation between the police and the public continued to be cordial. The members of Station Vigilance Committees, Village Defence Organisations and the Home Guards and many private persons assisted the police in the prevention and detection of crimes and maintenance of Law and Order.

184. Satisfactory bandobust and security arrangements were made during the visit of the President of India, the Ministers of Government of India and other important personages including high dignitaries from foreign countries.

185. The Law and Order situation in the State was satisfactory. There were few minor disturbances and strikes which were brought under control peacefully.

(iv) Prisons.

(Calendar Year 1956)

186. The policy of the Prison Administration in Mysore State as elsewhere, has been one of reformation and rehabilitation of the convicts rather than retribution. The Department is taking all possible steps to provide useful avocation to all prisoners while in jail, so that they may earn their livelihood after release and thus become useful citizens leading a normal life in their respective communities.

187. Amnesty was granted to prisoners on account of the formation of the New State of Mysore on 1st November 1956, as a result of which 857 prisoners were released from custody and others got the benefit of remission of their sentences.

188. There were six Central Jails at the headquarter towns of Bangalore, Bellary, Alipuram, Belgaum, Gulbarga and Mercara and four District Jails at Mysore, Bijapur, Raichur and Bidar during the year.

189. The Junior Certified School, Bellary and the Certified School at Hubli were also under the control of the Department.

190. At the beginning of the year, there were 6,719 prisoners of all classes. Thirty-one thousand three hundred and sixty-three prisoners were newly admitted, 31,965 were discharged from all causes and 6,317 remained at the close of the year. The daily average number of all classes of prisoners was 7,237.17 as against 3,251.24 in the Old Mysore State for the year 1955.

**LAW,
ORDER
AND
JUSTICE****Age and
Literacy of
Prisoners**

191. Out of 18,045 convicts directly admitted into the jails, 17,381 were men and 604 women.

192. The number of convicts under 15 years of age was 364, between 16 and 40 was 11,826, between 40 and 60 was 5,337 and above 60 was 518. The number of literate and illiterate convicts was 2,789 and 15,056 respectively.

**Occupation of
Prisoners**

193. Out of 17,381 male convicts directly admitted, 179 were Government or municipal servants, 426 were professional persons, 438 were in personal service, 6,658 were agriculturists, 493 were engaged in commerce and trade, 444 were employed in arts and crafts and 8,743 in other miscellaneous occupations.

194. Out of 664 women convicts, 437 were married, 68 were unmarried and 159 were widows.

195. The number of prisoners escaped from the prison institutions during the year was 12 of which six were apprehended and six remained still at large at the close of the year.

196. A total expenditure of Rs. 13,43,596 (Rs. 11,45,152) for guarding and maintaining prisoners was incurred during the year. The average cost per head for the year for the maintenance of prisoners was Rs. 185-66 (Rs. 352-57).

197. The total value of the articles manufactured in the jails was Rs. 4,07,240 (Rs. 3,04,017) during the year.

**Sub-Jails and
Lockups**

198. There were two special Sub-Jails at Mangalore and Karwar in addition to the seven District Lockups at Kolar, Tumkur, Mandya, Hassan, Chickmagalore, Shimoga and Chitradurga Districts. There were two Special Lockups at Kolar Gold Fields and Davangere respectively. The total number of sub-jails and taluk lockups in the enlarged Mysore State aggregated to ninety-one in addition to two Borstal Schools at Dharwar and Alipuram, Bellary.

199. At the beginning of the year, there remained in the Sub-Jails and Lockups 938 prisoners of all classes, 13,835 were newly admitted, 12,342 were discharged from all causes and 1,431 remained at the close of the year.

200. The gross expenditure in the Sub-jails and Lockups for the year was Rs. 2,49,467-26 (Rs. 2,22,464-61). The average cost per head for the year for the maintenance of prisoners was Rs. 252-75 (Rs. 503-31) during the year.

201. The two Adult Schools, Kannada and Urdu, continued in the Central Jail, Bangalore, in addition to the Borstal Schools and Certified Schools. The religious teachers of the jails at Bangalore and Mysore continued to visit the respective jails regularly once a week to impart religious and moral instructions to prisoners.

202. The health, discipline and conduct of prisoners during the year were satisfactory.

(v) Civil Justice

203. *High Court.*—The present High Court for the New State of Mysore (which was functioning prior to Re-organisation as a Part 'B' State High Court) was established from 1st November 1956.

204. The total receipts and charges of the High Court for the year were Rs. 2,04,222-12 (Rs. 1,97,488-25) and Rs. 4,77,289-19 (Rs. 2,98,501-25) respectively.

205. There was no change in the jurisdiction till 1st November 1956. Subsequently, the High Court for the New State was exercising the same Appellate and other jurisdictions in respect of the territories included in the New State as was being exercised by the High Court of the former State of Mysore.

206. The number of Regular Appeals instituted during the year was 183 (210). Out of 1,507 appeals for disposal (including 600 regular appeals received by transfer from the High Courts of Bombay, Madras and Hyderabad under Section 62 of the States Re-organisation Act), 267 (620) appeals of the aggregate value of Rs. 12,68,526-80 (Rs. 16,70,417-51) were disposed of.

207. The average duration of 267 appeals disposed of during the year was 917.5 (800.3) days.

208. The number of Second Appeals filed during the year was 710 (560). Out of 2,876 (1,582) appeals for disposal during the year including 885 appeals received by transfer under Section 62 of the S.R. Act, 312 (301) appeals were disposed of.

209. The average duration of 312 Second Appeals disposed of during the year was 473.1 (403.9) days.

210. Out of 241 (137) appeals (49 pending; 110 instituted; 82 received by transfer) for disposal during the year, 63 (88) appeals were disposed of.

**LAW,
ORDER
AND
JUSTICE**

Civil Revision
Petitions
Writ
Petitions

211. Out of 1,929 (1,198) Civil Revision petitions (761 pending at the beginning of the year; 905 filed during the year; 263 received by transfer) for disposal during the year, 403 (437) were disposed of.

212. Besides bestowing special attention to the disposal of long appeals especially those relating to the years 1951-52 and previous, preference was also given to the prompt disposal of writ petitions and a large number, viz., 258 (169) of writ petitions out of 536 (388) petitions including 64 received by transfer was disposed of. On the whole, the outturn of work during the year was more or less equal to that in the previous year (1,617 against 1,755) and much more than in the year 1954-55 (1,617 against 1,429.)

213. *Courts Subordinate to the High Court.*—As the practice and procedure in the different areas of the State are varied, the details regarding each area are as follows:—

OLD MYSORE STATE

Number of
Courts

(1) The number of courts in the area subordinate to the High Court was 49 (50).

(2) In connection with the implementation of the Scheme of separation of the Judiciary from the Executive in the State, 10 posts of Civil Judges and District Magistrates were created. A separate Court of Civil Judge and District Magistrate was established at Bangalore and Mysore and the Court of the Subordinate Judge, Shimoga and the Courts of the Additional Subordinate Judge and First Class Magistrate at the other district headquarters were replaced by the Courts of the Civil Judge and District Magistrates, with effect from 1st June 1956.

(3) By an amendment to the Mysore Civil Courts Act, 1883, the jurisdiction of the Civil Judge was extended to all original suits and proceedings of a civil nature of which the amount or the value of the subject matter does not exceed Rs. 20,000 and he was empowered to entertain and dispose of appeals from decrees and orders of a Munsiff in original suits and proceedings.

(4) It was observed that owing to the alteration in the pecuniary jurisdiction of the Civil Courts in Bangalore in accordance with the amendments to the Mysore Civil

Courts Act, 1883, the work in the Court of the Subordinate Judge, Bangalore, decreased while the work of the Court of the Civil Judge, Bangalore increased considerably. Consequently, on the recommendation of the High Court, the post of the Additional Subordinate Judge, Bangalore, was converted into that of Additional Civil Judge, Bangalore, with effect from 22nd October 1956, with power to try such cases as may be transferred to his file by the High Court or by the District Judge, Bangalore Division, under the directions of the High Court.

(5) While sanctioning the redistribution of the jurisdictions of the Courts as recommended by the High Court, the Government abolished the Court of the Munsiff-Magistrate, Krishnarajanagar with effect from 1st July 1956.

(6) The total receipts and charges of the courts in the area subordinate to High Court were Rs. 17,67,486.93 (Rs. 19,58,573.32) and Rs. 18,91,994.50 (Rs. 16,15,522.14) respectively.

Receipts and
Charges

(7) Out of 18,793 (19,265) original suits and 9,658 (9,662) small cause suits instituted during the year, 18,427 (20,820) original suits and 9,558 (9,775) small cause suits were disposed of.

Institution
and Disposal
of Suits.

(8) The total pendency of year-old original suits was 947 (918). Of these, 229 suits were pending for reasons beyond the control of the Judges.

(9) The number of suits (original and small cause) pending at the end of the year was 11,002 (11,207).

(10) The average duration of contested suits was 302.4 (316.8) days and of uncontested suits 73 (66.7) days. The average duration of contested original suits was 340.3 (346.3) days and of small cause suits 171.8 (180.4) days.

(11) Out of 9,114 Miscellaneous cases (cases pending : 2,794, cases filed : 6,320), 6,025 (6,130) cases were disposed of during the year.

Miscellaneous
Cases.

(12) Out of 33,530 (35,636) execution applications filed during the year, 33,202 (35,375) cases were disposed of. Of these, 642 (733) cases were pending for over one year. Of the execution cases disposed of, 52.1 (52.3) per cent were infructuous. The total amount realised in the execution of decrees was Rs. 34,84,129.96 (Rs. 39,11,243.24).

Execution of
Decrees.

JUSTICE****Insolvency
Applications.**

(13) Out of a total number of 288 (270) Insolvency applications for disposal during the year, 188 (150) were disposed of. In 60 cases receivers were appointed. The amount realised out of the Insolvents, assets was Rs. 7,072-48 (Rs. 23,371-56).

**Appellate
Work.**

(14) Out of 5,167 (4,809) Regular Appeals for disposal during the year, 1,616 (1,747) were disposed of and 1,276 (943) were transferred to other courts for disposal. The average duration of appeals disposed of was 201·4 (297·5) days.

**Miscellaneous
Appeals.**

(15) Out of 556 (572) Miscellaneous Appeals for disposal during the year, 415 (375) were disposed of. The average duration of appeals disposed of was 140·6 (188·5) days.

INTEGRATED AREAS.

(16) The reports of Bellary District, Bombay, Hyderabad, Madras and Coorg areas are given below in tabular form :—

...	Bellary District	Bombay	Hydera- bad	Madras	Coorg
(From 1st November 1956 to 31st March 1957)					
1. Number of Courts.—					
The number of officers exercising appellate or original jurisdiction at the end of the year ..	5	55	27	13	3
2. Receipts and Charges —	Rs.	Rs.	Rs.	Rs.	Rs.
The total receipts of the courts were	1,37,058	92,214	53,159	2,16,274	531
The total charges amounted to ..	1,19,709	5,56,999	1,29,308	1,37,447	26,071
3. Institutions and Disposals.—					
The total pendency of all classes of cases at the beginning of the year...	No. 2,585	No. 13,541	No. 3,432	No. 9,322	No. 1,236
Total cases filed during the year ...	10,395	4,807	3,014	16,105	1,715
Total number of cases for disposal .	12,880	18,348	6,446	25,427	2,951
Cases disposed of ...	9,916	4,881	3,165	18,997	1,499
The total number of year old cases ..	191	11,245	853	621	273

**Total Receipts
and Charges
of the Civil
Courts.
(including the
High Court)**

214. The total receipts and charges of the Civil Courts (including the High Court) during the year were :—

Year	Receipts	Charges	Savings	Loss
	Rs.	Rs.	Rs.	Rs.
1955-56 ...	21,56,061-57	19,14,023-39	2,42,038-18	...
1956-57 ...	*24,70,945-57	*33,38,811-04	...	*8,67,865-47

*Includes figures relating to the integrated areas.

215. The contribution to the loss of Rs. 8,67,865-47 from the Bombay area was Rs. 4,64,785-12. Hyderabad area and Coorg contributed Rs. 76,143-27 and Rs. 25,539-18 respectively during the period from 1st November 1956 to the end of 31st March 1957.

216. The number of Advocates enrolled during the year was 129 (250) bringing the total number on the roll at the end of the year to 1,830 (1,701) of whom 191 were from outside Mysore State.

217. The total number of Pleaders on the last day of the year was 1,360 (1,212); the number newly enrolled was 148 (29) and 66 (13) Pleaders were enrolled as Advocates.

218. The law applicable to Pleaders is different in the several integrated areas of the State. For the present, enrolments of Pleaders in the several integrated areas were being governed by the provisions of the Acts and Rules of the respective States.

**LAW,
ORDER
AND
JUSTICE**

222. The average duration of the 99 Criminal appeals involving 146 persons disposed of during the year was 225.5 (331.6) days. Out of the appeals disposed of, in 52 appeals involving 61 persons the convictions and sentences were confirmed, in 16 involving 17 persons the sentences were reduced, or altered, in 29 involving 66 persons the sentences were reversed and in two involving two persons new trial or further enquiry were ordered.

223. In 12 out of the 14 appeals disposed of against the orders of acquittal, the orders of the lower courts were upheld, in two new trial or further enquiry were ordered.

224. The number of copies of judgments and orders of the lower courts received in the High Court during the year was 900 (1,052) and they were scrutinised and action taken when necessary.

COURTS SUBORDINATE TO THE HIGH COURT.

225. The number of Judges and Magistrates exercising original jurisdiction at the end of the year in the Old Mysore State was 53 (60).

Seven Sessions Judges (including the Additional Sessions Judges, Bangalore and Mysore).

Two Additional Sessions Judges.

Nine District Magistrates.

Twenty-five Special Magistrates and

Ten Munsiff-Magistrates.

226. The number of Criminal Courts in the Bellary District was 10.

227. The number of officers exercising appellate or original jurisdiction on the criminal side in the integrated areas was 101.

**Receipts and
Charges.**

228. The receipts of the criminal courts other than the High Court in the Old Mysore State amounted to Rs. 6,88,629-62 (Rs. 6,32,182-78) and the charges to Rs. 4,50,969-55 (Rs. 4,65,193-13).

229. There was considerable increase in the number of offences reported during the year in the Old Mysore State, viz., 99,766 (87,158).

230. The total receipts and charges of the criminal courts in the Bellary District was Rs. 94,936-64 and Rs. 45,909-97 respectively and of the integrated areas from 1st November 1956 to 31st March 1957 amounted to Rs. 1,41,709-6 and Rs. 3,89,665-73 respectively.

**LAW,
ORDER
AND
JUSTICE**

231. Including the persons awaiting trial at the close of the previous year, the number of persons brought to trial in the Magistrates' Courts in the Old Mysore State was 1,27,873 (1,26,036). The total number of persons convicted was 86,191 (81,804) and of persons acquitted or discharged was 24,798 (27,055). The proportion of persons convicted to those acquitted or discharged was 77·7 to 22·3 (75·1 to 24·9).

Persons
Brought to
Trial.

232. The number of persons brought to trial under Special and Local Laws in the Old Mysore State was 88,031 or 68·5 per cent of the total number of persons brought to trial (against 75,784 or 60·1 per cent) of whom 77,956 or 91·5 per cent were convicted.

Offences
Punishable
Under Special
and Local
Laws.

233. During the year, the District Magistrates in Old Mysore State had for disposal 3,877 cases involving 7,107 persons of whom, 3,420 cases involving 5,601 persons were disposed of.

District
Magistrates'
Courts.

234. The Stipendiary Magistrates other than the District Magistrates had to deal with 92,324 cases involving 1,20,766 persons (against 91,486 cases involving 1,26,033 persons). Of these, 87,947 cases involving 1,09,995 persons (against 86,458 cases involving 1,12,784 persons) were disposed of.

235. In the courts of the District Magistrates the average duration of cases disposed of was 71·6 days and in the courts of the other Stipendiary Magistrates it was 39·7 days.

236. The total number of cases pending over six months was also reduced from 748 to 684.

237. The total number of witnesses examined in the Courts of the Magistrates and of the Sessions Judges was 37,253 (57,676).

Examination
of Witnesses.

238. The number of Juvenile Offenders brought before the Courts of the Magistrates and of the Sessions Judges in the Old Mysore State was 2,033 (1,754). The number convicted was 1,895 (1,643). Of those convicted, 113 (62) were dealt with under the provisions of Section 562 of the Cr. P.C. and 1,166 (1,225) were fined. The number of persons imprisoned was 616 (356).

Juvenile
Offenders.

239. The number of cases for trial before the Courts of Sessions in the Old Mysore State was 216 involving

Sessions
Work.

**LAW,
ORDER
AND
JUSTICE**

495 persons (against 204 cases involving 418 persons) of which, 175 cases involving 363 persons (against 158 cases involving 321 persons) were disposed of.

240. The average duration of Sessions Cases disposed of was 74.2 (75.6) days.

241. Out of 15 Sessions Cases for disposal, 12 were disposed of during the year in the Bellary District.

242. Out of 280 Sessions Cases, 179 were disposed of during the year in the integrated areas from 1st November 1956 to 31st March 1957.

Appeals.

243. The appellate courts in the Old Mysore State subordinate to the High Court had to deal with 899 (1,060) appeals. Of these, 688 appeals relating to 1,058 persons (against 836 relating to 1,334 persons) were disposed of. The average duration of appeals disposed of was 196.2 (131.0) days.

244. Out of 87 (50) Criminal Appeals, 66 (41) were disposed of during the year in the Bellary District.

245. Out of 564 Criminal Appeals, 312 were disposed of during the year in the integrated areas from 1st November 1956 to 31st March 1957.

Revision.

246. The number of Revision Cases disposed of out of 364 cases pending before the Session Judges and District Magistrates in the Old Mysore State during the year was 101 (111) and 159 (85) respectively. The average duration of Revision Cases disposed of by the Sessions Judges and District Magistrates was 91 (93.9) and 56 (82.6) days respectively.

Punishments.

247. Three persons were sentenced to death and 23 (42) persons were sentenced to transportation for life by the Sessions Judges. The total number of persons sentenced to undergo imprisonment was 7,600 (6,339). Of these, 7,144 (5,780) were sentenced to imprisonment for six months and under and the remaining 456 (559) for longer periods.

248. The number of persons fined was 78,666 (73,620). The total amount of fine imposed was Rs. 7,32,680-29 (Rs. 7,11,256-28) and the amount realised was Rs. 6,05,570-63 (Rs. 5,52,322-70).

249. In connection with the implementation of the scheme of separation of the Judiciary from the Executive

in the State, 10 posts of Civil Judges and District Magistrates were created. A separate Court of Civil Judge and District Magistrate was established at Bangalore and Mysore and the Court of the Subordinate Judge, Shimoga and the Courts of the Additional Subordinate Judge and I Class Magistrates at the other District Headquarters were replaced by the Courts of the Civil Judge and District Magistrates with effect from 1st June 1956.

250. The essential feature of the scheme of separation of the Judiciary from the Executive was the transfer of the functions which are essentially judicial from the Deputy Commissioners and Magistrates subordinate to him to judicial officers who would not be under the control of the Deputy Commissioners. As a further consequence, the Deputy Commissioners were designated as Additional District Magistrates.

251. While sanctioning the redistribution of the jurisdictions of the courts as recommended by the High Court, the Government abolished the Court of the Munsiff-Magistrate, Krishnarajanagar with effect from 1st July 1956.

CHAPTER III—REVENUE AND FINANCE. •

(i) Revenue and Finance.

252. The statement of the Receipts and Disbursements of the State for the year 1956-57, is appended in Appendix I of this report.

253. As a consequence of the Re-organisation of the States on 1st November 1956, the actuals for 1956-57 under all the heads of accounts (pre and post re-organisation period accounts taken together) are more than the actuals for 1955-56 and the two sets of figures are, therefore, not susceptible of comparison. Hence, the following points may however be mentioned :—

(i) The opening cash balance on 1st November 1956 was Rs. 3,74,45 thousands, including the cash in the Treasuries of the erstwhile States of Bombay, Hyderabad and Madras which merged with Mysore on that date as well as the share of the Mysore Government of the balances of those States in the Reserve Bank of India, on 31st October 1956 allocated among the successor States. In the case of the Treasuries concerned of the erstwhile State of Bombay, the actual cash taken over by the Mysore Government on 1st November 1956 was further re-allocated among the successor States on the population basis and only the share allocable to Mysore had been included in the opening balance on 1st November 1956. In the case of the cash balances pertaining to the erstwhile State of Madras and Hyderabad, further reallocation among the successor States is yet to be made.

(ii) The balance in the Contingency Fund of the erstwhile State of Mysore at the end of October 1956 was written off to Government Account. During the post re-organisation period, the Government of Mysore did not have a Contingency Fund.

(ii) Excise.

254. The Mysore Sugar Company Ltd., Bangalore, Country continued to be the manufacturing contractors for the Spirits : supply of liquors during the year.

REVENUE
AND
FINANCE
—

255. Rates of liquors of 35° U. P. supplied by Messrs Mysore Sugar Company Ltd., to Government Depots from 1st April 1956 to the end of March 1957 were as follows :—

A. Molasses Arrack ... Re. 0-80 per gallon as
in the previous year.

B. Special Liquors.

1. Rs. 2-50 (Naked) per gallon.
2. Rs. 5 Bottling charges in quart bottles per gallon.
3. Rs. 10 Bottling charges in pint bottles per gallon.

Packing charges.

4. Rs. 6 per case of eight gallons in quart bottles.
5. Rs. 6 per case of six gallons in pint bottles.

256. There were two Distilleries in the former Mysore State during the year, *viz.*, Mandya Distillery managed by Messrs Mysore Sugar Company Ltd., and (2) Hospet Distillery managed by Messrs India Sugars and Refineries Ltd., Hospet. The Distilleries at Mandya and Hospet were being administered in accordance with the provisions of the Mysore Excise Act. Prescribed licence fee of Rs. 5,000 per annum was also levied, and recovered for renewal of the licenses held by the above Distilleries. The Distillery at Hospet continued to manufacture only commercial spirits, *viz.*, rectified and denatured spirits during the year.

257. There were 18 arrack bonded depots during the year. Sanction was accorded to run private arrack depots in Bangalore City, Civil Area and Bangalore North and South Taluks during the year..

258. The limit of private possession of the several kinds of liquors continued to be the same as in the previous year as noted below :—

- | | | | |
|--------------------|-----|-----|----------------------------|
| 1. Molasses Arrack | ... | ... | 4½ drams |
| 2. Jaggery Arrack | ... | ... | 4½ drams |
| 3. Special Liquors | ... | ... | 1 gallon in the aggregate. |

259. The consumption of arrack of 35° U. P. was 2,37,065 gallons (2,21,249) while that of special liquors supplied in bottles was 13,097 gallons (10,848). The supply of country spirits to shops was not controlled by quotas.

**REVENUE
AND
FINANCE**

260. The incidence of consumption of country spirits per 100 of population was 5.42 (4.54) proof gallons computed in respect of the population of only the wet areas of the State.

261. The number of rectified spirit licenses issued during the year was 108 (111). Out of them, 18 related to Chemists and Druggists etc., and the remaining 90 pertain to Government and Charitable Institutions and other private firms.

Rectified
Spirit
Licenses.

262. The total quantity of rectified spirit including Absolute Alcohol manufactured during the year from the Distillery at Mandya was 6,54,475 gallons and 43 drams.

263. The normal rate of excise duty on spirit contents of medicinal preparations whether manufactured in the State or imported from outside places continued to be Rs. 5 per proof gallon. But in the case of spirituous medicinal preparations, the rate of excise duty was Rs. 17-50 per proof gallon. The rate of excise duty of Rs. 50 per proof gallon on spirit contents in flavouring and culinary essences was continued during the year.

Spirituous,
Medicinal and
Toilet Prepara-
tions.

264. The import of spirituous medicinal preparations from outside places amounted to 6,471,827 proof gallons. The exports by the several pharmaceutical concerns in the State amounted to 56,283,040 proof gallons.

Imports and
Exports.

265. Two hundred and fifty-three (251) licenses were issued during the year for the possession, use etc., of denatured spirit in Government institutions, private hospitals and for manufacture of polishes by the licensees.

Denatured
Spirit.

266. A total quantity of 76,424 gallons of denatured spirit was issued from the Distillery at Mandya. Out of this, 71,424 gallons were for local consumption and the rest of 5,000 gallons were exported outside the State.

267. A total quantity of 45,975 gallons and 20 drams of denatured spirit was exported outside the State from Hospet Distillery.

268. There were three concerns who were permitted to manufacture Indian made foreign liquors, viz., (1) Messrs Amrut Distilleries, Bangalore, (2) Messrs. Khoday R.C.A. Industries, Bangalore and (3) Messrs Dasarath and Company, Mysore.

Indian Made
Foreign
Liquors.

269. A quantity of 39,341,825 proof gallons of Indian made foreign liquors was manufactured in the State, of which 4,450,622 proof gallons were issued for consumption

REVENUE
AND
FINANCE

in the State and 19,909·005 proof gallons were exported to places outside the State.

270. A sum of Rs. 1,98,002 was collected towards excise duty on these liquors consumed in the State. The rate of excise duty continued to be Rs. 35 per proof gallon, during the year.

Toddy.
(Fermented
Liquors).

271. The revenue derived from toddy amounted to Rs. 74,79,436 (Rs. 69,78,964)

272. No trees were permitted to be tapped free of tree tax for domestic consumption during the year.

Malt
Liquors.

273. The number of licenses issued exclusively for sale of country beer was 10 (10).

Beer

274. The consumption of beer amounted to 6,50,919 (5,98,308) gallons during the year. The United Breweries Ltd., and the Venus Brewery in Bangalore and Chamundy Brewery in Mysore continued to manufacture beer.

275. The revenue derived from malt liquors amounted to Rs. 13,30,181 (Rs. 9,22,038).

Foreign
Liquors.

276. The consumption of Foreign Liquors during the year was as follows :—

	<i>Kind</i>	<i>Year</i> 1955-56 GLS.	<i>Year</i> 1956-57 GLS.
1.	Spirits ...	14,382-20	15,344-46
2.	Wines ...	1,631-32	2,390- 9
3.	Malt Liquors ...	36,180-50	39,709-46

277. The revenue realised under licence and gallonage fee was Rs. 5,86,213 (Rs. 4,50,084).

Hemp Drugs.

278. There was no cultivation of ganja during the year. At the beginning of the year there was a stock of 16,347 seers of issuable ganja.

279. The rate of Duty per seer of 80 tolas charged to the licensees continued to be Rs. 65 during the year.

280. The limit of private possession continued to be two tolas as in the previous year.

281. The consumption of ganja during the year was 7,904 (7,009) seers. The revenue derived amounted to Rs. 10,69,051 (Rs. 9,42,789).

Opium

282. The issue price of opium from the Treasuries to the several licensees in the State continued to be Rs. 175 per seer of 80 tolas as in the previous year.

283. The limit of private possession of opium continued to be one tola as in the previous year.

284. The consumption of opium during the year was 331 seers and 19 tolas (372-70). The revenue derived from opium was Rs. 2,52,463 (Rs. 2,25,584).

285. No fresh licenses were issued for possession and use of opium for veterinary and quasi-veterinary purposes. No licenses were issued to Chemists and Druggists for the sale of opium preparations

286. The number of licenses issued under the Dangerous Drugs Rules was 66(72). Dangerous
Drugs.

287. A quantity of 171 lbs. 6 ozs. 351·16 grains of dangerous drugs was imported into the State from other States during the year.

288. The total number of offences reported during the year under Excise and Opium Acts was 1,269 (1,514). Offences. Of these, 304 (224) cases relates to heinous offences, 102 (117) to the cutting and removal of date trees and leaves, 62 to death of date trees due to careless or overtapping and the remaining 801 (1,092) cases to the breaches of licence conditions.

289. Other offences were as follows:—

- | | |
|---|-------------|
| 1. Offences relating to illicit distillation and other kindered offences. | 273 (189) |
| 2. Toddy offences | ... 10 (18) |
| 3. Hemp drugs and opium offences | 151 (203) |

290. Including the amount of Rs. 12,49,519-85 being the arrears outstanding at the beginning of the year, the total demand of the Excise Revenue amounted to Rs. 2,03,63,615-19 (Rs. 1,93,29,236-28). Of this amount, a sum of Rs. 1,87,57,178-56 (Rs. 1,73,64,201-86) towards the current demand and Rs. 3,71,325-80 (Rs. 7,17,493-57) towards the old arrears were collected, thus leaving a balance of Rs. 12,34,710-82 (Rs. 12,49,519-85) at the close of the year. Demand,
Collection
and Balance.

291. The incidence of taxation per head of population was Rs. 4-9 computed in respect of population of the wet districts of the State. Incidence of
Taxation.

292. Three hundred and eighty-one persons were convicted for drunkenness in wet Districts of Bangalore, Mysore, Mandya and Hassan. Conviction-
for Drunken-
ness,

REVENUE
AND
FINANCE
—**Integrated Areas.**

(From 1st November 1956 to end of March 1957).

293. *Coorg District.*—Prohibition was in force in the Coorg District during the year.

294. The Revenue realised under “VIII State Excise Duties” during the period from 1st November 1956 to end of March 1957 amounted to Rs. 20,371-94.

295. Liquors and drugs were supplied to permit holders only.

296. *South Kanara.*—Prohibition was in force in the District during the year.

297. The Excise Revenue realised under “VIII State Excise Duties” during the period from 1st November 1956 to end of March 1957 amounted to Rs. 9,128-35.

Country
Spirits.

298. *Hyderabad Area.*—Supplies of liquor of 30° U.P. were made to all the districts of Raichur, Bidar and Gulbarga from the Government Distillery at Narayanaguda.

299. Rates of supply of liquor of 30° U.P. in the several districts were as follows:—

	Rs. per gallon.
Gulbarga District	... 18-11
Raichur District	... 17-93
Bidar District	... 19-0

300. The consumption of liquor of 30° U.P. was 32,776 gallons. The issues of liquor to shops were restricted to the quota fixed for each shop. The revenue derived from liquors of 50° U.P. was Rs. 6,73,428. The revenue from toddy amounted to Rs. 22,40,397.

301. Consumption under foreign liquor was as follows:—

Spirits	...	263 gallons
Wines	...	5 „
Malt Liquors	...	1,211 „

302. There was no cultivation of ganja during the year. The rate of duty per seer of ganja continued to be Rs. 82 per seer of 80 tolas. The limit of private possession continued to be three tolas.

303. The consumption of ganja during the period was 217 seers. The revenue derived amounted to Rs. 1,08,216.

304. The issue price of opium was Rs. 175 per seer of 80 tolas. The limit of private possession of opium was two tolas.

305. The consumption of opium during the year was 48 seers. The revenue derived from opium was Rs. 41,316.

306. The total number of offences reported under the Excise and Opium Acts during the period was 960.

307. *Bombay Karnatak Area.*—Total Prohibition was in force in all the four districts, *viz.*, Bijapur, Belgaum, Dharwar and Karwar. All country liquor, toddy and other excise shops were closed and only foreign liquor, hemp drugs and opium were supplied to the permit holders through the Government managed depots.

308. The Neera Scheme was encouraged under the management of the Village Industries Board, Northern Karnatak Region, Hubli and the Co-operative Societies. The Social and Economic benefits of Prohibition were apparent in the case of agriculturists and poorer classes.

309. The Bombay Prohibition Act, 1949, even after integration was continued to be in force during the year.

310. Since there was total Prohibition in all the four districts, the sale, purchase, possession, consumption and use of toddy and country liquor were prohibited throughout the districts.

311. The system of issuing hemp drugs and opium from the Government Depots to Vaidyas holding licenses and addicts holding permits on medical certificates was continued during the year.

312. There was no cultivation of hemp drugs in any of the four districts. Manufacture of opium was also not allowed in any of the four districts.

		<hr/>

354. The Motor Insurance Fund as on 31st March 1957 amounted to Rs. 14,36,556 as compared with Rs. 11,16,680 in the previous year.

355. The Department as usual participated in the Dasara Exhibition at Mysore during 1956. Brochures and hand bills explaining the advantages of the several types of risks in the Motor Branch were distributed among the visitors to the Stall.

356. The Branch Office at Mysore was abolished from 1st September 1956 as the Public Branch got integrated with the Life Insurance Corporation of India from that date.

— — —

CHAPTER IV—LOCAL ADMINISTRATION.

(i) Corporation of the City of Bangalore.

357. The area of the City of Bangalore is 26·7 square miles. The population as per census of 1951 is 7,76,170 as against 4,06,760 in 1941.

358. The total number of live births registered during the year was 30,229 (29,745). The birth rate was 34·67 (33·15.)

359. The total number of deaths during the year was 12,593 (11,757). The death rate was 14·44 (13·16).

360. The Corporation was free from plague and cholera and among the infectious diseases, tuberculosis took a heavy toll. Preventive measures were carried out on an intensive scale throughout the year.

361. The total expenditure incurred under Public Health was Rs. 29,07,056, during the year.

362. Special attention was paid to various food commodities offered for sale in the public markets and private shops. Unwholesome meat, fruits, vegetables etc., were seized and destroyed and parties concerned warned.

363. The total amount of expenditure incurred under Education was Rs. 2,95,812 while the receipts inclusive of Government grant was Rs. 1,02,967.

364. The Corporation continued to maintain four High Schools and five Higher Elementary Schools. The total number of pupils taught was 7,153.

365. During the year, the Corporation opened a new Nursery School in Banappa Park.

366. The existing water supply system designed for less than half the present population was found to be utterly inadequate to meet the requirements and an alround expansion of the storage and water distribution system had to be effected. In order to improve the distribution in the Corporation area, a sum of Rs. 60 lakhs was allotted out of rupees one crore earmarked as loan to the Corporation under the National Water Supply and Drainage Scheme in the Second Five-Year Plan. The position of water supply in the Northern area of the Civil Station, Bangalore,

Water
Supply.

**LOCAL
ADMN.**

was distressingly acute. A scheme was sanctioned costing Rs. 33 1/2 lakhs for laying 24" pipe line from combined Jewell Filters to Machalibetta and construction of three zonal tanks of 0.5 M.G., 1.0 M.G., and 1.0 M.G. at Jayamahall Bridge, Richards Town Park and Machalibetta respectively.

367. A sum of Rs. 57,812 under Installation of sub-mains and Rs. 9,751 under Public Fountains and Rs. 2,03,235 under Advance to the Water Supply Department was spent during the year.

Lighting.

368. Substantial additions to street lights and increase in wattage of existing lamps were made during the year.

**Housing
Scheme.**

369. The Corporation has constructed more than 2,000 small houses in several parts of the City which are let out to the employees and others on reasonable rents. In addition, it has also provided more than 1,000 quarters to its sweepers and scavengers, rent free. In addition to these, the Corporation was constructing 15 blocks of houses each consisting of four tenements under a loan of Rs. 1,34,000 provided by the State Government under Low Income Group Housing Scheme.

**Slum Clear-
ance.**

370. A sum of Rs. 65,339 was spent for slum clearance work. Tenemental quarters were constructed on the existing plinths in sweeper huts areas at Goripalyam. Roads were formed in A.K. Colony, Jeevanahalli and drains were constructed. Similar other works were also carried out in other areas where found necessary.

**Medical
Relief.**

371. The Corporation continued to maintain one Corporation Dispensary, one Ayurvedic Dispensary and one Unani Dispensary at which 38,181, 72,846 and 51,222 patients, respectively, were treated. The Corporation also continued to maintain a Tuberculosis Dispensary.

**Maternity
and Child-
welfare.**

372. The total expenditure incurred under this head during the year was Rs. 3,23,921.

373. The Corporation was maintaining nine Maternity Homes with 210 beds wherein, pre-natal, natal, and post-natal work were done. In these Maternity Homes, 6,856 labour cases were conducted during the year.

374. In addition to these Maternity Homes, the Corporation maintains also 18 Maternity and Child-welfare Centres where the case of expectant mothers and children

were attended to. Apart from examination and treatment of children, milk was given free to the infants and they were also given regular bath and food at these Centres at a cost of Rs. 78,698-75. Besides, a contribution of milk powder was also made by U.N.I.C.E.F.

375. Baby show was also as usual held at 18 different Centres in the Corporation area.

376. Family Planning Centres located at the several Maternity Homes and Child Health Centres continued to work satisfactorily. Family
Planning.

377. The demand for the year including arrears was Rs. 45,55,508 against which a sum of Rs. 32,89,607 was collected leaving a balance of Rs. 12,65,901. The percentage of collections of the current taxes to the current demand was 74.15 per cent and that of the arrears was 67.47 per cent. Revenue.

378. The total collection under Octroi and Toll during the year was Rs. 37,33,966 (Rs. 27,89,307).

379. The financial position of the Corporation was sound and the statutory closing balance was maintained as provided in the Act. There was an opening balance of Rs. 1,39,015 at the beginning of the year. The total receipts under all heads including Debt Heads during the year amounted to Rs. 1,17,52,835 which makes a total of Rs. 1,18,91,850. As against this, an expenditure of Rs. 1,13,05,239 was incurred leaving a balance of Rs. 5,86,611 at the end of the year. Financial
Position.

380. With a view to arrest the increase in the price of rice, the Corporation have opened 64 Fair Price Depots where rice was sold at 2 seers per rupee. These depots were extremely popular. Wheat was also sold at these depots at the controlled rates.

(ii) Mysore City Municipality.

381. The area of the City of Mysore continued to be 14.43 square miles. The population according to the census of 1951 is 2,44,334. The boundaries of the City remained unaltered during the year.

Hosakote in Tumkur District) were reconstituted for a further period of four years as per the provisions of Town Municipalities Act 1951 during the year. Pavagada Town Municipal Council in Tumkur District which was dissolved for a period of six months was reconstituted with effect from 8th September 1956. The newly elected Hospet Council of Bellary District assumed office from 1st November 1956.

421. There was no change in the area or boundaries of any of the Municipalities in Bangalore Division.

422. The total number of elected and nominated members of the several municipalities in all the districts of the Division at the end of the year was 774 (768) as against the strength of 775 (770).

423. Most of the Town Municipal Councils have adopted many of the bye-laws and rules. The rules for levy and recovery of Stand Fees on buses were sanctioned during the year in Mulabagal, Chickballapur and Gowribidanur Municipalities.

424. Revision of assessment was taken up and completed in the Municipalities of Channapatna, Doddaballapur, Nelamangala, Vijayapura of Bangalore District and Tumkur.

425. Out of the total demand of Rs. 42,06,876 (Rs. 42,50,312) in all the Municipalities including arrears, a sum of Rs. 28,77,212 (Rs. 29,33,652) was collected leaving a balance of Rs. 13,29,164 (Rs. 13,16,660).

426. A sum of Rs. 11,25,036 (Rs. 9,44,744) was realised under Octroi during the year. The levy of octroi in Hospet Municipality was introduced with effect from 1st March 1957.

427. The total population of the Town Municipalities in the Division was 4,80,091 (4,41,392). The total income from Municipal rates and taxes was Rs. 22,95,249. The

**LOCAL
ADMN.**

incidence of taxation per head was Rs. 4.65 (Rs. 4.31) during the year.

428. Out of a total loan of Rs. 63,12,272 advanced, a sum of Rs. 3,25,032 was repaid leaving a balance of Rs. 59,87,240 at the end of the year.

429. A total sum of Rs. 2,94,187 was sanctioned as grant for town improvement works during the year.

430. There was no outbreak of any epidemics in any of the Town Municipalities during the year. In general, the Public Health in all the Municipalities in this Division was generally good.

431. There were 13,865 (14,545) births and 3,778 (10,161) deaths during the year. The number of patients treated for various diseases in L.F. Dispensaries in several Municipalities except Chitaldrug and Bellary Districts was 18,35,616 (16,20,017).

432. There were 28 (29) Municipal High Schools in the Division during the year. A sum of Rs. 1,47,740 was spent for the maintenance of institutions during the year excepting Kolar, Bangalore and Chitaldrug Districts, (whose figures not furnished).

MYSORE DIVISION

433. There were 58 Town Municipalities in the Old Mysore area, two Municipalities in Coorg District and two Municipalities in South Kanara District. All the Municipal Councils of the Old Mysore area were reconstituted from April 1956.

434. There was no change in the areas and boundaries of the Municipalities of the Old Mysore area and also in South Kanara District during the year.

435. The total population of the Municipalities of this Division during the year was 6,26,975. The total number of members elected in the several Town Municipal Councils of the Old Mysore area at the end of the year was 918 (944).

436. The sanctioned strength of the Municipal Councils in South Kanara District continued to be 56 and that of the Municipal Councils of Coorg District continued to be 39.

437. Many of the Municipal Councils of the Old Mysore area have yet to adopt a number of Rules and

Bye-laws on the basis of Model Bye-laws and Rules so far issued by Government.

438. There was no fresh imposition of taxes in the Municipalities of the Old Mysore area.

439. The revision of assessment on annual letting value basis was completed in the Town Municipal Councils of Yelandur, Heggadadevana Kote and Nanjangud, in Mysore District and in Honnali, Channagiri, Bhadravati in Shimoga District, during the year.

440. Out of the total demand of Rs. 38,25,884 including arrears, a sum of Rs. 26,37,964 (Rs. 25,01,904) was collected during the year leaving a balance of Rs. 11,87,920 at the end of the year.

441. A sum of Rs. 13,66,752 (Rs. 13,24,730) in the Municipalities of the Old Mysore area and Rs. 2,01,891 in the Municipalities of Coorg District was realised during the year.

442. There was no octroi in the Municipalities of South Kanara District (viz., Udipi and Mangalore).

443. The population of the Municipalities of the Old Mysore area and the Coorg District during the year was 4,87,533. The total income from Municipal rates and taxes was Rs. 20,33,069. The incidence of taxation per head of population was Rs. 4-17.

444. The population of the Municipalities in South Kanara district during the year was 1,39,442. The incidence of taxation per head of population in Mangalore and Udipi Municipalities was Rs. 9-67 and Rs. 5-92, respectively.

445. A total grant of Rs. 2,48,540 under Town Improvement grants and Rs. 1,00,024-50 under Local Development Works was sanctioned for Town Improvement works etc., for the Municipalities of the Old Mysore area during the year.

446. A total sum of Rs. 1,19,07,094 as loan was advanced to the several Municipalities so far. Out of this, a sum of Rs. 3,89,359 was repaid leaving a balance of Rs. 1,15,17,735 at the end of the year.

447. A sum of Rs. 2,25,970 for town improvement works and a sum of Rs. 18,17,819 for water supply schemes was sanctioned as loan to the several Municipalities in

**LOCAL
ADMN.**

Mysore, Hassan and Chikmagalur Districts during the year.

448. The total outlay incurred on water supply works of the several Municipalities of the Mysore and Chikmagalur Districts during the year was Rs. 7,24,697 and Rs. 4,64,398, respectively.

449. The outlay incurred on Public Works during the year was Rs. 7,48,341.

450. There were 30 Municipal High Schools working in the Town Municipalities of the Old Mysore area. A sum of Rs. 2,24,034 was spent by the Municipal Councils for the maintenance.

451. The Arasikere Town Municipality continued to be under Government management during the year.

BELGAUM DIVISION.

452. The administration of the Municipalities of the four Kannada districts of Belgaum, Bijapur, Dharwar and North Kanara which were included in the new Mysore State consequent on the reorganisation of States with effect from 1st November 1956 was continued during the year even after 1st November 1956 under the provisions of the Acts, Rules and Orders previously existing in the old Bombay State.

453. The total number of Municipalities in the Division at the end of the year was 35 of which six were Borough Municipalities and 29 District Municipalities (including two City Municipalities and one Periodical Municipality). The Periodical Municipality of Yamnur was converted into a Village Panchayat during the year.

454. There was no change in the area of Municipalities except in the case of the Ramdurg Municipality,

455. The total population of all the Municipalities in the Division, according to 1951 census, was 8,74,570.

456. Bijapur and Hubli Municipal Boroughs celebrated their centenary during the year.

457. Reconstitution of the Athani, Saundatti Yellamma, Hubli and Ranebennur Municipalities on the basis of 1951 Census figures was sanctioned during the year.

458. The aggregate gross Municipal income of the Municipalities was Rs. 2,11,90,576 (Rs. 1,87,46,332). The

net income amounted to Rs. 1,46,47,954 (Rs. 1,32,03,178). Government continued to give grants to the Municipalities liberally. During the year, grants to the extent of Rs. 22,93,411 were paid to the Municipalities.

459. The district-wise average incidences of taxation and income per head of population were :—

	<i>Incidence of taxation</i>		<i>Incidence of income</i>	
Belgaum	Rs. 15-40	Rs. 12-75	Rs. 20-77	Rs. 18-48
Bijapur	Rs. 11-15	Rs. 9-53	Rs. 14-24	Rs. 13-39
Dharwar	Rs. 11-84	Rs. 9-63	Rs. 17-19	Rs. 15-63
N. Kanara	Rs. 7-91	Rs. 7-02	Rs. 11-79	Rs. 11-08.

460. The gross collection from Octroi amounted to Rs. 63,96,081 during the year.

461. The total disbursements during the year amounted to Rs. 2,04,33,643 (Rs. 1,68,10,186). Net expenditure excluding the items under the head "extraordinary and debt" was Rs. 1,35,83,187 (Rs. 1,30,88,021). The aggregate closing balance of all the Municipalities in the Division amounted to Rs. 91,19,031 (Rs. 83,37,714).

462. The general state of public health was satisfactory in the Municipal Towns. There were only few cases of epidemic diseases.

463. So many welfare activities like granting freeships to the backward class students in high schools, free supply of slates and books to the backward class pupils in primary schools, conducting night schools, slum clearance etc., were undertaken during the year by the Belgaum, Nipani, Bailhongal, Bijapur and Kumpta Municipalities.

GULBARGA DIVISION.

464. The Division has been formed with the Hyderabad Karnatak area on 1st November 1956 consisting of three districts, viz., Gulberga, Raichur and Bidar.

465. There were 24 Municipalities in the Division out of which nine are City Municipalities and the rest Town Municipalities, and the population of these Municipalities was 14,17,817 according to 1951 Census.

**LOCAL
ADMN.**
—

466. There was an Engineering Section to carry out the works of the Municipalities.

467. During the year, the Government had sanctioned a sum of Rs. 58,900 and the same was distributed to the several Municipalities of this Division.

(vi) Administration of District Boards.

Constitution.

468. The 10 Districts of Old Mysore State Continued to be administered by the Special Officers. The administration of District Boards of Gulbarga, Raichur and Bidar was carried on by the Deputy Commissioners of Districts who were the *ex-officio* Presidents of the District Boards. The District Local Boards of Dharwar, Belgaum, Bijapur and North Kanara and the District Board, South Kanara, continued to be administered by the elected Presidents.

**Income and
Expenditure.**

469. The total income and expenditure of the District Boards in the New Mysore State during the year was Rs. 1,32,23,918 and Rs. 1,33,62,377 respectively as indicated below:

District Boards	Income	Expenditure
	Rs.	Rs.
Mysore Division (District Boards of Mysore, Mandya, Hassan, Shimoga, Chickmagalur, South Kanara) ...	64,48,586	60,28,637
Bangalore Division (District Boards of Bangalore, Tumkur, Chitaldrug, Kolar) ...	16,38,017	20,43,372
Belgaum Division (District Boards of Dharwar, Belgaum, Bijapur, and North Kanara) ...	41,59,049	44,47,375
Gulbarga Division (District Boards of Gulbarga, Raichur and Bidar) ...	9,78,266	8,42,993

470. The District Boards of Mysore and Mandya in Mysore Division, District Boards of Kolar and Tumkur in Bangalore Division, District Local Boards in Belgaum Division and all the District Boards in Gulbarga Division continued to maintain their own Engineering Establishments.

471. The Scheme of Local Development Works sponsored by the Planning Commission continued to be in operation during the year in all the four Divisions of the New Mysore State. The total outlay incurred for the execution of the several works under the scheme was Rs. 1,77,780 (Rs. 2,43,062) in Mysore Division, Rs. 1,46,284 (Rs. 1,14,650) in Bangalore Division.

Local Development Works.

472. The District Boards of Mysore, Bangalore and Belgaum Divisions maintained roads of a total length of 10,282 miles, during the year.

Bangalore Division	...	2,386 miles
Mysore Division	...	3,827 miles
Belgaum Division	...	4,069 miles

473. No roads were undertaken for construction or repairs by the Raichur and Gulbarga District Boards of Gulbarga Division. In Bidar District, however, the District Board had taken up Ashtoor road and Bhalki road at an estimated cost of Rs. 42,000 and Rs. 26,000 respectively. The former was nearing completion.

474. The number of different kinds of dispensaries and their expenditure was :—

Dispensaries.

Division	No of Medical Institutions (including Maternity Homes)	Total Expenditure incurred.	No. of patients.	No. of Ayurvedic and Unani Dispensaries.	Expenditure incurred.	No. of Veterinary Dispensaries.	Maintenance cost.
		Rs.			Rs.		Rs.
Mysore Division ...	231	4,09,049	86,28,223	148	2,29,428	120	16,808
Bangalore Division ...	199	2,95,753	24,30,119	132	1,44,109	102	11,100
Belgaum Division ...	84	3,00,040	...	97 SMP Centres and 71 Ayurvedic Dispensaries.	54,382	24	1,69,547

**LOCAL
ADMN.**

475. No dispensaries were run by District Boards in Gulbarga Division.

**Educational
Institutions.**

476. There were 48 High Schools under the management of the District Boards in Mysore Division, incurring a total expenditure of Rs. 7,79,076 in addition to Rs. 19,07,139 incurred in maintaining 75 Higher Elementary Schools and 519 Elementary Schools managed by the South Kanara District Board. The District Board, Mysore also maintained 89 Elementary Schools in Kollegal Taluk from 1st November 1956 and incurred an expenditure of Rs. 51,962.

477. There were 15 High Schools in Bangalore Division under the management of the District Boards incurring an expenditure of Rs. 1,66,695 for the maintenance of these High Schools.

478. No High Schools were maintained by the District Boards in Belgaum and Gulbarga Divisions except the District Local Board in Bijapur in Belgaum Division which has maintained one High School at Bagewadi at the cost of Rs. 21,091.

479. The District Local Boards in Belgaum Division paid a sum of Rs. 9,37,398 as grant to the District School Boards for receiving primary schools in the areas of the District Local Boards under Section 80 of the Bombay Local Boards Act, 1923.

**Public Health
Safety and
Convenience.**

480. The District Boards of four Divisions in the New Mysore State incurred a total expenditure of Rs. 10,73,250 on Public Health during the year as follows:—

	Rs.
District Boards, Mysore Division ...	4,95,160
District Boards, Bangalore Division ...	3,10,466
District Boards, Belgaum Division ...	1,90,946
District Board, Raichur ...	27,751
District Board, Gulbarga ...	48,927
Total ...	10,73,250

481. The Chief Executive Officers were continued in all the District Boards in Mysore and Bangalore Divisions during the year except in South Kanara District Board.

**LOCAL
ADMN.**District
Board,
Bellary.

482. The District Board, Bellary, continued to function under the Deputy Commissioner as Special Officer. The revenue and expenditure of the Board were Rs. 12,59,106 (Rs. 14,24,139) and Rs. 13,15,726 (Rs. 12,82,115), respectively.

483. The Board had an Engineering Establishment of its own during the year and maintained roads of a total length of 356 miles, 5 furlongs at a cost of Rs. 80,617.

484. There were 339 Elementary Schools and six High Schools and 27 regular and subsidized dispensaries of Allopathic and Indian Medicine maintained by the Board.

(vii) Kolar Gold Field Sanitary Board.

485. The area and the population of the Kolar Gold Field Sanitary Board, including 33 Village Panchayats comprising 76 indirectly administered villages, was about 30 square miles and 1,59,158 respectively.

486. The supply of water from the Methamangala Filters continued to be adequate and satisfactory during the year for the Sanitary Board Area.

487. The total demand (including arrears of Rs. 57,219-86), collection and balance of the Sanitary Board were Rs. 5,65,381-14, Rs. 5,02,713-51 and Rs. 62,667-63 respectively.

488. The total receipts during the year including the opening balance were Rs. 6,85,367. The total expenditure was Rs. 6,35,979 leaving a closing balance of Rs. 49,388.

(viii) Village Panchayats and Rural Development.**BANGALORE DIVISION.**

489. The Mysore Village Panchayat and District Boards Act, 1952 was in force in Bangalore, Kolar, Tumkur and Chitaldrug Districts and the Madras Village Panchayat Act of 1950 was in force in Bellary District.

490. The total number of Village Panchayats in the Division was 6,742 (6,742).

491. The cash balance at the credit of the Village Panchayats at the beginning of the year was Rs. 43,68,292. The total income from all the sources during the year

Financial
Position.

**LOCAL
ADMN.**
—

amounted to Rs. 21,85,018 (Rs. 30,12,053) making a total income of Rs. 65,53,310. Out of this, a sum of Rs. 22,77,141 (Rs. 24,42,599) was spent during the year leaving a balance of Rs. 42,76,169 at the end of the year.

**Demand, Col-
lection and
Balance.**

492. The total amount outstanding recovery at the beginning of the year amounted to Rs. 14,80,625. The demand, collection and balance for the year were Rs. 17,76,717 (Rs. 19,20,778), Rs. 15,23,278 (Rs. 19,34,043) and Rs. 17,34,064, respectively.

493. An expenditure of Rs. 2,28,400 for conservancy and sanitation, Rs. 22,643 for medical relief, Rs. 1,40,035 for lighting charges and Rs. 7,60,596 on public works was incurred during the year.

494. Five hundred and twenty-one Village Panchayats were maintaining sweeping establishments, 34 were contributing for the maintenance of Local Fund Dispensaries and 55 had arranged for weekly visits of the Sub-Assistant Surgeon.

495. The allotment during the year under the head "Rural Health and Sanitation" was Rs. 2,18,400 for taking up village improvement works in the village.

**Libraries and
Reading
Rooms.
Rural Water
Supply.**

496. Nine hundred and forty-four (894) rural libraries and reading rooms were functioning during the year.

497. One thousand eighty-one well works were under execution at the beginning of the year. During the year, 355 well works were taken up making a total of 1,436 wells to be completed. The allotment during the year under the head "Rural Water Supply" was Rs. 15,30,500.

**Local Deve-
lopment
Works.**

498. An expenditure of Rs. 5,96,726 against an allotment of Rs. 6,08,123 was incurred during the year on 388 Local Development Works which included village roads, small bridges, culverts, construction of or improvement to school or dispensary buildings, godowns for storage of grains, etc. The response from the village panchayats and the villagers for participating in this scheme was encouraging.

MYSORE DIVISION.

499. The total number of village panchayats in the Division was 6,153. The Mysore Village Panchayats

and District Boards Act, 1952, the Coorg Panchayat Raj Act, 1956 and the Madras Village Panchayat Act, 1950 were in force in the Districts of Old Mysore State, Coorg and South Kanara and Kollegal, respectively.

500. The income and expenditure of the village panchayats during the year were Rs. 20,98,574 (Rs. 17,76,103) and Rs. 25,24,334 (Rs. 16,76,457), respectively.

Financial
Position.

501. The demand, collection and balance were Rs. 26,35,809 (Rs. 24,06,474), Rs. 10,05,786 (Rs. 11,97,605), and Rs. 16,30,023 (Rs. 12,08,869) respectively.

Demand, Col-
lection and
Balance.

502. Eight hundred and twenty-nine village panchayats were maintaining reading rooms and libraries, 625 panchayats had street lighting and 359 panchayats were maintaining sweeping and scavenging establishments.

Other
Improve-
ments.

503. A sum of Rs. 4,86,056 was spent on water supply, Rs. 7,70,883 on public works, Rs. 42,220 on medical relief and Rs. 1,37,762 on lighting, during the year.

504. Four hundred and seventy-four well works were completed during the year leaving a balance of 1,025 well works which were under different stages of progress.

Rural Water
Supply.

505. Two hundred and sixteen works were completed leaving a balance of 1,110 at the close of the year.

Local
Development
Works

BELGAUM DIVISION.

506. The total number of village panchayats functioning at the end of the year was 1,403 (1,252).

507. Each panchayat at its first meeting elects a Nyaya Panchayat under Section 37 of the Bombay Village Panchayat Act. One thousand and seventy-five Nyaya Panchayats have been conferred with judicial powers for trying petty civil suits and criminal cases.

508. Very few Nyaya Panchayats have exercised the judicial powers vested in them during the year. This probably indicates that the utility of the Nyaya Panchayats has not been properly appreciated by the village folk.

509. Thirty per cent of the land revenue was assigned under Section 92A of the Bombay Village Panchayats Act as grant-in-aid to all the village panchayats in this Division. The total grants paid to the village panchayats during the year amounted to Rs. 16,77,080.

LOCAL
ADMN.
—

510. Different taxes are levied by the village panchayats, but house tax is levied by all the village panchayats and it is the main source of income to village panchayats.

511. The income and expenditure of the village panchayats during the year were Rs. 49,95,259 and Rs. 46,71,033, respectively.

Demand, Col- 512. The total demand, collection and balance of the
lection and Rs. 30,09,019,
Balance, Rs. 13,35,584 and Rs. 16,70,101, respectively.

513. Only 56 village panchayats had conservancy staff.

514. The number of wells constructed during the year was 97 and the number repaired was 219.

GULBARGA DIVISION.

515. Out of 3,238 villages in the Division, 600 were covered by village panchayats and were functioning in accordance with the Hyderabad Gram Panchayat Act, 1956.

516. The Hyderabad Gram Panchayats Act provides for the payment of 15 per cent of Land Revenue and 50 per cent of local cess for the villages concerned to the panchayats as grants-in-aid by the Government and District Board, respectively. Besides this, village panchayats are deriving income from cattle ponds, cattle bazar, fisheries, property tax, professional tax, etc.

517. There was one District Panchayat Officer for each District for guiding the panchayats and improving their efficiency and keeping control over them. In the village panchayat, the Sarpanch was the head of the panchayat administration.

518. Sanitary staff on part-time basis was appointed in all the old panchayats to look after the sanitation of villages. Street lighting arrangements were made in most of the panchayat villages.

519. During the year, a sum of Rs. 56,700 was sanctioned by the Government as subsidy to the village panchayats of this Division for five months.

520. The Gram Panchayats in this Division were in their infant stage. Therefore, attempts were being made to infuse in them the spirit of leadership and service to the country.

(ix) Bangalore City Improvement Trust Board.

521. In pursuance of the Provisions of the City of Bangalore Improvement Trust Board Act, 1945, the Board was constituted by Government first in 1945, which is being reconstituted once in every three years since then.

522. Several residential extensions were formed in and around Bangalore City by the Trust Board, since its inception, and several others were under different stages of execution.

523. Under Bangalore South, there were five major layouts comprising of Jayanagar Block I and II, Wilson Gardens, Sunkenahalli Layout, Anjanappa Garden Layout and Sampigehalli Layout.

524. In Bangalore North (which also includes the Central Section), the five residential extensions were, Jayamahal Extension, Vyalikaval Extension, Kumarapark West Extension, Vasanthanagar and Okalipuram Extensions.

525. Improvement works done during the year were:—

Jayamahal Extension.—Excepting the Nandidurg Road side towards the east, the entire area is laid out with roads, side drains, etc. Two 'A' type quarters, four 'B' type and 26 'C' type quarters that were constructed were allotted to the officers and officials of the merged areas of Bombay, Hyderabad, Andhra and Madras.

Vasanthanagar Extension.—A sum of Rs. 12,18,000 was sanctioned for converting the Vasanthanagar area into an attractive residential area and also for clearing and improving the slums in Dandu Upparahalli and Dobspet. Layout works in the areas situated to the south-east and west of Upparahalli village and to north, south and west of Dobspet were completed. About 180 sites were formed, 70 of which were given to Labour Housing Board, and 40 were disposed of in public auction.

526. With a view to shift some of the existing industries from the congested parts of the City and also to locate new industries, an Industrial Suburb was formed on an extent of 289 acres of land and sites involving an extent of 3,45,220 sq. yds. were disposed of to various industrial concerns. With a view to encourage the existing industries now working in the City area to shift themselves to the Industrial Suburb, sites have been provided to them at a concessional rates.

Formation
of Industrial
Suburb for
locating Big
and Small
Industries
and formation
of Housing
Area.

L CAL
ADMN.
—

527. Sites were also allotted to the Labour Housing Corporation in the Industrial Suburb area to provide housing facilities to the labourers employed in the factories.

528. The sanctioned estimate for the formation of Industrial Housing Area was Rs. 47,05,800. About 3,200 sites were formed and underground drainage work was sanctioned for Rs. 7,60,000. Already 1,600 buildings had came up.

Construction
of Houses.

529. The Trust Board constructed 103 houses in Kumara Park West Extension for Low Income Group. The cost of each house ranging from Rs. 6,000 to Rs. 12,000 including the cost of the site. All the houses were disposed of to several deserving individuals on hire purchase system.

530. Two hundred and forty houses (soil cement blocks) were built in Rajajinagar at a cost of Rs. 4,85,015 up to the end of March 1957 for the use of labour classes.

531. Fifty-three houses were built for Refugees at a cost of Rs. 2,90,000 in Jayanagar.

532. Two "A" type quarters were constructed in Kumara Krupa compound at an estimated value of Rs. 2,77,800 along with six small buildings for the use of the staff in the same compound.

533. In order to remove congestion in some of the localities, a sum of Rs. 5 lakhs was sanctioned for the construction of 150 cheap tenemental houses, 50 in Jabbar Block and 100 in Ramakrishna Mutt area.

Slum
Clearance.

534. There were 92 slums in the Corporation area of Bangalore and schemes were prepared for the improvement of some of them. The following slum areas were taken up for clearance work during the year :—

1. Sultanpet slum area.
2. Slum opposite to Sharada Stree Samaja.
3. Sampigehalli and Gangammacherry.
4. Hutting Colony near Swimming Pool and Lalbagh Upparahalli.

Lease of
Lands to
Institutions
and Private
Individuals.

535. Plots were conditionally allotted to individuals and institutions like hostels, schools, religious institutions and social organisations and to private bodies who came forward to render public service. Such grants were usually made for the benefit of the residents of the locality.

536. The receipts of the Board during the year were Rs. 47,08,543 as against Rs. 42,95,000 anticipated in the

revised budget for 1956-57. The actual expenditure was Rs. 64,06,243 as against Rs. 52,40,695 provided for in the revised estimate.

537. A sum of Rs. 92,64,173 has so far been advanced for the several schemes connected with the Trust Board, of which Rs. 38,71,235 has been repaid, leaving a balance of Rs. 53,92,938.

538. The demand, collection and balance were Rs. 1,00,46,550, Rs. 94,23,208 and Rs. 6,23,342 respectively. Financial
Position.

539. Out of Rs. 1,76,93,217 so far been invested on the 12 important schemes of the Board, a sum of Rs. 94,23,211 was realised up to the end of March 1957. These schemes envisage the formation of 10,923 sites out of which 7,143 were formed and sold.

540. The facilities afforded by Government of India and several Housing Co-operative Societies by way of granting House Building Loans to Low Income Group, etc., have given a great impetus for the construction of houses in several extensions and the houses were coming up rapidly in all extensions.

541. The Board is also concentrating its attention on the several pockets of revenue lands situated within the Corporation limits or in between Trust Board Layouts with a view to layout these plots into habitable extensions.

(x) Mysore City Improvement Trust Board.

542. The Golden Jubilee of the City Improvement Trust Board, Mysore, which started functioning in the year 1903, was celebrated during the year. In commemoration of the Golden Jubilee celebrations of the Board, a Reading Room was proposed to be constructed at Paduvarhalli at a cost of Rs. 7,000 and the work was nearing completion.

543. Most of the sites formed by the Board were cottage sites which were within the purchasing power of the poor and middle class people. The price was recovered in many cases by instalments. Free grants of sites were also made to the public, religious and charitable institutions like hostels, mosques, temples and educational institutions.

544. The sites were allotted only to persons who own no houses or sites in the City and also to those who were displaced by acquisition for slum clearance, etc.

545. The number of properties acquired under the provisions of the Land Acquisition Act, during the year,

**LOCAL
ADMN.**
—

was 29, involving a sum of Rs. 42,756. Payment made to the parties on account of properties acquired by the Board in respect of cases coming under mutual consent was Rs. 7,406 and in respect of unpaid awards relating to previous years was Rs. 19,741, making a total payment of Rs. 69,904 during the year.

546. Formation of sites in Jayanagar, Saraswathipuram, Yadavagiri, Kesare, were taken up during the year, along with the formation of sites to the south of Shankar Mutt.

547. Formation of sites in Adipampa Road layout, Kalasagiri, to the south, west and east of Paduvarhalli and in the area opposite to B. T. Oil Mills in Mandi Mohalla were all completed.

548. Eight hundred and thirty-nine building sites were available at the beginning of the year in the Trust Board, 227 new sites were formed during the year, and including the sites resumed, the total number of sites available for sale was 1,151. Out of this, 368 sites were sold, leaving a balance of 783 sites at the end of the year.

549. The realisations from the sale of sites out of arrears and current demand amounted to Rs. 4,09,017. The arrears outstanding at the end of the year was Rs. 1,13,227.

550. Special attention was paid during the year for the construction of Model Houses in several localities of the City, as an impetus for solving the housing problem, consequent on the ever increasing population of the City.

551. Construction of ninety-seven model houses of different types in various mohallas of the City, under the Low Income Group Housing Scheme of the Government of India, was taken up during the year. An expenditure of Rs. 3,30,742 was incurred to the end of the year. Most of the houses were completed and allotted.

552. A scheme of constructing 480 tenements for the use of the labour classes of the K. R. Mills and others at an approximate cost of Rs. 15,00,000, which was taken up by the Board during July 1953, was completed during the year and handed over to the Labour Housing Corporation.

553. The total receipts under all sources including those under suspense heads and N. R. B. Funds amounted to Rs. 10,03,926, while the expenditure under several heads aggregated to Rs. 10,72,946, leaving a closing balance of Rs. 14,32,756 at the end of the year.

Model
Houses.

CHAPTER V—ADMINISTRATION OF LAND

(i) Land Revenue

(1st July 1956 to 30th June 1957)

554. During the year according to the States Reorganisation Act, several areas of Bombay, Madras and Hyderabad and Coorg States were transferred to the former Mysore State and the Revenue Commissioner's jurisdiction was formed into four Divisions with a Commissioner for each in place of the Revenue Commissioner with effect from 1st November 1956.

Bangalore Division

555. The rainfall during the year was fair and sufficient in Bangalore and Bellary Districts and was more in Kolar, Tumkur and Chitaldurg Districts. Tanks received adequate supply of water. Seasonal and crop conditions in all the districts in the Division were satisfactory.

Rainfall and
Seasonal
Conditions.

556. On account of excessive rainfall, some tanks in Kolar District breached. Due to unprecedented heavy rains and hail storm in May 1957, the standing crop of paddy under the Ranikere atchkat in Challakere taluk suffered to a considerable extent.

557. Fodder and water was available to the cattle.

558. There was no distress in any of the districts in Bangalore Division during the year as the seasonal conditions were good.

559. The prices of the important food articles continued to be high.

560. Labour was generally available and cooly classes were getting sufficient labour throughout the districts of the Division.

Labour and
Wages.

561. There was no unusual movement of labour either within or from and into Bangalore Division in search of food and employment or due to other reasons during the year, except some families from Coimbatore District, who it is reported had arrived and settled in Hiriyur Town for work.

Emigration
and
Immigration.

562. The health of cattle and men was generally good. Labourers found sufficient employment. Food and

Material
Prosperity of
the people.

ADMN. OF LAND

water were available in sufficient quantities to men and cattle. Arrangements were made to sell rice supplied by the Central Government through Co-operative Societies under Price Stabilisation Scheme. The economic conditions of the people in the Division were on the whole satisfactory though the conditions of the middle classes showed no substantial change towards better.

Assesed waste
land available
for cultiva-
tion.

563. Out of the total extent of 2,49,367 acres of assessed waste lands available for cultivation at the commencement of the year, an extent of 11,755 acres with an assessment of Rs. 7,041 was taken up for cultivation.

Alienation of
State lands.

564. A total extent of 214 acres and 31½ guntas of land with an assessment of Rs. 203-69 was alienated during the year.

Amrit Mahal
Kaval Lands.

565. An extent of 35,569 acres was available at the beginning of the year and an extent of 30,525 acres was surrendered making a total extent of 66,084 acres. Out of this, an extent of 4,650 acres was disposed of leaving a balance of 61,434 acres.

566. A sum of Rs. 12,779-62 was realised by the disposal of the above lands.

Date Reserve
Lands.

567. Out of 38,475 acres (including 38,445 acres of land available at the beginning of the year and also 30 acres surrendered during the year), an extent of 3,356 acres of land was disposed of during the year which fetched a sum of Rs. 37,192-12 leaving a balance of 35,120 acres for disposal at the end of the year.

Disposal of
Disafforested
arews.

568. Out of 10,767 acres of disafforested area (including 9,285 acres available for disposal at the beginning of the year and 1,483 acres disafforested during the year), an extent of 1,624 acres was disposed of for cultivation during the year.

Darkhasts.

569. Out of the total of 25,301 darkhasts cases including 4,276 of previous year, 20,102 darkhasts cases were disposed of leaving a balance of 5,199 cases at the close of the year. The total extent of land disposed of during the year was 47,592 acres which fetched an amount of Rs. 3,93,576.

Grants under
the "Grow
More Food
Scheme".

570. The total extent of land granted under the Grow More Food Scheme from the beginning till the close of the Scheme was 2,93,583 acres (revised). Out of these grants, 84,813 acres of land were cancelled for violation of the

conditions of the grant. Out of the remaining area, an extent of 1,64,314 acres of land has been confirmed up to the end of the year.

571. Out of a total of 1,491 applications received for grant of subsidy, 1,066 were disposed of leaving a balance of 425 at the end of the year.

Subsidy for
Construction
of Irrigation
Wells.

572. Out of the allotment of Rs. 3,35,000 provided in the Budget for the entire Old Mysore area during the year, a sum of Rs. 1,21,000 was allotted to the several districts in the Division for grant. Of this amount, a sum of Rs. 74,881 was actually distributed to the grantees.

573. The area brought under cultivation with well water during the year was 16,678 acres.

574. The Scheme has been of immense benefit to the ryots in the Division.

575. Out of 85 applications for loans, 48 have been disposed of by grant and 26 by rejection leaving a balance of 11 at the end of the year.

Loans for
Construction
of Irrigation
Wells.

576. Out of the Budget provision of Rs. 3,07,000 sanctioned for the entire Old Mysore area, a sum of Rs. 74,000 was allotted to all the districts in this Division and a sum of Rs. 11,875 only has been actually disbursed to the applicants.

577. Out of 5,644 total applications, 4,717 were disposed of leaving a balance of 927 cases at the end of the year. An extent of 20,371 acres and 56 guntas was granted under Depressed Class Concession Rules.

Grant of Land
Under Depre-
ssed Class
Concession
Rules.

578. The total area under occupation was 64,25,075 acres. The area cropped during the year was 54,34,993 acres.

Area Under
Occupation
and Area
Cropped.

579. The percentage of fallow land to that of the area under occupation during the year was 13.5 (14.33).

580. The total atchkat under Marconahally Reservoir in 30 villages was 14,063 acres out of which an extent of 176 acres and 7 guntas was covered by dry belt zone area.

581. Out of the total demand of Rs. 7,02,373 under Marconahally Reservoir Irrigation, a sum of Rs. 1,83,863 was collected during the year including remissions.

Irrigation
Under Mar-
conahally
Reservoir.

582. A sum of Rs. 1,69,530 was sanctioned as takavi loans to 870 applicants. The total demand for the year including the arrears of previous years was Rs. 22,17,451.

Takavi Loan.

**ADMN. OF
LAND**

A sum of Rs. 6,62,280 was collected leaving a balance of Rs. 15,55,171.

**Land
Improvement
Loans.**

583. Out of 1,502 applications for a sum of Rs. 5,11,500 as Land Improvement Loans, 405 applications for a sum of Rs. 90,675 was sanctioned and 199 applications were pending sanction and the remaining 898 applications were rejected as they did not satisfy the conditions of the grant. A sum of Rs. 2,32,611 was collected out of a demand of Rs. 11,97,370 inclusive of previous year's arrears.

**Record of
Rights.**

584. The Record of Rights Scheme has been introduced into all Government villages as well as to some of the Inam Villages which have been surveyed and settled.

585. Out of 1,94,934 mutation cases inclusive of 57,830 pending from the previous year, 1,16,110 cases were disposed of during the year.

586. Out of a demand of Rs. 3,23,201 including arrears of mutation fees, a sum of Rs. 1,88,305 was collected during the year leaving a balance of Rs. 1,34,895 at the end of the year.

Tanks.

587. There were in all 1,517 major and 5,944 minor tanks in the Division during the year. The number of major and minor tanks in need of urgent repairs was 207 and 739 respectively.

**Chowtayi
Tanks.**

588. There were 173 chowtayi tanks in the Division.

Avenue Trees.

589. During the year, 1,40,005 trees were planted and the branches of 14,434 trees were lopped in the Division. The largest number of trees planted being 55,703 in the Bangalore District.

**Tenancy
Land Admi-
nistration.**

590. Out of 1,978 applications (575 pending at the beginning of the year; 1,403 registered during the year) under Tenancy Act, 1,050 cases were disposed of leaving a balance of 928 cases at the end of the year. In 31 cases, fair rent was fixed and in no case the tenants were evicted during the year.

591. During the year, the Mysore Personal and Miscellaneous Inams Abolition Act was applied from 2nd October 1956 as per Government Notification.

592. The cadastral survey of Inam villages, with special staff was continued during the year to facilitate more inam villages being taken over under the Inam Abolition Act.

ADMN. OF
LAND

593. The total demand under arrears inclusive of Land Revenue Miscellaneous for the year was Rs. 1,10,87,965 (Rs. 1,10,89,141). The collection (including remission) made during the year was Rs. 91,43,778 (Rs. 98,16,842). •

Total
Demand.

594. The arrears including Bellary at the beginning of the year were Rs. 12,72,295 (Rs. 18,32,558), of which Rs. 7,61,376 was collected (including remission) during the year.

Arrears.

595. The current demand (including Bellary) under Land Revenue inclusive of Land Revenue Miscellaneous was Rs. 98,15,670 (Rs. 92,56,583), of this, a sum of Rs. 90,82,432 was collected. The percentage of collections under current demand for the Division was 91.61 (93.2).

Current
Demand.**Mysore Division.**

596. The year 1956-57 season was characterised by uneven distribution of rains which proved inadequate in the early stage and excessive and untimely in the later stage over greater part of the Division.

Rainfall.

597. Light to fair rains were recorded all over the State during the month of April. The rainfall during May was scattered and evenly distributed and felt short of the requirement in all the Districts except Shimoga District.

598. The sowing operations were held up in almost all the taluks of Mysore District and particularly in Mysore, Chamarajanagar, Gundlupet, Hunsur and Nanjangud taluks. Standing crops were reported to be withering in the parts of Mysore District. The rainfall during June 1956, though generally widespread, still felt short of the requirement in Mysore District. More rains were needed to promote healthy growth of standing crops. Sowings of kharif crops and transplanting of paddy were in progress in parts of Hassan, Shimoga and Chikmagalur Districts.

599. Seasonal conditions were on the whole satisfactory in the Division, though in some parts of Mysore and Mandya dry crops suffered in the beginning owing to failure of early rains.

Conditions of
the people.

600. The prices of essential food grains showed no substantial change though the trend was in the upward direction.

ADMN. OF
LAND

601. Fodder and water were available in sufficient quantities to the cattle.

602. *Occupied Area and Tenure*—The total recorded area of the Mysore Division was 1,26,39,893 acres. Deducting the extent of (i) 7,25,404 acres covered by the area for which no returns exist and (ii) 64,25,356 acres consisting of minor inams, forests and kharab lands not available for cultivation, a net extent of 51,86,342 acres was available for cultivation.

603. The net area cropped during the year was 39,01,581 acres.

604. The number of registered Ryotwari Holdings in the Division was 8,03,656 with a total extent in holding of 48,27,314 acres.

605. *Transfer of Lands*.—There were 2,296 transfers of land by the order of courts (Civil and Revenue) involving an extent of 12,426 acres.

606. Transfers by private contracts and mortgages were 80,436 in number involving an extent of 2,25,478 acres.

Labour and
Wages.

607. In the Mysore Division there was no unusual movement of people either from or into the State in search of employment. The usual movement of labourers from South Kanara and bordering villages of Manjarabad Taluk, during coffee and cardamum picking period into the coffee and cardamum growing areas of Malnad Districts, particularly Hassan and Chikmagalur Districts and into Bhadravathi and Shimoga for employment in the Dam and Channel Works relating to Lakkavalli Reservoir continued.

608. Except in the case of Chikmagalur and South Kanara Districts where a slight rise was reported, the rate of wages for both skilled and unskilled labour, cart-hire and handling charges remained stationary in the Division.

609. The demand, collection and balance inclusive of arrears under Principal Heads of Revenue *viz.*, (i) I Assessment on Lands (ii) Quit Rent and (iii) "3 Miscellaneous" for the period from 1st April to 31st October 1956 were Rs. 44,41,035, Rs. 36,10,207 and Rs. 8,13,211, respectively. The remission allowed was Rs. 9,083.

While for the period from 1st November 1956 to 31st March 1957 the total demand, collection, and balance (inclusive of arrears) under the same heads were Rs. 1,22,52,272, Rs. 64,41,666 and Rs. 57,86,875 respectively. The remission granted was Rs. 24,731.

Belgaum Division.

610. The report of the Division is confined to the period from 1st November 1956 to 31st July 1957 of the Revenue year 1956-57.

611. *Belgaum District.*—The average rainfall during the period was 33 inches in the paddy area and 16·83 inches in the dry crop area as against the average of 57 and 24·67 inches respectively of the previous years. Due to heavy and irregular rains, the rabi crops were affected in four villages of Athani Taluka, in 42 villages of Sampagaon Taluka and in 56 villages of Parasgad Taluka and as a result full suspension of Land Revenue had to be granted to 48 villages and half suspension to 82 villages of the Belgaum District under A.O. XXXIII of the Bombay Land Revenue Rules.

612. *Bijapur District.*—The average rainfall during the period was 17·50 inches for the dry crop as against the average of 18·68 inches of the previous five years. Incessant and heavy rains in the months of October and November 1956 were harmful to the standing kharif crops. Both kharif and rabi crops suffered much on account of these rains. The rabi jawar was affected by "Sugar" disease and wheat crop by "Rust" disease. The condition of cotton crop was also not satisfactory due to weeds.

613. As a result of these calamities, suspension of land revenue was granted to 274 villages and half suspension to 388 villages of the District.

614. *Dharwar District.*—The average rainfall during the period was 23·21 inches in the paddy area and 19 inches in dry crop area as compared with 23·2 and 19·8 inches, the average of the previous five years. There was excessive rainfall during the months of October and November 1956 which adversely affected the standing crops of groundnut, kharif, jowar, cotton and chilly and consequently their yield was below normal.

ADMN. OF
LAND

615. *Kanara (North Kanara).*—The average rainfall during the period was well distributed and beneficial to crops and the season was on the whole satisfactory. No suspensions were granted.

616. Scarcity of drinking water was felt from the middle of March to June in the headquarter places of Mundgod, Haliyal and Supa Petha in Kanara District.

617. The supply of fodder in the rural area was on the whole adequate.

618. Public health was generally good except for the incidence of small-pox, cholera and influenza. There was no outbreak of plague during the year in the Division.

Revenue.

619. Out of the net consolidated demand (exclusive of remissions and suspensions) of Rs. 1,10,08,139-91, a sum of Rs. 1,07,21,318-50 was collected. The percentage of collection was 97.

620. In Bijapur District, the construction of Ghataprabha Left Bank Canal work was under progress and it is expected to irrigate about 42,000 acres of land of Jamkhandi Taluka.

Occupied
Area.

621. There was a net decrease of 1,157 acres in the occupied area of the Division as compared with the figures of the previous year due to the receipt of new Akarbands owing to survey of Inam villages and due to re-survey in Bijapur District. The decrease in Karwar District was due to the enforcement of Consolidated Scheme.

Prices.

622. The average wholesale prices of the principal agricultural produce showed an upward trend as compared with the prices of the previous year. That rise in prices had affected the economic condition of the middle class people.

Agricultural
Labour.

623. In Belgaum Division there was no dearth of agricultural labour in any part of the Division. The rates of wages in urban and rural areas in Belgaum and Bijapur were the same as those in the previous year. In Dharwar District, they were slightly higher (25 nP, to 50 nP.) than those of the previous year, while they were slightly lower in Karwar District.

Administra-
tion of
Tenancy Act.

624. Of suits instituted by tenants under the B.T. and A.L. Act, 1948 during the year i.e., from 1st November

1956 to 31st July 1957, 1,242 suits were granted, 454 were rejected and 848 were not decided.

625. Of suits instituted by landlords during the year, 8,283 suits were granted, 2,836 rejected and 3,325 were undecided.

626. The relation between landlords and tenants was cordial except in Belgaum Prant, Raibag Mahal of Belgaum District and Siddapur Taluka of North Kanara District where the relations were rather strained. The maximum rent at 1/6th of the produce continued to be in force during the period.

627. The extension of Left Bank Canal of Ghataprabha in Gokak Taluka has brought 11,399 acres of land under irrigation and 42,000 acres of land in Jamkhandi Taluka.

628. Extraction of Manganese ore in Supa Petha was in full swing which provided employment to a large number of people.

629. A paper pulp factory was under construction at Dandeli in Karwar District.

Gulbarga Division.

630. The rainfall in the districts of Gulbarga, Raichur and Bidar during the year was 44.7, 31.68 and 46.95 inches respectively which works out to an average of 40.20 inches for the Division as against the average rainfall of 28, 21, and 37 inches, respectively in the previous year, which works out to an average of 29 inches for the Division.

Rainfall and
Seasonal
Conditions.

631. The seasonal conditions of crops were unfavourable and the excess of rains caused considerable damage to all the crops. As a result, the Government had to suspend collection of the land revenue.

632. The total area under cultivation and the total area under crops during the year in the Division were 69,59,874 acres and 57,96,040 acres respectively.

Area under
Cultivation
and Area
under Crops.

633. The total number of protected tenants and the area held by them were 78,635 and 14,77,032 acres respectively.

Tenancy
Reforms.

634. The land revenue is collected twice in the year during kharif abi and rabi tabi. During the year, an amount

**ADMN. OF
LAND**

of Rs. 20,62,360 was collected and Rs. 69,03,076 was the balance.

Remission
and Suspend-
sion.

635. Due to general failure of the kharif and rabi crops the Government was pleased to postpone the collections of the land revenue.

Famine
Relief.

636. In Gulbarga District due to the failure of kharif and rabi crops, Rs. 35,000 was sanctioned besides Rs. 1,30,000 sanctioned under takavi apart from the usual takavi of Rs. 2,25,000. The amount was distributed in all the talukas and they were well utilised.

637. In Raichur District, a sum of Rs. 2,05,000 was granted for scarcity relief works during the last week of March 1957 in Raichur District.

638. In Bidar District, an amount of Rs. 30,555 was sanctioned towards famine takavi and the same was distributed.

639. A sum of Rs. 56,000 was sanctioned for sinking of new wells and repairs of the old wells in all the talukas of the Gulbarga District, except Gulbarga and Yadgir talukas which are project areas. Due to bad conditions of the crops, Rs. 25,000 was sanctioned as revenue takavi.

640. For improved seeds and manures, Rs. 5,10,708 was sanctioned in Raichur District.

641. In Bidar District, Rs. 2,43,506 was sanctioned for the purchase of cattle and seeds, Rs. 79,208 for sinking of wells and repairs to old wells and Rs. 40,463 for tractors.

Famine relief
Ameliorative
measures
(Social work).

642. Financial aid in the shape of takavi for purchase of animals, for the construction of the wells and oil engines were being given to step up production and improve the economic conditions of agriculturists. The agricultural department was supplying better seeds, manure and better implements to enable the agriculturists to improve their produce.

643. During the year, an area of 312 acres and 16 guntas was allotted to 18,078 families from Harijan and Backward Classes for house sites and an area of 12,735 acres and 38 guntas was assigned to 1,976 Harijan families and people of the Backward Classes.

644. During the year, an area of 1,025 acres and eight guntas was relinquished under Bhoodan and out of which

183 acres and 16 guntas was assigned to landless persons from Harijan and Backward Classes.

(ii) Land Records, Survey and Settlement.

645. Though the classification of soils is done broadly on the same lines in all the constituent units of the New State, the systems of survey and maintenance are diverse. The question of bringing about a uniform system of survey classification and maintenance work throughout the New State was under consideration.

ERSTWHILE MYSORE STATE.

646. In the Erstwhile Mysore State the following special items of work were attended to :—

(a) Demarcation of 103 blocks covering 324 acres and 37 guntas in Hassuvina Kaval and derequisitioning of 181 acres of land belonging to Krishnarajapuram Military Centre and Ghee Heating Centre was done. Special Item of Work.

(b) Training was imparted to three batches of Patels and Shanbhogues in Yelahanka and Hessarghatta Hoblies of Baṅgalore North Taluk for a period of six weeks.

647. In Government villages, the number of Darkhast Phod and Miscellaneous Records of Rights and Hadbust Records, etc., disposed of during the year was 17,603 (11,845). Work in Government Villages.

648. The details of phod work, classification, bandhpahani and detection of encroachments on Government lands were :—

Sl. No.	Work	Number of villages	Blocks	Area
				Acre Guntas
1	Measurement	8,688 villages plus 4,376 plane table stations with a chainage of 15,571—40 chains.	17,913	55,794—13 1/2
2	Classification	7,728 (2,592)	18,409 (10,725)	41,794—09 (39,483—37)
3	Bandhpahani	4,868 (3,252)	18,665 (12,413)	...
4	Detection of encroachment.	817 (466) cases	...	793 —28 (488 — 7)

649. A sum of Rs. 46,427 (Rs. 44,301) was realised on account of fees charged for phoding survey numbers, etc.

650. Key maps of 931 villages consisting of 99,289 survey numbers were printed during the year. Hand-drawn maps of 61 unsettled inam villages comprising 3,438

ADMN. OF
LAND

survey numbers were prepared. Up-to-date corrections and changes were effected in respect of 14,445 survey numbers in 2,221 copies of printed maps pertaining to several taluks in the State. A set of maps of the New Mysore State both in Kannada and English was prepared.

651. A sum of Rs. 15,017-50 was realised from the sale of maps. The stock of maps at the end of the year was 5,40,305 costing Rs. 13,93,477.

Akarbands
and Phaisal
patrikas.

652. The rectification of Akarband was completed in respect of 1,863 (2,082) Phod records.

653. The work of preparing copies of Akarband and Phaisal Patrikas of 65 (20) inam villages were completed after settlement. Akarbands of 24 (7) inam villages were prepared.

654. Rectification of Akarbands as a result of mistakes detected during mutation measurements was completed in respect of 115 (193) villages.

655. The number of conversion records disposed of was 115 (105). Copies of Akarbands of 10 villages and Phaisal patrikas of two villages were prepared and supplied to various offices for reference.

Scrutiny of
Land
Records.

656. Out of a total of 3,595 Phod records, 3,127 (2,810) were disposed of leaving a balance of 468 (625) at the end of the year.

657. Three hundred and fifty-two opinion records were disposed of out of 438 records.

Mutation
Records.

658. Out of 8,510 mutation records, 2,731 records were disposed of leaving a balance of 5,779 at the close of the year.

659. The total amount realised towards copying charges was Rs. 16,978 (Rs. 15,725).

Remunera-
tion to Patels
and
Shanbhogues.

660. The decennial revision and refixing of potgi were done in respect of 925 and 300 villages, respectively. In addition, biennial and pukka potgi statements were completed in respect of 37 villages.

Survey
Training.

661. Out of 75 candidates recruited by the Public Service Commission, 67 underwent the Survey Training Course, and 56 candidates came out successfully.

Record of
Rights.

662. The Record of Rights was in the maintenance stage in all taluks in the State excluding Bellary District. Inam Assistant Superintendent and District Survey Officer,

Bangalore were in charge of Record of Rights work in inam villages in Bangalore District, wherein field work on large scale had been taken up. In other districts, the District Survey Officers were in charge of this work in addition to their usual duties. The detailed survey commenced from May 1956.

663. There were 483 unsurveyed and unsettled inam villages in Bangalore District. The survey and settlement work was in progress during the year.

664. Record of Rights was introduced in 44 inam villages spread over several taluks in the State.

665. An amount of Rs. 1,16,342 was spent for the above Inam Survey Scheme.

666. Special items of work done during the Second Reclassification work in Hiriyr, Hosadurga and Holalkere were :—

1. Measurement of Phut Kharab brought under cultivation involving a total extent of 12,742 acres and one gunta.

2. Measurement relating to conversion of Phut Kharab into garden or wet involving a total extent of 1,222 acres and 34 guntas.

667. The expenditure under the Reclassification work for the year amounted to Rs. 2,61,898-56 (Rs. 2,82,583-19).

668. In Bellary district, the work of Land Records Department was in charge of District Survey Officer. The filed survey work of 15 villages of ex-Sandur State taken up as per Madras Survey System was completed by 30th June 1956.

MADRAS AREA.

669. The settlement enquiry in respect of the two estates Mullur and Uganiam forming part of Sivasamudram, Jahagir of Kollegal Taluk, which were declared as Inam Estates under Section 9 of the Estate Abolition Act, was completed and settlement introduced. An amount of Rs. 75,000 was provided for payment of compensation to Inamdars.

670. *South Kanara District*—A Survey Training School for training Karnam candidates was held at Moodabidri. The total number of Revenue Registry cases

received was 19,180. During the Revenue year. 7,282 cases were disposed of.

COORG.

671. When Coorg became part of the New Mysore State after the reorganisation, the Deputy Commissioner was placed in entire charge of the Land Records Department.

672. Resettlement operations were in progress. From the middle of March 1957, the writing up of the second copy of the Jamabandi Registers and finalising the village plans was commenced. This work in respect of 20 villages out of 33 Mercara Nad was completed by the end of March 1957.

HYDERABAD AREA.

673. The Hissa Survey work in Gulberga, Raichur and Bidar is entrusted to the Survey parties, from January 1957.

674. The cost of survey per acre varied from Re. 0-79 to Re. 0-58 and for each Survey Number from Rs. 2-88 to Rs. 3-24.

BOMBAY AREA.

675. The Pot Hissa measurement in respect of 22,141 Sub-Divisions was carried out during the year. The cost of the establishment was being recovered from the holders of the Sub-Divisions.

676. Under Post-War Reconstruction Scheme No. 74 (Implementation of the Prevention of Fragmentation and Consolidation of Holdings Act, 1947, Bombay), the staff has measured 2,321 hissas in 58 villages, 42,267 hissas of 145 villages were marked on the village map.

677. The Scheme in respect of 69 villages were taken up, of which schemes for 61 villages were completed and published.

Inams.

678. *Field work*—Detailed survey work was conducted in 22 inam villages comprising 2,322 *plus* 62 Survey Number blocks with an extent of 10,710 acres.

(b) Original Classification work was done in 18 villages comprising 1,873+10 S. No. blocks with an area of 9,577 acres.

(c) Resurvey work was done in 12 villages comprising 110 blocks with an area of 147 acres and 13 guntas.

(d) Reclassification was done in 12 inam villages with an area of 147 acres and 13 guntas, comprising 110 blocks.

(e) Boundary marks were erected in 17 villages involving 2,438 survey numbers.

(f) Hissa survey work was done in 35 villages comprising 7,089 hissas.

(g) Inams tenure was cancelled in respect of three inam lands.

679. Original survey and settlement was introduced in 44 inam villages, besides attending to revision settlement of four villages.

680. Record of Rights was introduced in 44 inam villages spread over several taluks in the State.

CHAPTER VI.—DEPARTMENTS OF FOOD
AND CIVIL SUPPLIES.

(i) Food Supplies.

681. Consequent on the State's Re-organisation from 1st November 1956, the area and population of the State became doubled. Naturally, the food requirements of the State also increased two-fold particularly due to the addition of the acute deficit districts of Bijapur, Bidar and Gulberga.

682. At the time of Reorganisation, there were no separate food supplies establishments in any of the integrated areas except in Bijapur, Gulberga and Raichur districts, and the residuary food supplies work was being attended to by the Revenue establishments.

683. The following figures show the acreage and production of foodgrains of the State including the integrated areas:—

Foodgrains				Area	Production (in tons)
Rice	19,10,274	10,25,285
Ragi	19,14,676	7,43,453
Jowar	65,57,922	8,98,861
Bajra	12,78,940	1,42,342
Wheat	7,27,009	62,623
Minor millets	12,21,329	1,40,019
Total				1,36,05,150	30,07,253

Acreage and
Production
Estimates.

684. The small quantities of deteriorated foodgrains which were in possession of the Department at the commencement of the year were disposed of completely by calling for tenders and in public auction.

685. The construction of 14 godowns out of 25 per cent Food Bonus sanctioned by the Government of India to the State was not completed even during the year and the Chief Engineer in Mysore, Bangalore, was requested to expedite the same.

Storage.

686. Due to the failure of monsoon rains in parts of Mysore and Mandya districts and consequent adverse seasonable conditions, the prices of foodgrains particularly of rice had risen abnormally in the State in about the

Price
Stabilisation
Scheme.

FOOD AND
CIVIL
SUPPLIES

month of June 1956. Immediate measures were taken to afford relief to the distressed persons in the affected areas.

687. In spite of the relief works undertaken, the prices of foodgrains did not show any indication of going down but on the other hand a further upward trend in the prices was observed. The question of further measures to bring down the prices was considered at a meeting held with Deputy Minister for Government of India at Bangalore and it was agreed that about 3,000 tons of Class I dehusked rice which was available at the time in the Central Government godowns at Bangalore to be delivered to the State Government at Rs. 14 per maund (inclusive of gunny) for being despatched to distress areas in Mysore and Mandya districts. It was also agreed to sell rice at three seers per rupee in the distress areas, the loss on this account being borne in equal proportions by the Government of India and the State Government. Accordingly, a steady flow of rice was maintained until a total quantity of 2,426 tons had been moved to Mysore and a quantity of 210 tons of rice to Mandya district. The balance quota of rice was surrendered to the Central Government as the conditions in the distress areas had since improved.

688. In addition to the above relief measures, the Central Government spared also 100 tons of rice for free distribution in the affected areas.

689. The second measure agreed upon at the meeting held on 24th June 1956 with the Deputy Minister for Food, Government of India, was to release first variety rice in Bangalore, Mysore, K.G.F., and Davangere cities in the first instance at Rs. 16 per maund (inclusive of gunny) in ex-Central Government godowns. It was agreed that 5,000 tons of first variety of rice would be allotted to the State in the first instance and it was assured that whatever further quantity might be indented for by the State Government would be supplied by the Government of India. It was also agreed to open Central Government godowns at Mysore, Bangalore, Davangere and K.G.F., and to release the stocks ex-their godowns. It was also agreed by the State Government to issue the rice to *bonafide* consumers at two seers per rupee through Co-operative Societies, Registered Associations, etc, Funds

were advanced to deserving Co-operative Institutions, Municipal and Village Panchayats, Co-operative Societies to purchase the rice stock and to sell it to *bonafide* consumers at two seers per rupee.

690. In addition to the issue of first variety rice at two seers per rupee, second variety rice at two and half seers per rupee was also arranged to be issued through the Fair Price Depots. Millets were not included in the Price Stabilisation Scheme sponsored by the Central Government, and since supplies of the same could not be obtained from any other sources also, as an alternative measure, rice and wheat were released for distribution in adequate quantities.

691. Fifty Fair Price Depots were opened in the Bangalore Corporation area; one Depot in each Division during the year to cater to the needs of the entire population since the distribution through Co-operative Societies and Registered Associations was not quite adequate. A sum of rupees one lakh was advanced to the Corporation of the City of Bangalore for the purchase of rice stocks on consignment basis for issue, through the Fair Price Depots. Similarly, the Mysore City Municipality also opened its Depots for distribution of rice in Mysore City.

692. Mysore State had always been deficit in rice. The Regional Director (Food), Madras, was requested to see that adequate stocks of rice were maintained in all the Central Government godowns and to supply 6,000 tons of rice per month as noted below:—

Bangalore	2,000 tons
Mysore	800 tons
K.G.F.	400 tons
Davangere	400 tons

693. It was also requested to arrange for despatch of 300 tons of rice to the districts of Mandya, Tumkur, Shimoga Kolar, Hassan, Chickmagalur, Chitaldrug and Bellary on F.O.R. destination railhead basis.

694. As there was delay in getting supplies of food-grains from Bombay, the Government of India was requested to open Central Government godowns at Hubli, Bijapur, Karwar and Belgaum so as to ensure regular and

**FOOD AND
CIVIL
SUPPLIES**
—

prompt supplies to the distributing agencies. The Collectors of the said districts were also given an allotment of rupees one lakh each for being advanced to the distributing agencies for the purchase of rice and wheat on consignment basis. The Central Government agreed to open their godowns at Bijapur to strengthen the Depot at Belgaum and to issue rice and wheat to the entire district including the Belgaum Town through the Central Government Godown.

695. In the areas of former Hyderabad State, *viz.*, Gulbarga, Raichur and Bidar districts, there was no price stabilisation scheme. The Collectors were requested to open Fair Price Depots in all the places where there was urgent necessity and to distribute rice and wheat subject to the terms and conditions laid down. The Collectors of these districts also were given an allotment of rupees one lakh each for being advanced to the distributing agencies for the purchase of rice and wheat on consignment basis. The Central Government opened one Depot at Gulbarga to supply rice and wheat to all the three districts from this Depot.

696. In the integrated area of Madras State, *viz.*, South Kanara District, action had been taken under the price stabilisation scheme for the distribution of rice in the towns of Mangalore and Udipi which were the chief consuming areas in the district and where the prices were usually higher than in the other areas. The distributing agencies used to get supplies from the Central Government godown at Kozhikode or Coimbatore and the same procedure was continued for the remaining part of the year.

697. In Coorg, the former Coorg Government had arranged to buy and keep 500 tons of rice as a reserve for meeting possible emergencies. As the prices soared up in July 1956, 15 Fair Price Shops were opened for issuing rice to the consumers at two and half seers per rupee allowing a commission of Re. 0-50 per palla to the depot keeper. About 420 tons of rice out of the reserve stock of 500 tons were issued leaving a balance of 80 tons at the time of integration.

698. The Price Stabilisation Scheme had on the whole a salutary effect on the price in the open market

as it definitely arrested the further rise in prices even though it did not bring any noticeable decline. At the close of the year, there were 612 Fair Price Shops working in the State and a total quantity of about 8,00,000 maunds of rice had been distributed through these depots.

699. The release of sugar from the Sugar Factory with the prior approval of the Government of India was continued during the year. The price of sugar ranged from Rs. 1-28 to Rs. 1-50 per viss (in retail) or Rs. 92 to Rs. 102 per bag of 2 cwt. (in wholesale), during the year.

Sugar and
Jaggery.

700. There was no control over jaggery during the year.

701. The Government in their letter No. SD. 2253, dated 29th June 1956, desired to take up immediately the question of winding up the Food Department by the end of December 1956, by disposing of all the outstanding audit objections in a lump, if necessary, after a personal discussion with the Accountant General.

Proposal for
winding up
the Department of Food
Supplies.

702. In pursuance of these instructions, a meeting was held with the Accountant General in Mysore, Bangalore, and the Accountant General was of the opinion that he could not possibly agree to the write off of the entire outstanding objections in a lump and that every case has to be dealt with individually on its merits. The proposal had therefore to be dropped. The Accountant General, however, agreed that it was left to the State Government to take such measures as further decentralisation of powers, etc., with a view to accelerate the progress of clearance. Action was taken accordingly.

703. All the Unit Officers were instructed to avail of the greater scope afforded by the delegation of enhanced powers to speed up the progress of clearances. At the commencement of the year, the balance outstanding clearance amounted to Rs. 91,00,878 and a fresh demand of Rs. 16,18,912 was booked during the year bringing the total to Rs. 1,07,18,912. Objections to the extent of Rs. 57,74,416 were cleared leaving a balance of Rs. 49,44,496 at the end of the year.

704. A salient feature of the administration of the Department during the year was a complete reversal of

FOOD AND
CIVIL
SUPPLIES

price position from the slump necessitating the intervention of Government so as to guarantee a minimum price to the producer (under the Price Support Scheme) to the other extreme of inflation requiring Government once again to safeguard the interests of the consumer by making food-grains available to him at reasonable prices (under the Price Stabilisation Scheme).

(ii) Food Production.

705. The Department of Food Production which was started in October 1949 was continued during the year.

PROGRESS UNDER THE GROW MORE FOOD SCHEME.

(1) *Scheme for Multiplication and Distribution of Improved Seeds.*—The expenditure under the Scheme was Rs. 83,517-37 against a provision of Rs. 1,37,000 for the year, and the target achieved by the use of improved seeds was 7,523 pallas in an area of 75,230 acres resulting in an estimated additional food production of 3,761 tons.

(2) *Distribution of Fertilisers.*—The progress achieved by the increased use of superphosphate and new fertilisers like urea and ammonium nitrate was as follows :—

<i>Total quantity of Fertilisers distributed</i>	<i>Acreage benefited</i>	<i>Estimated additional production</i>
21,530 tons	2,15 300	26,910 tons

(3) *Manufacture and Distribution of Urban Compost.*—The Urban Compost Scheme was started in 1944 for the purpose of organising the utilisation of town sweepings, sewage etc., as compost manure. The number of towns in the New Mysore State was 289 and the number of towns where compost work was introduced was 183.

To create an incentive in the ryots for using more urban compost to crops, the Government gave subsidy to the ryots by way of meeting the transport charges on compost at Rs. 2 per ton.

To intensify the compost work in the rural areas, the Rural Compost Scheme under the name of "Schemes for development of local manurial resources" was launched.

The total quantity of compost prepared during the year was 99,649 tons benefitting 19,930 acres of land to an additional food production of 4,982 tons.

(4) *Procurement and Distribution of Green Manure Seeds.*—The organic manures applied in the form of farm yard manure and compost were quite inadequate to make up the deficiency and therefore, the growing of leguminous crops and incorporating them into the soil, which is in practice to certain extent, was further intensified to make up the deficiency of organic constituency of the soil. Under this scheme, 833 pallas of green manure seeds were distributed during the year throughout the State benefitting an area of 4,165 acres of land, with an additional production of 416 tons of grain.

(5) *Supply of Electrical and Diesel Oil Pumpsets, Tractors and Persian Wheels on Hire Purchase System.*—This scheme was meant to provide lift irrigation facilities on loan basis to agriculturists owning irrigation wells. During the year, 589 pumpsets, 10 diesel oil engines at a cost of Rs. 7.15 lakhs and 10 tractors valued Rs. 1,43,989 were issued to the ryots under Grow More Food Campaign. The estimated additional production was 2,625 tons.

(6) *Plant Protection Scheme.*—During the year, there were no serious or extensive outbreaks of pests or diseases. An area of 13,000 acres covered up by different food crops on which several pests and diseases were either noted or reported were treated and the adverse effect minimised and the estimated, additional food production was 2,600 tons. The expenditure on this account during the year was Rs. 1,05,219.

(7) *Japanese Method of Paddy Cultivation.*—The area brought under Japanese Method of Paddy Cultivation and the progress made during the year was as follows :—

Target fixed for the year.	1,22,264 acres	
Progress made during the year.	1,00,000 acres	
Average yield per acre by J.M.P.C.	3,810 lbs.	} Old Mysore State figures
Average yield per acre by local method.	2,420 lbs.	
Average additional yield per acre.	1,390 lbs.	

FOOD AND
CIVIL
SUPPLIES

(8) *Fishery Development*.—Due to the States Reorganisation, two districts with a coast-line were incorporated into the Mysore State, as also certain inland areas from Coorg and Hyderabad. The schemes for fishery development in these areas required revision for intensive development.

A total quantity of 13,93,173 (13,38,726) fish fingerlings were stocked in 32,056 acres of waterspread in the erstwhile Mysore State. Five lakhs of fish fingerlings of Major carps, mostly Cirrhina, Mrigal, Labeo, Calbasu and Catla were imported from Calcutta at a cost of Rs. 15,160. These fingerlings were stocked in selected tanks in various parts of the State after rearing for about 3 months in the fish farms.

Seventy-seven thousand carp fry of quick growing varieties imported from Calcutta were first released in fish nurseries at Dharwar.

The quantity of salt issued to the fishermen at the fish curing yards was 70,068 maunds in the integrated areas and a total quantity of 4,32,500 maunds of fish was cured at these yards.

(9) *Manufacture and Distribution of Urban Compost (Loan)*.—Due to intensive propaganda and inducement to popularise the compost production under Grow More Food Campaign, almost all the Municipalities in the State had taken up the manufacture of compost from town wastes.

A sum of Rs. 1,30,000 as loan was sanctioned during the year to Shimoga, Davangere, Nanjangud, Arsikere, Bangarpet and Hassan Municipalities which have slender financial resources, for the above purpose.

(10) *Construction of Irrigation Wells*.—In order to extend the area under irrigation, the scheme of providing subsidy to the ryots desiring to sink irrigation wells, was continued during the year. The subsidy payable was limited to Rs. 250 per well throughout the State; 60 per cent of the subsidy being borne by the Government of India for raising food crops in the area irrigated by the well. Whenever the ryot needed further financial assistance, there was provision to grant them loans up to a limit of Rs. 750 per well, repayable in easy annual instalments.

The progress achieved under the Scheme during the year was :—

<i>Number of wells completed</i>	<i>Acreage</i>	<i>Additional estimated production (in tons)</i>
189	378	189
<i>(More than 1,000 wells were under progress)</i>		

(11) *Minor Irrigation*.—Irrigation works costing over Rs. 50,000 and less than 10 lakhs of rupees were brought under this scheme. As against 47 works programmed for the year, only 12 works were taken up for execution. The outlay for the period was Rs. 4,78,353 assuring water supply to the old atchkat of 4,192 acres and bringing under irrigation an extent of 880 acres of (in Coorg District new atchkat).

(a) *Restoration of Minor Tanks*.—These works contribute towards the assurance of water supply to the old atchkat under them. Out of 907 works taken up for execution during the period in Region "A", 202 works were completed. The expenditure during the period of nine months was Rs. 9,43,777, the area benefitted being 8,724 acres.

(b) *Construction and Improvement to River, Tank, Feeder and Pick-up Channels*.—Works required for effecting improvements to the anicuts, tanks, feeder and pick-up channels to achieve an economical utilisation of water and costing below Rs. 30,000 were taken up during the year. Against 408 incomplete and fresh works programmed for the period, 340 works were taken up, out of which, 60 were completed benefiting to an extent of 10,529 acres of old atchkat. The outlay during the period was Rs. 3,54,743.

(12) *Extension of Power Supply to Irrigation Pumpsets*.—Against the target of extending power to 800 units fixed for the year to benefit an area of 4,000 acres, the achievements during the period have risen up to 1,039 units, the acreage benefitted being 5,180 acres, resulting in an outlay of Rs. 34.60 lakhs.

(13) *Land Reclamation by Manual Labour*.—During the year, 135 individuals carried out the several

**FOOD AND
CIVIL
SUPPLIES**

improvement works covered by Grow More Food Scheme at their own cost by manual labour in an area of 153 acres entitling them to a subsidy of Rs. 8,116-56.

(14) *Distribution of Iron and Steel for Agricultural Purposes.*—During the year, a total quantity of 2,036 tons of iron and steel comprising of M.S. flats for cart tyres, plough points, M.S. squares for axles, M.S. rounds, etc., allotted by the Government of India, Ministry of Food and Agriculture, was distributed among the 87 registered societies and stockists of the State.

(15) *Tractor and Bulldozer Services.*—Having recognised the importance of land development by the use of tractors and bulldozers, the scheme was continued during the year in order to assist the cultivators in bringing vergin lands under cultivation and to improve the out turn by deep ploughing in the cultivated lands. Consequent on the States Re-organisation, 82 tractors and bulldozers were transferred to the New Mysore State from the integrated areas, thus bringing the total to 238 in the New Mysore State.

The total area covered by tractor and bulldozer services during the year was 1,462 acres with an estimated additional food production of 277 tons.

(iii) Civil Supplies.**Textiles.**

706. The following Control Orders were under the administration of the Department of Civil Supplies during the year.—

1. The Cotton Textiles Control Order, 1948.
2. The Cotton Textiles Control of Movement Order, 1948.
3. The Cotton Textiles Export Control Order, 1948.
4. The Mysore Cotton Yarn of Distribution Order, 1948.
5. The Cloth Control Production by powerloom Order, 1956.

Cement.

707. The Mysore Cement Rationing and Licensing Order, 1955, continued to be in force. As against the allotment of 1,41,000 tons of cement during 1955-56, the Government of India increased the allotment to 1,52,310

tons for 1956-57. Out of the quarterly allotment of cement made to the State, 20,000 tons were earmarked for use of the public and the rest for the use of Government Departments.

708. There were 259 licensed cement stockists in former Mysore State and 128 cement stockists in the integrated areas. The distribution of cement in the State has been decentralised. The Deputy Commissioners of Districts, the Sub-Division Officers and the Amildars were authorised to issue permits for cement upto 100 bags, 20 bags and 10 bags, respectively. The Controller of Civil Supplies was issuing permits for quantities exceeding 100 bags to the public in Bangalore City, Civil Area, Bangalore North and South Taluks irrespective of the quantities of cement required by them. The Presidents of Taluk Multipurpose Co-operative Societies have been permitted to issue permits upto five bags. There was complete control over distribution of cement and the free sale concession of 25 per cent of the stocks received by the dealers was withdrawn with effect from 14th May 1956.

709. The following were the prices of cement during the year :—

	<u>Chamundi</u> <u>Brand.</u>	<u>Nilgiri and other</u> <u>Brands.</u>
	<i>Rate per ton F.O.R. destination in full wagon loads.</i>	
1st April 1956 to 30th June 1956.	Rs. 85-25	Rs. 84-25
1st July 1956 onwards	Rs. 102-50	Rs. 102-50

710. After the promulgation of the Cement Control Order, 1956, by the Government of India during June 1956 and the State Trading Corporation came into existence, the work relating to the distribution of cement upto stockists level was taken over by the Government of India.

711. The Cotton Control Order, 1955, continued to be in force during the year and certain categories of ginning and pressing factories were licenced. There were nearly 1,900 'B' Cotton Licenses in the whole of New Mysore State.

**FOOD AND
CIVIL
SUPPLIES**

—
Drugs.

Hoardings and
Profiteering
Prevention
Act, 1948.

Receipts and
Expenditure.

712. The Mysore Drugs Control Act, 1950, remained in force during the year. The extension of the Mysore Act to other integrated areas was under the consideration of Government.

713. The recommendation made by the Commodities Control Committee for the abolition of the Hoarding and Profiteering Prevention Act, 1948, was under the consideration of Government.

714. The total receipts of the Department for 1956-57 amounted to Rs. 50,045 (Rs. 1,14,118-31). The decrease was due to the abolition of levy of centage on cement with effect from 1st July 1956. The total expenditure under all heads amounted to Rs. 36,525-80, leaving a surplus revenue of Rs. 13,519-20.

— — —

CHAPTER VII—AGRICULTURE, FOREST,
CO-OPERATION AND MARKETING.

(i) Weather and Crop Condition

715. The following statement furnishes the particulars of Rainfall (in Millimeters).

District	South-West Monsoon		North-East Monsoon		Total	
	April 1956 to September 1956	Average	October 1956 to March 1957	Average	April 1956 to March 1957	Average

716. The highest rainfall for the year (from 1st April 1956 to 31st March 1957) was 9825.5 millimeters at Augumbe in the Shimoga District. The lowest total for the year was 311.1 millimeters gauged at Hagalvadi in the Tumkur District.

717. The heaviest fall in 24 hours for the year was at Makut in the Coorg District, where a rainfall of 304.5 millimeters was recorded on the 16th August 1956.

EFFECT OF RAINFALL ON PRODUCTION.

718. The 1956-57 season was characterised by uneven distribution of rains which proved inadequate in the early stages and excessive and untimely in the later stages over a large part of the State.

719. Light to fair rains were recorded all over the State during the month of April 1956. This was favourable to some extent to the standing crops like summer paddy,

AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING

sugarcane, cotton, jowar, etc. The rainfall during May 1956 was scattered and unevenly distributed and fell short of the requirements in all the districts except Bellary and Shimoga Districts. The sowing operations were held up in almost all the taluks of Mysore District and particularly in Mysore, Chamarajanagar, Gundlupet, Hunsur and Nanjangud taluks. Standing crops were reported to be withering in parts of Mysore District. The rainfall during June 1956 though generally widespread, still fell short of the requirements in Kolar, Tumkur and Mysore Districts. More rains were needed to promote healthy growth of the standing crops. Sowings of kharif crops and transplanting of paddy were in progress in parts of Hassan, Shimoga and Chikmagalur Districts. Conditions, somewhat improved during the month of July 1956. Sowing operations of dry and wet crops were completed in almost all the districts. Rains during the second fortnight of July 1956 helped standing crops to a certain extent. The rainfall during August 1956 was much below the average in all the districts. Sowing operations were held up in parts of Tumkur District for want of rains. Transplantation of paddy could not be taken up in Chamarajanagar and Gundlupet taluks of Mysore District, due to inadequate supply of water in tanks.

720. The standing crops showed signs of withering owing to failure of rains during September 1956, in parts of Bangalore, Tumkur, Mysore and Mandya Districts. The rainfall received in October 1956 proved somewhat excessive. Unprecedented rains during the first fortnight of October 1956 throughout Mysore State caused considerable damage to crops, roads and bridges. Many tanks were breached in Kolar and Tumkur Districts. Consequently, standing crops under tank atchkats were washed away. Harvesting of ragi, jola, minor millets, paddy, til and groundnut was in progress by the end of the month. Light to fair rainfall was recorded during November 1956. There was no rainfall during the months of December 1956 and January 1957 except for light showers during the first week of December 1956 in Bellary District. Standing rabi crops thrived well. Sowing of paddy was nearing completion in parts of Kanara District. Except for light showers of rain

in parts of Hassan, Chikmagalur, Bidar and Gulbarga districts, there was no rainfall during the month of February 1957. Planting of sugarcane and harvesting of rabi, jowar, wheat and gram were nearing completion, while cotton picking and ploughing and harrowing of lands were in progress by the end of March 1957. Rabi crops in parts of Raichur District were reported not satisfactory.

(ii) Agriculture.

721. Within the resources available at its disposal, the Department of Agriculture was steadily pursuing its policy of amelioration of the conditions of the ryot class, with a view both to enrich the cultivator and to help the country in wading through its difficult and onerous responsibility of finding food to the people, by producing more and more of food.

722. The average rainfall received in the Bangalore Division was 31.95 inches during the year. For the preparatory cultivation, the rains received were generally insufficient followed by the excessive rainfall in the succeeding north-east monsoon. The excessive rainfall received in September and October 1956 in the district of Tumkur caused the break of major tank in Kunigal Taluk.

Rainfall and
Agricultural
Seasons.

723. The rainfall received in the Mysore Division was 85.61 inches. Failure of rains gave rise to distress conditions in the Mysore District. Monsoon rains were scanty followed by heavy downpour of north-west monsoon rains during October 1965.

724. The rainfall received during the year in the Dharwar Division was 63.75 inches. Rains received in May 1956 were helpful for preparatory cultivation. The heavy rains that followed in June and onwards, necessitated the postponement of sowing of kharif crops.

725. The total rainfall received in the Raichur Division was 88.66 inches during the year. Premonsoonic showers received helped the tillage operations to the kharif lands. The heavy late rains received during the flowering and maturity periods of kharif crops had an adverse effect on them. Cotton crop suffered in Bellary and Raichur districts. The abnormal showers received in the Division not only deteriorated the quality of the various crops but also reduced the per acre production of crops considerably.

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

Improved
varieties of
crops.

726. As a result of continued research by departmental scientific sections and experimentation in the Governmental farms, the several improved varieties of crops were introduced under the principal crops, both food and commercial, for bulk cultivation.

727. In the erstwhile Mysore State, under paddy, strains like Ratnachoody (S. 749 and S. 718), Coimbatore Sauna (S. 661 and S. 699), Alur Sanna (S. 199 and S. 701) cover the bulk area under improved varieties. Bangarakovi (S. 1092) was gaining good popularity. Short duration varieties like S. 317, S. 705 and China 45, 2 and China 10 and Baroda varieties were introduced and these were widely cultivated. The demand for Baroda variety was great owing to its being a dry crop and of short duration.

728. Under ragi, varieties like H. 22, Co2 and Ro. varieties were introduced and they cover wide areas, replacing the local ragi varieties. For cultivation in summer, E. S. 11 and K.I. were very well suited and were widely popular. The recently introduced variety "Aruna" was also very popular.

729. Under Sugarcane, the varieties popularly grown were, H.M. 320 and Co. 419. The area under Co. 419 was very extensive.

730. Under cotton, the varieties grown were M. A. 5, Laxmi, Jayadhar and Selection 69.

731. In Dharwar Division, M. 81 and M. 24 and A-90 were popular.

732. In Raichur Division, under paddy varieties, H.R. 35 was a later maturing variety mainly sown in Rabi season. It is fine in character and takes excellent polish.

733. The area under improved varieties was steadily increasing and there were attempts to bring more and more forest lands under cultivation.

734. Some of the important activities of the Department that were undertaken with a view to improving the conditions of the agricultural class and step up food production were :—

(1) Japanese Method of Paddy Cultivation—

This system of cultivation not only minimises the sowing seed but also increases yields. As an adjunct to this, silt water selection of seed and raising nursery raised seed bed were extensively adopted. The average yield per acre by means of Japanese method of paddy cultivation on the local

Improvement
in Agriculture.

method was 4,310 lbs. per acre. Japanese method of nursery and line planting has given the highest yield. During the year, an area of 1,75,326 acres was brought under this method of cultivation.

(2) Application of compost to crops.—The application of compost was increasingly becoming popular and compost was in great demand. The subsidy offered in the way of transport charges etc., was a filip for its use.

(3) Improved seeds, implements and chemical fertilisers were procured by the Department through subsidised growers and experimental farms for distribution to ryots.

(4) Treatment of seeds before sowing against seed borne diseases.—This acts as a prophylactic measure against the attack of crops by diseases.

(5) Introduction of vegetative green manurial crops.

(6) Contour bunding to stop soil erosion and to conserve soil moisture.

As a result of these steps, the percentage of area under improved strains of crops has been increasing year by year.

(7) Tractor ploughing of land by tractors was found to be more effective and economical. There was a growing demand for the tractor service. During the year, an area of 11,272 acres was ploughed by tractors.

(8) Opening of demonstration plots under various crops, *viz.*, manurial, cultural and varietal in the fields of ryots.

(9) Reclamation of lands by bulldozing.—The demand for bulldozer services was also on the increase. During the year, the bulldozer services were given for 16,121 hours. In addition, 1,065 acres were levelled.

(10) Testing of soils for their contents and advising improvements by way of supplementing soil deficiencies.

(11) Treating of crops against the attack of pests and diseases.—The treating of crops against pests and diseases, unknown a few years ago, has now become very popular. To combat against the pests and diseases that attack the crops, latest appliances and fungicides and insecticides were employed.

735. Besides the above, the departmental staff advised the ryots in the proper and scientific cultivation of lands, by the application of improved seeds and artificials, and also

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

participated in the Vanamahotsava and advised ryots in the matter of planting trees.

736. The acreage and production of the principal crops of Mysore were:—

**Acreage and
Production.**

No.	1956-57		1955-56	
		Area in acres	Production in tons	Area in acres	Production in tons

**Agricultural
Chemistry.**

737. Agricultural Chemistry section continued to be engaged in analysis of samples of soils, manures, fertilisers and plant material received from the cultivators for advice and also samples arising on the fields in the various experimental farms.

738. It was observed from the experiments on paddy and ragi that the responses to phosphates were better when the same was applied intimately mixed with farm manure and it was particularly mixed when the two were allowed to ferment for some time.

Yield of grain and straw in lbs. per acre.

	Paddy		Ragi	
	Grain	Straw	Grain	Straw
Farm Manure alone ...	2,747	4,960	1,010	1,630
Farm Manure and superfermented for one month ...	3,187	4,827	1,250	1,920

**Compost
Scheme.**

739. Compost is prepared from town refuse collected by the sanitary staff of the town. The Budget provision of the scheme during the year was Rs. 1,20,250. In addition, a loan of Rs. 1,30,000 under the scheme was provided by the Government of India for the intensification of the compost production. The total production of urban

compost during the year was 89,018 tons. The achievement in production has exceeded the target fixed. This represents an acreage of 17,804 benefitted and an extra food production of 4,451 tons valued roughly at Rs. 8,90,200.

740. The production of urban compost in the integrated areas was 67,122 tons.

741. Apart from the production and distribution of compost, experiments were also conducted to test the relative efficacy of town waste compost as compared with farm waste compost and farm yard manure and found a superior effect on the yields due to the application of town compost as compared with that of farm yard manure and farm waste compost.

742. Planting of trees like Glyricidia round about the Compost Yards was advocated and this is becoming gradually popular. During the year, 75,000 trees were planted.

743. Under the Sewage and Sullage Utilisation Scheme, Mysore was the only city in the State where a Plant for the purification of sewage was constructed. The effluent from the septic tanks was used for irrigation purposes, the Municipality possessing 365 acres farm where vegetables, fruits, grass, coconuts, etc., were grown. The Plant was further extended to provide four million gallons of effluent per day. Considerable profit was earned by the Municipality under the Scheme.

Sewage and
Sullage
Utilisation
Scheme,
Mysore City.

744. Under the Rural Compost making, 5,163 new compost trenches were dug and 1,65,525 tons of cattle dung compost were prepared and used. Rural Compost was introduced in 8,522 villages during the year.

745. Under Localisation, the total area for irrigation on the Mysore side in Hospet, Bellary and Siruguppa taluks was 92,339 acres serving 120 villages.

Tungabhadra
Project.

746. With a view to get the area cultivated and to help the ryots financially, a sum of Rs. 3,88,398 was distributed to the ryots through Co-operative Societies, Revenue Department as Land Improvement and Takavi loans. In addition to this, the N.E.S. of Bellary and Siruguppa Taluks also distributed a sum of Rs. 1,25,000 for the development of Ayacut.

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

**—
Plant
Protection.**

747. There was no serious and extensive outbreaks of pests or diseases during the year. It was gratifying to note that there was appreciable awakening on the part of cultivators to the necessity for plant protection measures and effective and quick measures were undertaken by the Department.

748. The highest incidence of pests and diseases was recorded on paddy. A total area of 18,920 acres of paddy were treated during the year. In addition, as a prophylactic measure, seed paddy to cover 1,385 acres was dressed with the fungicide. As usual, case-worm, stem borer and blast disease were responsible for more than 2/3 of the acreage.

749. The Pest Act was in force in the districts of Hassan and Chikmagalur. The Coffee Borer Fieldmen were continued during the year.

**Agricultural
Education.**

750. The following Institutions were imparting Agri. cultural Education :—

Erstwhile Mysore State :—

1. Agricultural College at Hebbal.
2. Agricultural School at Hebbal.
3. Basic Agricultural School, R.K. Shala.
4. Basic Agricultural School, Somanahalli, Maddur.

Integrated Areas :—

1. Agricultural College, Dharwar.
2. Basic Agricultural School, Munirahad.
3. Agricultural School, Bagalkot.
4. Agricultural School, Devihosur.
5. Agricultural School, Atbhavi.
6. Agricultural School, Kumta.

751. *Agricultural College, Hebbal, Bangalore.*—The strength of the College during the year was 246. The strength of the School was 138. Three Merit Scholarships, 27 Backward Community Scholarships and 65 Free Studentships were awarded to the students of the College and for the students of the School, 3 Merit and 21 Backward Community Scholarships were awarded.

752. The annual Budget of the College was Rs. 2.08 lakhs.

753. *Agricultural College, Dharwar.*—The strength of the College was 251. Thirteen Merit Scholarships were awarded to the students of the various classes. The College

had undertaken Post-graduate instruction in ten sections, each being in-charge of a Professor. The College Estate comprises of 1,771 acres spread over several sections of the farm. The Veterinary Section of the College runs a hospital for the treatment of live-stock of the College as also of the public. The agronomy of the College consists of 800 acres.

754. The expenditure and receipts of the College Farm for the year was Rs. 83,146 and Rs. 1,03,700, respectively.

755. The financial statement of the College for the year was as follows :—

			Rs.
Establishment	2,31,451
Contingencies	1,70,873
	Total	...	4,02,324
Receipts	1,64,726

756. There were 30 Agricultural Research Stations in the New Mysore State started in different periods with the object of conducting experiments on the cultivation of wet and dry crops and to demonstrate to the ryots of the surrounding areas, the improved methods of cultivation scientifically. The farms attached to these Stations were engaged in the activities of multiplication and distribution of improved varieties of high yielding, drought resistant selections of seed paddy, ragi, groundnut, cotton and green manure seeds, pulses and oil seeds, etc. In addition, the use of insecticides and adoption of crop rotations by the cultivators goes to the credit of the farms attached to these Research Stations. The compost making demonstrations with farm waste, rubbish, etc., on the farms proved popular among ryots. The farms attached to these Research Stations were the centres of visual education.

Agricultural
Research
Stations.

757. The results of the scientific experiments conducted on the Research Stations were brought home to the very doors of the ryots in supplying improved seeds and chemical manures by way of opening seed multiplication farms, subvention and demonstration farms in ryots fields.

758. In the Agricultural Research Station, Mandya, the preparation of clean jaggery by using activated carbon and improved furnace was an achievement. The improved furnace was very popular in that area.

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

**Cotton
Development.**

759. The total extension of acreage under the Cotton Extension Scheme during the year was 28,09,353 (4,09,929). The total quantity of improved cotton seeds distributed was 1,18,398 mds. The percentage of area under improved varieties to the total area under cotton was 68 (75) per cent. The total production of cotton during the year was 3,13,041 (1,03,929) bales of cotton.

760. Sufficient propaganda was conducted regarding the use of improved dibbling cotton seed instead of sowing wherever possible. In addition to these, cotton cultivators were educated regarding the treatment of cotton seeds for controlling pests and diseases. Treated seeds were sown over an area of 10,000 acres in Chitaldrug and Dharwar districts.

761. The object of the Cotton Development Scheme financed by the Indian Central Cotton Committee, Bombay, was to explore the possibilities of growing Sea Island Cotton as a rainfed crop in Kumari or dry lands of South Kanara District and to find out the optimum manurial and cultural requirements of the crop.

762. Six varieties of Sea Island were tried in a randomised replicated trial. The results show that variety Andrews with an acre yield of 929 lbs. is significantly higher yielding than other varieties. Bolls being 19 per plant as against 12 to 15 recorded by the other varieties. The treatment receiving 60 lbs. of nitrogen per acre in a randomised replicated trial recorded the highest yield.

763. The four agricultural colonies three in the Visweswaraiah Canal area and one under the Marconahalli Reservoir ayacut area, continued to work during the year.

764. Orders were received to grant the proprietary rights to these colonists over the colony lands where they actually reside, under certain conditions.

765. An outstanding event of the year was the holding of the Agricultural Seminar in Hebbal during May 1956. More than 300 delegates from all over the State participated in the seminar. The First Young Farmers' Convention of the State was held at Shimoga during November 1956, in which the whole of the enlarged State of Mysore was represented.

**Agricultural
Colonies.**

766. The Agricultural Schools were being converted into Basic Schools to impart training in Agriculture to the sons of the cultivators. This, not only ensures scientifically and practically trained agriculturists but also provides personnel to serve the village community.

(iii) Forests.

767. The Re-organisation of the State, resulted in the creation of two Conservators Circles, one called the Coorg Circle and the other called the Bellary Circle in addition to the two existing Circles, namely, the Shimoga Circle pertaining to the old Mysore State and the Belgaum Circle pertaining to the old Bombay State. The Forest Department consists of four Conservators controlling charges with one Chief Conservator as the head of the Department. General.

768. The Old Mysore State had 5095·66 square miles of forest area under its Forest Department. The forest area of the integrated areas as shown below was 8,457·49 square miles thus bringing the total forest area of the New Mysore State to 13,553·15 square miles.—Extent of State Forest Area.

Bombay State (Belgaum Circle) ...	4,717·57
Coorg State ...	516·89
Hyderabad State (Gulbarga Division) ...	638·51
Madras State (South Kanara and Kollegal Divisions) ...	2,585·02
Total ...	<u>8,457·49</u>

769. Out of the total area of 13,553·15 square miles, 12,112·53 square miles were in charge of the Forest Department and 1,440·62 square miles were in charge of the Revenue Department.

770. The smugglers of sandalwood and timber were prosecuted. Spike disease continued to take a heavy toll of sandal trees in the districts of Bangalore, Kolar, Tumkur, Hassan, Mysore and Coorg. Investigation of this disease was one of the main problems tackled at the Forest Research Laboratory, Bangalore, lately transferred to the Central Government. Protection of Forests.

771. Animal pests.—Bisons, sambhars and pigs caused the usual damage like trampling, debarking, and uprooting plants in the younger teak plantations of all the Divisions.

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

Wild boars also damaged Simethangadi (*Cassia Siamea*) plants in the plantations of Ayanur Range in Shimoga Division. Rodents caused considerable damage to seedlings in teak nurseries by nibbling the carrots. In Chikmagalur Division rodents were reported to have caused extensive damage in teak plantations by uprooting the planted teak stumps and eating away the carrot.

**Protection
from grazing.**

772. In the Old Mysore State, cattle grazing was free excepting in Bellary Division. It was also free in Belgaum Circle. In the remaining integrated areas it was not free.

773. The total revenue realised under "Grazing" on pre-paid licenses, concessions, leases, etc., amounted to Rs. 47,958-41.

Drought.

774. In Hassan and Chikmagalur Divisions late on-set of the monsoons delayed planting operations. In Bangalore District heavy casualties were reported in Casuarina plantations due to drought. Plantations in Tumkur District also suffered from this cause.

Insects.

775. Teak defoliation was severe in all the plantations of Shimoga Circle. In Kakanakote Range of Mysore Division defoliation was not severe. Grass-hoppers caused severe damage to Casuarina plants in Mandya Range of Mysore Division (Coorg Circle). Stem borers attacked Casuarina plants in Bangalore District.

Silviculture.

776. The forests in the four circles of Mysore State viz. (i) Belgaum (ii) Bellary, (iii) Shimoga and (iv) Coorg were managed under the different silvicultural systems sanctioned as per working plans.

777. In Shimoga Circle, suitable modifications were made to meet the situations arising from the execution of Major Hydro-Electric Project in Shimoga and Sagar Divisions. In Coorg Circle, North and South Coorg Divisions, the deciduous forests were worked under clearfelling and planting, and the evergreen forests under selection system. The fuel forests of South Kanara and Kollegal Divisions in Coorg Circle, and Chitaldrug, Kolar and Tumkur Divisions in Bellary Circle were managed purely under coppice system.

778. In Bellary District, the system followed was coppice with standards and selection felling in respect of timber species. In Gulbarga Division, the forests were managed with coppice with reserves system.

779. The natural regeneration of teak was not encouraging, but that of its associates however, like *Dalbergia latifolia*, *Terminalia tomentosa* and *Pterocarpus marsupium* was good.

780. In the mixed deciduous forests of Belgaum Circle natural teak regeneration was not adequate, but bamboo was doing well.

781. Sandal regeneration was found throughout its natural habitate. The growth of cane in the evergreen and semi-evergreen forests of the Kanara Districts was satisfactory.

782. In Bellary Circle, the natural regeneration was fair. Teak regeneration in some areas like Chincholi and Dharu, Kodangai and Yadgu Ranges was meagre and that of sandal very poor.

783. In Shimoga Circle, the natural regeneration of teak in moist deciduous tracts was poor, but that of *Pterocarpus*, *Dalbergia* and *Terminalia*s and *Adina* was adequate. Natural regeneration of bamboos by seeds was profuse. Sandal regeneration was good in Hassan and Arsikere ranges only.

784. In Coorg circle, natural regeneration of moist deciduous species like Teak, *Dalbergias* and *Terminalias*, etc., was scarce in Masal Valley of Kakankote State Forest and portions of Murkal, Kachuvanahalli and Anechowkur State Forests.

785. In south Kanara, there was fair regeneration of *Hopea*, *Dalbergia latifolia*, *Terminalia tomentosa*, *Terminalia paniculata* and other fuel species, but that of teak was scanty. Natural regeneration of evergreen species and also of soft wood species was very satisfactory.

786. Sandal regeneration was good. There was profuse regeneration of *Evodia roxburghiana* in the semi-deciduous areas where matchwood species were grown artificially.

787. Belgaum Circle.—A total area of 2,431.54 acres was planted with teak. Of these, 965.54 acres represents plantations raised under Agri-silvi method. Along the coastal belt of Kanara Western Division, 74.50 acres were planted with *casuarina*.

788. Bellary Circle.—One hundred acres were planted with sandal; 1,135 acres with *Eucalyptus*, *Albizia* and

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**
—

Acacia etc., also 944 acres under the Afforestation of Waste Land Scheme. Under the Second Five Year Plan, 4,940 acres were planted with fuel species under Soil Conservation and another 200 acres under Anti-erosion, respectively. Sandal dibbling on mounds was done over an area of 650 acres.

789. Shimoga Circle.—About 747·50 acres were planted with teak, and 225·50 acres with Eucalyptus hybrid. In Sagar and Shimoga Divisions sowing of sandal quincuncially at every fifth stake in teak plantation was tried as an experimental measure. Regular plantations of sandal by sowing seeds of sandal and host together were carried out over an area of 230 acres.

790. Coorg Circle.—Two thousand sixty-six and half acres of teak plantations were raised in Mysore Division. Fuel plantations to the extent of 90 acres were raised. One thousand root cuttings of *Boswellia serratta* and 300 branch cuttings of *Glyricidia maculata* were planted in open blanks on Chamundi Hills.

Exploitation
by Govern-
ment Agency.

791. The exploitation of timber, firewood and bamboos was determined by the prescriptions of the sanctioned working plans. In Shimoga Circle, exploitation was mostly confined to river valley (Bhadra Reservoir) subinersion areas and the areas released for the rehabilitation of displaced persons. Sandalwood collected at the koties in the integrated areas of Kollegal, Coorg and Belgaum was disposed of by public auctions.

792. The total out-turn, in all the four circles of the State (including integrated areas) during the year was 17,59,707 c.ft. (35,194·14 tons) of timber, 1,532 nos. teak ballies, 26,803 nos. teak poles, 4,805 nos. other kinds of poles, 12,317 nos. balagi and other transmission poles and 50,681 sleepers.

793. The disposals were, as usual, by periodical auction sales, retail sales at sanctioned rates, supplies to Departments of the Government of India and of Mysore and private industrial concerns.

794. The total collections of sandalwood during the year were 1,152·14 tons in old Mysore State, Kollegal, South Kanara and Coorg and 6,282 sandal trees in Belgaum.

795. The ivory collected during the year was--

<i>Division.</i>	<i>Lbs.</i>	<i>Ozs.</i>

796. Out of this, 154 lbs. and 15 ozs. of ivory was supplied to Sri Chamarajendra Technical Institute, Mysore.

Forest Industries.

797. Out of 1,326.3 C.ft. of sizes and 16,500 R.ft. of reepers received from the Government Saw Mills, Shimoga, for the manufacture of benches, stools and blackboards, 1,166 benches, 674 stools and 188 blackboards were manufactured and supplied to the Educational Institutions.

Central
Wood
Working
Factory
Tumkur.

798. Out of a total demand of Rs. 41,522-16 including the opening balance of Rs. 8,296-87, a sum of Rs. 32,432-34 was recovered leaving a balance of Rs. 9 089-81 at the end of the year. The expenditure during the year was Rs. 19,872-89.

799. This Plant, one of the oldest in South India, was started in the year 1928 and is continuing to work satisfactorily ever since. Here, Railway sleepers and Electric transmission poles were chiefly treated. The treatment was under the "Full Cell or Bethal Process" with a 50 : 50 mixture of coal tar creosote and light diesel oil. The capital outlay on the Plant, equipment and buildings at the close of the year was Rs. 1,35,044. One lakh, five thousand five hundred and sixty-three C.ft. (1,08,402 C.ft.) of poles, sleepers and sawn sizes were treated for the whole year using 64,358 gallons of preservative oils, 489 tons of firewood were consumed by the boiler.

The Govern-
ment Saw
Mills and
Seasoning
Plant,
Shimoga.

801. The Mill worked satisfactorily throughout the year. The gross revenue has been computed at Rs. 2,66,912. The revenue expenditure, of Rs. 2,08,389-8, and the value of timber of Rs. 2,736-31 are set apart for the depreciation of the assets. The net profit has been computed at Rs. 31,154-6.

802. The other forest industries of the Department situated in the integrated areas were (1) The Jai Hind Saw Mills, Dandeli, (2) Joida Saw Mills, Joida, and (3) The Government Saw Mills, Murkal in Coorg.

803. The other private industries were (1) Two private Saw Mills (Belgaum Circles), one at Alnavar in Kanara Northern Division and the other at Kirwatti in Kanara Eastern Division, (2) Indian Plywood Manufacturing Co., Ltd., Dandeli, (3) Paper Factory, Dandeli, (4) Hindmatha Industries Ltd., Hubli, (5) The Bombay Wood Distillation Factory (Belgaum Division).

804. The demand, collection and balance of the Forest Department were Rs. 3,73,08,513-70, Rs. 2,75,46,071-45 and Rs. 94,62,048-39, respectively.

805. The gross revenue of the Forest Department for the year was Rs. 2,75,46,071-45 and the total expenditure under 10 Forest (b) Conservancy and works and Development was Rs. 88,22,673-25, the net revenue surplus being Rs. 1,87,23,398-20.

Research and Experiments.

806. Most of the research work done was carried out by the Silviculturist of the Old Mysore State or generally under his technical guidance. The Silviculture units of the Bombay State and the old Coorg State continued to function under the respective Divisional Forest Officers and carried out the usual programme of works allotted to them.

807. Research work in the Divisions progressed as per sanctioned programme. The purpose of research was mainly to study the Silvicultural characteristics of the important forest trees and to accelerate soil and moisture conservation. At the Marasandra centre (representative of dry deciduous type) best method for raising successful plantations in moisture deficient areas was tried out.

808. The study of species included all the different types, viz., evergreen, semi-evergreen, deciduous, etc., existing in different parts of the State.

809. At Gajanur in Shimoga Research Centre, 1,685 pounds of *Ocimum Kilimandscharicum* herbage was distilled for the extraction of Camphor oil by installing a distillation unit.

810. There were three Lac Centres under the control of the Silviculturist. In two of them, *viz.*, Tumkur and Madhugiri Centres, a total quantity of 329 maunds (of 28 lbs each) and 15 pounds respectively was produced. "Kusum" lac was grown in one centre only, namely, Savandurga. In this centre, a quantity of 83 maunds and 22 pounds was produced on Kusum trees. The lac was exclusively supplied to the Government Lac and Paint Works at Mysore.

Lac Cultiva-
tion.

Development Schemes—Second Five-Year Plan.

811. The following development schemes included in the Second Five-Year Plan were executed :—

1. *Rehabilitation of Degraded Forests (Afforestation of Waste Lands):*—The amount spent for the rehabilitation of degraded forests was Rs. 95,222 against the allotment of Rs. 1,00,000. Nine hundred and ninety-six acres of plantations were formed besides replacement of failures in the plantations of previous year.

2. *Lac Cultivation:*—The amount spent on Lac Cultivation was Rs. 7,287. The total quantity of crude lac produced was 373. mds and 9 lbs. About 560 mds. of lac were in stock at the end of the year.

3. *Soil Conservation (Afforestation):*—The amount spent on soil conservation was Rs 3,50,319 against the allotment of Rs. 4,40,000. Soil Conservation works followed by planting of suitable fuel species were done over an area of 7,006 acres. Pre-monsoon earth work was done over 1,000 acres.

4. *Matchwood Plantations Scheme.*—The expenditure under the scheme was Rs. 38,368.

5. *Development of Communications, Roads and Buildings*—The amount spent under this scheme was Rs. 87,073 against the allotment of Rs. 1,96,000.

6. *Rehabilitation of Forest Areas with Teak where Bamboo Flowering is imminent:*—The amount spent on this was Rs. 16,080 against Rs. 18,000 allotted. One thousand, eight hundred and twenty-five teak nursery beds were formed

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**
—

to ensure stock of stumps for planting during 1957-58. In Belgaum Division, about 32 acres were planted up with teak and S-awar (Bombay malabaricum).

7. *Establishment of Wet Nurseries.*—The amount spent was Rs. 31,381 against the allotment of Rs. 38,000. Twenty-one wet nurseries of 240 beds each were formed.

8. *Regional Foresters' and Guards' Training Class.*—The amount spent was Rs. 16,042 against Rs. 11,000 allotted. Twenty-nine students were trained and the class was closed down in January 1957.

9. *Planting of Agave Hedges.*—The amount spent was Rs. 13,221 against Rs. 15,000 allotted. Agave bulbils were planted over a length of 12 miles in Northern Division, Kanara, 19 miles in Dharwar and 16 miles in Belgaum Division.

10. *Scheme for Raising Teak Plantations.*—The amount spent was Rs. 11,405 against the allotment of Rs. 40,000. In Belgaum Circle, 400 acres were given out on contract for clearfelling, for raising the plantations during the next rains, and 175 acres were brought under artificial regeneration. Eighty bags of teak seed were collected.

In Coorg Circle, 20 acres of teak plantation was raised in Kollegal Division.

11. *Forest Rehabilitation Scheme (Drawing up of working plan for the unorganised Forests of Kanara District).*—The amount spent on this scheme was Rs. 84,086. Out of the total gross area of 850 sq. miles of unorganised forests of North Kanara District, an area of 86.45 sq. miles was inspected and sample enumerations carried out.

12. *Establishment of Seasoning Kiln at Murkal in Coorg South Division.*—The amount spent was Rs. 33,332 as against Rs. 48,000 allotted. This amount was invested on the purchase of machinery and the construction of the Kiln building.

Welfare Activities of Backward Classes and Scheduled Tribes.

Free grant of
Tali Palm.

812. In Belgaum Circle the deserving poor people of Bhatkal, Honnavar, and part of Kumta Taluks lying to the South of Aghanashni River, the majority of whom belong

to Backward Classes were granted Tali Palm to the extent of 1,800 annually from the forests free of charge. The powdered pith of these palms is used by them as food mixed with ragi, and this incidentally contributed to some extent to ease the food scarcity in these localities.

813. The forest lands to the extent of 701.31 acres were given out to 573 Backward Class members under the Agri-Sylvi method in Kanara Western Division, and Belgaum Division. Forest lands were also given out for cultivation on temporary leases.

814. In Shimoga Circle, there were 17 colonies of Mahratta Kumbies with 120 families in Sagar Division, their total strength being 645. These settlers, as usual, rendered services to the Department in clearing forest demarcation lines, raising plantations and attending to their cultural operations. Their general health was good.

Settlement of
Mahratta
Kumbies in
Sagar Divi-
sion.

815. Doors, windows, sawn sizes, and reapers were supplied from the Government Saw Mills, Shimoga, to the Revenue Department for free supply through Amildars to members of the Depressed Classes.

Building
Materials for
Depressed
Classes.

816. The Kadukurubars and Sholigars were also given land for cultivation under "Thakkal" system and made to introduce agricultural crops in teak plantations. The Kumridars and landless people in South Kanara were also allowed to raise food crops such as paddy, ragi, etc., under Kumri system in clearfelled areas. In Kollegal Division, the Sholigars continued to enjoy the lands leased to them free of assessment. They have nine settlements within Reserve Forest areas with a total population of 299 persons.

Land for
Cultivation to
Wild Tribes,
etc.

817. The concessions extended by the Government under "Malnad Improvement Scheme" were availed of by the ryots of Heggadadevanakote and Hunsur taluks.

Wild Life Preservation.

818. Protection of wild life continued to be one of the important activities of this Department.

819. The Venugopal Wild Life Park (310 sq. miles) of which the Bandipur Game Sanctuary (22 sq. miles) forms the sanctum-sanctorum and Jagar Valley Wild Life Park (61.29 sq. miles) were well maintained. The Dandeli Game Sanctuary (80 sq. miles) in Belgaum was also maintained satisfactorily. There was no alteration in the area

**AGRI.,
FOREST.
CO-OPN. &
MARKET-
ING**

of the islands constituting the Ranganthittu Bird Sanctuary near Srirangapatna which remained at 188—06 acres. Large number of aquatic birds migrate to the sanctuary for breeding and make in these islands their temporary habitation between June and September.

820. Arrangements to shoot bison and tiger were made successfully for His Highness the Governor of Mysore and various State Guests during the year.

821. Wild Life Day was celebrated with enthusiasm throughout the State.

Miscellaneous and Conclusion.

822. In Mysore Division, the Sagare Inam forests and Biligiri Rangan Temple forests (Area: 22,640 acres and 12 guntas) and Kalasa Inam Forests (6,769 acres and 39 guntas) in Chickmagalur Division continued under the management of the Department.

Elephants.

823. There were 74 elephants in Coorg Circle and 24 in Shimoga Circle at the end of the year. The health of the elephants in both the Circles was satisfactory.

**Lease of
lands in State
Forests**

824. Forty-six leases covering 2,037—45 acres in North Coorg Division and five leases covering 4,190—51 acres in South Kanara Division for Cardamom cultivation, continued to be in force. Besides, 139—30 acres in South Kanara Division leased for areca plantation to 17 lessees also continued to be operative. In Kollegal Division, 199 acres in Doddasampige Reserve Forest leased for coffee and cardamom cultivation also continued to be in force during the year.

825. One hundred and eighty-seven acres in the State Forests of Balur, Sargod and Thalkola of Chickmagalur Division and also five acres and eight guntas in Halsur State forest of Chickmagalur Division continued to be under cardamom cultivation.

**Vanama-
hotsava.**

826. The Department participated in the Vanama-hotsava celebrations and distributed several lakhs of seedlings of economic species to the public and to local bodies, educational institutions, etc.

827. To popularise forestry as a profession and to inculcate love of forests, students from high schools were encouraged to raise forest trees in barren forest lands.

828. The integration of States has increased the area under the State Forests to three times its area in Old Mysore State. Some of the most valuable teak forests of Deccan and the rich, often untapped evergreen zone of the Western Ghats have now come together. The forest wealth of the New State of Mysore is among the best in any State of South India.

829. In ex-Mysore State and Coorg, sandalwood is the monopoly of the State and accounted for nearly 40 per cent of the net revenue of the Department.

830. One of the notable events of the year was the transfer of the Forest Research Laboratory, Bangalore, to the Centre for developing it as a Regional Forest Research Centre for South India. The Old Mysore State was the first in India and perhaps the only State which organised a Research Laboratory for solving its local problems.

(iv) Co-operation.

(1st July 1956 to 30th June 1957.)

831. The number of co-operative societies, their membership, share capital, reserve and other funds and the total working capital recorded an appreciable increase during the year as follows:—

Sl. No.	30-6-56	30-6-57
1	Number of societies	6,008	12,513
2	Number of members	7,81,432	18,17,093
		Rs.	Rs.
3	Paid up share capital	2,78,52,67	6,00,43,802
4	Deposits held at the end of the year	4,29,67,832	14,28,18,802
5	Loans due to Government	1,07,30,070	2,11,77,049
6	Loans due to Central Institutions	3,24,18,444	9,94,62,719
7	Reserve fund	1,14,92,503	2,54,11,294
8	Other funds	44,67,716	...
9	Total working capital	12,99,31,633	39,42,83,127
10	Loans issued during the year	5,63,58,329	28,52,07,783
11	Loans recovered during the year	4,78,59,612	25,25,29,855
12	Loans outstanding	6,74,24,650	16,43,80,241
13	Loans overdue	50,86,636	2,81,98,798
14	Net profits	16,93,906	76,31,256

832. Subsequent to Re-organisation of States, the societies situated in the merged areas were also being provided with financial accommodation by the Mysore State Co-operative Apex Bank Ltd., Bangalore.

Co-operative
Credit.

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

833. The financial position of the Mysore State Co-operative Apex Bank Ltd., continued to be satisfactory.

834. The Mysore State Co-operative Apex Bank Ltd., Bangalore, had 234 members. Its paid up share capital inclusive of Government share contribution of Rs. 5,00,000 was Rs. 13,90,822. It had a total working capital of Rs. 1,87,28,851 at the end of the year. The loans issued during the year were Rs. 2,02,68,379 and Rs. 1,14,59,461 was recovered. The net profit was Rs. 1,05,783.

**The Central
Rural Indus-
trialisation
Bank Ltd.,
Bangalore.**

835. The Central Rural Industrialisation Bank was working as an adjunct to the Rural Industrialisation Scheme. The Rural Industrialisation Scheme extends over the old Mysore area. The Rural Industrialisation Bank continued to issue short and medium term loans for the benefit of small scale industries through the Primary Rural Industrialisation Co-operative Societies. The Bank had 405 members with a share capital of Rs. 44,04,450 and total working capital of Rs. 68,38,591. The loans issued were Rs. 28,13,480 and Rs. 6,30,090 was recovered. The net profit was Rs. 55,135.

**The Mysore
State Cotton
Handloom
Weavers'
Co-operative
Society Ltd.,
Bangalore.**

836. To help the poor handloom weavers to pursue their profession and to develop the weaving industry by providing credit and marketing facilities, the State Cotton Handloom Weavers Co-operative Society Ltd., was started and it continued to work satisfactorily during the year. It has opened sales emporia in several important places of the State. It has further opened many production centres for the manufacturing of handloom fabrics by supplying yarn through the medium of its primaries. The society had 235 members and Rs. 3,64,791 as share capital. The purchases and sales during the year were Rs. 24,36,905 and Rs. 21,93,741 respectively and loans issued by the society were Rs. 9,22,326 of which Rs. 37,538 was recovered. The net profit was Rs. 63,611.

**Mysore State
Woollen
Handloom
Weavers'
Co-operative
Society Ltd.**

837. The Mysore State Woollen Handloom Weavers' Co-operative Society Ltd., had a membership of 44, share capital of Rs. 61,975, and total working capital of Rs. 11,89,111. Its purchases and sales amounted to Rs. 2,40,754 and Rs. 1,15,293 respectively. A sum of Rs. 5,00,422 was granted as loans and a sum of Rs. 1,65,993 was recovered.

838. The Mysore State Silk Handloom Weavers' Co-operative Society Ltd., had the following statistics :—

Membership	30
			Rs.
Share Capital	45,022
Purchases	6,77,821
Sales	4,76,433
Working capital	13,69,093
Loans issued	2,82,988
Loans recovered	7,60,913

Primary Land
Mortgage
Co-operative
Societies.

842. There were, during the year, 98 primary land mortgage co-operative societies in the State and these societies act as agents of the Mysore State Central Land Mortgage Bank Ltd., for dispensation of long term credit to the agriculturists. The long term loans were being issued not only for the discharge of prior indebtedness but also for the improvement of agricultural lands. These primary land mortgage co-operative societies did work during the year to rehabilitate the agricultural class of the State.

Agricultural
Credit
Co-operative
Societies.

843. In the new set up, great emphasis is laid on the extension of co-operative credit. There were 8,524 primary agricultural co-operative societies. Share capital and working capital were Rs. 90,11,387 and Rs. 7,28,96,225 respectively. The loans issued were Rs. 5,46,43,822 and loans recovered were Rs. 3,92,28,247. The net profit was Rs. 14,54,147.

844. Some of the rural credit co-operative societies in addition to their loaning operations, which is their main object, also supplied agricultural requisites and food commodities.

The statistics is as follows:—

Agricultural Non-credit Societies.	Number of societies	...	1,131
	Membership	...	2,31,297
	Share capital	...	Rs. 65,56,083

and Non-
agricultural
Non-credit
Co-operative
Societies.

845. There were 1,023 non-agricultural credit co-operative societies with a membership of 2,54,770 who had contributed a share capital of Rs. 1,61,36,832; 1,665 non-agricultural non-credit societies with a membership of 3,71,734 who had contributed a share capital of Rs. 64,14,820. The net profits were Rs. 17,67,468 and Rs. 10,77,542 respectively.

Marketing.

846. The Mysore State Co-operative Marketing Society Ltd., continued to serve as the apex of all the primary marketing co-operative societies, primary consumers societies, primary credit stores societies, which have stores sections. The society deals in coffee seeds in bulk, textiles, soaps, pulses, paper and such other commodities of daily use,

847. Multipurpose co-operative societies and credit societies which have taken up multipurpose activities were assisting agricultural production by the distribution of seeds and manures as ammonium sulphate, urea and agricultural implements.

AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING
—
Co-operative
Production.

848. At the end of the year, there were in the State 21 co-operative lift irrigation societies having 1,136 members. The area under command of the schemes was 7,443 acres and the area brought under irrigation was 592 acres. There were in addition, six co-operative societies which had taken up irrigation schemes as distinct from those of purely lift irrigation type. The area brought under irrigation was 1,237 acres and 38 guntas as against the commanded area of 2,698 acres and 20 guntas. During the year from 1st November 1956 to 30th June 1957, Rs. 65,561 of loan and Rs. 31,825 of subsidy were made available to different co-operative lift irrigation societies.

849. Co-operative farming implies pooling of land and joint management for promoting agricultural production. It is a definite step towards eradication of waste of both agricultural resources and energy, while introducing efficient methods of agriculture, the aim of all development and reconstruction.

Co-operative
Farming.

850. By co-operative farming method, a total area of 17,430 acres of land was brought under cultivation.

851. In the Old Mysore State, there was no scheme as such, for the development of fisheries on co-operative lines. Such a scheme, however, existed in erstwhile Madras and Bombay States. And in these parts, every attempt was made to organise fisheries on co-operative lines and for their development.

Co-operative
Fisheries.

852. Co-operative consumers (Stores) societies continued to play a very vital role in the distribution of consumers goods and thereby brought about a salutary effect on the prices of commodities sold. At the end of the year, there were 1,054 consumers co-operative societies (both agricultural and non-agricultural), which had a membership of 2,19,239. The total purchases and sales amounted to Rs. 2,61,39,805 and Rs. 2,82,40,455, respectively.

Co-operative

Rs. in lakhs			
Share capital	9'88
Total working capital	183'20
Loans issued	27'00
Loans recovered	11'13
Net profit	1'36

856. The main operation of the Central Land Mortgage Bank was the grant of long term loans for the redemption of prior debts and for the improvement of agricultural lands. The outstandings against the members as at the end of the year amounted to Rs. 1,52,27,282.

857. Out of 2,462 loan applications for a total sum of Rs. 63,78,285, 1,662 loan applications were sanctioned for a sum of Rs. 40,16,225. At the end of the year, there were 476 loan applications for Rs. 11,93,333 pending disposal.

858. There were 98 primary land mortgage co-operative societies in the State, with 57,239 members who had paid a share capital of Rs. 15,15,891. The total working capital was Rs. 1,93,45,826 and net profit was Rs. 1,03,996. During the year, these land mortgage co-operative societies issued loans to the members to the tune of Rs. 33,62,725 and recovered a sum of Rs. 15,93,148.

Primary Land
Mortgage
Co operative
Societies.

859. There were 1,206 grain banks in the State, with 77,652 members who had paid a share capital of Rs. 9,27,893. The total working capital was Rs. 32,72,869. It may be noted that these grain banks were mostly situated in the erstwhile Hyderabad State, where alone they number 1,026 out of a total of 1,206 in the entire State.

Grain Banks

860. The supply of improved seeds, chemical manures and agricultural implements was also undertaken by the Co-operative Societies for the use of the *bona fide* agriculturists.

The Mysore
State
Co-operative
Marketing
Society, Ltd.

861. The State Marketing Co-operative Society, Ltd., had a membership of 205 with a paid up share capital of Rs. 60,594. The total purchases and sales amounted to Rs. 18,49,482 and Rs. 19,05,148, respectively. The working of the Society resulted in its earning a net profit of Rs. 92,572.

862. There were at the end of the year 149 marketing co-operative societies in the State. They had a membership of 71,830 of which 2,995 were institutions. The share capital was Rs. 23,36,933 and working capital was Rs. 1,33,40,278.

863. At the end of the year, there were 727 co-operative societies under liquidation.

Liquidation

864. In respect of these societies under liquidation, the total assets amounting to Rs. 1,06,163 were realised and the liabilities amounting to Rs. 1,32,312 were discharged. The total liabilities and the assets of these societies amounted to Rs. 45,85,647 and Rs. 23,43,916, respectively.

865. The societies under liquidation indebted to Apex Bank numbered 120 and the total amount due from them was Rs. 6,09,772 at the beginning of the year. During the year, a sum of Rs. 55,568 was collected leaving a balance of Rs. 5,54,204.

House Build-
ing Co-opera-
tive Societies

866. There were 236 House Building Co-operative Societies in the State at the end of the year with a membership of 19,547 and share capital of Rs. 13,38,665. The total working capital was Rs. 1,12,00,543. The loans disbursed and recovered during the year were Rs. 25,20,966 and Rs. 1,09,19,269, respectively. The net profit was Rs. 92,043.

The Weights and Measures Act.

870. Consequent on the Re-organisation of the State from 1st November 1956, the following Weights and Measures Act in force in different integrated areas came under the control of the Department.

Administra-
tion of Special
Acts.

(1) The Bombay Weights and Measures Act, 1932.

(2) The Hyderabad Weights and Measures Act, 1936 F.

871. The number of weights and measures sold and tested, the amount of testing fee collected, number of cases launched, etc., were as follows:—

Particulars	During	
	1956-57	1955-56
1 Units of weights and measures presented for testing.	1,22,819	82,520
2 Units of weights and measures certified for correctness.	1,07,801	81,374
3 Testing fee collected ...	Rs. 16,451.31	Rs. 12,466.81
4 Units of weights and measures sold ...	26,731	18,754
5 Value of weights and measures sold ...	Rs. 47,920.58	Rs. 34,357.65
6 Number of cases launched under Weights and Measures Act.	175	145
7 Number of cases ended in conviction ...	143	124
8 Amount of fine realised ...	Rs. 3,516	Rs. 3,841

872. In the integrated areas of Belgaum and Gulbarga Divisions, the fees realised under the Bombay Weights and Measures Act and Hyderabad Weights and Measures Act, respectively from 1st November 1956 to 31st March 1957 amounted to Rs. 44,980.50 and Rs. 6,320.47.

The Agricultural Produce Markets Act.

- 873.** There were 49 Regulated Markets (including 36 Regulated Markets of the integrated areas) and 47 Sub-Markets in the New Mysore State during the year.

**AGRI.,
FOREST,
CO-OPN. &
MARKET-
ING**

874. The following Market Acts were in force in the integrated areas of the State :—

- (1) The Bombay Agricultural Produce Markets Act, 1939.
- (2) The Hyderabad Agricultural Produce Markets Act, 1939 F.
- (3) The Madras Commercial Crops Markets Act, 1933.
- (4) The Coorg Agricultural Produce Markets Act, 1956.

875. The question of evolving a uniform Market legislation for the New State was under active consideration of the Department.

876. The financial aid by way of loans given by Government to 11 Regulated Markets in the State during the year for the purpose of undertaking developmental works such as acquisition of sites, construction of auction sheds, market yards, office buildings, etc., amounted to Rs. 3,90,000.

The Agricultural Produce Grading and Marketing Act.

Eggs.

877. The compulsory grading of eggs was continued at different Egg Grading Stations as follows :—

Stations	Year	No. of Eggs Graded	Value	Grading fee collected
			Rs.	Rs.
1 Government Egg Grading Station, Mysore.	1955-56	(a) Hen Eggs ... 5,64,672	58,971-81	1,146-81

Warehousing
Activities.

887. The fortnightly wholesale and retail prices of several important agricultural commodities and live-stock products as prevailed at the several District Headquarters in Mysore State were published in the *Mysore Gazette*.

888. The Government of India enacted the Agricultural Produce (Co-operative Development and Warehousing) Corporation Act, 1956, during the year and set up the Central Warehousing Corporation under the said Act for establishing Warehouses at important trade centres in India.

889. The Marketing Department participated in the Mysore Dasara Exhibition and in the Agricultural Seminar Exhibition conducted by the Mysore Agricultural and Experimental Union during the year as in the previous years.

CHAPTER VIII—VITAL STATISTICS ON PUBLIC HEALTH AND MEDICAL SERVICES.

VITAL
STATIS-
TICS ON
PUBLIC
HEALTH

(Calendar year 1956.)

(i) Births, Deaths and Epidemics.

890. The vital statistical report on Public Health for 1956 refers to the Old Mysore State.

891. The area of Old Mysore State was 33,309 square miles. The mid-year population (including Bellary District) for the year 1956, estimated by the arthimetic progression method was 1,08,41,700 (1,06,55,483); the density of population was 325·5 persons per square mile. Population.

892. A total of 2, 11, 841 (2,16,033) live births was reported giving a birth rate of 19·5 (20·3) per mille of population which showed a decrease of 0·8. Live Births

893. The total number of births registered in urban areas during the year was 36,344 (35,174), the birth rate being 26·7 (26·6). In rural areas, the number of births was 1 32,035 (1,37,454) giving a birth rate of 16·4 (17·3) per mille of population. High birth rates were recorded in the districts of Bellary (30·0) and Shimoga (28·1), low birth rates were reported in the districts of Bangalore (11·8), Tumkur (12·1) and Chitradurga (12·3). The natural increase of population recorded was 11·8 (12·5).

894. About 28 per cent of the births was among mothers aged 20 to 25 years and another 28 per cent among mothers aged 25 to 30 years. The normal maternal age was 26·07 (25·55) years. The incidence of improvident maternity during the year was 45·9 (44·7) per cent.

895. Of the total births, 1,08,175 were males and 1,03,666 females which gave a sex ratio of 104 male births for every 100 female births. Sex Ratio at Births.

896. During the year 1956, 83,942 (82,784) deaths from all causes were reported giving a death rate of 7·7 (7·8). The death rate was highest (12·5) in Bellary District and lowest (5·5) in Bangalore District. Deaths

897. Of the total deaths, 42,337 were males, and 41,605 females, which gave a ratio of 102 male deaths for every 100 female deaths. Sex Ratio among Deaths.

898. During the year, there were 1,108 twins, and 10 triplets reported. Twins occurred in about 0·6 per cent Multiple Birth.

**VITAL
STATIS-
TICS ON
PUBLIC
HEALTH**

Still Births

of the nearly 1·9 lakh confinements or to be exact in one out of every 124 confinements. Triplets occurred in one out of every 20,777 confinements.

899. During the year 1956, 5,144 (4,744) still births were recorded giving a percentage of 2·4 (2·2). The still birth rate was highest in Hassan, Chikmagalur and Mandya districts (2·9) and lowest in Mysore District (1·5).

**Infant
Mortality.**

900. A total of 15,741 (15,579) deaths of infants under one year of age was reported during the year giving an infant mortality rate of 74·3 (72·1). The rate was highest in Mandya District (127·8) and lowest (46·2) in Kolar District.

901. Of the total infant deaths, 8,747 were male and 6,994 female, thus for every 100 female infant deaths there were 125 male infant deaths.

902. Of the total infant deaths, 6,660 or 51·1 per cent were under one month of age, giving a neo-natal mortality ratio of 35·7 per 1,000 live births, 1,885 or 14·4 per cent were one month and under 3 months, 1,644 or 12·6 per cent were 3 to 6 months old and 2,859 or 21·9 per cent were 6 to 12 months.

**Maternal
Deaths.**

903. During the year, 1,193 (1,132) maternal deaths were reported with a maternal mortality rate of 5·5 (5·1) per 1,000 births. The rate was highest (9·0) in Bangalore District and lowest (4·1) in Chikmagalur District.

904. The following were the number of deaths reported under the chief causes in Mysore State.

Causes of Death			Number of Deaths	Specific Death rate per 1,00,000 of population	Per cent of Total Deaths
1	Plague	...	87	0·8	0·11
2	Small-pox	...	532	4·9	7·64
3	Cholera	...	116	1·1	0·14
4	Malaria	...	11,578	106·8	13·79
5	Typhoid	...	2,445	22·6	2·91
6	Other fevers	...	16,731	154·3	19·93
7	Dysentery and Diarrhoea	...	8,342	77·0	9·94
8	Respiratory Diseases	...	4,923	45·4	5·87
9	Tuberculosis	...	3,314	30·6	3·95

**VITAL
STATIS-
TICS ON
PUBLIC
HEALTH**

Marriage
Reports

905. Nearly 44·5 per cent of the persons in the State were married before their death, while 35·5 per cent were single.

906. During the year, 18,879 (16,335) marriages were reported in the rural areas of Mysore State (excluding Bellary District). The marriage rate for the State worked out to be 5·2 (4·5) per 1000 of population. The average age of the bridegroom was 23·6 years and that of the bride 16·2 years.

BUREAU OF MALARIOLOGY

907. National Malaria Control Programme sponsored by Government of India on nationwide basis was implemented in the State of Mysore since November 1953 and continued during the year also.

908. During the year, a total cumulative population of 80,07,456 in 25,116 villages and 107 towns of erstwhile Mysore were given protection against Malaria by applying residual insecticides to 18,58,636 houses. In all, 5,88,099 lbs. or 262·54 tons of D.D.T. in terms of 75 per cent D.D.T. wettable powder were used for two rounds of spraying during the year. The spraying was also undertaken in the integrated districts.

909. The over all malaria morbidity for the State works out to 17·7 (22·4) for every 1,000 population. The percentage of malaria cases treated was 1·7 (2·4) per cent. A total number of 10,339 malaria cases out of 8,51,476 cases treated for all diseases during the year in Malnad and 28,258 malaria cases out of a total of 6,82,042 in Maidan Districts were clinically diagnosed as Malaria in the Health Units during the year.

910. The incidence of Malaria was brought well under control during the year by the use of D.D.T., residual spraying and by distributing anti-malaria drugs. Biannual spleen surveys and examination of blood smears were done in the villages of Health Units with a view to assess the Malaria Control measures adopted.

Malaria
Morbidity

911. The team appointed by the Government of India for determining the pattern of maintenance phase that is to come off at the end of 5 years of control phase, suggested a vigilance programme called "Malaria Surveillance

Malaria
Surveillance
Programme

**VITAL
STATIS-
TICS ON
PUBLIC
HEALTH**

Programme" which envisages, malaria case finding every fortnight or once a month by paying house to house visits, treating malaria and fever cases with four amino-quinolines taking blood smears from them and to treat all parasite positive cases with eight amino-quinolines. As recommended by the Committee, the malaria surveillance work was started in several taluks of the State from October 1956. The malaria surveillance work was also in progress in the rice tracts in North Kanara District before it was integrated with Mysore State. Arrangements were in progress to take up malaria surveillance work in garden tracts of the North Kanara District.

BUREAU OF EPIDEMIOLOGY.

**Mass
Vaccination
Programme**

912. A general programme of intensive mass vaccination was started in 1953 in all the Health Unit areas in the erstwhile State, with the object of protecting the entire unit area in a period of five years. The progress of the programme during the year was satisfactory.

**Control of
Guinea
Worm
Infection.**

913. Fresh infection was detected in three villages of Chitradurga District. Hetrazan tablets and powdered aerial root of Baniyan tree were used for treatment of active cases. The conversion of the step-wells into draw-wells was completed in a few villages and the work was in progress in a few others.

**Fairs and
Festivals.**

914. In the erstwhile Mysore State, 32 festivals notified under Section 116 of the Mysore Public Health Act were held in the different districts. There were no outbreaks of epidemics during or after these festivals.

**Blind Relief
Work in
Rural Areas.**

915. From the year 1953, special eye-camps were being organised in collaboration with the Mysore State Ophthalmological Society. Up to end of 1955, nine such camps had been conducted in Mysore, Chitradurga, Shimoga, Chikmagalur and Hassan Districts. During the year, two more camps were held one at Hunsur and another at Koppa, Chikmagalur District.

**UNICEF
Assistance to
Health Cen-
tres under
the M.C.H.
Programme.**

916. This programme was started in 1951 and by the end of 1955, 55 MCH Centres were started under the "All India MCH Programme" distributed in nearly all the

districts. Towards the end of 1955, a new scheme called the "Mysore MCH Project" was drawn up with the object of extending the UNICEF assistance to all the primary and secondary Health Centres in erstwhile Mysore State. One hundred and fifty-seven centres were getting assistance from the UNICEF.

917. The B.C.G. Vaccination Programme to be applied on community wide basis was carried out with the co-operation of the personnel of the International Tuberculosis Campaign. B.C.G.
Vaccination
Scheme.

918. The total expenditure on this programme for the calendar year 1956 was Rs. 1,13,739-56 (Rs. 88,054-47).

919. An average of 54.88 per cent of the total census population in the rural areas have been tuberculin tested. An average of 63.29 per cent of the total population were tuberculin tested in the various urban areas. The percentage of vaccinated against tested was 42.9. The districts covered by the programme during the year were Chickmagalur, Tumkur, Hassan and Bangalore Districts.

920. The general pattern of positivity indicates that tuberculosis infection is present even among population who are below six years of age and that the infection increases with the rise in age.

921. A study of tuberculin positive percentage figures for India during the different months of the year 1955 shows that in Old Mysore State the youngest group between 0-6 has minimal infection. The most minimum infection is found in Coorg and next to old Mysore is Orissa. All India figures between 7-14 age groups shows that Coorg continued to have most minimal infection and Old Mysore State stands second.

922. The Bureau of Epidemiology made study of the diseases prevalent in the State, and undertook experimental measures for their control. Prompt measures were undertaken to control epidemic diseases. The Bureau received and published reports on the epidemic diseases.

BUREAU OF HEALTH EDUCATION.

923. The Audio-visual Unit gave 126 shows screening 641 films to an approximate audience of 60,280. In addition

**VITAL
STATIS-
TICS ON
PUBLIC
HEALTH**
—

to the routine work, the unit attended to other special activities like B.C.G. Vaccination Campaign, showing films connected with Tuberculosis, supporting the anti-small-pox vaccination campaign. The Bureau organised the World Health Day on 7th April 1956.

924. The propaganda unit accompanied the All India Bhoodan Padayatra Party and the Mysore State Bhoodan Padayatra Party and actively participated in the activities in addition to carrying out health education in the areas visited. The expenditure incurred under this head during the calendar year was Rs. 35,485.

(ii) Vaccine Institute, Bangalore.

925. There were 87 buffalo calves (68) and eight cow calves in the Institute at the end of the year. All the calves after vaccination and collection of pulp were sold as 'done' calves. Seventy-two buffalo calves (51) and eight (5) cow calves were vaccinated during the year. Quantity of pulp collected from buffalo calves was 30,869 grains (24,317) and from cow calves 435 grains (1,884 grains) which would come to 3,85,900 doses of concentrated vaccine lymph.

926. Streptomycin-Terramycin-Achromycin technique was continued to be used for the preparation of the issue vaccine lymph during the year.

Vaccination.

927. Twenty-eight samples of purified and bacteriologically tested lymphs were tried on 1,399 (375) children at the Model Range villages and all the samples gave 100 per cent success. At the Institute, 1,333 vaccinations (263) were conducted out of which 421 were primary and 912 re-vaccinations.

**Issue of
Lymph.**

928. A total quantity of lymph enough for 37,16,720 (22,44,760) cases was issued during the year. This includes the supply of 1½ million doses made to the Director, King Institute, Guindy, Madras, under requisition. The supply to Madras has brought an extra income of Rs. 90,000 to the Institute.

929. The demand for vaccine lymph from all the districts of the State was duly complied with during the year, including those of integrated districts.

930. During the year, the health of the calves was satisfactory.

931. Students of Final M.B.B.S., Final L.M.P., and two batches of compounders from the Medical Department were given the necessary training in the Institute. Village level workers of the National Extension Scheme and Laboratory Technician apprentices were also given the necessary training.

932. During the year, (1) rearing of the mouse colony for virus work, and (2) Electrophoretic studies on serum proteins in diseases from samples of blood collected from various disease conditions were continued.

Research.

933. Three papers were published from the Institute during the year, two papers dealing with a quick method of differentiating small-pox from chicken-pox, the other paper dealing with fundamental property of the vaccinia virus and the work has helped to solve a property of the virus which was until now a paradox.

(iii) Vaccine Institute, Belgaum.

934. During the year, 72,28,930 doses of vaccine lymph were manufactured and 75,37,945 doses were despatched. Two thousand, one hundred and eight sheep were used for the manufacture of vaccine lymph. The average yield of pulp per sheep vaccinated was 31'83 grammes while that for sheep harvested for the preparation of vaccine lymph was 35'11 grammes.

935. Six hundred and sixty-one primary and 247 re-vaccinations were carried out in the Institute during the year.

936. Public Health Work covers not only the works like improvement of environmental sanitation and control of communicable diseases but also includes other special services and programmes, such as, Family Planning, School Health Services and Laboratory Services.

(iv) Hospitals and Dispensaries.

N.B.—The vital statistical report on Medical Services for Calendar Year 1956, refers to the New Mysore Stat.

937. There were 560 Allopathic Hospitals and Dis- General.
pensaries in the erstwhile Mysore State at the end of the

VITAL
STATISTICS ON
MEDICAL
SERVICES
— —

year 1955. Twenty-five dispensaries were opened during the year 1956 bringing the total to 585. After the Re-organisation of States, 191 Allopathic Hospitals and Dispensaries were transferred to the New State of Mysore, thus bringing the total number of institutions in the State to 776, till the end of the year.

938. In the enlarged State of Mysore, the average population served by each medical institution was 25,002 and the average area served by each institution was 95.7 sq. miles, compared with 17,587 and 59.5 sq. miles respectively, at the end of preceding year, in the erstwhile State of Mysore including Bellary District.

939. The average population served by one medical institution in Old Mysore State (16,293) is nearly five times more than in the merged areas (77,647); the average area served in Old Mysore State (52.9 sq. miles) is seven times more than in the merged areas (351.0 sq. miles).

940. In respect of the population served, Coorg (9,974) ranks first among all the Karnatak Districts merged with Mysore, the average population per sq. mile being only 145, compared with 308 in Old Mysore.

941. Karnatak Madras with 44,230 persons for one institution takes the second place. Karnatak Bombay with 52,406 persons per institution comes third, while Karnatak Hyderabad with 75,495 persons for each institution takes the last place.

942. Taking into consideration the individual districts in the whole enlarged State of Mysore, Bidar District with 78,877 persons per institution is the worst served, while Chikmagalur District with 8,351 persons for each institution tops the list, outbeating even Coorg (9,974) in respect of both population and area served (Chikmagalur 55.7 sq. miles ; Coorg 69.0 sq. miles).

943. Out of a total of 776 institutions in the New Mysore State, 157 were hospitals and 619 were dispensaries ; 640 were rural and 136 were urban. More than four-fifths the total number of institutions were in rural places. One hundred and three were meant specially for women and children and 673 were general institutions. Out of total 776 medical institutions, 248 were Government institutions,

were Government aided of which 13 were Missionary and two private institutions, 508 were Local Fund and Municipal Institutions receiving contributions from Local Bodies and five were others (non-aided) of which three were Missionary and two were Industrial.

**VITAL
STATIS-
TICS ON
MEDICAL
SERVICES**

944. There were a total of 326 specialist services institutions in the State consisting of 65 hospitals, 63 dispensaries and 198 wards or clinics attached to hospitals. A great majority of these institutions, *viz.*, 274 were Maternity Institutions in which are included 171 Maternity Homes and Child Welfare Centres. The number of beds in these Maternity Institutions was 2,242 and that in all the other specialist institutions was 2,549.

Specialist
Services
Institutions.

945. The number of doctors working in all the Medical Institutions of the State including private institutions and Health Unit Dispensaries was 1,311, of whom 1,052 were men and 259 were women; 649 were in urban areas and 662 in rural areas. The number of nurses, midwives and compounders working in all the institutions were 1,111, 881 and 818 respectively.

Personnel.

946. *Beds.*—The total number of beds provided in all the institutions was 10,590 (7,134).

Indoor and
Outdoor
Patients.

947. *In patients.*—The total number of in-patients admitted in all the institutions during the year was 3,09,480 (2,07,816.) of these, 1,00,563 were men, 1,61,530 were women and children, 2,28,331 were cured, 46,040 relieved, 24,258 discharged otherwise and 8,851 died. The percentage of death to total treated was 2·9 (2·8). The daily average number of in-patients treated was 11,659·0 (7,932·5).

948. *Out-patients.*—The total number of new out-patients treated in all the institutions was 1,29,14,381 (1,03,68,782). The average daily attendance of new and old out-patients treated was 68,699·0 (49,138·7). These figures also includes the in-patients, as the practice in the State is to register all patients as a rule first as out-patients and then to admit suitable cases as in-patients.

**VITAL
STATIS-
TICS ON
MEDICAL
SERVICES**

949. The following table shows the prevailing diseases for which in-patients were treated and the number of deaths under each of them were :—

<i>Diseases.</i>	<i>Diseases</i>	<i>No. of patients treated</i>	<i>Died</i>
1	Normal deliveries ...	52,932	23
2	Other complications (Deliveries).	12,069	236
3	Malaria ...	7,624	39
4	Tuberculosis Respiratory ...	7,201	570
5	Wounds ...	6,853	56
6	Other Digestive diseases ...	6,472	196
7	Influenza ...	5,311	23
8	Typhoid ...	5,287	246
9	Avitaminosis and deficiency states (others).	5,017	217
10	Lobar Pneumonia ...	4,828	194

950. The number of out-patients treated for the most prevailing diseases was.—

<i>Diseases</i>	<i>No. treated</i>
1 Influenza ...	11,71,224
2 Other Digestive diseases ...	9,96,267
3 Wounds ...	9,31,096
4 Malaria ...	6,58,765
5 Inflammatory diseases of eye ...	6,30,179
6 Acute Bronchitis ...	5,84,369
7 Superficial Injury "	4,83,342
8 Scabies ...	4,32,496

951. The comparative statistics of some diseases for which out-patients treated in the City and Non-City Institutions were :—

	<i>City</i>	<i>Non-City</i>
1 Influenza ...	3,01,100	8,70,124
2 Other Digestive diseases.	2,74,420	7,21,847
3 Male Genital organs ...	21,232	26,769
4 Tuberculosis Respiratory.	21,019	17,982
5 Gonococcal Infection ...	10,909	40,735
6 Syphilis ...	5,108	21,213

952. Infectious Diseases.—Infectious diseases for which both in and out-patients treated were :—

5 Small-pox ...	117	2	394
6 Enteric fever ...	5,287	246	16,743

953. The total number of surgical operations performed in all the medical institutions was 2,90,304 (1,74,832), of which 2,71,540 were principal and 18,764 were secondary. Of these, 2,50,849 were cured, 19,187 relieved, 1,096 discharged otherwise, 430 died and 910 were remaining in the institutions at the close of the year. The percentage of deaths to total number of operations performed was 0.1 (0.1).

**Surgical
Operations.**

954. The total number of parturition cases conducted by the trained midwives and nurses both in and outside the institutions including Maternity Homes was 1,18,685 (99,480). Of these, 67,696, were institutional and 51,589 domiciliary. Of the total number of labour cases, 1,03,728 were normal and 14,957 abnormal. The number of maternal deaths was 790, the maternal mortality rate being 6.6 per 1000 births. The total number of births was 1,19,808, of these 1,12,319 were live births and 7,489 were still births. Among the former, there were 4,405 deaths giving an infantile mortality rate of 39.2 per 1000 live births.

**Parturition
Cases.**

955. The number of premature deliveries was 3,801, miscarriages 1,605 and abortions 6,988. The number of illegitimate children born in the institutions was 58 and the number of abandoned children was 14.

956. Excluding the Government contribution of Rs. 1,14,93,811, the total receipts during the financial year 1955-56 under the various heads such as contributions by

Finance.

**VITAL
STATIS-
TICS ON
MEDICAL
SERVICES**

Local Bodies, fees and contributions from patients, charitable collections and other miscellaneous recoveries amounted to Rs. 36,45,219. The total expenditure for the year 1955-56 amounted to Rs. 1,47,24,018.

957. The *per capita* expenditure on Medical Services for the year 1955-56 was Re. 0-76.

Progress of
recent
Schemes.

958. *Anti-Tuberculosis Measures.*—The total number of beds sanctioned for treating T.B. in-patients has increased from 962 in 1955 to 1,029 in 1956. Eleven more T.B. Hospitals and Clinics with a total bed strength of 162 were existing in the newly integrated areas.

959. *Mass B.C.G. Vaccine Scheme*—The area covered during the year were Tumkur and Hassan Districts and some parts of Chikmagalur District. The number tested was 6,39,580 and the number vaccinated was 2,74,552. No adverse effect was observed after vaccination.

Central
Leprosarium,
Bangalore.

960. *Leprosy Relief Work.*—The official bed strength of the Leprosarium was 200 but in actual practice, the number of in-patients was 280. During the year 1956, the number of in-patients treated in the Leprosarium was 539 and out-patients 1,488.

Medical
Stores

961. The principal functions of the Stores as Central Organisation consisted of acquisition, custody and supply of allopathic medicines, surgical instruments and country medicines to the several medical institutions of the State.

(v) Major Medical Institutions.

The Victoria
Hospital,
Bangalore

962. *Beds.*—The number of beds sanctioned for the Hospital was 400. The number of extra beds in use was about 300 which accounts for the serious over-population of the Hospital.

963. *In-patients.*—The number of in-patients admitted during the year was 16,538 (19,041), of these, 9,485 were men, 4,721 women and 2,332 children. Of these, 13,250 cured, 988 were relieved, 1,469 discharged otherwise and 831 died. The percentage of death to total in-patients treated was 5.0. The daily average number of new and old patients treated was 708.2 (747.4).

**VITAL
STATIS-
TICS ON
MEDICAL
SERVICES**

964. Out-patients.—The total number of out-patients treated was 1,75,422 (1,64,529). Of these, 76,386 were men, 50,268 were women and 48,768 were children. The daily average attendance of new and old patients was 877.1 (845.1).

965. Surgical Operations.—The total number of patients on whom surgical operations were performed was 20,344. Of these, 20,121 were cured, 185 were relieved, five discharged, 21 died and 12 remained in the Hospital at the end of the year.

966. A total of 1,52,050 c.c. blood was collected from 397 donors during the year and all the blood was used for transfusion. All the 397 donors were men. The paid volunteers numbering 395 were paid Rs. 15 per donation. Poor patients were being paid for blood from the Poor Fund of the Hospital.

Blood Bank

967. There were 126 (126) beds. The total number of in-patients treated was 5,616 (5,108). Of these, 3,631 were cured, 1,193 relieved, 552 discharged otherwise and 240 died. The daily average number of in-patients treated was 182.8 (182.5). The percentage of death to total treated was 3.4 (3.7). The number of out-patients treated was 67,653 (66,658). The daily average attendance was 337.9 (265.5).

The Bowring
Hospital,
Civil Station;
Bangalore

968. The number of beds sanctioned was 336 (336). The number of in-patients treated was 15,605 (13,357). Of these, 9,038 were cured, 4,716 relieved, 1,361 discharged otherwise and 490 died. The daily average of old and new cases treated was 656.6 (613.1). The percentage of death to total number of patients treated was 3.1 (4.4). The number of out-patients treated was 2,45,497 (2,46,897). The daily average number of patients treated was 1,023.9 (1,028.3).

The Krishna-
rajendra
Hospital,
Mysore

969. There were 60 beds (62) in the Hospital. The number of in-patients treated was 2,812 (3,437). Of these, 1,728 were cured, 769 relieved, 127 discharged otherwise, 122 died and 66 remaining at the end of the year. The percentage of death to total treated was 4.3 (5.5). The number of out-patients treated was 85,736 (1,06,626). The daily average attendance was 425.6 (530.9).

972. There were 17 District and Local Fund Hospitals in the New Mysore State during the year.

973. The work of Medical Relief in the State has shown an all round improvement during the year. The expansion of X-ray facilities has given more impetus to the correct diagnosis and efficient treatment of patients.

CHAPTER IX.—DEPARTMENT OF PUBLIC INSTRUCTION

PUBLIC
INSTRUC-
TION.

(i) Education

974. The year 1956-57 is an outstanding year in the history of Education in Mysore for it witnessed the formation of Greater Mysore with the inclusion of Kannada speaking areas from the neighbouring states of Bombay, Madras, Hyderabad and Coorg with large student population and large number of Educational Institutions.

975. The total number of Educational Institutions (including Social Educational Centres) increased from 14,552 in ex-Mysore to 25,923 for New Mysore, the net increase after the formation of Greater Mysore being 11,371. The strength of pupils in all these institutions increased correspondingly from 10,19,069 to 21,23,259 i.e., by 11,04,190 pupils. Likewise, the expenditure (direct) on all these institutions rose from Rs. 390,94,342 to Rs. 806,62,752 i.e., by Rs. 415,68,410. On 31st March 1957, the number of institutions was 26,821 and the number of pupils was 21,97,352 including 7,15,623 girls; the increase after the formation of Greater Mysore up to 31st March 1957 being 898 institutions and 74,093 pupils.

976. The following table shows the number and strength of all kinds of Public Institutions in the State.

Kind of Institutions	•No.	Strength		
		Boys	Girls	Total
Universities	2	125	6	131
Colleges (General, Professional and Research Institutions).	85	32,842	5,195	38,037

Grand Total ...	26,821	14,81,729	7,15,623	21,97,352

**PUBLIC
INSTRUC-
TION.**
—

977. For the year, the percentage of pupils under instruction in all Public Institutions (excluding literacy classes) to the total estimated population of school going age of 55,93,200 was 36.5 as compared to 34.2 for ex-Mysore in 1955-56. On an average, there was one school (excluding literacy classes) for an area of 3.12 sq. miles and for every 807 persons as compared to 2.53 sq. miles and 837 persons in ex-Mysore.

Colleges,

978. The number of First Grade Colleges for men in the New State was 25 with a strength of 20,353 students including 1,396 women and for women was four with 3,037 women students. The number of separate Intermediate Colleges was 16 with a total enrolment of 5,569 pupils inclusive of 279 girls. The colleges in ex-Mysore are affiliated to Mysore University while those in Dharwar Division of Mysore to Karnatak University. The Colleges in South Kanara, Coorg and Raichur Divisions were affiliated to Madras and Osmania Universities, respectively and their affiliation has since been changed. The total number of Professional Colleges was 28 as compared to 16 in ex-Mysore. The increase of 12 is shared under Education by 5, Medicine 1, Law 2, Agriculture 1, Commerce 2, and Engineering 1. The total enrolment in all these colleges was 7,243 including 296 women. Besides, there were seven Oriental Colleges as against five in ex-Mysore with a strength of 1,254 pupils including 146 girls as against 1,205 with 170 girls for ex-Mysore. The number of Universities in the State increased by one with the incoming of the Karnatak University in Dharwar Division of New Mysore. Besides, there were five Research Institutions with an enrolment of 587 Scholars in the State. Except for one viz., Kannada Research Institute, in Dharwar and the Indian Institute of Science, Bangalore, all other Research Institutions were under Central Government.

**Secondary
Education.**

979. High School Education in the New Mysore is of varied duration in the different areas of the State. In ex-Mysore, it is three years course preceded by an eight-year Primary Education. In Dharwar Division, it is one of four years preceded by a seven-year Primary; in Raichur Division, it is one of three years preceded by a seven-year Primary with one year infant class in some schools. In South Kanara and Coorg, it is like in ex-Mysore.

980. The number of High Schools including the two Military High Schools—one at Bangalore and another at Belgaum—both under the management of Central Government was 535 with a total strength of 1,71,083 pupils inclusive of 42,941 girls as compared to 266 schools with an enrolment of 84,017 pupils including 19,684 girls in ex-Mysore. Classified by managements, there were 91 Government Schools, 75 District Board, 82 Municipal, 266 Aided and 19 Un-aided Schools. The distribution of schools region-wise was 282 in ex-Mysore, 152 in Dharwar Division, 68 in South Kanara including Kollegal Taluk, 19 in Hyderabad Karnatak and 12 in Coorg. It is evident therefrom that large number of schools were under private management. This accords with the general policy of enlisting private effort in the field of Secondary Education.

981. Primary Education in the New Mysore State is of varied duration as follows :—

Primary
Education

Regions	Duration *
Ex-Mysore	... 8 years—4 years Lower Primary 4 years Senior Primary
South Kanara and Coorg.	8 years—5 years Lower Elementary. 3 years Higher Elementary or Middle School.
Bombay Karnatak and Hyderabad Karnatak.	7 years—4 years Lower Elementary. 3 years Middle School.

982. In case of Hyderabad Karnatak an infant class of one year is attached to the seven-year primary schools in some cases.

983. The scheme of Free Compulsory Primary Education was in force in different areas in different ways. In ex-Mysore, the scheme for the age group 6-10 was in force in the nine District Taluk Headquarters. There was no scheme of Compulsory Education in Coorg. In Madras and Hyderabad Karnataks, contiguous areas are selected for the introduction of compulsion. In Bombay Karnatak area, the scheme of compulsion was in force. This scheme was introduced in all villages with a population of 1,000 and above in the First Plan period and all villages with population of 500 and above are now being brought under compulsion.

Compulsory
Education.

PUBLIC
INSTRUC
TION

Basic Schools

984. Basic Schools are of two types—Junior Basic Schools of I to IV/V Classes and Senior Basic I to VII/VIII Classes. The number of Junior Basic Schools for boys and girls in New Mysore was 831 with a total enrolment of 69,492 pupils including 23,732 girls as compared to a total of 20,325 Junior Primary Schools in all. The number of Primary Schools converted to Basic Type under Second Five-Year Plan for 1956-57 was 397 for New Mysore. Besides, there were 900 Senior Basic Schools as on 31st March 1957 in the New Mysore with a strength of 2,31,489 pupils of whom 63,480 were girls. The number of Senior Basic Schools in Dharwar Division was 710.

Senior
Primary
Schools.

985. The total number of Senior Primary Schools (Middle Schools) in the New State as on 31st March 1957 was 856 (728 for boys and 128 for girls), with a total enrolment of 1,46,714 pupils including 37,768 girls. The increase in the number from 790 in ex-Mysore to 856 is largely due to the upgrading of schools and sanction of ten such new schools in ex-Mysore.

Primary
Schools.

986. The number of Primary Schools including the New Type Middle Schools and Higher Elementary Schools in the New State was 20,325; (19,135 for boys and 1,190 for girls) with a total enrolment of 14,40,964 of whom 4,31,531 were girls. During the year, sanction to open 443 schools under the Second Five-Year Plan was accorded. Thus it is evident that the total number of schools imparting Primary Education in the State was 22,912 with a total enrolment of 18,88,659 as compared to 12,553 schools with a strength of 8,60,065 for ex-Mysore in 1955-56.

987. Worked out on the basis of proportion, there was one school for Primary Education for every 3.27 square miles and one for 846 persons as compared to one for 2.91 square miles and for 957 persons in ex-Mysore.

988. There were also 93 Nursery Schools with a total strength of 5,768 pupils including 2,711 girls.

Adult
Education.

989. The Mysore State Adult Education Council conducted 1,470 literary classes during the year with 27,698 (25,812) pupils. The Council also maintained four Janatha Colleges with a total strength of 110 pupils. The total number of people made literate during the year was 13,939. The number of new libraries started in rural parts of the

State under the Council was 40 thus bringing the total to 2,344 for 1956-57. The annual grant to the Mysore State Adult Education Council during the year was Rs. 4.40 lakhs. The total expenditure incurred by the Council on all activities like literary classes, janatha colleges, rural libraries, publications, etc., from all sources was Rs. 4,96,462.

990. The number of Adult Night Schools and Social Education Classes imparting General and Social Education in the integrated areas during the year was 1,319 with a strength of 28,846 adults.

991. The number of institutions¹ of the School Grade in the New State providing facilities for Professional Education like (i) Teacher Training-Basic and Non-Basic, (ii) Engineering, (iii) Medicine, (iv) Agriculture, (v) Technical, (vi) Industrial, (vii) Commercial, etc., was 405 with an enrolment of 29,843 including 5,010 girls as against 208 schools and 19,203 pupils inclusive of 2,263 girls in 1955-56 for ex-Mysore. The number of Teacher Training Institutes of Basic Type was 23 (19 for men and four for women), while the Institutes of Non-Basic Type was 24 (15 for men and nine for women). Besides, there were 11 Poly-technic Institutes with a total strength of 3,648 pupils of whom 87 were women. The number of Agricultural Schools increased from two with a strength of 140 pupils to eight with an enrolment of 542 in 1956-57. The increase is due to the incoming of four schools from Bombay Karnatak Districts. Two new Agricultural Schools were started during the year one in Bangalore District and the other at Munirabad in Raichur District. The number of Commercial Schools in the State was 96 as compared to 72 in ex-Mysore with a strength of 10,056 and 7,850, respectively. The number of Engineering Schools was two with a total strength of 653 pupils. There were also nine Medical Schools with a total strength of 1,091 pupils, of these, the Nursery Training Schools classified as Medical Schools was four all in Dharwar Division. There were also 58 Industrial Schools and Arts and Craft Centres. The Institutions for Agricultural, Engineering and Medicine continued to be under the administrative control of the respective Departments of Government.

992. Besides, schools imparting Special Education are (i) Schools for the physically handicapped, (ii) Oriental Schools like Samskrita Schools, etc., (iii) Physical Education Institutes, Schools for Music and Fine Arts and (iv) Reformatory Schools.

**Education of
Women**

993. The number of separate institutions (excluding literacy classes) for the education of women in the New State was 1,553 with a total strength of 2,35,939 including 11,575 boys as against 780 in ex-Mysore with a strength of 1,19,174 including 6,405 boys. The number of literacy classes exclusively for women under the Mysore State Adult Education Council was 171 with an enrolment of 2,746 women. In addition, 4,91,259 girls were studying in boys' schools making a total of 7,15,623 (including 3,249 women in literacy classes) under instructions in all institutions. The percentage of girls under instruction to the total number of pupils was 32.6 as against 31.5 per cent for ex-Mysore.

**Bharat
Scouts and
Guides**

994. The total strength of the movement under various branches of Scouting at the end of the year was 44,319 for New Mysore as against 33,292 in ex-Mysore. The number of Guides under Girls' Section of the Bharat Scouts and Guides was 4,378. The grant to the Bharat Scouts and Guides during the year was Rs. 50,000 under normal account and Rs. 25,000 under 2nd Plan. Most of the districts arranged a number of District Rallies. Hundreds of Scouts and Guides participated in the Second All India Jamboree held in Jaipur from 27th December 1956. The Bharat Scout and Guides enrolled themselves as authorised agents for the National Savings Scheme (Womens' Savings Wing) during the year. The total business transacted during the year was over one lakh of rupees. The monthly journal "Mysore Scout and Guide" was being published regularly.

**Medical
Inspection.**

995. During the year, Medical Inspection was in force in the schools in ex-Mysore in 184 Centres and 87,967 pupils including 6,905 girls were examined. It has been reported that most of the pupils suffer from malnutrition. The Midday Meal Scheme was in operation in a few schools only. Supply of milk was made during the year in selected schools. A sample Nutrition Survey was conducted by the Chief Medical Inspector of Schools in Bangalore City.

On Primary Education	4,84,06,083
On Nursery Schools	1,21,534
On Professional Schools	67,66,598
On Social Education	5,82,997

1000. Besides, a sum of Rs. 1,48,34,403 was also spent on indirect items like buildings, scholarships and other miscellaneous items.

1001. The average cost per head of population for the year in the New State was Rs. 5.13 as against Rs. 4.90 in 1955-56 in ex-Mysore.

1002. The Second Five-Year Plan provision during 1956-57, i.e., the first year was Rs. 47.80 lakhs.

1003. Sanction was accorded for opening of schools as follows under different grades during the year under 2nd Plan Provision :—

Name	High Schools	Primary Schools	Basic Schools	Additional Teachers
1. Ex-Mysore ...	4	290	65	800
2. Bombay Karnatak ...	—	—	315	290
3. Hyderabad Karnatak ...	2	149	—	15
4. Madras ...	—	10	—	76
5. Coorg ...	—	4	17	—
Total ...	7	453	397	1,181

1004. To evolve a uniform pattern of Education for the entire State of Mysore at all levels, the Government have constituted the Mysore State Educational Integration Advisory Committee consisting of Vice-Chancellors of the two Universities, Educationists with the Minister for Education as its Chairman. The work of the Committee has commenced and the Committee met thrice during the year.

Second Five-
Year Plan

(ii) University of Mysore.

1005. The strength of the students in the Mysore University increased from 24,313 during 1955-56 to 25,921 during 1956-57.

1006. The increase in the number of women students kept pace with the general progresss, the number for the year being 3,846 as compared with 3,400 in the previous year.

1007. Candidates for Master's Degree have also increased in number from 99 to 118 in Arts and from 83 to 89 in Science.

1008. The Annual Convocation of the University of Mysore was held on Monday the 10th December 1956 in the Crawford Hall, Mysore. His Highness, the Chancellor presided. Sri R. R. Diwakar, Governor of Bihar delivered the Convocation Address. In the convocation of 1956, degrees were awarded to 2,875 candidates (of whom 448 were women), 464 took Engineering Degrees and 80 were awarded Degrees in Medicine.

1009. Special Convocation was held on 25th May 1956 in the Crawford Hall, Mysore, to confer honorary degrees on Sri K. V. Puttappa, M. A., Principal, Maharaja's College, Mysore and Professor M. S. Thacker, Director, Council of Scientific and Industrial Research, Government of India, New Delhi.

1010. The generous encouragement given by the State and the Centre to the Education of the Depressed Classes has resulted in the increase of the number of Depressed Class students from 801 to 972 during the year.

1011. The strength of University Students was as follows:—

TION

1012. The following new courses were introduced in the University Institutions:—

Course Introduced	Institutions
I.Com.	... Intermediate College, Kolar. Intermediate College, Davangere.
I.Sc.—C.B.Z.	... Intermediate College, Hassan. Intermediate College, Kolar. D. R. M. College, Davangere.

1013. Temporary affiliation which was granted to 12 colleges was continued during the year.

1014. The University Grants Commission, New Delhi, sanctioned the following grants to the University for the following purposes:—

Grants received from the University Grants Commission,

Grant	Purpose
Rs.	
30,000 Purchase of books and journals on scientific and technical subjects.
30,000 Purchase of scientific equipment of science departments.
20,000 Purchase of equipment to the Central College, Bangalore.

1015. Grants paid to Affiliated Colleges and other Aided Hostels were Rs. 6,34,822.

Teaching Staff

1016. The strength of Teaching Staff was as follows:—

	Arts and Science	Professional	Total
1 University Institutions ...	641	131	772
2 Affiliated Colleges ...	277	261	538
Total ...	918	392	1,310

1017. Eight members of teaching staff have proceeded abroad for higher studies in Chemistry, one member in English and another in Economics.

1018. Two students from Lucknow and Osmania Universities were awarded Doctorate Degree Scholarships and four from Osmania, Alahabad, Calcutta and Bombay Universities were awarded the Master's Degree Scholarships for studies in different subjects like Education, Agricultural Botany, Commerce, Geography, Kannada, Philology, Law.

1019. Membership of the College Unions and Associations was made optional for the students.

1020. Under the Development Schemes of the University in the Second Five-Year Plan, a sum of Rs. 2.62 lakhs was spent on buildings, laboratory equipment, furniture, etc., during the year as against an outlay of Rs. 50.9 lakhs for the plan period 1956-57.

1021. Under the Five-Year Plan of Development of Technical Institutes sponsored jointly by the Government of India and the Government of Mysore, an expenditure of Rs. 1,17,527 was incurred on equipment and buildings for the College of Engineering, Bangalore, as against the provision of Rs. 4,25,000 during the year.

1022. Under the University Extension Lectures Scheme, 66 Extension Lectures and 17 Special Lectures were arranged during the year.

1023. The membership of the Library was 2,194.

Mysore
University
Library.

1024. Fifty-one thousand four hundred and twenty-three books were borrowed and 46,893 books were consulted in the Library.

1025. Two thousand eight hundred books (including 355 bound volumes of periodicals) and 195 pamphlets were added to the Library.

1026. There were Research Scholars and Fellowship holders working in the Library.

1027. The following books were published by the Oriental Research Institute, Mysore during the year :—

Oriental
Research
Institute,
Mysore.

1. Arthasastra Sangraha of Kautilya and Nitisutra.
2. Kriyasara Vol. II.

1028. In addition to the research work in the Institute, the members of the staff were publishing research articles and works involving a good deal of research.

1029. The total number of manuscripts in the Library of the Institute at the end of the year was 11,402 and about 73 manuscripts were collected during the year.

1030. Due to the expansion of N.C.C., two Companies of Infantry Battalion consisting of 8 officers and 315 cadets have been raised with Battalion Headquarter at Mysore. Two Companies of 1st Mysore Battalion N.C.C. was allotted to Bangalore and the remaining two Companies distributed to the mofussil colleges at Shimoga, Davangere, Chitaldurg, Tumkur, Kolar and Bellary.

Cadet Corps.

**PUBLIC
INSTRUC-
TION**
—

1031. The platoons of 2nd Mysore Battalion N.C.C. were distributed to four colleges at Mysore and three colleges at Chickmagalur, Hassan and Mandya.

1032. One Girl Sub-Troop was raised at Mysore and eight more Troops of Junior Division N.C.C. for boys were raised and the Troops were allotted to Bhadravathi, Nanjangud, Chitaldurg, Hassan, Thirthahalli, Mysore, Kolar, Mulbagal and Bangalore.

1033. The number of Junior Division Girl Troops was increased from 2 to 8 and the newly raised troops were allotted to Bangalore, Mysore, Tumkur and Bhadravathi.

1034. A.C.C. Labour and Social Service Camp was held at Tungabhadra Dam, Hospet, when 2,087 cadets and teachers joined the camp and completed the digging of high level canal of 660 ft. length, 65 ft. breadth and 3 ft. depth.

1035. The strength of N.C.C. Personnel of 9th Mysore Engineering Platoon N.C.C. was 122. A fair weather road about four miles long and an improvised Hume Pipe Bridge were constructed by the cadets in the Community Project area at Issoor in Shimoga District. The course of the river Kumudvati was diverted by excavating a channel and constructing an earthen bund. The unit won a silver cup for the best and efficient work done.

1036. The University of Mysore attained autonomy consequent on the introduction of the Mysore University Act, 1956, which came into force from 1st January 1957.

(iii) Karnatak University, Dharwar.

1037. The Karnatak University Bill, based on the recommendations of the Karnatak University Committee which was appointed on 17th April 1947 to fulfil the demand of Kannada speaking people for the establishment of higher educational institutions in their own region, was passed by the Bombay Legislature in April, 1949. Thus the Karnatak University was incorporated on 1st March 1950 and started functioning.

1038. After the Re-organisation of States from 1st November 1956, the Karnatak University came into the New Mysore State.

1039. The Karnatak University is both an affiliating and teaching University, its teaching being confined to only post-graduate.

1040. The University has its own buildings on its campus, situated on a hillock known as Chhota-Mahabaleshwar, the site known for its natural beauty and salubrious climate possessing an area of about 325 acres. It has established 11 Post-Graduate Departments *viz.*,

- | | | |
|----------------|---------------|---------------|
| 1. Statistics, | 2. Chemistry, | 3. Physics |
| 4. Geology, | 5. Kannada, | 6. Economics |
| 7. Politics, | 8. Sociology, | 9. Philosophy |
| 10. History, | 11. English. | |

1041. In addition to the above, post-graduate instruction in other subjects has been made in some of the affiliated colleges.

1042. The strength of students has risen from 3,000 in 1950 to nearly 9,000 in 1956.

1043. An Educational Building estimated to cost about Rs. 35 lakhs was under construction during the year.

1044. The University Library has at present nearly 32,000 volumes. Nearly 5,000 books are added every year. The University subscribes to 320 journals and periodicals. It has also been furnished with the most up-to-date equipments such as lingua-phone records, micro-film reader, micro-film card reader, etc.

Library.

1045. The University started its scheme of extension lectures in 1952. Since then, the University has continued the scheme and now these lectures which are arranged in mofussil places have become very popular. The main object of these lectures is to spread essential knowledge on popular subjects among the common people. Some of these lectures are selected and published under the Scheme of "University's Extension Lecture Series" under which small pamphlets are printed and sold at a cheap price of four annas per pamphlet. The University also arranged from time to time, research lectures by eminent scholars at the University centre. Under this series, the University has already published the following books :

Publication
Board and
Board of
Extra-Mural
Studies.

- (1) Introduction to Karnatak Mysticism—by Dr. R.D. Ranade.
- (2) Hindu Code Bill—by Justice P. B. Gajendragadkar.
- (3) Karnataka's Trans-Oceanic Contacts—by Dr. B. A. Saletore.

**PUBLIC
INSTRUC-
TION**

1046. Under the auspices of the Karnatak University, Dr. R. D. Ranade delivered a series of lectures on "Karnatak Mysticism" and the work of publishing these lectures in two volumes was on hand.

1047. The University has started publishing its own Research Journal—the Science Number of the Journal was published in July, 1957 and the Humanities Number was under print.

1048. The University has proposed to start a Circulating Library through which it is intended to supply books to readers even in remote villages and also to extend the scheme of lectures to the smaller villages.

**Raising of
Academic
Standards
at the Colle-
giate Level.**

1049. From the academic year commencing with June 1956, the University has made tutorials compulsory at the First Year and Intermediate classes. Twenty per cent of the marks at the First Year and the Intermediate examinations are earmarked for the students' performance in the tutorials throughout the year. This has gone a long way in making the students take a sustained interest in their studies from the beginning of the year.

1050. The University has decided to start the three-year Degree Course from June, 1956. The Pre-University Course will come into effect from June, 1958. At the post-graduate examinations, a system of double valuation of answer books has been introduced.

1051. A system of moderation has been introduced at the Intermediate examinations.

**Research
Schemes.**

1052. The University has undertaken a number of research schemes in the several departments and the affiliated colleges.

**Scholarships
and Student-
ships.**

1053. The University has instituted a number of studentships for deserving students to prosecute their studies in the University Post-graduate Departments. The University also awards a number of prizes, medals, etc., for students standing highest at the University examinations.

1054. The University has been able to attract adequate grants from the University Grants Commission for all its developmental programmes. It has evoked the appreciation

of educationists for the record of its progress during its seven years of existence.

(iv) Technical Education.

1055. Consequent on the Re-organisation of the State, two Polytechnic Institutions, one Technical Training Centre, one Vocational Institute for women and four Industrial-cum-Technical High Schools came into the fold of the Department of Technical Education. An aided Engineering College with Degree and Diploma courses in Engineering also came under the control of the Department.

1056. The number of technical institutions increased from 10 to 24 during the year, of which 18 were Government institutions and six aided.

1057. Under the Second Five-Year Plan, the outlay in 1956-57 was about Rs. 7.50 lakhs.

1058. Public Examinations were conducted in various technical courses both under New and Old Schemes. The total number of candidates successful in the Technical Public Examinations (both Diploma and Certificate courses) was 2,746. The number of candidates successful in the final examinations was 726, and Diplomas and Certificates were awarded to them by the Central Board of Technical Examinations.

1059. An expenditure of Rs. 1,20,000 was incurred for conducting the examinations while receipts realised by way of examination fee was Rs. 99,340. The expenditure slightly exceeded the receipts, as the examinations had to be held both under the Old and New Schemes.

1060. Government approved the proposal to recognise the Diplomas in Civil, Electrical and Mechanical Engineering awarded by the Department of Technical Education, Government of Bombay as equivalent to those awarded by the Central Board of Technical Examinations (Mysore) on a reciprocal basis.

1061. Government also approved to permit diploma holders to affix titles after their names.

**Sri Jayachamarajendra Occupational
Institute, Bangalore.**

1062. The Institute started its 13th year of working from 1st July 1956.

1063. Quite a good number of non-Mysoreans were also admitted during the year in addition to those who were deputed by the Government of India and other State Governments.

1064. The Diploma Courses of study in the Institute were 1. Civil Engineering, 2. Sanitary Engineering, 3. Electrical Engineering, 4. Mechanical Engineering (General), 5. Mechanical Engineering (Mechanist), 6. Mechanical Engineering (Welding and Sheet Metal), 7. Mechanical Engineering (Instrument Mechanic), 8. Mechanical Engineering (Boilers and Engines), 9. Mechanical Engineering (Automobiles), 10. Radio Engineering, 11. Sound Engineering, 12. Cinematography, 13. Mining, 14. Ceramics, 15. Printing.

1065. The Certificate Courses of study in the Institute were 1. Tailoring, 2. Electric Wireman, 3. Radio Mechanics, 4. Auto Driver Mechanics.

1066. The total strength of the Institute in First, Second and Third Year Diploma Classes and Certificate and Artizan Courses was 1,081 (1,103).

1067. In addition to 125 Government scholarships sanctioned, 65 Government of India scholarships were also awarded to the students. Besides, several Town Municipal Councils, District Boards and the Corporation of the City of Bangalore awarded 67 scholarships to such of the poor and deserving students coming from mofussil areas of the State.

1068. A batch of 30 primary school teachers both men and women were trained in the Institute in Carpentry and Tailoring for a period of six weeks.

1069. A short term training scheme called "The Apprenticeship Training" which was arranged at the request of the Hindustan Aircraft Ltd., authorities in the Institute was continued to train young apprentices in the Institute during the year.

1070. The other Technical Institutes were situated in the following places in the New State :—

Institutes	Strength of Students		Scholarships		Examination Results

1. Fixed Subsidy	40,000	00	40,000	00
2. Flying Hourly Bonus	31,965	06	34,739	62
3. Government of India Scholarship	6,940	00	12,800	00
4. Government of India Subvention for N.C.C.	18,695	81		
	97,600	87	87,539	62

1076. The total income of the Institution was :—

	Rs.	nP.	Rs.	nP.
Government of India	97,600	87	87,539	00
Government of Mysore Scholarship	3,999	50	2,851	81
Flying and Membership fees	8,540	00	6,918	75
Joy Flights	6,000	00	10,400	00
Miscellaneous	14,881	65	3,841	81
	1,30,522	02	1,11,552	00

1077. During the year, the Government of India sanctioned four (5) scholarships, the rate being Rs. 60 per hour. Of the four, only two candidates obtained Solo during the year.

1078. The N.C.C. Airwing commenced its flying training during the month of September 1956, and 18 cadets were given the flying training during the year. Almost all of them were able to complete the flying tests except four, who were disqualified. N.C.C.
Airwing.

1079. There were four candidates on the roll at the beginning of the year. The following category of trainees were admitted during the year. Pilot
Trainees.

1. Government of India Scholars	...	4
2. N.C.C. Trainees	...	18
3. Trainees on payment basis	...	23
		—
Total	...	45
		—

1080. The total income and expenditure of the Institution during the year was Rs. 1,30,522-20 (Rs. 1,12,033-52) and Rs. 1,71,283-87 (Rs. 1,65,467-70), respectively. Income
and
Expenditure

1081. The Aircrafts owned by the Institution were VT-CQQ, VT-CQU, VT-DGY and VT-DBL. The Aircrafts loaned to the Institution by the Director General of Civil Aviation, New Delhi, were VT-DER and VT-DDP. Aircrafts.

1082. The Aircraft VT-CQU met with an accident on 25th February 1957 resulting in total crash of Aircraft. The pilot trainee who was the only occupant in it was unhurt. Accidents.

1083. There was an alround improvement in the activities of the Institution and with the training of N.C.C. Cadets, this Institution is contributing a very great part towards the defence of the Country. Conclusion.

(vi) The Mysore Government Museum, Bangalore.

1084. As a part of the International Campaign sponsored by the "UNESCO" for popularisation of the activities of the museums, the "Museum Week" was observed by the Government Museum, Bangalore, during the year 1956-57. General.

**PUBLIC
INSTRUC-
TION**
—

1085. Guide lectures to students from primary schools in Bangalore and other educational institutions were continued. An aggregate number of 12,727 students belonging to 280 institutions accompanied by 390 teachers were shown round the different sections of the Museum.

1086. An aggregate number of 4,75,338 persons visited the Museum during the year. There was a large influx of visitors as usual during “Karaga” and other local festivals. The “Museum Week” which coincided with the Dasara celebrations at Mysore attracted a large number of visitors from all parts of India and abroad.

1087. A sum of Rs. 48,000 was sanctioned for effecting suitable modifications to the “Victory Hall”, Cubbon Park, Bangalore, to establish an ‘Art Gallery’ there.

Archæology.

1088. As the sculptures displayed in the Museum were not many and they were not fully representative of the different phases of art that flourished in the State, it was considered desirable to augment the collection by the acquisition of at least two or three pieces of pre-hoysala art dating back to 9th—11th century A. D. The Superintendent, Department of Archæology, Southern Circle, Madras, who is in-charge of the national monuments situated in parts of the Mysore State has agreed to spare such sculptures.

1089. Eleven coins belonging to the Kalachuri and Mughal dynasties were presented to the Museum by the Central Museum, Nagpur. A treasure trove consisting of 107 gold coins, being issues of the Vijayanagar King Devaraya II, was discovered in the Kamalapuram village of Hospet Taluk, Bellary District.

Ethnology.

1090. Mrs. Davies Bishop, Whitehead Institute, Trimulgherry (Deccan), presented seventeen specimens of dress, jewellery, weapons, etc., belonging to the Abor tribe.

Library.

1091. A good number of journals and periodicals relating to national history, archæology, art and museology were received through presentation and by purchase. The members of the staff of the Museum were rendering library service to interested visitors and scholars who visit the Museum.

1092. There was an encouraging response to the efforts made for popularising the activities of the Museum.

CHAPTER X--ANIMAL HUSBANDRY AND VETERINARY SERVICES.

(i) Animal Husbandry and Veterinary Services.

1093. The seasonal conditions were satisfactory throughout the year. There was adequate supply of water and fodder to the cattle. General

1094. Three outbreaks of Rinderpest were recorded during the year. All these were attended by protecting 31,623 heads of cattle. In the campaign for mass vaccination of cattle against this disease, 3,01,902 inoculations and vaccinations were conducted in Tumkur, Kolar, Mandya and Mysore Districts which border Madras and Andhra Pradesh States. Black-quarter and Haemorrhagic Septicaemia were widely prevalent than Anthrax during the year. The incidence of Ranikhet disease among poultry was low due to the continued intensive mass vaccination of the birds. Contagious
Diseases.

1095. Majority of outbreaks coming under "Other Contagious Diseases" caused by certain viruses not coming under any of the above mentioned specific diseases and protozoa were of Foot and Mouth disease.

1096. The number of veterinary hospitals and dispensaries in the erstwhile Mysore State on 1st November 1956 was 227. After the re-organisation of State 134 institutions and touring billets were added on. By the close of the year, seven new dispensaries were opened. Thus at the close of the year, there were 368 institutions comprising 22 major hospitals, 142 taluk dispensaries, 176 rural dispensaries and 28 touring billets in the State. Veterinary
Institutions

1097. Due to favourable seasonal conditions, 129 cattle fairs were held all over the State in which 11,68,141 heads of cattle gathered. The Department distributed prizes worth over Rs. 13,700 to the best exhibits in order to create the necessary incentive in the private breeders and arouse their interest to rear better stock of animals. Cattle Fairs

1098. Gosamvardhana Week was celebrated throughout the State during the last and the first weeks of November and December months respectively. Educational propaganda was organised as an adjunct to this by

**ANIMAL
HUSBAN.
AND
VETERI.
SERVICES.**

Rural Deve-
lopment Work

providing exhibits, charts, photos and speeches from different persons.

1099. Under Rural Development Work, the Department castrated 91,920 scrub bulls, rams and bucks, treated 5,04,276 ailing cases and conducted 8,68,663 inoculations and vaccinations against several contagious diseases. Intensive dosing was undertaken against liverfluke infestation and other parasitic disorders in all the centres and 1,11,688 cattle and buffaloes were systematically dosed by the staff employed for the purpose. In order to intensify these activities, artificial insemination centres and model poultry farms were established in a few selected community development blocks in addition to distribution of rams and bucks for stud purposes.

Sheep
Breeders'
Associations

1100. The nine Sheep Breeders' Associations continued to work in the State during the year with a membership of 2,702 in all these associations. During the year, 86 (28) stud rams were distributed through these associations, 2,100 (665) scrub rams castrated, 12,271 (8,206) sheep were dosed against helminthic parasites among members' flock, 67,699 (63,379) were clipped and 13,172 (13,015) lbs. of wool collected. Out of 956 (862) woollen fabrics manufactured out of the wool collected in the weaving sections attached to the Sheep Breeders' Associations, 681 (874) fabrics were sold during the year.

Veterinary
Education and
Training. "

1101. At the beginning of the year, six (2) state stipendiaries were still prosecuting their studies in the different veterinary colleges in India. Ten (8) fresh candidates were deputed to the veterinary colleges at Madras, Andhra and Orissa. The Department also undertook the training of candidates in (1) Stockman's Training School at Dharwar and (2) Compounders Training Centres at Bangalore and Mysore.

Development
Schemes.

1102. Under the Second Five Year Plan, several schemes were drawn up with the object of improving the live-stock wealth of the State. The details are as follows:—

(1) Veterinary Research;—To meet the increased demand caused by the doubling of the livestock population of the State due to re-organisation and for the timely production and despatch of several sera and vaccines required for combating the various diseases that take a heavy toll of

animals, sanction was accorded for the expansion of the following research sections of the Mysore Serum Institute, Hebbal, Bangalore at a total cost of Rs. 1,84,000.

- | | |
|-------------------------|------------------|
| 1. Nutrition Chemistry. | 2. Pathology. |
| 3. Bacteriology. | 4. Parasitology. |

(2) Key Village Scheme;—This is the fifth year of operation of this scheme. The object is to demonstrate to the villagers the advantages that could be gained by adopting improved methods of animal husbandry practices.

1103. In the erstwhile Mysore State, two key village centres were located at Ajjampur and Hessarghatta livestock farms. With the Re-organisation of the State, the three centres functioning at Ponnampet, Somwarpet and Kudige located in Coorg District were added on to this State. During the year, two more centres were opened at Kunigal, Tumkur District and Annmathi, Coorg District. The centres functioning at Hessarghatta and Ajjampur was upgraded by including two more sub-centres.

1104. During the year sanction was accorded for opening one Gosadan at Yemmedoddi Kaval, Chickmagalur District to remove the useless and decrepit animals and look after them till they die a natural death. This also provides for utilisation of a munificent donation of one lakh of rupees contributed by the Jain Marwari Sangh, Bangalore, for construction of necessary buildings in addition to the Government of India financial assistance.

1105. The two pilot poultry projects located at Kurikuppi and Gundlupet as an experimental measure continued to show steady progress by supplying more hatching eggs to the *bona fide* breeders in the neighbouring areas in addition to providing training facilities in poultry keeping. After Reorganisation, the project located at Ponnampet, Coorg District was added on.

1106. Seven Artificial Insemination Centres were opened during the year in the undermentioned places thus bringing the total number of centres in the State to twenty-nine at the close of the year in addition to the one located in Bangalore City and run under the control of the National Dairy Research Institute, Bangalore. As these

**ANIMAL
HUSBAN.
AND
VETERI.
SERVICES.**

were popular, there was heavy demand for opening more centres.

1. Malavalli, Mandya District.
2. Gundlupet, Mysore District
3. Mudigere, Chickmagalur District.
4. Mayasandra, Tumkur District.
5. Kinnigoli, South Kanara District.
6. Ammathi, Coorg District.
7. Kutta, Coorg District (sub-centre).

**Amrithmahal
Section.**

1107. The four Economic Cattle Farms *viz.*, Abbanghatta Farm, Birur Farm, Kynodu Farm and Ulavarthy Farm started five years ago continued during the year.

1108. The strength of the herds in the four Economic Farms at the close of the year was 1,732 (1,556) which included 306 (270) births and 121 (154) deaths during the year.

1109. The animals of the four economic farms were much better during the year.

**Demand,
Collection
and Balance.**

1110. The amount pending collection at the commencement of the year was Rs. 1,74,336-89 (Rs. 2,10,590-43). The demand for the year under all heads was Rs. 31,652-95 (Rs. 74,667-16) making a total demand of Rs. 2,05,989-94 (Rs. 2,85,257-58). The collection during the year was Rs. 52,233-84 (Rs. 1,10,920-69) leaving a balance of Rs. 1,53,755-99 (Rs. 1,74,336-89) at the close of the year.

1111. The demand for the year was inclusive of 25 to 50 per cent advance collection of gutta and sale proceeds of manure collected in the several kavals of the Department.

1112. The total receipts and expenditure of the Amrithmahal Section during the year were Rs. 50,215-83 (Rs. 49,659-56) and Rs. 31,652-95 (Rs. 74,467-16) respectively.

**Cattle Breed-
ing Station;
Ajjampur.**

1113. The strength of cattle at the end of the year was 1,108 (1,144). The total births were 165 (223). The average birth weight of the male and female calves was 42 (38.8) and 32.5 (35.5) lbs. respectively.

1114. Generally the health of cattle was satisfactory, but for heavy mortality amongst the young calves from worminus bronchitis, which took a toll of 49. The total number of services accounted for by the bulls on the farm was 220 (182). The total production of milk was 25,603 lbs.

1115. The total receipts of the Station from all sources amounted to Rs. 39,405-28 (Rs. 94,021-37) whereas the cash receipts were Rs. 22,819-42 (Rs. 63,491-56). The total expenditure was Rs. 66,503-67 (Rs. 65,278-94).

(ii) Serum Institute.

1116. The Serum Institute located at Hebbal, Bangalore, completed 25 years of service in manufacturing and supplying on a commercial scale, the required biological products for the control of epizootological diseases in and outside the State.

1117. The Research Section attached to the Serum Institute was engaged, as usual, with the investigation of diseases confronting the livestock of the State and the development of new biological products. The Indian Council of Agricultural Research continued to finance the two schemes, *viz.*, Disease Investigation (general) and Parasitic Disease Investigation on 50:50 basis.

1118. The demand for Black-quarter and Ranikhet disease vaccines was heavy as in the previous year and these continued to yield satisfactory results in the field for the efficient control of outbreaks of Anthrax among cattle, sheep, goats and poultry in the State.

1119. The Institute prepared and supplied large quantities of normal saline required for the reconstitution of freeze dried vaccine under the scheme for the eradication of rinderpest in selected districts of the State during the year. During the year, a total quantity of 9,111 bottles of normal saline each sufficient for 150 cattle was supplied.

1120. Work under the scheme for the control of diseases of parasitic origin was continued as a subsidised one. Under this scheme, 1,18,892 (1,29,145) heads of animals were dosed with effective anthelmintic infections.

1121. The Bio-chemistry section was mainly engaged with the preparation of certain drugs which are most commonly used in the veterinary hospitals and dispensaries and supplying them to the different veterinary institutions in the Department.

1122. As regards the stock of biological products, the year commenced with an opening balance of 1,47,040 doses, 3,270 c.c.s of biologicals and 313 bottles of normal saline and distilled water.

**ANIMAL
HUSBAN.
AND
VETERI.
SERVICES.**

1123. During the year, 37,64,300 doses, 51,190 c.cs biologicals and 15,853 bottles of normal saline and distilled water were prepared. Out of a total stock of 39,11,340 doses, 54,460 c.cs and 16,166 bottles, 36,06,090 doses, 33,902 c.cs and 15,366 bottles were issued within the State; 1,42,820 doses, 7,593 c.cs were issued outside the State and 130 doses, 665 c.cs were used in the Laboratory of the Mysore Serum Institute, leaving a balance of 1,62,300 doses, 12,300 c.cs and 800 bottles at the close of the year.

1124. During the year, 49 he-buffaloes, 35 buffalo bull calves, 127 sheep and 140 goats were used for biological production and experimental works.

1125. The total expenditure and receipts of the Serum Institute amounted to Rs. 1,72 781-56 (Rs. 2,00,950-64) and Rs. 2,53,179-48 (Rs. 3,70,457-45), respectively earning a net profit of Rs. 80,397-92 during the year.

(iii) Composite Livestock Farm and Research Station, Hessarghatta, Bangalore.

1126. The Composite Livestock Farm and Research Station, Hessarghatta, in Bangalore District which is an unique venture undertaken by the Department in the State completed its sixth year's work since its establishment.

**Grass and
Hay
Production**

1127. Almost all the kaval lands of the farm area were being used as pasture for grazing the different livestock of the local units. In the farm area, 273 (258) tons of hay was mowed of which 109 (184) tons was left over at the close of the year as a reserve for the subsequent year.

1128. One thousand and eighty-nine (856) tons of green and lucerne of the value of Rs. 33,439 (Rs. 26,525) were supplied during the year. The approximate value of green grass, hay and straw supplied was Rs. 73,451 (Rs. 41,577).

1129. The revenue and expenditure of the section during the year was Rs. 73,171 (Rs. 81,401) and Rs. 94,337 (Rs. 86,484) respectively.

**Dry Cattle
Farm.**

1130. The stock of dairy animals at the close of the year was three (5) bulls which includes one Jersey sindhi cross bred bull added on to this stock during the year in order to provide natural service besides artificial insemination.

1131. At the close of the year, there were 53 (65) cows and 16 (13) she-buffaloes in the farm belonging to private persons.

1132. The revenue and expenditure of the Farm were Rs. 11,658-12 (Rs. 9,918-62) and Rs. 11,866-81 (Rs. 11,808-81) respectively.

1133. The sheep farm at Hessarghatta for the rearing of the Bannur (mutton) and the Hassan (woolly) breed of sheep was continued during the year. Sheep
Breeding.

1134. Under Bannur (Mutton) type sheep, there were at the close of the year four (2) stud rams 124 (114) ewes and 97 (129) lambs.

1135. Under Hassan and Bikneer (woolly) breed of sheep, there were two (1) rams, 55 (57) ewes and 99 (106) lambs.

1136. The receipts and expenditure of this section were Rs. 2,130-50 (Rs. 2,590-45) and Rs. 4,474-81 (Rs. 3,506-49) respectively.

1137. The Poultry Farm has as many as 16 breeds of poultry and apart from being the foremost in this direction, the State continued to lead the rest of the country, as no other Government managed poultry farm in India run on commercial line, at the same time serving as a demonstration unit for intending poultry farmers, besides supplying foundation stocks required for poultry development throughout the State and also to the neighbouring States. Poultry
Farm.

1138. At the close of the year, there were 3,907 (3,358) birds of as many as 13 different breeds on the farm. Hybridisation experiments were continued to be conducted with some of the available breeds on the farm to find out a suitable hybrid for maximum production and cold weather laying. On an average, 808 (1,050) layers were maintained on the farm throughout the year which produced 1,04,463 (1,26,564) eggs, made up of 43,750 (58,552) infertiles, 55,887 (63,862) fertiles and the remaining 4,826 (4,150) broken or discarded eggs. The broken eggs were utilised for feeding the chicks. Twenty-nine thousand one hundred and fifty-two (16,409) fertile eggs were set for incubation and 16,052 (9,211) chicks were produced, out of these 2,038 (1,966) birds were sold to the public both within and outside the State for breeding purposes.

**ANIMAL
HUSBAN.
AND
VETERI.
SERVICES.**

1139. Intensive development of poultry in the entire State as a cottage industry that was undertaken during the previous year was continued this year also.

1140. The flock was free from Ranikhet disease but was attacked severely from fowl pox and this was controlled by timely action.

1141. The total receipts and expenditure of the poultry farm were Rs. 42,063-31 (Rs. 56,562-91) and Rs. 59,131-56 (Rs. 59,568-82) respectively.

1142. The Poultry Farm located at Kudige, Coorg District, continued to be popular. The stock that was 696 (673) at the beginning of the year was successfully raised to 1,826 (696) at the close of the year and 869 (1,525) birds were sold for breeding purposes in the District. The total receipts of the farm was Rs. 7,004-64 (Rs. 11,729-77) as against an expenditure of Rs. 40,986-36 (Rs. 10,696-11) for the year.

**Hallikar
Cattle
Breeding
Station.**

1143. In order to maintain the purity and efficiency of the Hallikar breed by controlled breeding so that adequate number of pedigreed bulls of the breed may be made available to private breeders, the cattle breeding station for this breed of cattle was started at Hessarghatta, Bangalore District five years ago.

1144. At the close of the year, there were 13 (6) bulls, 10 (7) bullocks, 112 (102) cows, 74 (63) heifers, 109 (116) calves, two (2) buffalo bull calves and one (1) catalloe.

1145. A total quantity of 47,430 (37,233) lbs. of milk was produced during the year and this was supplied to the hospitals in Bangalore City.

1146. Due to availability of fodder in plenty, the animals maintained satisfactory condition and they were free from infection.

1147. The receipts and expenditure of this Section were Rs. 26,138-50 (Rs. 16,432-77) and Rs. 29,341-75 (Rs. 25,243-33) respectively.

Dairy Farm

1148. The year opened with a strength of 315 (269) animals in the Government Dairy Farm comprising of 219 (177) sindhis, 80 (77) buffaloes and the remaining 16 (15) cross bred animals.

1149. No breeding bull was maintained on this farm as artificial insemination was resorted to.

1150. During the year, the total quantity of milk yielded by the cows was 1,90,343 (1,00,118) lbs. and by the she-buffaloes 28,243 (41,023) lbs. Most of the milk was supplied to the hospitals in Bangalore City or sold to private parties.

1151. During the year, sum of Rs. 86,496-44 (Rs. 66,656-80) was expended. A sum of Rs. 58,722-81 (Rs. 50,205-84) was realised as revenue.

1152. The Dairy Development Scheme functioning in Kudige, Coorg District continued the collection of milk from the rural parts and its distribution in the urban parts. The milk produced in the farm was 1,70,599 (1,21,158) lbs. Necessary machinery to pasteurise the milk before distribution, was received during the year. From this farm, a sum of Rs. 49,336-60 (Rs. 39,358-56) was realised as receipts as against Rs. 64,430-47 Rs. 42,461-20) expended.

1153. During the year, the eight nurseries were maintained in addition to the one big rearing pond. In these, Lebaeo, Calbalu Op-striatus, Opichephalus punctatus, Catta, Glod Fish, Scale carps, Callichrous, Gaourami, Cirrhina Barubus Chysopama, Laccobbranches, Clarius major and Exgroplus were reared and stocked in the reservoir. Several fingerlings of various varieties were released into Hessarghatta lake. Twenty-six (16) fishing licences were issued. Deep water fishing was continued and 3,891 (3,115) lbs. of fish was caught.

Fisheries

1154. The Kunigal Stud Farm which came under the control of the Animal Husbandry and Veterinary Services Department from the Military over six years ago has continued to work satisfactorily.

Government
Stud Farm,
Kunigal,
Tumkur
District.

1155. The number of animals on the farm are considered under three categories, viz., (i) owned by Government, (ii) owned by the Bangalore Race Club but maintained on the farm under the "Eve Blood Scheme" and (iii) private owned but maintained on the farm for breeding.

(i) *Government Animals*:—One stallion and one male, both bred in England, were imported and added to the farm during the year at a cost of Rs. 33,467. There were two births and two (2) young stock were sold in auction at Bombay. One young stock died leaving at the close of the

ANIMAL
HUSBAN.
AND
VETERI.
SERVICES.

years six (5) stallions, eight (7) males and four (5) young stock.

(ii) "*Eve Blood Stock Scheme*" *Animals*:—There were at the close of the year four (4) males and two (1) young stock and the year closed with four (4) males and two (1) young stock.

(iii) *Private Owned Animals*:—At the close of the year, there were 11 (14) males and five (12) young stock.

1156. *Sheep Breeding*:—A flock of Bannur mutton breed sheep, which was introduced on this farm four years ago as an experimental measure were generally found to thrive well under the conditions obtainable on this farm. At the close of the year, there were 201 (186) animals.

1157. The receipts and expenditure of the farm were Rs. 94,281-74 (Rs. 1,86,290-65) and Rs. 1,21,139-60 (Rs. 1,06,926-54), respectively.

1158. The livestock breeding operations on the farm were carried on (1) Hallikar Cattle (2) Murrah Buffalo and (3) Bellary Sheep. The object of the farm is to breed hallikar cattle for improvement in milk yield retaining its draught qualities and to raise bull calves for breeding and work animals in the Tungabhadra project area, to study the acclimatisation of Murrah buffaloes in the locality and under sheep breeding to evolve a true breeding strain of black faced and white bodied Bellary sheep by selective breeding and to cross breed the selected black faced and white bodied Bellary ewes with Bikanir rams for production of high bred rams. These rams are meant for distribution among the private breeders at concessional rates to improve the wool bearing qualities of their flock.

1159. At the close of the year, there were 280 (384) heads of Hallikar cattle of both sexes, 38 (39) bullocks for agricultural operations in the absence of electric power, 32 (28) Murrah buffaloes and 462 (464) sheep. From the cows and she. buffaloes a total quantity of 95,885 (1,22,716) lbs. of milk was produced.

1160. The receipts and expenditure of the farm were Rs. 21,926-81 (Rs. 15,044) and Rs. 1,19,803-88 (Rs. 1,02,868), respectively.

Combined
Sheep and
Cattle Farm
Kurikuppi.

1161. At the District Livestock Farm, Koila, South Kanara District, multiplication of the Sindhi, Gir, Murrah and Dharwar buffaloes stock was continued with the object of making available a large number of stud bulls in the neighbouring areas.

**ANIMAL

1162. The strength of cattle at the Cattle-cum-Sheep Breeding Farm, Munirabad was increased during the year with increased births and decreased deaths.

Cattle-cum-
Sheep
Breeding
Farm
Munirabad.

1163. The work of grading the Bellary breed of sheep with Bikanir rams to evolve a strain which would yield better quality wool with improved carcass continued to progress.

1164. During the year, a sum of Rs. 80,077 (Rs. 71,000) was spent under several heads as against a receipt of Rs. 861 in the Cattle-cum-Sheep Breeding Farm, Munirabad.

1165. The period has marked by an increased progress in the activities of Animal Husbandry and Veterinary Services Department as detailed earlier under several sections. With the object of introducing uniformity in animal husbandry practices throughout the State, it was proposed to provide more veterinary aid in the areas transferred from erstwhile Hyderabad and Madras States, while in the rest, emphasis was laid for breeding of improved livestock.

(iv) Fisheries.

1166. Development work in erstwhile Mysore State:—Fishery conservation measures as usual, were enforced during the year in the three fishery divisions comprising Mysore, Mandya, Shimoga and Kolar districts. The destructive methods of poisoning and use of explosives to catch fish by the local fishermen were largely prevented and also the use of basket traps and other fixed machines to catch fish was prohibited.

1167. The exploration of fry collection centres of important food fishes like *Barbus dubies*, *Carnatus*, *Lacri fimbriatus* etc., and the stocking of these in fallow waters were intensified. A total quantity of 13,93,173

**ANIMAL
HUSBAN.
AND
VETERI.
SERVICES.**

(13,38,724) fish fry of the indigenous food fishes was collected and stocked in selected water areas with a view to intensifying fish production. Five (2½) lakh of fish fingerlings of major corps, mostly Cirrheia, Mrigal, Labeo, Balbasu and Catla were imported from Calcutta at a cost of Rs. 15,160 during the year.

1168. Fishing was permitted only by issue of licenses and auctioning the fishing rights. A total of 3,257 (3,469) fishing licenses were issued. A sum of Rs. 44,006 was collected by auctioning 270 (229) major tank fisheries and 211 (271) miles of channel fisheries.

1169. Deep water fishing was undertaken at K.R. Sagar, Bethamangala, Hessarghatta, Markonahally and Shiralkoppa as an experimental measure. A total of 5,235 (3,115) lbs. of fish was caught and a sum of Rs. 1,534 (Rs. 783) was realised as revenue.

1170. The revenue and expenditure of the fishery section amounted to Rs. 45,718 and Rs. 84,321, respectively.

Development work in integrated areas.

1171. The following fishery activities located in the Bombay Karnatak area continued during the year:—

1. Fish curing yards in North Kanara	...	12
2. Fishery schools at Karwar, Rajali and Ankola	...	3
3. Fishery co-operative societies	...	17
4. Ice Plants in North Kanara	...	3
5. Mechanised boat	...	1
6. Deep water fishing unit at Dharwar	..	1

1172. During the year, 17,832 maunds of salt were issued to fishermen for curing fish at the yards located in North Kanara District and 72,435 maunds of fish were cured, 77,000 carp fry imported from Calcutta were reared at the nurseries located at Dharwar.

1173. In South Kanara District, the following activities continued their useful work during the year:—

1. Fish curing yards	15
2. Fisheries schools	22
3. Fishermen's co-operative societies	32
4. Marine fish farms	2
5. Fresh water fish farms	2

1174. During the year, 52,236 maunds of salt were issued for curing fish at the yards and 3,60,066 maunds of fish were cured.

1175. In the tanks located in Hyderabad Karnatak area and Coorg district, 12,285 and one lakh carp fry were stocked respectively during the year.

1176. The Re-organisation of States has given Mysore over 200 miles of coastline. This affords greater facilities for exploiting the fishery wealth in the coast.

CHAPTER XI—INDUSTRIES AND
COMMERCE.

(i) Industries and Commerce.

1177. From the beginning, the Department has pursued General
a policy of encouraging and promoting industrial activities in
the State and affording technical assistance and advice
either to establish new industries or to expand the existing
industries wherever necessary and of furnishing advice and
assistance for expansion and improvement of trade and
commerce in the State. This policy was continued during
the year also.

1178. There was perceptible improvement in the Industrial
and
Commercial
conditions
general industrial and commercial conditions in the State
as compared with the previous year. The industrial
concerns in the State both large and small, continued to
maintain production by utilising the locally available
resources and when necessary by importing raw materials
or accessories from foreign countries.

1179. The trend towards reduction of quotas for items The Import
Policy of the
Government
of India
relatively less essential to the economy of the country
introduced during the latter part of the previous year was
carried a step further in view of the foreign exchange
requirements of the Second Five-Year Plan. The provisions
for liberal licensing and licenses for new-comers were
withdrawn. Discrimination between the dollar and soft
currency areas was further reduced by allowing the utilisation
of licenses for soft currency areas for import from hard
currency to a greater extent. A more liberal policy was
generally adopted for capital goods such as machinery,
equipment, spares and components.

1180. The Export Promotion Scheme, which provides
for the grant of special import licenses for such of the basic
raw materials as required in the manufacture of goods
intended for export, was continued during the year.

1181. An important feature of the Export Policy
pursued by the Government of India during the year was
to encourage export of indigenous manufactures, which
were surplus to the internal requirements of the country.

**INDUS-
TRIES
AND COM-
MERCE**

A large number of commodities like manganese ore, kyanite ore, tamarind, castor oil, linseed oil, groundnut oil, etc., were placed on the list of exports to foreign countries, fixing the ceiling limits wherever necessary.

**Price
Movements**

1182. During the year, the commodity prices registered a further rise as compared with the previous year. The prices of food-grains, textiles and other articles of food were unsteady while the prices of oilseeds showed an upward tendency.

**Industrial
Establish-
ments**

1183. There were 945 industrial establishments working in the Old Mysore State including Bellary District during the year. The total number of persons employed in all these establishments was 1,18,086. Out of the 945 industrial establishments, 895 were perennial and the remaining 50 were seasonal.

1184. Steps were being taken to collect and publish similar statistics in respect of industrial establishments located in the integrated areas.

**Major
Industries**

1185. Woollen Mills.—During the year, there were four woollen mills working in the State with 269 looms and 18,112 spindles. The total production of woollen yarn and piece-goods in these mills during the calendar year 1956 was 3,133,207 (2,395,528) lbs. valued at Rs 1,44,22,286 (Rs. 1,17,77,361). Two of these mills were mainly engaged in the manufacture of carpets and druggets.

**State Aid
to Industries**

1186. (1) The Mysore State Aid to Industries Act, 1951.—During the year, a total sum of Rs. 4,60,300 was disbursed as loan in 37 cases under this Act while a sum of Rs. 49,949 was recovered from the loanees towards the outstanding loans.

(2) Recovery of Loans granted under the Industrial Loan Rules.—Sixty loan cases were outstanding at the close of the year, of which 52 cases pertained to individual loanees while the remaining eight cases related to large industrial concerns.

The total recoveries made during the year towards repayment of the outstanding dues amounted to Rs. 4,04,529 (Rs. 4,00,000).

3. Loans under the Scheme "Loans to Educated unemployed persons to start industries of their own".—As the scheme for the grant of loans to educated unemployed

persons was abolished by Government, no fresh loans were granted during the year.

1187. The Department continued to render as usual technical advice and assistance to private industrialists and industrial concerns in connection with the erection or repairs to industrial plant and machinery wherever such advice or assistance was sought for by them.

1188. (a) *Supply of Coal and Coke.*—The arrangements for procurement and distribution of coal and coke in the State to the small scale consumers through the Coal Depots maintained by the Department at the Government Soap Factory, Bangalore, and Government Porcelain Factory, Bangalore, were continued during the year. The quarterly quota of 162 waggons of coal/coke under class "ZIS" was regularly drawn and distributed among the small scale consumers in the State.

The quotas previously fixed to all major consumers of coal/coke under various classifications of industries in the Mysore State were issued during the year.

The Mysore Coal Control Order was continued to be in force in the Old Mysore area.

(b) *Supply of Iron and Steel.*—The Iron and Steel Controller for Mysore, Bhadravati, was requested to enhance the quotas suitably so as to meet the reasonable demands of the consumers in the State including integrated areas.

(c) *Supply of Salt.*—The Zonal Scheme for the distribution of salt was continued during the year. Under the Scheme, a total quantity of 15,00,000 railway maunds of salt was allotted to the State for the year 1956 for industrial and civil requirements.

(d) *Issue of Essentiality Certificates for the import of raw materials, machinery, etc., by "Actual Users".*—Two hundred and five applications were received during the year from the "Actual Users" in the State including the integrated areas for the grant of essentiality certificates for the import of raw materials (except raw silk and art silk), machinery, spare parts, etc., for use in their industrial concerns for the manufacture of finished products. As usual, these applications were investigated and essentiality certificates were issued in deserving cases after examining their *bonafide* requirements.

Of Assistance.

INDUS-
TRIES
AND COM-
MERCE

(e) *Inspection of Articles of Furniture.*—The furnitures worth Rs. 4,57,425 manufactured by the approved contractors with whom indents placed by the several Government Departments in the State, were inspected and certified by the Department.

Industrial
Education.

1189. 1. *Government Industrial Schools.*—There were eleven Government industrial schools working under the control of the Department at the end of the year with 615 students undergoing training in useful arts and handicrafts like carpentry, smithy, lacquerware manufacture, weaving in cotton and wool, ivory and wood-carving, etc. A sum of about Rs. 29,318 was expended during the year for granting scholarships to students, the rate of scholarship varying from rupees five to rupees seven per month.

Sanction was accorded during the year for the starting of an industrial school at Nagamangla and accordingly the school was started for imparting training in the following crafts *viz.*, carpentry, smithy, brass icon-making and wool-weaving.

The total output and sales in all the eleven industrial schools during the year amounted to Rs. 76,160-87 and Rs. 1,46,496-62 respectively.

2. *Private Industrial Schools.*—As in the previous year, a monthly grant-in-aid of Rs. 250 was given to the S.L.N. Industrial School, Bangalore, while a monthly grant-in-aid of Rs. 201 was given to the Methodist Mission School, Tumkur, during the year.

The working of the schools was satisfactory.

3. *Home Industries Institutions.*—There were 51 home industries institutions (Stree Samajas) working in the State by the help of grants-in-aid ranging from Rs. 30 to Rs. 100 per month, with about 2,000 ladies on an average per month undergoing training in several useful crafts such as tailoring, mat-weaving, cloth-printing, rattan work, embroidery, knitting, zari work, etc., during the year. The total amount of grant given to these institutions by the Department during the year was Rs. 21,500.

Out of a sum of Rs. 29,980 sanctioned by the Government during the year, a sum of Rs. 27,780 was disbursed among several institutions during the year.

One dozen sewing machines were purchased and supplied to the deserving institutions during the year for development of their industrial sections.

4. *Award of Scholarships for the study of industrial subjects.*—During the year, one scholarship of Rs. 85 per month was awarded to a final year student of Commercial Arts in the J.J. School of Arts, Bombay, while two scholarships of Rs. 75 each per month were awarded to two students studying in the second year course of advanced studies in Commercial Arts at the same institute. Two scholarships each of Rs. 50 per month were awarded to two students for undergoing training in the Central Food Technological Research Institute, Mysore.

1190. 1. *Industrial Statistics Act, 1942—Census of Manufacturing Industries Rules, 1953.*—The Industrial Statistics Act, 1942, which was hitherto in force in the State was repealed with effect from 10th November 1956, consequent on the enforcement of the Collection of Statistics Act, 1953, as per Notification No. I.P. (A). 1 (22) 56, dated 10th November 1956, issued by the Ministry of Heavy Industries, Government of India, New Delhi.

Administra-
tion of Cen-
tral Acts.

As in the previous year, the scope of the Census of Manufacturing Industries in Mysore, was limited to factories employing 20 or more workers per day and using power in the manufacturing process and to industries shown at serial Nos. 1–29 in Schedule I to the Census of Manufacturing Industries Rules.

There were 231 factories in the New State coming within the scope of the Census of Manufacturing Industries during the year including 105 factories located in the integrated areas.

The occupiers of the factories coming for the first time within the scope of the Census of Manufacturing Industries were acquainted with the provisions of the Rules and the need for conducting such census of Industrial Production and for building up a complete structure of each industry for purpose of planning and development, and steps were also taken by the Department to enlist their co-operation and personal attention in connection with the conducting of the census and to maintain a high standard of efficiency.

INDUS-
TRIES
AND COM.
MERCE
—

2. *Industries (Development and Regulations) Act, 1951.*—During the year, 1956 applications were received from the industrialists in the State for the grant of necessary licenses for the establishment of new undertakings or expansion of the existing undertakings. Of these, 18 applications related to the grant of licenses for establishing new industrial undertakings, while 31 related to the grant of permission for the expansion of existing undertakings, six for the manufacture of new articles and one application for the registration of their existing undertaking. Out of these 56 applications, necessary licenses were granted in 11 cases, while in nine cases the Government of India rejected the applications as they did not comply with the provisions of the Act and the Rules made thereunder. Two applications were treated as withdrawn. The remaining 34 applications were pending disposal with the Government of India. In the case of two industrial concerns who had applied for the issue of licenses for expanding their undertakings during 1955-56, necessary licenses were issued during the year.

The number of Commercial and Industrial enquiries received and dealt with by the Department during the year was about 500 (486). As usual, the enquiries were received from various mercantile bodies and Government Departments both in and outside the State.

Working of
the Industrial
Concerns.

1191. (a) *Government Electric Factory, Bangalore.*—Production of Transformers continued to be the main line of manufacture during the year and other lines of manufacture were hardware, scientific instruments, electrical accessories and bakelite articles. The total production and sales were Rs. 69,15,991 (Rs. 45,77,396) and Rs. 67,94,117 (Rs. 44,28,247) respectively. The transformers manufactured during the year aggregated to about 92,500 (53,500.) K.V.A.

Machinery of the total value of about rupees three and half lakhs were received during the latter part of the year.

Negotiations were being conducted with Messrs. A.E.G. of West Germany for securing their technical collaboration in the manufacture of heavy duty electrical transformers and motors and switchgears.

The expenditure booked under development schemes was about Rs. 2,66,000 as against final grant of

Rs. 3,83,000. During the year, eight students were undergoing training in several sections.

(b) *Government Soap Factory, Bangalore.*—The total production of soap during the year was 650 tons (601). The total sales reached a record figure since the inception of the factory and amounted to Rs. 32,00,000 (Rs. 30,30,000).

The products of the factory were continued to receive high patronage from both Indian States and foreign countries. The Mysore Sandal Soap has established good market in Federated Malaya States, Canada, Great Britain and other Middle East and Far East Countries.

The construction of the new building at Rajaji Nagar was completed during the year and the same was inaugurated by the Governor of Mysore on 25th March 1957.

(c) *Government Porcelain Factory, Bangalore :—*Due to the implementation of the expansion schemes which involved dismantling, repairing and erection of various items of plant and machinery, the total production of electro-porcelain articles like 8 K. V. and 15 K. V. insulators, 8 K. V. and 13 K. V. strains etc., was less, amounting to Rs. 1,28,298 (Rs. 5,59,106). The sales of finished stocks amounted to Rs. 7,17,302 during the year.

The expansion of the factory at an estimated cost of Rs. 63 lakhs with the technical collaboration of Messrs. N.G.K. Ltd., Nagoya, Japan, was taken up with a view to step up production of high tension insulators to the extent of 2,500 tons per annum as against the present capacity of 300 tons per annum. The object of the scheme is to supply its product of H. T. Insulators throughout India to meet the demands of all hydro-electric projects.

The main factory building under the expansion scheme which was completed during the year at a cost of Rs. 3,88,177 was opened by the Prime Minister of India on 23rd February 1957.

(d) *Government Industrial Workshop, Bangalore :—*During the year, the total out-put and sales were Rs. 4,57,271 (Rs. 4,12,343) and Rs. 4,84,656 (Rs. 4,26,116) respectively.

Sanction was accorded for shifting the factory to a new site at the Government Electric Factory at an

INDUS-
TRIES
AND COM-
MERCE

estimated cost of rupees six lakhs and the construction of the building was taken up during the year.

(e) *The Government Sandal Wood Oil Factories, Mysore and Shimoga.*—The total production of sandal wood oil at both the factories in Mysore and Shimoga during the year amounted to 130,388 lbs. (59,220 lbs.) while 18,591 lbs. (13,303 lbs.) of oil were obtained by distillation at New York under agency arrangements. The sales aggregated to 1,49,829 (1,58,527) lbs. of sandal wood oil of the value of Rs. 78,98,054 (Rs. 74,32,054).

As in the previous year, there was good market for sandal wood oil in all the principal consuming centres of the world including Great Britain, America, Japan and other Continental countries of Europe.

(f) *Mysore Implements Factory, Hassan.*—After six years of continuous loss from 1949-50 to 1954-55 on account of competition from several bigger units, the factory was able to work as a paying concern during the years 1955-56 and 1956-57.

Out of a capital grant of rupees eight lakhs under the development scheme and Rs. 50,000 from depreciation reserve funds, a sum of Rs. 1,00,850 and Rs. 11,063 respectively were actually expended in connection with the implementation of the schemes.

The factory was being mechanised by installing up-to-date machines under the Expansion Scheme during the year.

(g) *Sri Chamarajendra Technical Institute, Mysore.*—This is a premier institution of Arts and Crafts which has been maintained by this Department for training the artisans in carpentry and cabinet making, fine arts, modelling, wood carving, sandal wood and ivory carving, inlay work, engraving and enabling metal work, manufacture of rattan articles, smithy, sculpture, etc. The duration of course, ranges from three to six years depending upon the course taken. There were 354 students undergoing training in the Institute at the end of March 1957.

During the year, the production and sale of articles both in workshop and training sections amounted to Rs. 1,09,134 and Rs. 1,34,982 respectively while the sale of articles manufactured by private artisans amounted to Rs. 68,400.

(h) *Arts and Crafts Depot, Bangalore*.—The Depot continued to be an Emporium for the display and sale of the best specimens of the Mysore Arts and Crafts. The sales during the year amounted to Rs. 1,58,468 (Rs. 1,15,250).

(i) *Government Central Workshop, Mercara*.—The workshop which was mainly engaged in the execution of job orders pertaining to mechanical works including repairs and services, was brought under the control of the Department with effect from 1st November 1956. The workshop continued from 1st April 1956 with a capital of Rs. 2·3 lakhs. During the year, a sum of Rs. 0·78 lakh was drawn towards capital expenditure. The total receipts realised by the execution of job orders was Rs. 73,348 (Rs. 46,015).

1192. (a) *The Mysore Tobacco Co., Ltd., Bangalore*.—The total area planted by the Company during the year was 3,350 (3,143) acres. The total value of green-leaf purchased from the ryots amounted to Rs. 5,45,612 (Rs. 7,68,627). The decrease was mainly due to a decrease of rupees two in the purchase value. The total value of cured tobacco sold was Rs. 35,80,633 (Rs. 28,96,809).

Government
Aided
Industrial
Concerns

A Tobacco Research Station was established at Hunsur under the auspices of Indian Central Tobacco Committee and the Central Tobacco Research Institute, Rajahmundry, with a view to investigate the ravages caused by the pests and parasites for the tobacco crop.

(b) *The Mysore Chrome Tanning Co., Ltd., Bangalore*.—The details of production during the year were:—

- | | | |
|--|-----|--------------|
| 1. Value of raw materials consumed | ... | Rs. 2,63,716 |
| 2. Value of articles of production | | |
| (a) Uppers and B. T. soles | ... | Rs. 4,74,663 |
| (b) Leather goods | ... | Rs. 24,301 |
| 3. Value of Stock on hand including raw materials. | | Rs. 2,56,007 |

(c) *The Bangalore Ex-Servicemen's Transport Co., Ltd., Bangalore*.—The hire collections under the different lines of business run by the Company during the year amounted to Rs. 1,89,000.

With a view to afford permanent rehabilitation to ex-servicemen drivers who were running the vehicles, most of the Autorickshaws were released to them under the hire purchase basis and only four were being run by the

INDUS-
TRIES
AND COM-
MERCE

company directly. Fifteen more vehicles were purchased from the military surplus stores at White-Field and Avadi. Out of these, 13 vehicles were renovated and put on roads.

The contract for the carriage of Postal Mails in Bangalore City was executed satisfactorily during the year.

(d) *The Mysore Water Proofs Ltd., Bangalore*:—As many as 14,713 gallons (7,500) of paints and varnishes were manufactured in the company during the year. The sales amounted to Rs. 2,24,989 (Rs. 1,40,248).

(e) *The Mysore Vegetable Oil Product Ltd., Bangalore*:—During the year, a total quantity of 1,236 tons of vanaspathi (Hydrogenated oil) and refined oil was manufactured while the sales was Rs. 23,45,138.

(f) *Mysore Chemicals and Fertilisers Ltd., Mysore*:—There was good demand for all the major products of the company like sulphuric acid, anhydrous ammonia, ammonium sulphate, etc. The demand for superphosphate, however, was very spectacular.

The total sales was Rs. 28 lakhs and this was about Rs. 8 lakhs more than that of the previous year.

(g) *Radio and Electricals Manufacturing Co., Ltd., Bangalore*:—About 1,53,347 House Service Meters, 906 Radio Receivers, 1,000 Water Meters and 69,09,438 yards of P. V. C. products were manufactured during the year. Six hundred and fifty-one Community Receiver sets were sold to the Government of India while 255 Nos. Domestic Radio Chassis Assemblies were sold to Messrs. Amzal (Private) Ltd., Bombay. The total sales of the articles manufactured in the Company amounted to Rs. 69,95,523 during the year.

Manufacture of Radio components such as band switches, capacitors, etc., was undertaken with the approval of the Government of India.

1193. During the year, there were 38 cottage industries centres working under the control of the Department at the end of October 1956 and also several cottage industries working in the integrated areas were transferred to the control of the Department.

1194. Sustained and continuous attention was given by the Department as usual to the resuscitation and Development of Handicrafts and Cottage Industries.

(ii) **The Mysore Iron and Steel Works, Bhadravati**

1195. The relationship between the Management and the employees of the Works continued to be generally cordial during the year. Free medical facilities were continued to be afforded to the employees and the members of their family in the Works' Combined Hospital. All the Educational Institutions in the Works area continued to work satisfactorily.

1196. Out of the total strength of about 6,000 employees in the Works, about 2,400 employees have been provided with quarters and the remaining about 60 per cent of the employees have yet to be provided with quarters.

1197. The total value of sales made by the Works **Sales** during the year amounted to Rs. 451.40 (Rs. 408.38) lakhs.

NOTE.—The figure of Rs. 393 lakhs furnished in the previous year under value of sales was provisional and the actual total value was Rs. 408.38 lakhs as indicated above.

1198. The operations during the year resulted in a net profit of Rs. 61.03 lakhs, after allocating Rs. 54.26 lakhs towards Depreciation, Rs. 12.04 lakhs towards Interest on Government Capital, Rs. 3 lakhs towards Amenities Fund, Rs. 10.51 lakhs towards Rehabilitation Reserve, Rs. 1.50 lakhs towards Reserve on Bad and Doubtful Debts and Rs. 2 lakhs towards arrear provision for Gratuity as against the net profits of Rs. 71.88 lakhs in the previous year.

1199. The total outstanding as on 31st March 1957 **Outstandings** was Rs. 54,82,365 (Rs. 80,45,833).

1200. There was difficulty in getting timely supply of Electrode Paste required for the Electric Pig Iron and Ferro Alloy Furnaces from foreign sources and action was taken to find out the possibility of obtaining this material from indigenous sources and after obtaining some quantity for trial, arrangements were made to place orders for large quantities. The supply of imported steel billets by the Iron and Steel Controller, Government of India, was steady and it enabled the Rod and Strip Mill being operated without interruptions during the year.

(iii) Textiles.

1201. Handloom Industry:—The various Handloom Development Schemes were continued in the New Mysore State during the year including the merged areas whose schemes were financed out of the funds of the State Government, as the former Governments did not communicate and transfer the allocations of funds due to the merged areas from out of the funds sanctioned to them by Government of India prior to 1st November 1956.

Expenditure
on Handloom
Development
Schemes.

1202. The total amount spent on the Handloom Development Schemes during the year was Rs. 41,50,312 including an expenditure of Rs. 11,26,866-50 met from State's resources in respect of the merged areas during the period from 1st November 1956 to 31st March 1957.

Loans to-
wards work-
ing Capital.

1203. The Weavers' Co-operative Societies were provided with loans to the extent of Rs. 11,73,300 during the year for bringing under production 8,363 looms. Of these, only for 3,370 looms loans were sanctioned at the rate of Rs. 200 per loom and for others Rs. 100 each.

Rebate on
sales of Hand-
loom Cloth.

1204. The total rebate allowed on the sales of handloom cloth in the former Mysore region was Rs. 1,61,739-93, while in the merged areas the rebate claims settled from 1st November 1956 to 31st March 1957 was Rs. 6,64,741-86.

Yarn Supply

1205. During the year, the Apex Society purchased yarn of the value of Rs. 11,43,005 and supplied to Weavers' Co-operative Societies to the extent of Rs. 10,78,226. In the merged areas, the yarn was purchased by the Weavers' Co-operative Societies from the private agencies.

1206. The total number of handlooms registered as on 31st March 1957 was 56,757.

1207. The total value of accumulated stocks within the Co-operative sector in the State as on 31st March 1957 was Rs. 28,76,397.

1208. The total sale of woollen goods from January to end of March 1957 in the five sales depots during the year was Rs. 15,114.

Silk Hand-
loom Deve-
lopment
Schemes.

1209. Loans towards share capital were provided to 1,279 silk weavers and loans towards working capital to an equal number of looms at Rs 500 per loom.

1210. Khadi Industry:—Badanval Spinning Circle and Aimangala Khadi Centres were the two main departmental Khadhi Centres in the whole Mysore State. It had been covered over one hundred and fifty villages in Nanjangud, Chamarajanagar and Gundlupet Taluks in Mysore District, and Naganangala, Pandavapura and Mandya in Mandya District. The spinners and weavers in the above areas were mostly agriculturists who took spinning and weaving during their leisure hours. There were about 25,000 spinners and 1,000 weavers working at the above productive centres. A regular spinner working 8 hours a day would get a standard wage of eight annas per day.

1211. During the year, 88,481 lbs. of yarn and 2,03,922 square yards of Khadi valued at Rs. 3,28,092 and Rs. 3,96,840 respectively were produced. The pitlooms which were used by the weavers were replaced by fly-shuttle looms in order to prepare cloths of higher width of different pattern and designs.

1212. There were six Khadi Bhandars in the State including Mangalore Khadi Centre which was transferred after the integration. Khadi sales effected during the year amounted to Rs. 6,43,012. The average sale transaction of the Central Khadi Emporium, Bangalore, was Rs. 30,000 per month.

1213. Village Industries:—During the year, financial assistance to the tune of Rs. 2,85,000 in the shape of grants and loans were sanctioned by the All India Khadi and Village Industries Board to 11 Rural Industrial Co-operative Societies for the development of village industries.

1214. The Central Government have allocated the following amounts against each industry, in the latter part of the official year.

Sl. No.	Village Industries	Grant	Loan	Total
		Rs.	Rs.	Rs.
1	Gur and Kandasari ...	76,900	56,000	1,32,900
2	Soap making with N.E. Oil ...	82,400	1,41,000	2,23,400
3	Village Oil Industry ...	92,750	1,18,000	2,06,750
4	Palm Gur ...	40,378	20,525	60,903
5	Cottage Match industry ...	54,000	81,000	1,35,000
6	Village Pottery ...	81,500	19,500	1,01,000
7	Bee Keeping ...	1,75,070	...	1,75,070

INDUS-
TRIES
AND COM-
MERCE

1215. *Ambar Charka:* —The Government of India had sanctioned a sum of Rs. 67,400 in the form of grants and loans for implementing the Ambar Charka Schemes in the Departmental Khadi Centres, *viz.*, Badanval Spinning Circle and Aimangala Khadi Centres during the year. As the scheme was sanctioned in the latter part of the official year, only the grant portion of Rs. 26,400 were drawn and utilised for the implementation of the scheme during the year.

1216. The Ambar Charka Scheme was financed from the Central Government.

1217. Parishramalayas were opened in places where 50 to 100 persons came forward to receive training on Ambar Charkas, provided a building was given free of rent to accommodate the trainees. Preference was also given to start such Parishramalayas in N.E S. and C.D. Blocks.

1218. The All India Khadi and Village Industries Board offered financial assistance for each Parishramalaya having 50 charkas, to an extent of Rs. 6,000, as grant for purchase of charkas, and Rs. 7,200, as subsidy to meet stipends to trainees, tuition fees, cost of lint and other raw materials, contingency etc., and a stipend of Rs. 20 to each trainee for the entire course of three months. After the period of training, the lint was supplied to the spinner and yarn spun was purchased (if required by the Department) after paying the scheduled rate *viz.*, 1½ annas per lank.

1219. Training ranging up to three months was given to weavers, on Khadi Spinning and Weaving during which period, they were paid a stipend of Rs. 30 as subsidy. Loans and other accessories required by the weavers were also supplied as in the case of handloom weavers. Provision was made for the formation of Ambar Khadi Weavers Co-operative Societies similar to Cotton Handloom Societies, and also all facilities were given to them by the All India Handloom Board.

1220. The issue of essentiality certificates, for both the foreign raw silk and art silk consumers of the State, was considerably expanded during the year. On account of the fact that the State of Mysore has been the leading manufacturer of pure silk fabrics, in the whole of India, twenty factories, who applied for imported raw silk, were

investigated in detail and certificates were issued for release of foreign raw silk through the Central Silk Board.

INDUS-
TRIES
AND COM-
MERCE
.

(iv) Sericulture.

1221. With the formation of the New Mysore State, sericultural areas of the former Bombay, Madras and Coorg States were merged with the Old Mysore State and the New State practically holds monopoly in production of raw silk in India. Nearly 80 per cent of the raw silk produced in India is produced in Mysore State.

General

1222. There was a stock of 87 bales of imported raw silk at the commencement of the year and the entire stock was sold out during the year. Since the Central Silk Board took up the important distribution of foreign silk, no import was made by the Department during the year.

1223. During the year, the total rain fall in sericultural areas of the State was between 22 to 40 (25 to 33) inches. There was failure of Mungaru rains in all the sericultural areas, particularly in Mysore District where mulberry cultivated as a rainfed crop suffered heavily. Draught conditions continued for a long time and the sericulturists lost practically two crops from April to July 1956. Heavy rains (Hingaru) during October and November 1956, caused heavy damages to the mulberry crop.

Seasonal
Conditions

1224. The climatic conditions were unfavourable for the sericultural industry. The maximum room temperature being 90°F. and the minimum being 55°F. The maximum percentage of humidity being 88 per cent and minimum being 30 per cent.

Climatic
Conditions.

1225. The prices of reeling cocoons fluctuated between Rs. 1-12 and Rs. 1-94 per lb. This was due to the low production of cocoons during the first half of the year.

Market
Conditions.

1226. The prices of foreign race seed cocoons ranged between rupees three and eight per lb. except in certain months when the prices went up to Rs. 12. The prices of Mysore race seed cocoons ranged from Rs. 2-37 to Rs. 4-0-0 except during the months of February and March 1957 when the prices went up to rupees eight for a very short period. The prices of filature silk ranged from Rs. 25 to Rs. 37 per lb. while the prices of charka silk fluctuated from Rs. 16 to Rs. 28 per lb.

**INDUS-
TRIES
AND COM-
MERCE**

Area under
Mulberry.

1227. The area under mulberry on 1st November 1956 was increased from 1,30,000 acres to 1,55,000 acres, consequent on the integration of Kollegal, Coorg and Belgaum sericultural areas with the New Mysore State.

Government
Mulberry
Gardens.

1228. The area under mulberry in the Government Silk Farms was 105 acres and 13 guntas (57 acres and 29 guntas) including integrated areas. Mulberry leaves produced were utilised for rearing of silkworms and production of basic seed cocoons.

1229. In Government Farms, 30·38 (27·63) lakhs of foreign race seed cocoons were harvested and used for production of foreign race basic disease-free layings.

Mysore Seed
Campaign
and Seed
Supply.

1230. The entire demand of the seed rearers in regard to the disease-free layings was adequately met from Government Grainages. Silkworm crops were harvested successfully with a maximum yield of 32,750 cocoons per 100 disease-free layings and the average yield being 17,500 cocoons. In spite of unfavourable conditions, the total output of Mysore seed cocoons was increased and the productions was 55·70 (51·00) crores during the year.

1231. Mysore Seed Campaign areas continued to be free from silkworm diseases.

1232. The Mysore Silk Worm Seed (Control of Distribution) Act, 1952, was continued to be in force in the Mysore seed areas during the year.

Assistance to
Sericulturists.

1233. The scheme for payment of subsidy to the seed rearers of the area for sinking of wells, for irrigation of mulberry gardens, was implemented during the year and a sum of Rs. 0·12 lakh was paid as subsidy to 43 seed cocoon rearers in Kunigal, Bidadi and Doddaballapur seed areas. And also, 1·16 lakhs of mulberry grafts, 865 seedlings, 52 cart-loads of green mulberry cuttings and 1,050 bamboo chandrikes were supplied free of cost to the sericulturists including Kollegal area.

Foreign Race
Seed
Campaign.

1234. A quantity of 6·62 (4·2) lakhs of foreign race disease-free layings (including integrated Kollegal area) were prepared and distributed among 665 (625) registered seed rearers during the year. The aggregate out-put of foreign race seed cocoons for the year was 905·55 (630·00) lakhs. The crops were harvested successfully with a

maximum yield of 25,000 cocoons per 100 layings and the average being 15,000 cocoons.

1235. There were 35 Government Grainages and 210 Aided Grainages in the New Mysore State as against 23 Government Grainages and 168 Aided Grainages in the Old Mysore State. The out-put of cross-breed disease-free silkworm layings in Government and Aided Grainages including integrated areas was 301.11 lakhs.

1236. About 40 per cent of the total requirement of the silkworm seed in the State was met by Government and Aided Grainages.

1237. There were six sericultural training centres in the State till 31st October 1956 and on 1st November 1956 the number of training centres was increased to nine with the addition of Kollegal, Coorg and Belgaum. The training centres were, the Central Farms at Channapatna, Sidlaghatta, Kolar, Mysore, Mugur, Mangala, Kollegal, Kudige (Coorg) and Hindalge (Belgaum). A number of candidates both from the Mysore State and other States like Punjab, Madhya Bharat, Assam and Manipur were trained in the above centres.

1238. The propaganda staff of the Department continued to render assistance to the sericulturists in getting timely supply of examined silkworm layings, guiding the sericulturists in technical aspects to ensure successful harvest of silkworm crops and supervision of the work conducted in Aided Grainages. Intensive propaganda regarding method of planting and maintenance of mulberry grafts was continued.

1239. There were six Sericultural Co-operative Societies in the Old Mysore State till 31st October 1956 and on 1st November 1956, two societies of Belgaum area were added on.

1240. *Work of Filatures in the State.*—There was only one Government Silk Filature, viz., the Government Silk Filatures, Kanakapura, till 30th September 1956. On 1st October 1956, six factories of Messrs. The Mysore Silk Filatures Limited, T. Narasipur were taken over by the Government. With the integration of the Kollegal Taluk, Government Silk Filatures, Kollegal, also came under the control of the Government.

**INDUSTRIES
AND COM-
MERCE**

Industrial
Seed Supply.

Sericultural
Education.

Propaganda.

Sericultural
Co-operation.

1241. The production of silk in Silk Filatures of the State was as follows : -

Government Filatures :—

	Raw Silk lbs.	Silk Waste lbs.
1 Government silk Filatures, Kanakapura	18,734-8	10,032-8
2 Government Silk Filatures, Mysore	24,386	14,921
3 Government Silk Filatures, Kollegal	45,627-15	31,036-14½

Private Filatures :—

1 Messrs. Mysore Spun Silk Mills Ltd., Channapatna	21,631	15,400
2 Messrs. Kisan Silk Indus- tries Ltd., Mellur	6,892	2,855

1242. The Silk Conditioning and Testing House, Bangalore, was continued to work during the year. The results of tests conducted indicated improvement in the quality of silk regarding winding, cleanness and evenness.

1243. *Work done in National Extension Service Blocks.*—There were 10 Extension Service Blocks in the sericultural areas of the State till 31st October, 1956, and on 1st November 1956 one Block of Coorg area was added on.

1244. The sericultural activities in these Blocks consisted of (a) Supply of disease-free layings to sericulturists, (b) Supply of Mulberry Grafts, (c) Providing Marketing facilities for the produce of the sericulturists, (d) Technical guidance on modern methods of silkworm rearing and mulberry cultivation etc.

1245. The area under mulberry cultivation in the 11 Blocks of the State was 33,500 acres and about 15,000 families were engaged in this industry. There were 13 Government Institutions and 61 Aided Institutions in the National Extension Service areas engaged in the production and supply of examined silkworm seed to sericulturists. A total quantity of 24.66 lakhs and 73.46 lakhs of disease-free layings were distributed among the sericulturists of the Block areas by Government and Aided Institutions, respectively, during the year. About 82,000 high yielding mulberry graft plants were supplied to the sericulturists of the area.

1246. There were 965 Charkas in the area engaged in production of raw silk and five cocoon markets engaged in the disposal of cocoons produced by the sericulturists of the area.

1247. Sericulture was continued to be practised in Harapanahalli Taluk of Bellary District.

1248. In spite of the intensive propaganda conducted by the staff of the Department, there was no response from the ryots of the area to take up Sericulture.

1249. The expenditure of the Department of Sericulture during the year was Rs. 11·83 (5·76) lakhs and remittances to treasury was Rs. 6·09 (2·25) lakhs.

DEVELOPMENT SCHEMES OF THE DEPARTMENT OF SERICULTURE.

1250. Several Development Schemes of the Department of Sericulture coming under the State II Five-Year Plan and outside the Plan were taken-up for implementation during the year. The schemes were either partly or fully financed by the Central Silk Board, Government of India.

1251. During the year, 96 multi-end basins were got manufactured in the Government Electric Factory, Bangalore and were under installation in the Filatures.

1252. Construction of buildings for the Central Sericultural Research Institute was continued to be in progress during the year and a sum of Rs. 2,43,528 was spent.

1253. Schemes such as (1) Establishment of Nursery Farm (2) Short Course Training to Agriculturists and (3) Establishment of a Chawki Rearing Unit were implemented during the year and a sum of Rs. 58,428 was spent.

Development
Schemes in
Coorg.

1254. A total sum of Rs. 19,33,772 was sanctioned by the Government of India for implementation of 33 schemes during the year of which Rs. 10,62,250 as loan and Rs. 8,71,522 as grants.

1255. The loan amount of Rs. 10,62,250 was drawn and kept in Deposit Account. Out of a sum of Rs. 8,71,522 sanctioned by the Government of India as grant, a sum of Rs. 3,53,082 was spent during the year, in addition to a sum of Rs. 2,99,389 being the States' share.

THE CENTRAL SERICULTURAL RESEARCH INSTITUTE ATTACHED
TO THE DEPARTMENT OF SERICULTURE.

1256. The Scheme of establishing the Central Sericultural Research Institute which was one of the schemes of the First Five-Year Plan and a continuation Scheme in the Second Five-Year Plan was continued to be in progress during the year.

1257. Several experiments in different sectors of the Sericultural Industry were conducted in the Sericultural and Botanical Sections of the Institute at Channapatna.

1258. The Mulberry Graft Nursery at Kanva with an extent of 10 acres and 20 guntas under mulberry, prepared 1,73,842 mulberry grafts of different varieties and distributed 99,906 grafts to sericulturists all over the State free of cost. The Central Silk Board extended financial assistance to continue the Graft Nursery and a sum of Rs. 17,304 was spent on the Nursery during the year.

1259. Sericultural Training was imparted to 32 candidates of whom three were from other States in India. A sum of Rs. 3,41,233 was spent on the Research Institute during the year.

1260. Arrangements were made to equip the Central Sericultural Research Institute with modern scientific appliances required for experiments in several sections.

1261. The total expenditure incurred during the year for the formation of the Central Sericultural Research Institute and the Government Graft Nursery, Kanva, was Rs. 3,58,537.

(v) Post and Telegraphs.

1262. The number of Post Offices in the State at the beginning of the year was 1,624 (1,111) and the number of Post Offices opened during the year was 66 (91). One hundred and twenty-six new letter boxes were planted in villages during the year.

1263. One hundred and ninety-four Telegraph Offices were existing at the beginning of the year and nine offices were opened during the year. In addition to these, 33 Public Call Offices were opened during the year.

(vi) Rural Industrialisation.

1264. The Rural Industrialisation Scheme which was introduced into the Mysore State in the year 1951, continued during the year 1956-57 in the Districts of Old Mysore State.

1265. The Central Board constituted for operating Rural Industrialisation Scheme was continued and reviewed the progress of the scheme during the year.

1266. The budget provision of Rs. 19 00 lakhs was allotted and of this, a sum of Rs. 14.80 lakhs was spent during the year for the implementation of the Scheme of Rural Industrialisation.

1267. The Deputy Commissioners of Districts continued to be the Special Officers of the Rural Industrialisation Scheme assisted by the District Superintendents of Industries, Revenue Sub-Divisional Officers and Amildars of Taluks.

Organisation
of the Rural
Industrialisa-
tion Scheme.

1268. Four hundred and one Group Committees organised one for each Revenue Hobli with one Rural Industrial Co-operative Society for each Group Circle, enrolled 24,364 (40,593) members as shareholders during the year collecting a sum of Rs. 6.06 lakhs as share amount by these Rural Industrial Co-operative Societies. The total shareholders enlisted from the inception of the scheme were 1,44,243 shares and subscriptions collected being Rs. 34.45 lakhs. A sum of Rs. 6.00 lakhs was paid as subventions to these Rural Industrial Co-operative Societies from Government for maintenance of these Group Committees.

1269. In addition to the above 401 Rural Industrial Co-operative Societies, four Urban Industrial Co-operative Societies were organised and were functioning for providing credit facilities to the Industrialists of Small Scale Industries of the respective urban areas.

1270. The rural folk were advised by means of lectures and speeches to increase their productive capacity and income by starting fresh and remunerative small scale and cottage industries in the villages and to make use of the facilities provided by Government through the Rural Industrialisation Scheme.

**INDUS-
TRIES
AND COM-
MERCE**

Rural
Industrial
Financing
Bank
Limited.

1271. The Rural Industrial Financing Bank organised under the Scheme, continued to function during the year. A capital of Rs. 7.47 lakhs was invested in addition to Rs. 40.00 lakhs invested in previous years thus bringing the total capital invested by the Rural Industrial Co-operative Society as shares and deposits in the Rural Industrial Financing Bank to Rs. 47.47 lakhs at the close of the year.

1272. A sum of Rs. 34.22 (Rs. 17.11) lakhs was sanctioned as loans in 7,638 cases for starting fresh industries or for expanding existing industries during the year. The total loans sanctioned being Rs. 61.39 lakhs in 12,224 cases.

1273. A Scheme for providing financial aid to the poor village artisans who could not offer security was sanctioned and a provision of Rs. 5.00 lakhs was made during the year. An equal sum of Rs. 2.94 lakhs was contributed by the Rural Industrial Co-operative Societies and a total sum of Rs. 5.88 lakhs was issued as loans under this scheme to the poor industrialists on the surety of solvent persons through the respective Rural Industrial Co-operative Society during the year.

1274. In addition, a sum of Rs. 20.00 lakhs was sanctioned by the Government of India for grant of loans to Small Scale Industrialists through the Rural Industrial Financing Bank. Out of this, a sum of Rs. 10 lakhs was spent in granting loans to small scale industries of the State.

1275. Due to persuasion and propaganda of the Department and also with the financial aid provided through Rural Industrial Financing Bank, 24,248 private industrial units have been freshly started or expanded investing an additional capital to the tune of Rs. 412.92 lakhs and employing 67,569 additional men in these industrial units. A gross production of Rs. 923.25 lakhs worth of goods has been estimated, increasing the industrial per capita income of the 10 Districts of the old Mysore State from Rs. 2.9 lakhs during 1955-56 to Rs. 10.8 lakhs during the year 1956-57.

Craft
Co-operative
Societies.

1276. Thirty-five Industrial Craft Co-operatives have been organised under the Rural Industrialisation Scheme for the benefit of village artisans to improve their crafts by

**INDUS-
TRIES
AND COM-
MERCE**

providing them with required modern tools and equipments, working capital, marketing facilities.

1277. Starting of village industries sponsored by the Khadi and Village Industries Board had also been taken up under the Rural Industrialisation Scheme under the auspices of the Rural Industrial Co-operative Societies. A sum of Rs. 1,07,550 and Rs. 1,27,470 as grant and loan respectively have been sanctioned to these Rural Industrial Co-operative Societies from the All-India Khadi and Village Industries Board in respect of 17 Rural Industrial Co-operative Societies for different kinds of village industries during the year.

Village Industries under the auspices of the Rural Industrial Co-operative Societies.

1278. This Scheme launched by the All-India Small Scale Industries Board for supply of machinery on hire purchase system from the National Small Industries Corporation was also taken up through the Rural Industrial Co-operative Societies organised. Machinery in respect of 56 cases worth of Rs. 12.59 lakhs have already been sanctioned. During the year, 12 industrialists were supplied with machinery worth Rs. 2.28 lakhs.

Supply of Machinery on Hire Purchase Scheme.

1279. The experts attached to the Small Industries Service Institute, Bombay, visited the State and advised the industrialists in each craft as regards the improvement of the industry on modern methods. These experts visited 306 centres and advised the industrialists.

1280. There had been perceptible awakening in the rural areas during the year, as a result of which, a number of people were coming forward to enrol themselves as shareholders and were applying for loans to start industries of their own. In the rural areas, there had been considerable demand for aid in starting agricultural and live-stock industries.

(vii) Labour

1281. The Commissioner of Labour in addition to his own duties held the following offices :—

Indian Trade Union Act, 1926.

- (i) The Registrar of Trade Unions in Mysore ;
- (ii) The Regional Provident Fund Commissioner ;
- (iii) The Chief Conciliation Officer in the State ;
- (iv) The Chief Inspector of Factories and Boilers in Mysore ;

**INDUS-
TRIES
AND COM-
MERCE**

(v) The Statistics Authority under the Industrial Statistics Act, 1942, now replaced by the Collection of Statistics Act, 1953 ;

(vi) Director of National Employment Services and Industrial Training ; and the

(vii) Workmens' Compensation Commissioner for the State.

1282. In the former Mysore State, there were 194 (176) Trade Unions at the commencement of the year as registered Under the Indian Trade Union Act and during the year 50 Trade Unions were registered, 12 were either dissolved or cancelled bringing the total to 232 (194).

1283. On 1st November 1956, 104 Trade Unions were transferred to the New State from the merged areas.

1284. Amendments to the Constitutions of 24 Trade Unions/Labour Associations, were registered during the year.

Industrial
Employment
(Standing
Orders) Act.

1285. The Commissioner of Labour was the Certifying Officer for the whole State as per Section 2 (c) of the Act. In accordance with the provisions of the Industrial Employment (Standing Orders) Act, 1946, the Commissioner of Labour settles and certifies the Standing Orders of Industrial undertakings employing 100 or more, which determines the relationship between the employer and the employee.

1286. The total number of Standing Orders of industrial concerns certified up to the close of the year was 41.

Industrial
Disputes Act.

1287. The Commissioner of Labour was the Conciliation Officer for the whole State of Mysore, under the provisions of the Industrial Disputes Act, 1947.

1288. Two hundred and eighty-six industrial disputes were investigated by the Labour Department during the year, of which, 139 disputes related to the areas merged from 1st November 1956 and the remaining 147 to Old Mysore State.

1289. Due to the timely intervention of the Departmental Officers, several industrial disputes were settled by way of conciliations.

1290. The industrial disputes in Kolar Division were conciliated upon by the Central Regional Labour Commissioner (Madras) as the Mining industry has been administered by the Central Government.

1291. The Management and the Labour Association of the Mysore Iron and Steel Works, Bhadravati, arrived at an Industrial Truce mutually agreed upon to last for five years from 1st November 1956.

**INDUS-
TRIES
AND COM-
MERCE**

Industrial
Truce.

1292. There were 59 strikes and lockouts (44 in Old Mysore State and 15 pertaining to the merged areas, i.e., from 1st November 1956 to 31st March 1957) during the year. Out of 1,14,717 workers employed, the total number of workers involved in the strikes and lock-outs and the total number of man-days lost during the period were 54,505 and 1,76,121 respectively. A sum of Rs. 2,40,013-37 was lost by the workers as wages.

Strikes and
Lockouts.

1293. There were 13 cases of lay-offs during the year, of which 12 belonged to the Old Mysore and the remaining to merged area, viz., Gulbarga Division.

Lay-Offs.

1294. Forty-one industrial disputes from the Old Mysore State and two from Mangalore Division and one from Gulbarga Division were referred to adjudication by the Industrial Tribunal.

Industrial
Disputes
referred for
Adjudication.

1295. Only one prosecution was launched under the Industrial Disputes Act during the year.

1296. The Iron and Steel Industry was declared as a public utility service for six months from 1st July 1956.

Public Utility
Services.

1297. In Mangalore, sixteen Motor Transport Services were declared as Public Utility Services.

1298. The Inspectors notified under the Factories Act, continued to administer the provisions of the Payment of Wages Act in their respective jurisdictions. In addition, in the Old Mysore State, the Assistant Commissioners of Labour also functioned as Inspectors under the Act in their respective jurisdictions.

Payment of
Wages Act.

1299. The Assistant Commissioners of Labour were appointed as Inspectors under the Minimum Wages Act, 1948 in their respective Divisions in respect of employments in agriculture for the Old Mysore State.

Minimum
Wages Act.

1300. Minimum rates of wages under the Minimum Wages Act have been fixed for 10 employments in Old Mysore State, seven in Hyderabad area, eleven in Madras area, eleven in Bombay area and four in Coorg area.

**INDUS-
TRIES
AND COM-
MERCE**

Mysore Shops
and Establish-
ments Act.

1301. The Mysore Shops and Establishments Act was in force in the Old Mysore State in the following places:—

1302. Bangalore Corporation area, Mysore, Davangere City, Bangarpet, K. G. F., area, Kolar town, Tumkur town, Tiptur, Mandya, Chickmagalur town, Bhadravati town, Shimoga town, Bellary and Hospet.

1303. In Kollegal taluk, the Madras Shops and Establishments Act was in force and was administered by the Inspector of Shops and Establishments, Mysore. In Gulbarga, Bidar and Raichur districts, the Hyderabad Shops and Establishments Act was in force and was administered by Inspectors under the control of the Department.

1304. *Enforcement by Municipalities*:—1. The provisions of the Bombay Shops and Establishments Act was applicable to the Districts of Dharwar, Belgaum, Bijapur and South Kanara and the Act was administered by the local authorities (Municipalities).

2. In Coorg, the Weekly Holidays Act was in force.

3. In Mangalore, the provisions of the Madras Shops and Establishments Act was in force and was being enforced by the local authorities (Municipalities).

Prosecutions.

1305. Under the Mysore Shops and Establishments Act, prosecutions were launched in respect of 436 cases and 357 cases ended in convictions.

Disposals of
Appeals by
the Appellate
Authorities.

1306. Twenty-five cases were pending at the commencement of the year, 102 appeal cases were received during the year bringing the total to 127, of this, 101 cases were disposed of by way of settlement, leaving a balance of 26 cases pending.

Consumer
Price Index
Numbers.

1307. The consumer price index figures were compiled for nine cities and towns of the Old Mysore State and published in the Mysore Gazette, and the Mysore Information Bulletin for the benefit of the employers of some of the industrial concerns who were paying dearness allowance based on the index number published by the Department.

1308. The question of the compilation and publication of the consumer price index numbers in respect of the important industrial centres of the merged areas was under examination.

Re-Survey of
Family
Budgets.

1309. The work of re-survey of family budgets of industrial workers in the City of Bangalore was in progress during the year.

**INDUS-
TRIES
AND COM-

Collection of
Agricultural
Wage Statis-
tics.
Labour Wel-
fare Measures.

1310. The following wage statistics were collected by the Department of Labour :

1. Agricultural wage statistics, *i.e.*, wages paid to various kinds of agricultural employments ;

2. Retail prices of main agricultural commodities grown around the rural centres.

1311. For providing measures of recreation to labourers, welfare centres were opened in working class areas of Bangalore City. Welfare measures such as reading room, sports, gymnasium, library, in and outdoor games, fine arts, music, drama, radio, first-aid equipment, picnics, excursions, sewing machines for women, demonstrations in cooking, a nursery class for children, training classes in cottage industries were provided.

1312. The two welfare centres located one at Cottonpet and another at Chamaraipet, Bangalore, were continued to be run by the Department.

1313. Government have sanctioned a grant of Rs. 100 p.m. to two social organisations, *viz.*, Seva Ashram, Seshadripuram, Fellowship Settlement, Seshadripuram, Bangalore, for purpose of imparting education to children of the labourers, free of cost, and for affording facilities like reading room, library, sports, etc, and also a grant of Rs. 25 p.m. to the Sri Ramakrishna Social Welfare Centre, Bangalore.

1314. During the year, all the Departmental Officers impartially tackled all the differences of opinion between the employers and employees and brought about compromises wherever possible. The provisions of labour legislations were properly enforced by the officers of the Department, violations of labour laws duly noticed during several inspections were properly dealt with as per the law. The notable event during the year is that two Industrial Truces were reached between the Management of Mysore Iron and Steel Works, Bhadravathi and its Labour Union, and the Kapila Textile Mills, Nanjangud and its Labour Union. The labour situation was peaceful in general throughout the year.

CHAPTER XII—PUBLIC WORKS

(i) Public Works.

1315. With the Re-organisation of the State with effect from 1st November 1956, the designation of the Chief Engineer was changed to that of Chief Engineer, General. In the New State the three Chief Engineers, designated were :

- (a) Chief Engineer, General.
- (b) Chief Engineer, Major Irrigation, South.
- (c) Chief Engineer, Major Irrigation, North.

1316. The Chief Engineer, General, was in charge of establishment, minor irrigation works (schemes costing less than Rs. 10·00 lakhs), highways and communications, buildings, sanitary engineering throughout the State and the incomplete irrigation works already in his charge in the present Mysore State. His Headquarters was located at Bangalore.

1317. The Chief Engineer, Major Irrigation, South, was in-charge of Major Irrigation Works in the Old Mysore State excluding the Tungabhadra Low Level and High Level Canal Works, and all similar works in South Kanara, Coorg and Kollegal. His Headquarters was fixed for the time being at Bangalore.

1318. The Chief Engineer, Major Irrigation, North, was in-charge of the Tungabhadra Project, including the Low Level and High Level Channels, the Rajohbanda Project, and all the Second Five-Year Plan Major Projects costing Rs. 10·00 lakhs and above in Hyderabad and Bombay areas. His Headquarters was at Munirabad.

1319. The jurisdiction of Cauvery Circle was enlarged with effect from 1st November 1956 by adding Kollegal and Coorg. The Coorg Division and the Minor Irrigation Department continued as independent Divisions, while the Kollegal Sub-Division was attached to Malavalli Division.

1320. In connection with the execution of the Kabbini Reservoir Project, which is included under the Second Five-Year Plan, a separate Sub-Division was sanctioned. This Sub-Division was attached to Nugu Reservoir Division.

PUBLIC
WORKS

1321. A Sub-Division was sanctioned for the execution of the Chikkahole Reservoir Project in Chamarajanagar Taluk, costing Rs. 21.9 lakhs. It was under the control of Nugu Reservoir Division.

1322. A Sub-Division was sanctioned for the construction of a Reservoir across the Yennehole, Mysore Taluk, estimated to cost Rs. 12.10 lakhs. This was attached to Mysore Division.

1323. The Yelandur Sub-Division formed in May 1953 for restoration of tanks in Jagir area, was abolished from 1st June 1956 and the works were transferred to Chamarajanagar Sub-Division.

1324. The final grant and outlay for the year stood as noted below, for the first seven months of the year and the last five months of the year, including the expenditure on Contribution Works, District Board Works, etc. :—

		<i>Gross figures</i>
		Rs.
I. First seven months of the year—		
	Grant	... 600,40,003
	Outlay	... 640,06,321
		<hr/>
	Excess	... 40,25,318
		<hr/>
II. Last five months of the year:—		
	Grant	... 819,90,211
	Outlay	... 721,43,964
		<hr/>
	Lapse	... 98,46,248
		<hr/>

Buildings.

1325. The estimated cost of constructing the Vidhana Soudha Buildings, Bangalore was Rs. 130.00 lakhs. The outlay incurred upto 31st March 1957 was Rs. 143,65,657. The main building was completed. The construction of central tower and other miscellaneous items of works were in progress.

1326. The Crawford Hall at Mysore was completed at a cost of Rs. 11,38,631 against the estimate of Rs. 9,69,705.

1327. An outlay of Rs. 11,02,885 was incurred upto end of the year for constructing 320 P.A.R. Police quarters at Audugodi, Bangalore. The civil portion of the work was nearing completion.

1328. Out of an estimated cost of Rs. 5,14,310 for the construction of 100 constabulary quarters at Dharwar, an outlay of Rs. 3,34,569 was incurred upto end of March 1957.

1329. The estimate for constructing an Agricultural College Building at Hebbal, Bangalore was 12,75,300. The outlay incurred upto end of March 1957 was Rs. 2,56,947. The superstructure was under progress.

1330. For the establishment of an Agricultural College at Dharwar, a sum of Rs. 46,56,081 was sanctioned. An expenditure of Rs. 49,898 was incurred during the year.

1331. The total outlay incurred upto end of March 1957 for the construction of the Golden Jubilee Surgical Block in Victoria Hospital, Bangalore was Rs. 2,50,991 out of an estimated cost of Rs. 5,00,000.

1332. The estimated cost for the improvements to the Headquarters (Wenlock) Hospital, Mangalore, was Rs. 29,01,000. The outlay incurred upto end of March 1957 was Rs. 18,25,701.

1333. Upto end of March 1957, a sum of Rs. 2,56,947 was incurred for the construction of Sericultural Building at Channapatna, out of an estimated cost of Rs. 5,88,000.

1334. The estimated cost of concreting Karwar Hubli Road Section V-miles 82-0 to 102-0 was Rs. 17,91,530. The expenditure incurred during the was Rs. 75,496. The work is included in the Second Five-Year Plan. Roads.

1335. The work of cement concreting Bagalkot-Hungund Road was estimated to cost Rs. 22,00,139. The expenditure incurred upto the end of the year was Rs. 21,14,895. The work is included in the Second Five-Year Plan. The work of cement concreting a part of Vengurla-Belgaum Bagalkot Bellary Road from Bagalkot to Hungund, was started in the year 1952 and remained in progress during the year also.

1336. The Belgaum District Border-Kerur-Halkurki Pattadkal-Gudur-Amingad Road (Badami Batkurki Section) is a major District Road, which connects two districts. The work was started during the year 1954 and remained in progress during the year. The estimated cost was Rs. 14,84,492. The work is included in the Second Five Year Plan. The expenditure upto end of the year was Rs. 6,01,800.

**PUBLIC
WORKS**

1337. The constructing of Halsangi-Indi-Devarhipargi-Huvinhippargi-Hungund Road (Devarhippargi to Huvinhippargi Section) is included in the Second Five-Year Plan. The estimated cost of the work was Rs. 9,71,000. The expenditure incurred during the year was Rs. 44,938 bringing the total expenditure upto the end of the year to Rs. 2,99,998.

1338. The estimated cost of constructing Bagalkote-Bennur-Chikhodlur Road was Rs. 6,33,683. The expenditure incurred during the year was 58,638 and the total expenditure upto end of the year was Rs. 3,86,563. The work is included in the Second Five-Year Plan.

1339. In the Second Five-Year Plan the constructing of Halsangi-Indi-Devarhippargi-Muddebihal Hungund Road (Tamba-Devarhippargi Section) is included. The estimated cost of the work was Rs. 7,50,500. The expenditure upto end of the year was Rs. 3,56,810.

1340. The Government of India has financed the construction of Badami Railway Station-Pattadakal Budur-Amingad Road, M.D.R. No. 16 (Section Badami to Budur) at an estimated cost of Rs. 7,28,900. The expenditure incurred upto end of the year was Rs. 2,91,955.

**Cement
Roads.**

1341. Twenty-two cement concreting of road works were under various stages of progress during the year costing Rupees one lakh to seventeen lakhs.

1342. There were 37 asphaltting of road works costing Rupees one lakh to eleven lakhs under progress during the year.

1343. The construction of 20 bridge works were under progress during the year costing between Rs. 1,47,000 to Rs. 19,80,000.

1344. A grant of Rs. 13,67,000 was allotted during the year for maintaining National Highways (roads) against which an outlay of Rs. 12,18,216 was incurred.

1345. For original works relating to National Highways a grant of Rs. 19,47,600 was allotted. The expenditure incurred being Rs. 14,88,076 against the grant.

**West Coast
Roads.**

1346. *West Coast Road Programme.*—As there was no direct link between Bombay and Cape Comorin along the Coast, the development of a west coast road to the standards of a good all weather road was considered an

urgent necessity. The entire cost of the road will be met by the Government of India.

1347. The approved alignment of the west coast road in the South Kanara District is mostly along the inland route. The total cost of developing the west coast road along this route was estimated at Rs. 140'00 lakhs. Two bridges one at 5/5 of Mudabidri-Buntwal Road at a cost of Rs. 4,90,000 and another at 49/3 of Mangalore-Agumbe Road at an estimated cost of Rs. 1,31,000 have been completed and opened for traffic under the programme.

1348. Among the works pertaining to west coast road in the North Kanara District, the two important bridge works to be undertaken were :—

1. Bridge across Aghanasini river costing Rs. 14,54,000 and (2) Bridge across Sharavathi river costing Rs. 54'06 lakhs.

1349. Six schemes out of 35 schemes of erstwhile Mysore State included in the First Five-Year Plan were brought on as continuing schemes into the Second Plan, the remaining being considered outside the Plan and financed accordingly.

1350. Similarly, five schemes in Bombay Karnatak area included in the First Five-Year Plan under Major Irrigation Schemes, were taken to Second Five-Year Plan as continuing Schemes.

1351. *Restoration and Construction of Tanks :—*The works of restoration of Guddada Mallenahalli Doddakere Major Tank, Chickmagalur District, Shantipur Anicut and channels in Tarikere taluk, Jodi Alpahalli Hutchikere were in different stages of progress, and the restoration of the latter was almost completed. The works of restoration of Sindhagatta Major tank, Nagarabavi tank near Halahalli, Byanapur Doddakere, Goribidanur Taluk were started lately.

Minor
Irrigation
Works.

1352. The construction of Anicut near Kodihalli, Kadur taluk; new tank at Gownahalla, Hiriya taluk; pick up weir across Syagalihalla near Gonivada, Chitaldrug District; a new tank across Sokkahalla near Gadimakunte, Chitaldrug District; a new tank at Chikkahagari near Thupadahalli, Chitaldrug District; a new tank at Syagalihalla near Muthugadur, Chitaldrug District; a new tank at Jinigahalla near Sangenahalli, Chitaldrug District; a new

**PUBLIC
WORKS**

tank at Parasurampur, Challakere Taluk; anicut across the river Vedavathi, Hiriyur Taluk; a new tank across Kenchanakere tank valley, Mysore District; opening out a feeder channel to Navilur tank, Periyapatna Taluk; an Ane across Veeravaishanvai near Dummasandra; an Ane across Lokapavani near Uyyanahalli; an Anicut across Lokapavani near Bolenahalli and opening out feeder channel to Sunkathonnur tank; an Ane across Doddanakatte Halla and opening a channel in Krishnarajapet Taluk; a new tank near Belagumba, Magadi Taluk; a new tank across the river Suvarnamukhi near Kanakapura; a new tank across Kumudvathi near Gundamagere, Doddaballapur Taluk; a new tank across Jayamangli near Irkasandra, Koratagere Taluk; a new tank at Sonnaikanahalli; Kunigal Taluk; Sannimutt Kanagi near Hampasandra and opening a feeder channel to Nelligudda tank, Goribidanur Taluk; a weir at Kolchi over Malaprabha river; an irrigation tank at Alur Petha, Mundargi; an irrigation tank at Shirol Petha, Mundargi; an irrigation tank at Ramanahalli, Taluka Sindgi; an irrigation tank at Areshankar, Taluk Bagevadi; an irrigation tank at Kolaskop, Taluka Bagalkot and a diversion wall and forming a right bank canal upto 10 miles. Gurupur Anicut Scheme, were in progress during the year.

1353. The scheme of construction and restoration of tanks is exclusive to the erstwhile Mysore State which has a large number of tanks requiring restoration to standard condition. A target of Rs. 47.50 lakhs is fixed for the Second Five-Year Plan period and against this target the expenditure during the first year to end of 1956-57 is Rs. 11.27 lakhs.

1354. The Scheme of construction and improvement of river, tank and channels relates to the construction of new anicut, tanks and other facilities for wet and semi-dry cultivation and improvement to existing structures. The expenditure under this scheme during the year was Rs. 4.86 laks against the target of Rs. 10.00 lakhs.

1355. Under the rural water supply and sanitation works, 75 works of I batch were under execution by the sanitary divisions in the districts of Hassan, Shimoga, Tumkur and Kolar of Old Mysore. An outlay of Rs. 12,05,682 was incurred during the year.

1356. Regarding Urban Water Supply works under P. Loans and Advances Loans to Municipalities an outlay of Rs. 55.52 lakhs has been booked during the year.

1357. The sinking of bore wells for the urban and rural water supply schemes was continued by the Public Works Department. Bore- Wells.

1358. The Executive Engineer, Water Supply Division at Thippagondanahalli, Bangalore, Bethamangala and Mysore has been maintaining water supply installations at Thippagondanahalli, Bangalore City, K. G. F., and Mysore.

1359. In the Vani Vilas water works the quantity of water pumped during the year was 1902.4 gallons

1360. The supply of water to the Bangalore City area including several layouts and extensions was 12 million gallons per day. Bangalore
City Water
Supply.

1361. Bangalore with its salubrious climate and central situation had gained importance in South India. The rapid development of industries, the establishment of a number of factories of national importance such as Hindustan Aircraft, the Indian Telephone Industries, the Hindustan Machine Tools, the integration of different States have contributed to the remarkable growth of population in the City. To meet the urgent need of water and to improve water supply to the ever growing demands of public a sum of Rs. 69.00 was sanctioned during the march 1956.

(ii) Major Irrigation Works.

Major Irrigation (South), Bangalore.

1362. Consequent on the Re-organisation of the Mysore State, the post of the Chief Engineer, Major Irrigation Works (South) was created and he was placed in charge of Major Irrigation Works in the Old Mysore State (excluding Tunga Bhadra Low Level and High Level Canal Works), the Kabbini Project and other Second Five-Year Plan Major Irrigation Works costing Rs. 10 lakhs and above and all similar works in South Kanara, Coorg and Kollegal.

1363. The important Major Irrigation Works/Projects under execution during the year were (1) Bhadra Reservoir Project, (2) Tunga Anicut Works, (3) Nugu Reservoir

PUBLIC
WORKS
—

Works, (4) Ambligola Reservoir Project, (5) Development of Irrigation under Tunga Bhadra Project in Mysore area upto 31st October 1956, (6) Sharavathi Valley Hydro-Electric Project, (Civil Engineering Works).

1364. The total grant for the year allotted to the Tunga Bhadra Valley Circle, was Rs. 3,22,54,500 against which the total outlay was Rs. 2,73,41,637 resulting in lapse of Rs. 49,12,863.

1365. In the Nugu Reservoir Division against a grant of Rs. 32,82,500 an outlay of Rs. 25,94,954 was incurred during the year.

1366. *Bhadra Reservoir Project.*—The Bhadra Reservoir Works have been included in the First and Second Five-Year Plan of the Government of India. It is a multi-purpose project intended to provide irrigation facilities for about 2·34 lakhs of acres of land by the construction of reservoir across the river Bhadra near Lakkavalli. The revised estimate is 24·42 crores. The outlay for the year was Rs. 2,43,16,010 against the years' grant of Rs. 2,89,40,000. The total outlay incurred up to the end of the year was Rs. 8,68,70,424. The work has commenced from the year 1947. The works on the Dam, the Left Bank Channel and the Right Bank Channel was satisfactory. The Anvery distributary and the preliminary works for the tunnel II Section were in progress.

The health and sanitation of the Bhadra Reservoir Colony and labour camps round about the works were maintained satisfactorily during the year.

1367. *Tunga Anicut Works.*—The first and second stages of Tunga Anicut Works which were started during 1946-47 have almost been completed. All masonry works have been completed. An atchkat of 1,600 acres was supplied with water for irrigation during the year. The works on the Right Bank Channel progressed satisfactorily. An area of 2,500 acres of land was provided with water for irrigation.

1368. *Nugu Reservoir Works.*—The construction of reservoir across the river Nugu near Birwal and the Right Bank High Level Channel were in final stages of completion, so as to bring under cultivation an extent of 20,000 acres. The total estimate is Rs. 244·25 lakhs. The work

commenced from March 1947. The year's outlay was Rs. 8.25 lakhs against the year's grant of Rs. 16.00 lakhs. The total outlay incurred up to the end of the year was Rs. 224.26 lakhs.

The work on Nugu Reservoir Right Bank High Level Channel was started during November 1951. The excavation of the main channel (57 miles in length) was almost completed. The total estimate was Rs. 99,50,000. The total outlay incurred up to the end of the year was Rs. 110.80 lakhs.

The work on Nugu Left Bank Channel included in the "Grow More Food" Programme was designed to irrigate an extent of 1,977 acres of land. The work was started during January 1947 and it is almost completed.

1369. Ambligola Reservoir Project.—The work of construction of a reservoir across Salur Halla near Ambligola was commenced by about the end of the year 1953. The estimate was Rs. 56,00,000. The outlay for the year was Rs. 9,61,909 against Rs. 10,00,000 granted. The total outlay incurred up to the end of the year was Rs. 20,93,064.

1370. Development of Irrigation under the Low Level Canal of Tunga Bhadra Dam.—The Right Bank Low Level Canal of Tungabhadra Project in Mysore State limits is under the Tungabhadra Board. The distributaries are under the Special Irrigation Division, Bellary.

During the year, 3.25 miles of major distributaries, 44 miles of minor distributaries and 116 miles of field channels were completed to serve an additional area of 12,626 acres, and thus providing total irrigation facilities for an area of 57,691 acres, as against the proposed irrigation of 92,339 acres in the Mysore State limits. The actual area irrigated during the year was 25,000 acres. A phased programme for the completion of all the balance items of work has been prepared and execution of works accordingly arranged.

The system of Cropping Scheme and letting out of water to heavy and light irrigation, as was formulated by the former Madras State, was maintained. This system had innumerable inherent disadvantages. Complaints from the Pattedars also were being received. An overhaul of the

**PUBLIC
WORKS**

system appeared to be essential. The problem was under examination.

1371. Sharavathi Valley Hydro-Electric Project.—The Sharavathi Hydro-Electric Project (Civil Engineering Works) was started during 1955-56. This Project across the river Sharavathi is proposed to be constructed in three stages to produce 7,10,000 K.W. of power with an estimated cost of Rs. 3945'00 lakhs. The Civil Engineering Circle with six Divisions was formed to finalise the preliminaries, design, formation of colonies at Kargal, Iduvani Right Bank, Linganamakki Left Bank and Talakalale Dam works and for asphaltting Jog-Talaguppa Road and for opening out approach roads to quarries in the Project area.

1372. Consequent on the Re-organisation of the States, the following Major Irrigation Projects costing over Rs. 10'00 lakhs came under the jurisdiction of this office.

	<i>Estimated Amount</i>
(1) Kabbini Reservoir Project ...	250'00 lakhs
(2) Sagare Doddakere ...	13'00 "
(3) Hebbahalla Reservoir Project ...	15'08 "
(4) Chickhole Project ...	26'00 "
(5) Jambadahalla Project ...	40'00 "
(6) Mangala Tank ...	13'70 "
(7) Arkavathi Reservoir Project ...	36'85 "

1373. Regarding Kabbini and Chickhole Projects, only preliminary works were in progress. Sagare Doddakere Project and Jambadahalla Projects will be taken up after the designs are finalised and the concerned estimates are sanctioned by the Government.

1374. Hebbahalla Project.—The Project was technically approved by the Central Water and Power Commission, Government of India. Technical sanction to the estimate amounting to Rs. 15'08 lakhs was awaited. Preliminary works were in progress.

1375. The administrative and technical sanction to the estimates were awaited for starting execution of Arkavathi Project and Mangala Project.

1376. There were six accidents in the Sharavathi Valley Circle, three in Nugu Reservoir Division, eighteen in the Tungabhadra Valley Circle. Arrangements were

made for the payment of compensation under the Workmen's Compensation Act.

1377. The total expenditure incurred on all these Projects/Works was Rs. 3,52,67,012.

Major Irrigation (North), Munirabad.

1378. During the year from 1st April 1956 to 31st October 1956, the following Major Irrigation Projects were under the charge:—

Jurisdiction

(a) Tungabhadra Project—Head Works and Main Canal (Left Side)—former Hyderabad State;

(b) Rajolibunda Diversion Scheme.

1379. After the Re-organisation, the jurisdiction of this Zone extended over the following Districts:—

(i) Bijapur, Belgaum, Dharwar and North Kanara from the former Bombay State;

(ii) Bidar, Gulberga and Raichur from the former Hyderabad State; and

(iii) Bellary from the former Mysore State.

1380. Only the Irrigation Works costing Rs. 10 lakhs and above was taken up during the year.

1381. There were four Circles in the Zone, viz., (a) Karnatak Irrigation Circle, Dharwar; with six Divisions, (b) Tungabhadra Reservoir Circle, Munirabad; with eight Divisions, and (c) Raichur Circle, Yermarus; with four Divisions. The Special Irrigation Division, Bellary, was attached on to the Tungabhadra Reservoir Circle, Munirabad.

1382. The Major Works of Hyderabad-Karnatak area were (1) Tungabhadra Project, and (2) Rajolibunda Diversion Scheme.

1383. (1) *Tungabhadra Project*.—This multi-purpose River Valley Scheme was started in the year 1945 jointly by the former Governments of Hyderabad and Madras. After the Re-organisation of States, Mysore and Andhra Pradesh, are the successor Governments to this joint Scheme.

Half the dam and the canal on the left bank is under the control of Mysore State. The other half of the dam and the canal on the right side which benefit areas both in Mysore and Andhra Pradesh are under the control

**PUBLIC
WORKS**

of the Tungabhadra Board. The left bank main canal which is 127 miles long, is to irrigate 5,80,000 acres in Raichur District of Mysore State.

During the year, the work of Main Canal in miles 32 to 51 was completed. The canal excavation between miles 51 and 103 was almost completed.

During the year, water was let out upto mile 39 for irrigation in June 1956 for an area of 38,500 acres, but the area irrigated was only 20,000 acres.

Thirty-nine villages in Raichur District were submerged by the water-spread of the Reservoir, thereby affecting 22,752 population. Out of these, nine villages were completely submerged and the rest partially. To rehabilitate the displaced population, 20 Rehabilitation Centres on the foreshore and 11 in the ayacut area were formed. Necessary facilities were provided to the population affected.

1384. (2) Rajolibanda Diversion Scheme :—The Scheme consists of an anicut, 2,690 feet long, across Tungabhadra River, about 18 miles on the down stream of the river at the village Rajolibanda in Raichur District. The only Left Bank Canal, 73 miles long, is designed to irrigate about 1.15 lakhs acres. The anicut and the flood banks on the left side (Mysore Side) were completed. The foundations for the remaining length (on the Andhra Side) were also filled up, but could not be raised to crest level for want of constructing the flood banks on the right side by the Andhra Pradesh Government.

The canal in Mysore State limits is only 27 miles to irrigate 7,400 acres. Due to non-completion of flood banks by the Andhra Pradesh Government, irrigation was not possible, though the canal in Mysore limits was nearing completion.

1385. The Projects of Bombay-Karnatak were (1) Ghataprabha Valley Development Scheme, (2) Malaprabha Valley Development Scheme, (3) Dharma Project, (4) Ramanhalli Tank Project, (5) Kalaskope Tank Project, (6) Areshanker Tank Project, (7) Kolchi Weir Scheme, (8) Nagathana Tank Project, and (9) Hulkeri Tank Scheme.

1386. Ghataprabha Valley Development Scheme :—This Scheme was contemplated by the former Bombay

Government across the river Ghataprabha. The execution of this Scheme has been phased in three stages

The first phase of construction of Left Bank Canal, 44 miles long, taking off from the existing Diversion Weir at Dhupdal was almost completed.

The Main Canal, having a carrying capacity of 1,500 cusecs, was opened for irrigation in June, in stages according to the stages of excavation. The area served with irrigation facilities was 76,000 acres by March 1957, as against the proposed irrigation of 1·2 lakh acres. The actual area irrigated upto March 1957 was 15,510 acres.

The second stage work consisting of (i) Extension of Left Bank Canal from mile 45 to 73 to irrigate about 1,76,000 acres of land thus bringing the total irrigation on the Left Bank Canal to 2,98,000 acres and (ii) construction of a Storage Reservoir on Ghataprabha River at Hadalga, was under survey.

The third stage : comprises of (i) Right Bank Canal from the Dhupdal Weir, 150 miles long, and (ii) Construction of a Storage Dam at Ajra on Hiranyakeshi River, a tributary to Ghataprabha River. The first and second stages are included in the Second Five-Year Plan.

1387. Malaprabha Irrigation Scheme :—The Scheme comprises of (i) A Storage Dam at Bhutewadi in Belgaum District across Malaprabha River and (ii) a Pick-up Weir at the "Peacock Gorge" at Manoli near Saundatti. The Right Bank Canal is 115 miles long. The total area proposed to be irrigated is 1·50 lakh acres. The Scheme was examined by the erstwhile Government of Bombay as far back as 1908 and again in 1954. Now, this Scheme is under investigation by the Malaprabha Irrigation Division. The total cost of the Storage Dam at Bhutewadi, Pick-up Weir and Canals was estimated to be Rs. 160·00 lakhs.

1388. Dharma Reservoir Scheme :—The waters of Dharma River are proposed to be harnessed near Yemagalli village, Hanagal Taluk of Dharwar District by a Storage Reservoir. This irrigation system consists of an existing Right Bank Canal of 17 miles long, commanding an area of 14,500 acres, out of which 14,000 acres are irrigable. The present irrigation is restricted to 9,200 acres, of which 4,200 acres are under direct irrigation and 5,000 acres are

**PUBLIC
WORKS**

fed by tanks under the canal system. The total outlay on the Project is 70·00 lakhs. This Scheme is included in the Second Five-Year Plan with a provision of Rs. 67·00 lakhs for the Plan Period.

1389. Ramanhalli Tank Project (Bijapur):—This is a scarcity [scheme taken up under the Government of India Rs. 4·87 crore loan, sanctioned for such works in the former Bombay State. The cost of the scheme is Rs. 40·80 lakhs and is a continuing scheme from the First Five-Year Plan. The dam works were completed in all respects. The channel 0 to 77 miles was completed in all respects. The total expenditure upto the end of the year was Rs. 28·91224 lakhs. This scheme provides irrigation facilities to the scarcity areas of Bijapur District to the extent of 4,800 acres of Rabi Crop.

1390. Kalaskop Tank Project (Bijapur District):—This is also a scarcity scheme taken up under the Rs. 4·87 crore loan sanctioned by the Government of India to such works in the former Bombay Government. This is a continuing scheme from the First Five-Year Plan. The construction of earthen dam near Kalaskop village in Bagalkote Taluk was completed in all respects. The total expenditure upto the end of the year was Rs. 15·07623 lakhs.

1391. Areshankar Tank Project (Bijapur District):—This is also a scarcity scheme started in the year 1953 by the former Bombay Government costing Rs. 21·67 lakhs. This is also a continuing scheme in the Second Five-Year Plan. The work on this project was first taken up in 1893 A.D. under Famine Relief Work. The tank across a tributary to River Krishna near Areshanker village was completed in all respects. The length of the canal is 9 miles. The total expenditure upto the end of the year was Rs. 16·57 lakhs.

1392. Kolchi Weir Scheme (Belgaum District):—This scheme consists of a Diversion Weir across Malaprabha River, near Ramdurg village in Belgaum District. The construction of the weir was actually started in 1953. This is a continuing scheme from the First Five-Year Plan. The Anicut work was completed. The expenditure upto the end of the year was Rs. 33·42485 lakhs.

1393. There were no fatal accidents during the year. Only few minor accidents were reported, and compensation was paid.

(iii) Mysore Government Road Transport Department.

1394. Road Transport is one of the major Public Utility Services of the State. The Government Transport Services in the Old Mysore State were inaugurated on September 12, 1948 with 120 vehicles. At present almost all the important taluks in the State are connected by the modern comfortable bus services operated by this Department.

1395 With the re-organisation of States, the transport services operated by the Hyderabad Road Transport Department and ex-Bombay Karnatak region were taken over by the Mysore Government on 1st November 1956 and 1st January 1957, respectively.

1396. The Road Transport Department comprises six divisions, *viz.*, Bijapur, Belgaum and Hubli (comprising the ex-Bombay Karnatak region), Raichur (comprising ex-Hyderabad region), Bangalore (comprising the entire old Mysore region), and Bangalore Transport Services (Bangalore City).

1397. The road mileage operated in the State has increased from 1,752 in the previous year to 2,856 as on 31st March 1957. The number of routes operated at the end of the year was 572 (excluding B.T.S.) covering a route mileage of 18,751 (excluding B.T.S.).

1398. The total effective mileage performed during the year was 1,18,78,545 (excluding B.T.S.) as against 52,54,849 in the previous year; the number of passengers carried being 184.8 lakhs (excluding B.T.S.).

1399. The total road mileage of the State is about 12,000 miles, providing on an average about 22 miles of road for an area of 100 square miles. The total number of nationalised passenger buses in operation in the State on the last day of the year was 1,111 covering a total route mileage of 19,033 and a service mileage of 88,343 as against 120 with which the Department started operation in the year 1948.

1400. Consistent with the policy of progressive dieselisation of the fleet, new additions were confined only to diesel types. Eight hundred and forty-nine (excluding B.T.S.) diesel powered buses were held at the end of the year.

PUBLIC
WORKS
—

1401. Steps were taken to improve the high percentage of breakdowns by replacing the overaged buses by new buses. The rate of breakdowns per 10,000 miles came down from 1.15 during the previous year to 1.07 (excluding Raichur and B.T.S.) during the year, while the rate of accidents per lakh of miles came down from 1.15 during the previous year to 0.49 (excluding Raichur and B.T.S.) during the year.

1402. The bulk of goods transport operations during the period confined to casual contracts, mainly engaged in Manganese mines. The uneconomic schedule lorry services on certain routes were discontinued.

1403. Two inter-state, routes, i.e., Bangalore-Thirupathy and Bangalore-Mercara were in operation at the beginning of the year on reciprocal basis. The former continued to be in operation at the close of the year while the latter ceased to be an inter-state route consequent on the merger of Coorg with Mysore State.

Am nities to
Travelling
Public.

1404. Special services were run as usual for Jathras (Melas) and festivals or fairs during the year. Besides, special buses (as contract carriages) were spared during the year to educational and other institutions going on excursions to different parts of the State. As usual 50 per cent concession in rates was extended to educational institutions on these casual contracts, while in a few other cases special concession was given on the orders of the Government.

1405. Concessions in rates were extended to students and Government employees,* through issue of monthly season passes at one and one quarter single fares respectively for return journey.

1406. Special concessional rates of Re. 1 per mile subject to a minimum of Rs. 40 were allowed to *bona fide* student groups going on educational tours in the State. The rates charged to non-educational institutions being Rs. 2 per mile subject to a minimum of Rs. 80.

Express
Services.

1407. For the benefit of the direct long distance passengers new express services were introduced during the year thereby cutting short the running time. These fast services have become increasingly popular among the travelling public, especially in the business classes and the week-end holidayers.

**PUBLIC
WORKS**Parcel Traffic
Scheme.

1408. This scheme was introduced in Bijapur, Belgaum and Hubli divisions. The object is to extend to the public additional facility of transporting sundry parcels. This system is gaining popularity among the public and the Department is taking steps to extend this scheme by opening a number of booking offices and delivery offices at different places.

1409. On an average about Rs. 9,500 per month was realised from 1st October 1956 to 31st March 1957 from this scheme.

1410. The Bangalore Transport Company Ltd., which started functioning from September 22, 1940 as a public utility concern with a fleet of 98 buses, was taken over by the Government Road Transport Department from October 1, 1956.

Bangalore
Transport
Services.

1411. With a view to reduce the pressure on the present services and to increase the strength of the fleet corresponding to the increase in traffic, the Department readjusted the services so as to increase the efficiency of operation and also added new buses to the fleet.

1412. During the year, one route was cancelled and services on nine routes were extended to cater to new traffic needs. As against a daily mileage of 13,500 operated prior to nationalisation, the Bangalore Transport Service operated 14,416 miles daily, thereby increasing the daily mileage by 916 miles. Additional services had been provided to cater to the peak hour traffic from important traffic points.

1413. The number of routes as on 31st March 1957 was 59 and the number of vehicles held was 148. The route mileage was 282.1 miles and the average route distance was 4.8 miles. The breakdowns per 10,000 miles was 27.50 and the accidents per lakh of miles was 3.14.

1414. The total earnings for the half year was Rs. 20,81,095 yielding on an average 165.8 pies per bus mile the percentage of passenger earnings to total earnings being 99.7.

1415. The Regional Workshop, Hubli, the Central Workshop, Dapodi and the major workshop at Bangalore were attending to retrieval of assemblies, reconditioning of bus bodies, engines and other major assemblies, building up of new bus bodies on new chassis and retrieving of

Workshops

**PUBLIC
WORKS**

batteries. During the year, 39 bus bodies were built on new chassis in the major workshop at Bangalore.

**Vehicle
Purchases:**

1416. During the year, 50 chassis were purchased and bodies were built on 25 chassis for the Bangalore Transport Service and 30 chassis were bought and bodies were built on 11 chassis for the Bangalore Region.

**Second Five-
Year Plan**

1417. A sum of Rs. 153·81 lakhs has been provided under Second Five-Year Plan for development of Road Transport. The details of the amount spent in ex-Bombay area by the Bombay State Road Transport Corporation during the first year of the Second Five-Year Plan were not available. As regards Hyderabad Karnatak there was no separate allotment. In the former Mysore State, no development programme could be taken up during the year except that an amount of Rs. 12·40 lakhs was paid as compensation for the nationalisation of Bangalore Transport Company.

**Goods
Transport**

1418. The Department received 163 Canadian Ford Trucks on the eve of integration. During the year, four trucks were converted into departmental lorries, leaving a balance of 159 goods trucks for operations, on the last day of the year. On an average 52·3 trucks were on road per day.

1419. The total revenue realised from the Goods Transport operations was estimated to be Rs. 4,01,232. The earnings per truck mile works out to 124·8 pies. On an average Rs. 85 were realised from each truck on road per day.

1420. In order to give relief to the small traders in transporting their products from the producing centres to the consuming points, scheduled lorry services were started. As on 31st March 1957, scheduled lorry services were operated on 21 routes.

1421. The rate of accidents of goods trucks per lakh of miles during the period was 1·21 whereas the rate of breakdowns per 10,000 miles stood at 1·94. The overhaul miles per gallon of trucks worked out to 12·18.

**Labour
Relations**

1422. Various provisions of Labour enactments to settle labour grievances at all levels and to develop the welfare aspect, were implemented and the employees were provided with facilities of reading rooms, libraries and all kinds of indoor games including medical aid.

1423. The Capital contribution for the year ending 31st March 1957 was Rs. 418 (Rs. 72) lakhs for the Greater Mysore Government Road Transport Department. The amount invested by Government during the year worked out to Rs. 43 lakhs approximately. The gross revenue for the year as per provisional accounts stood at Rs. 174 lakhs (Rs. 64 lakhs). The gross working expenditure for the year was Rs. 129 (Rs. 48) lakhs. The net profit for the year worked out to Rs. 45 lakhs (Rs. 16 lakhs).

1424. Bus transport operation has gained recognition as the most popular means of modern transport over road during the short period of three decades and has offered unlimited scope for expansion and free movement of men and materials between different places.

1425. The State Transport was able to offer to the public better and more comfortable modern types of buses dependable on fast services at comparatively cheaper rates,

(iv) Motor Vehicles Department.

1426. The functions of the Motor Vehicles Department was concerned with the administration of the Motor Vehicles Act, 1939, the Mysore Vehicles Taxation and Tolls Act, 1951 and the Rules thereunder.

1427. The Commissioner for Transport was made as Head of the Motor Vehicles Department.

1428. There were in all ten Regional Transport Authorities in the erstwhile Mysore State and from 1st November 1956, six Regional Transport Authorities were functioning up to 31st March 1957, in the District Headquarters of Belgaum, Mangalore, Coorg, Gulbarga, Raichur and Bidar of the integrated areas.

1429. After the Reorganisation of States, Motor Vehicles Rules and Motor Vehicles Taxation Acts and Rules which were in force prior to reorganisation were continued in the respective areas. Government exempted goods vehicles for which tax was paid under the Taxation Act in force in one area of the State from payment of tax under the Taxation Acts in force in other areas of the State. Government also exempted non-transport vehicles of other States entering the Mysore State temporarily from payment

**PUBLIC
WORKS**

of tax in the State of Mysore for the period for which tax had been paid in the other State.

**Motor
Vehicles.**

1430. The total number of non-transport vehicles in use in the New State at the end of the year was 13,727. The number of vehicles newly registered during the year was 4,906. In all, 9,365 pucca permits and 2,328 temporary permits were issued to transport vehicles. The number of driving licenses and conductors' certificates issued during the year were 35,622 and 3,365 respectively. The following penalties were imposed under the Motor Vehicles Acts and Rules:—

(a) Permits suspended	...	7
(b) Permits cancelled	...	61
(c) Drivers disqualified	...	41
(d) Conductors, certificates suspended	...	28
(e) Number of cases convicted under the Motor Vehicles Act and Rules.		21,189
(f) Number of prosecutions launched under the Motor Vehicles Taxation Acts and Rules	...	9,201
(g) Number of convictions	...	8,425

1431. Two thousand eight hundred and thirty-seven fitness certificates were issued during the year.

Permit

1432. The issue of permits for operating motor cabs was liberalised to some extent particularly in the City of Bangalore. As Baby Taxis were cheaper than the bigger ones, they proved very popular. Permits were issued or renewed generally for the operation of Baby Taxis and Auto-Rickshaws only. In issuing the permits, only the models of 1951 and onwards were preferred and persons of some repute and integrity were selected.

1433. In the City of Bangalore, the Bangalore Ex-Servicemen Transport Company, Ltd., held sufficient number of taxis and auto-rickshaws for the benefit and maintenance of displaced military personnel.

1434. Private carrier permits were generally issued keeping in view the provisions of Sections 52 and 53 of the Motor Vehicles Act, 1939.

1435. Temporary stage-carriage permits were also issued to a number of private operators in Bangalore under Section 62 of the Motor Vehicles Act, 1939, for meeting the needs of tourists, religious gatherings, fairs, etc.

PUBLIC
WORKS

Appeals.

1436. Up to 1st November 1956 in the Old Mysore State, the State Transport Authority was the Appellate Authority against the orders of the Regional Transport Authorities and appeals against the orders of the State Transport Authority were preferred before the Government. After the re-organisation of States, the appellate jurisdiction of the Government in respect of Motor Vehicles Act was transferred to the Mysore Board of Revenue.

1437. The Motor Vehicles Compulsory Insurance was strictly enforced throughout the State.

1438. The net receipt during the year on account of Motor Vehicles Acts and Rules, was Rs. 1,30,88,873-73 as against Rs. 95,86,522-63 for the year 1955-56 thus showing an increase of Rs. 35,02,351-10. Receipts.

1439. Action was being taken to bring into force the uniform taxation rules throughout the State.

(v) Electrical Department.

1440. Against the plan provision of Rs. 390'43 lakhs for the year, a budget grant of Rs. 354 lakhs was voted by the Legislature. This included an allotment of Rs. 150 lakhs in the Budget estimate for the first seven months and Rs. 68 lakhs for the last five months of the year for Sharavati Valley Hydro-Electric Project.

1441. The three Hydro-Generating Stations at Sivasamudram, Shimsha and Jog and the nine Diesel Stations mostly in the integrated areas have conjointly generated 829,512,822 (741,535,000) units during the year. Generation of Power.

1442. The total length of High Tension and Low Tension lines stood at 8,802'68 and 5,600'84 miles respectively including those of transferred territories. High Tension Transmission Lines.

1443. During the year, 128 villages were electrified including 14 in the newly merged areas thus bringing the total number of villages electrified at the end of the year to 1,305(811). Power Supply to Villages.

1444. Eighteen thousand, one hundred and thirty installations including 1,064 installations of integrated areas were serviced during the year. Power and Lighting Installations.

1445. One thousand, three hundred and ninety-three installations including 39 installations of integrated areas were serviced during the year with the assistance of Government of India loan of Rs. 40 lakhs and the total Power Supply to Irrigation Pumping Sets

**PUBLIC
WORKS**

number of irrigation pump sets electrically driven stood at 9,327 (7,826) at the end of the year. On an average of five acres per pump, the area cultivated by electrically driven pumps was about 46,635 acres. The revenue realised on this scheme during the year was Rs. 8,52,325 on the total expenditure of Rs. 2,86,32,967 at the end of the year and works out to 2.9 per cent. The balance of 108 installations represents the total number of installations serviced prior to 1st November 1956 in the integrated areas.

**Street
Lighting.**

1446. Two thousand, eight hundred and fifty-five street lights including 216 street lights of integrated areas were serviced during the year bringing the total number of street lights in service to 46,157 in several cities, towns and villages in the State including the transferred territories at the end of the year as against 39,501 at the end of the previous year. The balance of 3,801 street lights represents the number serviced in the integrated areas prior to its transfer to the State.

1447. Power supply to Bombay State and Tungabhadra Board continued throughout the year.

**Gross
Expenditure.**

Gross expenditure incurred by the Department under Capital, Maintenance and Depreciation Fund Works and works done to other Government departments, Municipalities and private parties under advances for the first seven months and second five months were Rs. 2,05,32,486 and Rs. 2,13,22,861, respectively.

**Gross
Demand,
Collection
and Balance.**

1448. The demand, collection and balance of revenue were as follows:—

Year	Demand Rs.	Collection Rs.	Balance Rs.
1955-56 ...	2,95,98,482	2,90,43,386	42,93,509
1956-57 ...	2,13,87,245*	1,81,42,556*	66,83,690*
	1,65,03,432†	1,73,57,940†	
	<u>3,78,90,677</u>	<u>3,55,00,496</u>	

* First seven months.

† Last five months.

1449. The balance of revenue of Rs. 66,83,690 represents demands for the month of March 1957 and dues from Government departments and other industrial concerns on account of enhanced rate of 0.65 and 0.45 of an anna from 0.55 and 0.35 of an anna.

1450. Electricity Duties.— A sum of Rs. 16,03,261 and Rs. 14,73,851 was realised towards tax on electricity consumption during the first seven months and second five months respectively.

**PUBLIC
WORKS**

Other Taxes
and Duties.

1451. The net receipts for power supply after paying off all working expenses on establishment, maintenance proper, tools and plants, with contribution to depreciation fund during the first seven months and last five months of the year was Rs. 76,70,905 and Rs. 96,35,202, respectively. Contribution to Depreciation Funds during the year was Rs. 48,91,308 for the first seven months and Rs. 35,92,015 for the last five months.

Net Receipts.

1452. Under '1952 Interest on Electricity Schemes', interest charges accounted for the first seven months were Rs. 82,14,868 and Rs. 6,03,458 for the last five months.

Interest
on Capital
Expenditure.

1453. The Gross receipts and working expenses of the Department were :—

<i>Details</i>		<i>First seven months</i>	<i>Second five months</i>
		Rs.	Rs.

*The Bhadra Hydro-Electric Project envisages the installation of five generating units with an aggregate capacity of 40,400 k.w., at an estimated cost of Rs. 241.88 lakhs on the electrical side.

1455. The Sharavathi Valley Project and Bhadra Project were taken up during the year owing to phenomenal demand for power both within and outside the State.

1456. The survey work pertaining to Sharavathi Hydro-Electric Project was completed and the project work has been started during the year.

1457. An expenditure of Rs 12,880 was incurred on the Electricity Schemes of integrated areas.

1458. A sum of Rs. 5,56,377 and Rs. 6,96,371 was incurred by the Department on works pertaining to other Government Departments and Palace.

1459. During the year, there were 42 fatal accidents to human life and 17 to animals due to electrocution and other causes. Accidents.

1460. Action was being taken to replace the overhead lines by underground cables to minimise accidents as far as possible.

1461. The Hospitals in Jog, Sivasamudram, and Shimshapura were all well maintained and also the schools. The new High School opened at Jog has been working satisfactorily. A nominal rate of two annas per head was charged for trolley trips in the three Generating Stations. Such collection was utilised towards social activities in the three Electrical Colonies.

1462. The second stage work of replacing overhead system with underground system in the congested areas of Chickpet, Avenue Road, Balepet, etc., in Bangalore City, was taken up during the year and completed to minimise accidents causing from high tension overhead lines and the third stage of laying underground cables in Malleswaram, Seshadripuram, Srirampuram, High Grounds, Cubbon Park, Kasturba Road, and up to Town Hall, etc., in Bangalore City, was in progress during the year. In addition to the above, the work of laying H. T. cables, underground cables from 'C' Station to Contonment Railway Station and also to feed the existing overhead lines beyond the Railway underbridge was taken up and completed during the year.

1463. The Sandur Thermal Station has been converted into a Hydro-Electric Power Station during the year.

1464. The formation of a State Electricity Board and an Electrical Inspectorate directly under Government was under active consideration.

CHAPTER XIII—SOCIAL SERVICES AND WELFARE.

(i) Social Welfare Department.

1465. With the formation of the New Mysore State, a separate Directorate of Social Welfare for dealing with the schemes relating to the welfare of the Scheduled Castes, Scheduled Tribes, Ex-Criminal Tribes and other Backward Classes was created.

Welfare Schemes of Old Mysore.

1466. The Schemes aims at the socio-economic improvement of the Scheduled Caste people.

1467. Scheduled Castes agriculturists numbering 3,954 were given economic aid to carry on agricultural operations under the economic aid programme. An expenditure of Rs. 5,25,028 was incurred during the year as against a provision of Rs. 5·7 lakhs. Stipends to an extent of Rs. 1,56,500 were sanctioned for award of scholarships to students of Scheduled Castes, Scheduled Tribes and Ex-Criminal Tribes.

1468. Out of a provision of Rs. 18·00 lakhs, a sum of Rs. 16,13,532 was distributed as subventions to 5,484 persons for construction of houses.

1469. Ten Community Centre buildings were constructed and ten Radio sets were supplied at a total cost of Rs. 24,944. Forty-five wells were completed and the rest were under progress. A sum of Rs. 71,064 was spent for the purpose. A sum of Rs. 4,352 was spent on publicity by way of subscription to the purchase of "Panchajanya" Weekly which is devoted to the uplift of Scheduled Castes.

1470. The Untouchability Act of 1955 came into force from 1st June 1955. Fortyone prosecutions were launched under the Act, of which 12 cases ended in conviction and 22 cases were pending with police at the end of the year.

Untouchability
(Offences)
Act of 1955.

1471. The total expenditure incurred on all the schemes for the Welfare of Scheduled Castes amounted to Rs. 22,18,847.

**SOCIAL
SERVICES
AND
WELFARE**

Welfare of
Scheduled
Tribes.

1472. The Scheme for the Welfare of Scheduled Tribes with the object of forming Agricultural Colonies which was introduced in the State during 1952-53 continued to function during the year and a sum of Rs. 3,84,000 was spent on the Scheme.

1473. The following programmes were implemented in five Districts, namely, Bangalore, Mysore, Chickmagalur, Shimoga, and Bellary where the tribal population is comparatively larger :—

1474. Education.—Out of the provision of Rs. 50,000, a sum of Rs. 16,401 was spent for educational activities. The management of the tribal schools and hostels at Maddur and Penjehalli was satisfactory, and a sum of Rs. 16,004-40 was spent out of the allotted amount of Rs. 20,000.

1475. Community Centres.—The construction of two Community Centres, one at Basavanpura in Bangalore District and another in Heremane in Shimoga District was taken up during the year. Economic aid for purchase of agricultural implements, seeds and manure was given. With a view to help persons engaged in cottage industries and to create incentive in others, a subsidy of Rs. 400 was given to nine persons to purchase raw materials in Chickmagalur District and Rs. 2,000 to ten persons in Bangalore District and Rs. 2,650 to 17 persons in Mysore District.

1476. In Bangalore, Shimoga and Chickmagalur districts, 50 houses were constructed for Scheduled Castes and Scheduled Tribes.

1477. Health.—The existing Health Unit at Nisna was maintained at a cost of Rs. 10,430 during the period.

1478. The Scheme for the Welfare of Ex-Criminal Tribes was sponsored mainly with the object of making them fit to live among the civilised population. A sum of Rs. 1,52,000 was allotted and distributed among several districts in Old Mysore State. One hundred and nineteen houses were completed during the year. Economic aid in various forms was given to 329 persons. A sum of Rs. 28,000

Schemes for
the Welfare
of Ex-
Criminal
Tribes.

was awarded as scholarships and stipends to the Ex-Criminal Tribes students in the State.

Welfare Scheme of the Backward Classes in Bombay Karnatak during the last five months of the year 1956-57.

1479. All the Schemes that were in operation prior to Re-organisation were continued during the period of five months of the year 1956-57. Out Rs. 75,000 allotted, Rs. 74,759-89, were spent on various activities, such as grants to the 24 Backward Class Hostels, grant to Harijan Sevak Sangh, Bijapur and grant to the Bharatiya Depressed League working for the removal of untouchability. Scholarships to the extent of Rs. 4,200 were given to 338 students for the purpose of purchasing books and payment of the examination fees. Similarly, Rs. 2,140 were distributed for 82 college students under the Schemes in the Second Five-Year Plan.

1480. An amount of Rs. 8,641 was spent for payment of grants for entertainment programmes like Kirtan, Bhajan, Billad singing, etc. A sum of Rs. 600 was spent in Bijapur and Dharwar districts for the supply of free clothes to the Vimukta Jatis.

Welfare Activities in South Kanara District.

1481. Two hundred and sixty-six sites were made covering an area of 433.5 acres of land and no private lands were acquired. Thirty-two Harijan Welfare School buildings were repaired. The Scheme for supply of mid-day meals in 26 Harijan Welfare Schools was continued and a sum of Rs. 13,805 was spent on this account. Non-residential scholarships amounting to Rs. 13,758-25 were granted to eligible communities. Subsidies of Rs. 10,472-75 were given to the three hostels in Manipal, Puttur and Karkala and 78 boarders in all were benefitted.

1482. The provisions of the Untouchability Act were strictly enforced during the period and out of the 17 cases booked under the Untouchability Act, 12 ended in conviction during the year.

Working
of the Un-
touchability
Act

1483. On the thirtieth of the every month, Harijan Day is observed with the usual programme of visiting Harijan Colonies, holding meetings, taking out processions, peacefully effecting entries into temples, saloons and

Harijan Day
Celebrations.

Centrally
Sponsored
Schemes.

hostels, etc. Intensive propaganda is made on these occasions for the removal of Untouchability.

1484. In South Kanara District, a sum of Rs. 11,100 was spent for the construction of 37 houses for Harijans in the district. Two poor nursery schools, one at Pandishnar and the other at Pentlanapet within the Mangalore Municipality with a strength of 36 and 30 students respectively were maintained.

1485. The main activities of the Department of Women's Welfare in South Kanara District were confined to Family Survey, Community Service Centres, Mathur Sangam, teaching of Tailoring, Embroidery, Spinning and other crafts, demonstration of hygienic way of cooking, etc.

Harijan Welfare Schemes in Hyderabad-Karnatak.

1486. Five wells were sunk at the cost of Rs. 3,438. The total expenditure incurred towards this item was Rs. 1,873. Eleven acres of land were acquired for housing by spending Rs. 3,163. A sum of Rs. 13,051 was spent for providing zinc sheets to 119 Harijans for constructing 56 huts and giving other building materials to 52 families.

1487. A sum of Rs. 7,179 was spent for providing educational facilities to Harijan students. One hundred and twenty poor students were supplied with compass boxes and 155 girls and 405 boys were provided with clothing in various schools. Sports materials were provided to 12 schools and 30 adult literacy centres in various districts in Hyderabad-Karnatak were given school materials. A sum of Rs. 1,716 was spent for providing vocational aid to deserving carpenters, blacksmiths and shoe makers. Sixteen cultural programmes were arranged at a cost of Rs. 1,215.

1488. A sum of Rs. 10,436 was awarded as scholarships to 484 students. Financial aid to the extent of Rs. 2,380 was given to 43 artisans. Housing aid was given to 31 families and a sum of Rs. 3,260 was distributed for the purpose. Mid-day meals were served to 50 students and 76 boys were supplied with free clothing and 69 students were given scholarships worth Rs. 690.

Welfare Schemes of Coorg District.

1489. Four hundred and sixty-five houses were constructed in Coorg District at a cost of Rs. 2,34,437 for all Backward Communities. A sum of Rs. 22,379 was spent under Medical and Public Health Schemes. An expenditure of Rs. 30,346 was incurred towards various sub-schemes such as reclamation of land, supply of plough bullocks, manure, seeds, fencing of land and other irrigation facilities under Agriculture. Various schemes under Cottage Industries were implemented in Coorg District by spending an amount of Rs. 34,469. Educational facilities such as scholarships, supply of mid-day meals, books, clothes, school equipment, sports materials, etc., were given to all Backward Classes in Coorg District by spending Rs. 1,07,667.

Centrally Sponsored Schemes.

1490. An expenditure of Rs. 2,97,051 was incurred under the Centrally sponsored Schemes for the uplift of Scheduled Castes. Agricultural Colonies were established in seven different places of Old Mysore State benefitting 466 families. Agricultural aid such as supply of implements, manure, etc., and other economic aid relating to housing, roads and drinking water wells were also extended to the Scheduled Castes.

1491. In Old Mysore State, a sum of Rs. 51,529 was spent for the welfare of Scheduled Tribes under Centrally Sponsored Schemes. Agricultural colonies in three different places were established, giving all necessary aid to the deserving 100 families.

1492. A sum of Rs. 36,582 was spent on Centrally Sponsored Schemes meant for Ex-Criminal Tribes. Agricultural colonies were started in different places in the Old Mysore State. The usual aids of various kinds relating to agriculture, housing, medical, education, etc., were given to the Ex-Criminal Tribes by settling them in a definite place to make them good agriculturists which benefitted 88 families during the year.

1403. In Bellary District of Old Mysore State, agricultural colonies were established in two places towards which a sum of Rs. 33,941 was spent under Centrally

**SOCIAL
SERVICES
AND
WELFARE**

Sponsored Schemes. The agricultural help and other benefits like housing, medical, etc., were received by 48 families.

1494. In Bombay-Karnatak, under Centrally sponsored Schemes meant for the benefit of the Ex-Criminal Tribes, a sum of Rs. 7,500 was spent for the preliminary arrangements of the colony at Ingalgundi. A sum of Rs. 5,000 was utilised for settling 32 families of Ex-Criminal Tribes on the colony at Kambarganvi.

1495. A sum of Rs. 1,06,000 was provided for the Scheduled Caste Scholarship Board Hostels in three districts of Hyderabad-Karnatak.

(ii) Community Development Projects and National Extension Service Blocks.

1496. At the beginning of the year, one Rural Community Project, four Community Development Blocks and 14 National Extension Service Blocks were functioning in the Old Mysore State. During the year up to 1st November 1956, eight NES Blocks were converted into Community Development Blocks and eleven more NES Blocks were sanctioned to the State, thus bringing the total to one Rural Community Project, 12 CD Blocks and 25 NES Blocks functioning prior to integration of States. The Rural Community Project had completed its period of intensive development work by 30th September 1956 and the unspent balances of the Project were permitted to be utilised till the end of the year. The Rural Community Project itself entered the Post-Intensive Phase on 1st October 1956.

1497. After the States' Re-organisation, there were in all three Rural Community Projects which had all completed their period of intensive development and the unspent funds of which were permitted to be utilised till the end of the year. Two Community Project Blocks and one CD Block had also completed their intensive development period and the unspent balances under various items were permitted to be utilised till the end of the year. With the completion of the period of intensive development, 19½ Blocks emerged as Post-Intensive Phase Blocks. There were in all 21 CD Blocks, 32 NES Blocks, functioning in the New State during the year.

**SOCIAL
SERVICES
AND
WELFARE**

Agriculture.

1498. Agriculture received top priority, being the basic occupation of the people and the main object being to increase food production in the country. To propagate and popularise improved agricultural techniques, 54,316 varietal manurial and cultural demonstrations were held in the fields of ryots; 7,40,322 maunds of fertilisers and 53,828 maunds of improved seeds were distributed to the ryots in the CD and NES areas. Six thousand, six hundred and fifty-one acres and 474 acres of land were brought under vegetable and fruit cultivation, respectively. With a view to improve the breed of cattle, 156 pedigree bulls and 20,969 pedigree birds were supplied. There were 51 artificial insemination centres at the end of the year. The fish ponds were utilised for rearing various kinds of fish.

1499. Loans were granted for sinking irrigation wells, improving lands such as contour bunding, for purchase of irrigation pump sets and also for takavi purposes. Schemes for supply of electric power to irrigation pump sets in the CD and NES areas, were sanctioned.

Irrigation.

1500. Health Education was making the villagers realise the importance of steps for the prevention of water borne diseases. The Maternity and Child Welfare Centres started in these areas functioned satisfactorily. In addition to the existing dispensaries, primary health centres were started. One thousand, eight hundred and sixty-four drinking water wells were constructed during the year and 939 wells were renovated; 91,479 yards of drains were constructed. Skimmed milk powder received from abroad was also distributed to school children in these areas.

**Rural Water
and
Sanitation.**

1501. During the year, 417 new schools were started and 400 nursery schools were converted into basic type. Under the Social Education Programme, 886 adult education centres were started and 37,197 adults were made literate. One thousand eight hundred and ninety-four community centres were started and 2,279 peoples' organisations were developed and their activities were mainly bee-keeping, gardening, poultry breeding and compost making.

Education

1502. At the end of the year, 1,478 miles of road were constructed, the earth work of these roads being done by the villagers, culverts and causeways and metalling being

Rural Arts
and Crafts-

Co-operation.

Extension
Training
Centres.

provided out of the Block budgets and by peoples' participation.

1503. Training Centres in carpentry, smithy, mat-making and pottery were started in various CD Blocks.

1504. At the beginning of the year, there were 708 co-operative societies in these areas and 1,088 new societies were started during the year raising the total membership from 1,14,771 to 2,88,216. Short-term credit facilities were liberally provided to the agriculturists.

1505. As against the Government expenditure of Rs. 1,47,07,000 during the year, a sum of Rs. 47,57,000 has been received by way of peoples' participation both by cash and kind in terms of labour, material, etc. The response of the people was good in all the schemes envisaged under the scheme. Greater awakening and readiness of the rural folk to participate in the several programmes of the Scheme was noticed.

1506. In the commencement prior to Re-organisation of States, there was only one Extension Training Centre at Mandya, which was imparting training in extension methods to the Gramasevaks. The Centre trained 94 trainees during the year. With a view to give training to Gram-sevikas, a Home Science Wing was attached to this Extension Training Centre.

1507. As a result of the States' Re-organisation, two more Extension Training Centres came over to this Department, one at Munirabad, from Hyderabad and the other at Dharwar from Bombay. With a view to accommodate more candidates, a double shift system of working was sanctioned to Extension Training Centre, Mandya. The three training centres together impart training to 400 candidates per year. The training is for a period of six months. These training centres were satisfactorily working during the year.

(iii) Relief and Rehabilitation of Displaced Persons.

1508. The work relating to the relief and rehabilitation of Displaced Persons migrated into Mysore State was being administered prior to the integration of States by the Revenue Commissioner with the assistance of the State Advisory Committee for Rehabilitation of Displaced Persons

and after 1st November 1956, the Commissioner of Land Records, Survey and Settlement and Director of Food Supplies was appointed *Ex-Officio* Commissioner of Refugees.

1509. The Registration of displaced persons reveals that there are 2,072 families comprising 8,752 persons in the State. Of these, 106 families comprising 296 persons left the State to rehabilitate themselves in other States of the Union, thus leaving 1,966 families consisting 8,456 persons in the erstwhile Mysore State and about 400 persons in the other integrated parts of the New Mysore State. Registration.

1510. In the deserving cases, cash relief was being paid at Rs. 15 per head. This expenditure was met out of the Refugee Fund collected from the philanthropic public. Relief.

1511. Two displaced persons were sanctioned loans of Rs. 617 and Rs. 1,000, respectively during the year. No loans were granted during the year to displaced persons settled at Bellary. Loans.

1512. A sum of Rs. 27,075-59, towards Principal and a sum of Rs. 3,090-3, towards Interest making a total of Rs. 30,165-62, was recovered from the displaced persons during the year. Recoveries.

1513. A sum of Rs. 15,000 was allotted during the year for grant of Financial Assistance to displaced persons studying in various Colleges and Schools in the State. Financial assistance to the extent of Rs. 14,992 was disbursed to 416 displaced students through their respective institutions. Financial Assistance to Displaced Persons.

(iv) Schemes for Rehabilitation of Ex-Servicemen.

1514. In pursuance of Government Order No. L. S. 1094-1110 PWR. 8-52-7, dated 3rd June 1952, the implementation of Land Colonisation Scheme for Ex-servicemen at Ratnapura Colony, Hunsur Taluk, Mysore District, was continued during the year.

1515. During the year, out of 89 Ex-servicemen 78 applied were elected to join the colony, of which 56 men settled down in the colony bringing the total men settled as on 31st March 1957 to 102.

**SOCIAL
SERVICES
AND
WELFARE**

1516. One hundred and sixty-two acres of dry land and 62 acres of wet land were allotted to new settlers during the year at six acres of dry and 2 acres of wet land each bringing the total allotment of dry and wet land as on 31st March 1957 to 558 and 192 acres, respectively.

1517. During the year, a sum of Rs. 5,200 was paid to settlers as reclamation charges both for wet and dry lands at Rs. 60 per acre of dry and Rs. 200 per acre of wet land.

1518. The settlers cultivated 210 (85) acres of dry land and 88 (52) acres of wet land during the year.

1519. An area of seven acres of dry land was cultivated directly by the Colony management which served as a Demonstration and Experimental Farm.

1520. The loan of Rs. 250 for one pair of bullocks and Rs. 100 for a double bullock cart per settler had been arranged for payment to the total extent of Rs. 7,900 during the year.

1521. A Government primary school and a milk centre including an adult education night school for women continued to work satisfactorily. The general health condition of the settlers remained satisfactory.

1522. The total expenditure and realisations during the year amounted to Rs. 35,364 and Rs. 11,228 respectively.

1523. Applications of about 20 Ex-servicemen were recommended for re-employment in various offices and firms of which eight persons were secured jobs mostly in Watch and Ward Departments of Firms and Government.

(v) Beggar Relief Scheme.

**Activities of
the Receiving
Centre.**

1524. *The Beggar Colony, Bangalore.*—The Act for the Prohibition of Beggary, 1944 (Act No. XXXIII of 1944) continued to be in force within the limits of the Corporation of the City of Bangalore during the year.

1525. In the beginning of the year, there was one beggar in the Receiving Centre pending enquiry and during the year, 2,502 (2,577) beggars were arrested in the limits of the Corporation of the City of Bangalore. Out of them, 1,459 (1,363) being the first offenders were released by the

**SOCIAL
SERVICES
AND
WELFARE**

Receiving Officer, after conducting a detailed enquiry and on the beggars promising to give up the habit of begging. One thousand forty-four beggars were produced before the II City Magistrate who after summary enquiry released 465 (869) beggars and the rest, *viz.*, 578 (351) were detained and transferred to the Relief Centre.

1526. The total number of beggars detained and given food, shelter and clothing during the year was 850 (652). Of these, 132 beggars were discharged by the Magistrate on surety of their relatives, and 502 beggars were released on parole by the Superintendent on the assurance given by the beggars that they would not resort to begging again, but live by honourable means.

Activities of
the Relief
Centre.

1527. Two hundred and fifty beggars were trained in kitchen, tailoring, binding, poultry, bee-keeping, agriculture, gardening and afforestation.

Training
Facilities.

1528. About 130 acres of cultivable land is attached to the Colony and of which about 70 acres of land were cultivated with the help of the inmates. The remaining extent of land was leased out to the ryots of the neighbouring villages at Rs. 15 per acre.

Agriculture
and
Gardening.

1529. Useful trees such as Honge, Bevu, Bettathan-gadi, Cashew nuts and Prosopis were sown in 314 trenches due with the help of the inmates.

Afforestation.

1530. The primary school attached to the Colony, continued to cater to the educational needs of the child inmates and children of the staff. The total number of beggar boys who received education in the school in the four primary classes was 70.

Education.

1531. The Radio set and periodical Bhajanas provided recreation facilities to the inmates of the Colony as in the previous years. In and out door games were arranged for the boys and girls of the Colony.

Recreation.

1532. The receipts and expenditure of the Beggar Colony, Bangalore, were Rs. 3,313-91, (Rs. 4,226) and Rs. 74,577-72 (Rs. 66,786-31) respectively.

1533. *The Local Relief Committee, Mysore.*—The Local Relief Committee has been working in Mysore since May 1949 and continued to function during the year with 12 members of whom the President of the City Municipal Council is its Chairman.

The Local
Relief Com-
mittee for the
prevention of
Beggary in
Mysore.

**SOCIAL
SERVICES
AND
WELFARE**

Work of the
Beggars'
Home,
Mysore.

1534. The scouting of beggars was being conducted in Mysore City with the help of the Police Department and Warders of the Beggars' Home, Mysore. Beggars caught during such rounds were brought to the Centre and after preliminary enquiries they were either let off after admonition or retained in the Centre or produced before the Magistrate according as they were found begging for the first time or the second time. Such of the beggars as were ordered to be detained permanently were sent to the Beggar Colony, Bangalore.

1535. The expenditure of the Local Relief Committee, Mysore, was Rs. 1,626-12.

**(vi) Directorate of National Employment Service
(including Craftsmen Training Scheme) in
Mysore.**

1536. As a result of the State Re-organisation and agreeably to the recommendations of the Shiva Rao's Committee, the administration of the Employment Exchanges, and Industrial Training Institutes and Centres were transferred from Government of India to the control of State Government, with effect from 1st November 1956 and was placed under the control of the Commissioner of Labour who was appointed as the *ex-officio* Director, National Employment Service in Mysore.

1537. Consequent on the Reorganisation of the State, the undermentioned Employment Exchanges in the transferred territories were also added to the New Mysore State.

1. The Sub-Regional Employment Exchange, Hubli.
2. The District Employment Exchange, Belgaum.
3. The District Employment Exchange, Mangalore.
4. The Employment Exchange, Mercara, Coorg.
5. Two Employment Bureaux, Gulberga and Raichur.

1538. The Employment Exchanges were being used by the Government of India Offices and Establishments, State Government Offices and private concerns.

1539. Statistics relating to work done by the Employment Exchanges in the State were as follows:—

**SOCIAL
SERVICES
AND
WELFARE**

1. The Regional Employment Exchange, Bangalore.

Year	Registrations	Vacancies notified	No. of sub-missions made	No. placed	No. of employers using the Exchange	No. of applicants on the Live Register
1955-56 ...	16,057	1,609	5,887	774	382	8,229
1956-57 ...	11,038	2,159	10,365	1,437	404	8,520

The number of vacancies notified and applicants placed in employment reveal increased employment opportunities in the area.

2. The District Employment Exchange, Mysore.

Year	Registrations	Vacancies notified	Number placed	No. of applicants on the Live Register
1955-56 ...	3,863	225	161	2,360
1956-57 ...	4,975	352	354	3,074

3. The District Employment Exchange, Bellary.

Year	Registration	Vacancies notified	Number placed	No. of applicants on the Live Register
1955-56 ...	2,141	358	182	819
1956-57 ...	3,019	542	470	1,809

1540. Under the Second Five Year Plan, the District Employment Exchange, Bhadravathi, was started from the middle of March 1957.

1541. The following is the table of work done by the Employment Exchanges of merged areas during the year.

Name of the Exchange	Registrations	Vacancies notified	Number placed	No. of applicants on the Live Register
1. The Sub-Regional Employment Exchange, Hubli.	10,491	1,005	643	4,296
2. The District Employment Exchange, Belgaum.	7,258	766	554	2,795
3. The District Employment Exchange, Mangalore.	5,501	1,042	895	2,276
4. The Employment Exchange, Coorg ...	2,957	893	619	1,011

**SOCIAL
SERVICES
AND
WELFARE**

1542. At the close of the year, the following Employment Exchanges were functioning :—

- (i) The Regional Employment Exchange, Bangalore.
- (ii) The District Employment Exchange, Mysore.
- (iii) The District Employment Exchange, Bellary.
- (iv) The Sub-Regional Employment, Exchange, Hubli.
- (v) The District Employment Exchange, Belgaum.
- (vi) The District Employment Exchange, Mangalore.
- (vii) The Employment Exchange, Mercara, Coorg.
- (viii) The District Employment Exchange, Bhadravati.

1543. The entire expenditure incurred in the administration of Employment Exchanges was borne by the Central and State Governments on the ratio of 60 : 40 per cent respectively.

1544. The Employment Exchanges in the State have continued to distribute copies of the "Employment News", a monthly magazine issued by the Government of India on free of cost to all the principal employers, libraries and educational institutions.

Craftsmen Training Scheme.

1545. The Craftsmen Training Scheme sponsored by the Government of India, Ministry of Labour, as early as 1939, with a view to train skilled workmen to meet the increasing needs of the Industries in the country, was handed over to the State control with effect from 1st November 1956. The scheme is under the control of the Commissioner of Labour who has been the Director, National Employment Service in Mysore for both the wings namely (1) National Employment Service and (2) Industrial Training Schemes.

1546. When this scheme was under the control of Government of India, there were only three centres in the former Mysore State. After the Re-organisation, four Industrial Training Centres have been added to this State from the integrated areas.

1547. Recruitment of trainees to the Industrial Training Centres Institutes was made during November 1956 as per rules laid down by Government of India by a special committee appointed by Government consisting of representatives of Industries, Labour unions and members of the Legislature with a view to establish closer co-operation and co-ordination.

1548. The details pertaining to the seating capacity of the Industrial Training Institutes Centres are given below.

**SOCIAL
SERVICES
AND
WELFARE**

Name of the Institute Centre	Sanctioned strength	Additional seats allotted during February 1957 under the Expansion Scheme of the Second Five-Year Plan.
1. Industrial Training Institute, High Grounds, Bangalore	160	72
2. Industrial Training Centre, B.T.S., Bangalore.	128	32
3. Industrial Training Centre, S.J.O.I., Bangalore. (The above three Institutes were from Old Mysore).	48	8
4. Industrial Training Centre, B.V.B. College of Engineering and Technology, Hubli. (Transferred from Bombay State).	128	32
5. Industrial Training Centre, K.P.T., Mangalore. (Transferred from Madras State)	96	16
6. Industrial Training Institute, Melcara (Transferred from Coorg State).	96	...
7. Industrial Training Centre, Gulberga (Transferred from Hyderabad State).	50	...

1549. The following new Centres were started in addition to the above under Expansion Scheme under Second Five-Year Plan during February 1957.

<i>Name of the Centre</i>	<i>No. of seats allotted.</i>
1. Industrial Training Centre, Mysore	... 64
2. Industrial Training Centre Bhadravati	... 28

1550. The entire expenditure towards staff, tools and equipment, buildings, machinery, stipends etc., will be borne by Central and State Governments in the ratio of 60 : 40 per cent respectively as before even after the transfer of control to the State Government, with effect from 1st November 1958

1551. The Trade Test for the short term sheet metal trainees at the Industrial Training Institute, High Grounds, Bangalore, was conducted as per the existing procedure and 77 trainees have passed out of 97 appeared for the test during February 1957.

CHAPTER XIV—MISCELLANEOUS.

(i) Archæology.

1552. Consequent on the States Reorganisation, hundreds of monuments and sites were transferred to the Department of Archæology of Mysore, from the parts of former Hyderabad, Bombay, Madras and Coorg States. Ancient Monuments

1553. During the year, twelve monuments were discovered in parts of Tumkur, Chikamagalur, Chitaldrug, Bangalore and Bellary districts. Many of these monuments belong to the mediceval period being in the Hoysala style of architecture. Exploration

1554. The earliest of the monuments discovered comes from Begur, a village about 10 miles from Bangalore and belongs to Circa 9th century A.D. There are five Iswara temples (Panchalinga) in a group, of which the Nagesvara temple is the most ancient and architecturally important. This remarkable group of monuments constitutes one of the few early monuments in the State.

1555. Among the newly discovered Hoysala monuments, the Isvara temple at Hirenallur in the Kadur taluk is a trikutachala with three garbhagrihas, three sukhanasis, a common navaranga and a front porch. All these three garbhagrihas have ornate towers in them. The temple has been elegantly and minutely carved from top to bottom with pleasing designs on ceilings and doorways. The three garbhagrihas appear to have housed a linga, an image of Vishnu and an image of Surya respectively, as indicated by the pedestals. In plan and design, it is the proto-type of the Keshava temple at Somanathpur.

1556. In the three garbhagrihas of the Narasimha temple at Baggavalli in Tarikere taluk, Chickamagalur district, are exuberantly carved images of Keshava, Yoganarasimha and Sarasvati.

1557. Two other monuments *viz.*, the Kallesvara temple situated at Sogi village in the Hadagalli taluk of Bellary district, and the Lakshminarayana temple at Honnavalli in Tiptur taluk come next in importance.

1558. Of the other monuments discovered mention may be made of the Isvara temple at Balavanerlu, Isvara

MISCELLANEOUS

temple at Hanne, Virupaksha temple at Bukkambudi and Venugopala temple at Karadi.

1559. The Ugra Narasimha figure in the attitude of tearing the entrails of Hiranyakasipu, as the main deity of Hoysala temple at Maddur, a rare figure indeed was photographed during the year.

Epigraphy

1560. About 10 inscriptions have been collected in different parts of the State, all of them being lithic records. The most important of them all comes from Koppal in the Raichur district and belongs to the reign of the Rashtrakuta king Nripatunga.

1561. Of the other records, three belong to the Hoysala rulers while the remaining are of later date.

Numismatics

1562. Among the five treasure trove hoards that were studied during the year, one of the hoards which comes from Brahmipura village of the Channarayana taluk contains 24 gold coins of minute size, belonging to the reign of the Mysore King Kanthiravanarasimha Wodeyar. The two hoards deposited in the State Huzur Treasury, Bangalore, contains 70 and 112 gold coins respectively and most of them are Viraraja Tanams of the Hoysala period.

1563. The receipts and expenditure of the Department amounted Rs. 40,007-19 and Rs. 40,007-19 respectively, during the year.

(ii) Anti-Corruption and Efficiency Audit.**ANTI-CORRUPTION WORK IN OLD MYSORE STATE.**

1564. The formation of the New Mysore State with effect from 1st November 1956, consequent on the States Re-organisation, brought different areas, having diverse systems of Anti-Corruption work. Proposals for the adoption of a uniform system of Anti-Corruption and Efficiency Audit in the entire New Mysore State are under consideration of Government.

1565. There were 609 cases pending enquiry at the beginning of the year. Out of 1,238 petitions received during the year, 448 petitions containing allegations of a general and less serious nature were referred to the Heads of Departments or concerned officers for necessary action. Among the other petitions enquired into by the Department, 596

cases were found to be false or incapable of proof, 30 cases were referred to the Departments for departmental action.

1566. Punishments awarded in cases in which the allegations were substantiated were as follows:—

		No. of Gazetted Officers	No. of Non- Gazetted Officers
Dismissal	...	1	9
Suspension	2
Compulsory retirement	12
Censure or warning	...	8	11
Reduction	14
Increment postponed	...	1	13
Reversion	2
Fined	2
		10	65

1567. The following items of extra departmental activities conducted by the Department during the year were :—

Extra
Departmental
Activities.

(a) A case of unauthorised dealing in mining gold of 14 tolas at Robertsonpet was detected. Nine persons were arrested and chargesheeted by the local police.

(b) A case of counterfeiting of coins was detected in a village in Tumkur District and the concerned persons were convicted and sentenced to R.I. for five years.

(c) A number of Satta Gambling cases in the limits of Bangalore Corporation were detected and cases launched.

(d) Two cases of unauthorised cultivation and selling of ganja were detected and convicted.

(e) Two cases of illicit distillation of arrack were detected and the persons concerned were convicted to pay fines of Rs. 100 and Rs. 2.

(f) Thirty Government buses and 40 private buses or lorries were checked for non-issue of tickets and contravention of provisions of the Motor Act.

MISCELLANEOUS

1568. A sum of Rs. 4,155 was ordered to be recovered in the following four cases :—

	Rs. nP.
1. From an Excise Inspector who was compulsorily retired from service.	217- 0
2. From a Superintendent of the Mysore Legislature Office who was reduced in pay.	1,423-69
3. From a Nursing Superintendent who was compulsorily retired.	2,434-83
4. From a Sub-Inspector of Police who was awarded a reprimand.	79-50
	<hr/> 4,155- 2 <hr/>

1569. Traps were successfully laid during the year against a Police Daffedar, a Sub-Inspector of Police and a Bench Clerk of a Court.

Anti-corruption work in Integrated Areas from Bombay, Hyderabad and Madras.

1570. Forty-eight pending cases from the Bombay area and 20 from Hyderabad area were received by transfer owing to integration. Thirty-eight new cases from both the areas were registered afresh during the period from 1st November 1956 to end of March 1957. Allegations in 16 cases were found to be false and 23 cases were referred for departmental action.

EFFICIENCY AUDIT.

1571. During the year, surprise inspections mostly of Taluk Treasuries, Sub-Registry Offices and Agricultural Depots were conducted in 35 cases. Inspections or Audits of 61 offices were conducted after issue of necessary notices.

1572. Inspection notes were forwarded to the Departments concerned for necessary remedial action and important cases of irregularities were also brought to the notice of Government.

1573. The Efficiency Audit Branch investigated during the year into the following cases :—

1. Audit of accounts of the several pharmaceutical firms dealing in the manufacture and sale of spirituous medicinal preparations.

2. Irregularities in respect of the restoration of Dyavasandra Hosakere, Gowribidanur Taluk.

3. Unauthorised restoration of land and smuggling of valuable timber in a taluk of the Mysore District.

4. Acquisition of lands in Gajanoor village, Shimoga District and payment of compensation resulting in loss to Government.

5. Construction of a new tank across Kumadvathi river at Gundamgere, Doddaballapur Taluk.

6. Investigation into the arrears of accounts work in the Office of the Conservator of Forests, Shimoga.

7. Irregularities in the Ambliola P.W.D. Sub-Division.

8. Irregularities in the Office of the Executive Engineer, Tunga Anicut Division.

9. Preliminary investigation into the affairs of the Town Municipality, Arsikere, Pandavapura, Bhadravati and Srinivasapura.

10. Allegations against the Agricultural Inspector, Central Godown, Kadur.

11. Irregularities in the Mechanical Division, Munirabad.

12. Irregularities in the Office of the Joint Registrar, Gulbarga.

13. Probe into the working of the Spun Silk Mills, Channapatna.

14. Investigation regarding the misuse of drugs in the Office of the Director of Public Health.

1574. Orders were issued during the year on the previous year's report of investigation into the affairs of the Government Gardens Department, reducing the Head of the Office to the minimum of his grade, reverting the Office Manager, dismissing the Stores Clerk and ordering a recovery of Rs. 3,194 from them.

(iii) Geology.

1575. There was an increase in the mining activity in the Private as well as Public Sector during the year. General

1576. As regards the grant of new leases and licences, there was a slight retardation consequent on the declaration of the Industrial Policy Resolution by the Government of

MISCELLANEOUS

India on 30th April 1956, whereby, the future exploitation of iron, manganese and chrome ores and a few others were to be, to a large extent, the responsibility of the State. The new policy, however, did not rule out the grant of areas to the private parties but restricted such grant to cases where the exploitation is to be classed as small scale mining. The cumulative effect of the above was that there was a slight fall in the production of chrome, manganese and iron ores in areas of the former Mysore State. But this was compensated by a production of iron and manganese ores to the tune of 1,39,582 tons in the districts of North Kanara and Belgaum.

1577. One important event in the history of Mining Industry in the State during the year was the formation of a larger State of Mysore with the merger of new areas which have brought with them potentially rich mineral bearing zones.

1578. Another land-mark in the Mining Industry in the State during the year was the nationalisation of the Gold Mines on the Kolar Gold Field. The Kolar Gold Mines have remained the sole producers of Gold in India for over 70 years, their contribution in the production being always over 95 per cent.

1579. These Gold Mines on the Kolar Gold Field were taken over by Government on 29th November 1956 terminating the leases held by Messrs. John Taylor & Sons and paying compensation to them. With the Hutti Gold Mines passing into Mysore after the States Reorganisation, practically all the productive Gold Mines in India are now situated in Mysore.

1580. Six Schemes for mineral survey and development at a total cost of Rs. 40.5 lakhs were accepted by Government and three of these were taken on hand.

1581. The revenue and expenditure of the Department were Rs. 16,37,064 (actuals) and Rs. 2,67,831 as against the budget grant of Rs. 10,10,000 and Rs. 2,58,000 respectively.

Leases and
Licences

1582. Mining Leases.—Three hundred and thirty-one (331) mining leases were current during the year which includes the current mining leases of the merged parts of Mysore.

1583. Prospecting Licences.—Seventy-seven (77) prospecting licences were current during the year which includes the licences current in the merged parts. The total area covered by prospecting licences was 34,185·59 acres.

1584. There were 872 quarrying licences current during the year. A sum of Rs. 27,350 was collected as royalty and application fee. Licences to quarry Ornamental Stones

1585. Mineral Production.—Mineral Production for Metals. the calendar year 1956 was as follows:—

(For the former State of Mysore).

1586. Chromite.—Restrictions regarding export of chrome ore continued except in certain cases of low grade ore which were governed by issue of permits by the Department. No fresh licences were issued for exploitation of this mineral during the year. The total quantity of chromite ore produced during the year amounted to 4,281·25 tons of the value of Rs. 2,14,850.

1587. Gold and Silver.—The following statement shows the quantity of fine gold and silver produced by the three mining companies and their value during the year 1956:—

(a) Gold:—		Ozs.	Rs.
Mysore Gold Mines	...	60,242	1,64,97,601
Champion Reef	...	60,993	1,67,15,158
Nundydroog Mines	...	69,943	1,92,08,876
Total	...	1,91,178	5,24,21,635

(b) Silver:—		Ozs	Rs.
Mysore Mines	...	4,210	18,654
Champion Reef	...	4,724	20,735
Nundydroog Mines	...	5,083	22,712
Total	...	14,017	62,101

1588. Iron Ore.—The total quantity of iron ore produced during the year amounted to 3,18,205·05 tons. Of this, a quantity of 1,25,688 tons of ore, valued at Rs. 13,71,000* was produced by the Kemmangundi and Tanigebyle Mines worked by the Mysore Iron and Steel

MISCELLANEOUS

Works, Bhadravati and directly used in the blast furnace. The remaining quantity of 1,92,517.05 tons of ore was entirely exported outside India.

1589. Manganese Ore.—The total production of manganese ore from all the districts amounted to 1,39,398.80 tons. Most of the ore was exported outside India, excepting a small quantity consumed by the Mysore Iron and Steel Works, Bhadravati.

1590. Building Materials.—From the granite quarries under the control of the Department, there was a production of 24,57,547 cubic feet of building materials during the year. Out of this quantity, 18,24,207 cubic feet of stones were produced by the quarries worked by the Gold Mining Companies of Kolar.

1591. Mineral Production for the months of November and December 1956 from the new areas forming the New State was :—

	<i>Mineral</i>		<i>Quantity (tons)</i>	<i>Value (Rs.).</i>
Hutti Gold Minors Rai- chur District.	Gold ...	3164'959 (ozs.)	8,97,044/58	
	Silver ...	299 (ozs.)	1,433/12	
Associated Cement Co., Ltd., Gul- barga District	Limestone ...	1,03,134	8,25,072	
Bagalkot Cement Co., Ltd., Bijapur District	Limestone ...	27,518	2,20,144	
	Total ...		19,43,693/70	

1592. A total quantity of 4,11,498 square feet of stone slabs was produced from the quarries near Wadi in the Gulbarga district.

1593. A total quantity of 34,895 tons of manganese and iron of the value of Rs. 1,36,548 from North Kanara and Belgaum districts was produced for the last two months of 1956.

1594. The following industrial minerals were found in the New State of Mysore.

Asbestos.—In Idgondanahalli of Hassan District.

Beryl.—in Dodkadnūr of Hassan District, and also in Arehalli.

Dolomite.—Produced by the Mysore Iron and Steel Works, Bhadravathi.

Feldspar.—Near Thondebhavi, Kolar District and is being used in the manufacture of porcelain.

Graphite.—In Ganacharpura of Kolar district.

Kaolin.—In Bageshpura of Hassan district.

Limestone.—Produced by the Mysore Iron and Steel Works, Bhadravati and also by the Associated Cement Company Ltd., at Shahabad during the last two months of 1956.

Magnesite.—Produced by Messrs. Tata Iron and Steel Company Limited.

Mica.—In Mundur, Mysore district.

Ochres.—In Kolar and Bellary districts.

Soapstone.—In Bageshpura, Hassan district.

1595. The total value of minerals produced in the New State of Mysore during the year 1956 was:—

		1956	1955
		Value (Rs.)	Value (Rs.)
Gold and Silver	...	5,33,82,214	4,89,96,941
Other Minerals	...	92,74,220	84,64,916
		<hr/>	<hr/>
Total	...	6,26,56,434	5,74,61,857
		<hr/>	<hr/>

1596. Bureau of Mineral Development.—The Bureau of Mineral Development functioned as an Industrial Concern under the Department. The value of minerals produced during the year was Rs. 11,07,318 (Rs. 7,51,120). The sales of minerals amounted to Rs. 9,70,389 (Rs. 4,56,838). The working of the Bureau has shown a net profit of about Rs. 4,40,459 after providing depreciation charges on machinery, plant and buildings and interest on capital.

1597. With the expansion scheme of the Government Porcelain Factory, there was a larger demand for China Clay, Feldspar and Quartz.

MISCEL-
LANEOUS

1598. The production and value of different raw materials produced by the Bureau of Mineral Development were :—

Mineral	Production		Sale value	
	1956-57	1955-56	1956-57	1955-56
	Tons	Tons	Rs.	Rs.
Aluminous clay	2,400	2,427	48,000	48,540
Asbestos	37	143	5,550	21,450
Beryl	23	3	13,590	1,800
China clay	769	537	61,520	48,330
Chromite	2,406	3,116	1,97,292	2,49,280
Feldspar	457	849	9,140	16,980
Garnet	8	...	295	...
Graphite	169	365	8,450	18,250
Manganeso. Kumsi	12,241	7,330	5,31,270	1,10,250
Do -Gangur
Raw clay	12,220	12,250	1,09,980	1,10,250
Thirthahalli clay	138	100	11,040	5,000
Vermiculite	513	349	25,650	10,470
Soapstone (Nos)	21,347	9,380	64,041	37,520
Quartz	1,075	...	21,500	...
Total	11,07,318	7,51,120

1599. Proposals for expanding the activities of the Bureau for the development of minerals on planned lines in the new areas of the former Bombay and Hyderabad States now forming part of the New State of Mysore, were being examined.

(iv) **Government Central Press, Bangalore.**

1600. Consequent on the integration of the Coorg State with the former Mysore State, a small Government Press worked by the former Coorg Government, has come under the control of the Government Central Press, Bangalore, from 1st November 1956.

1601. A Special Souvenir "MYSORE RAJYA" was printed and released to the Public on the eve of the formation of the New State of Mysore. Special works like "Jaimini Bharatha", "Bhagawan Budha", published by the Literary and Cultural Development Department, Bangalore, were printed for the use of the Public and kept for sale at the Government Central Book Depot, Bangalore.

MISCELLANEOUS

Establishment.

1602. The total strength of the establishment of the Central Press, Bangalore, at the close of the year was 699 (651) including the officials and employees transferred from integrated areas, of which 603 (552) were on permanent basis, 91 (99) on temporary basis.

1603. During the year, 51 issues of Weekly Gazettes and 235 Extraordinary Gazettes were issued. The cost of printing the Mysore Gazette during the year amounted to Rs. 2,63,272 (Rs. 1,52,730) while the receipts amounted to Rs. 34,412 (Rs. 36,222).

Gazette Section.

1604. The total amount realised on account of work done for paying departments exclusive of book adjustments was Rs. 3,88,393 (Rs. 2,99,883). In addition, a sum of Rs. 31,749 was realised against works executed for an Indian University and also by sale of paper cuttings and waste materials.

Miscellaneous Receipts.

1605. Students of the Printing Section of Sri Jayachamarajendra Occupational Institute, Bangalore and the students of the II and III year High School Classes in Mysore and Bangalore continued to receive training in Printing during the year. Facilities were also given to the Press employees to appear for Madras Government Technical Examinations, with a view to qualify themselves for higher positions in the Department.

1606. The expenditure of the Central Press based on the principles of Costing amounted to Rs. 18,06,963 (Rs. 16,05,878), during the year.

1607. The cost of paper and binding materials consumed for printing and binding work done during the year was Rs. 8,30,824 (Rs. 7,75,128).

Government Branch Press, Mysore.

1608. The strength of the Government Branch Press, Mysore, was 150 (145).

1609. In addition to the normal work of the Palace, University, Oriental Research Institute, Dasara Exhibition Committee, University Publications and Extension lectures which were attended to by the Press, the printing of Kannada, Kurnaravyasa Bharatha was continued.

1610. The total value of work done to paying departments was Rs. 1,10,103 (Rs. 94,373) for

**MISCEL-
LANEOUS**

printing and Rs. 1,51,626 (Rs. 75,141) for paper and stationery.

1611. The value of paper and stationery used for non-paying departments was Rs. 1,05,266 (Rs. 62,893).

1612. Vacational classes in Printing and Binding were conducted for the benefit of local high school students, who took up these subjects as their optionals.

Government Central Book Depot, Bangalore.

1613. The sale of educational text books was carried through 459 recognised book-sellers.

1614. The number of subscribers to the Indian Law Reports (Mysore series) was 180 for the calendar year.

1615. The total sales of publications amounted to Rs. 96,208 (Rs. 5,33,809) and the net cash realisation was Rs. 29,230 (Rs. 3,80,873). The transaction for the year was less because of the change in the academic year from January to May as before *viz.*, May to March.

(v) Government Stationery Depot.

Purchases

1616. As in previous years, the purchases of stationery articles, printing and writing papers and Mill boards was made through the Stores Purchase Committee, Bangalore who invited tenders and placed orders with the successful tenderers after appropriate articles were selected by the Stationery Depot. The majority of the printing and writing papers, straw boards and colour papers were purchased from the Mysore Paper Mills, Bhadravathi at a cost of Rs. 16,94,294. Brown cartridge papers at a cost of Rs. 23,790 were purchased from Messrs. Premier Supplies (Private Limited, Madras).

1617. Some of the special varieties of papers such as imitation art, real art, blotting paper, typewriting thin paper etc., not manufactured by the Mysore Paper Mills, Bhadravathi, were purchased from other firms through the Stores Purchase Committee. As far as possible, articles of indigenous manufacture were preferred and articles of foreign manufacture were selected only when the indigenous made articles did not serve the purpose.

1618. The value of purchases made through the Stores Purchase Committee in respect of stationery,

printing and writing papers etc., amounted to Rs. 22,84,521 (Rs. 14,20,527).

1619. Two hundred and seventy-five typewriters required for Government offices were purchased and supplied.

1620. The articles of Mysore Manufacture and the firms from which these articles were purchased amounted to Rs. 19,07,337 (Rs. 11,02,516).

1621. The value of stock at the beginning of the year was Rs. 5,88,705 (Rs. 4,46,296). New stocks of the value of Rs. 22,98,647 were purchased or received from the Government Presses at Bangalore, Mysore, Coorg and other offices. The total value of the stock handled during the year works out to Rs. 28,87,353 (Rs. 18,77,309). The value of issues made to the several offices amounted to Rs. 18,28,062 (Rs. 12,88,604).

Value of Stock.

1622. The total demand against the several paying departments towards the cost of stationery articles and printing papers supplied to them during the year including the cost of papers supplied for printing forms and registers of the Municipalities and Local bodies amounted to Rs. 10,67,315 (Rs. 7,15,902). Against this demand, a sum of Rs. 2,50,084 was realised during the year.

Realisation

(vi) Horticulture.

1623. The activities of the Department in the past one or two years have further increased as a result of the new proposals suggested by the Indian Council of Agricultural Research, by the seminars held recently in connection with the National Extension Service Scheme and by the seminar sponsored by the Education Department etc. Due attention was being paid for the development of horticulture in rural parts by introducing improved varieties of horticultural crops and popularisation of the same, providing all technical assistance to the farmers.

General

1624. During the past five years, a number of plants and seeds of economic and ornamental importance were introduced and tried at Lalbagh and some of them were supplied to the private cultivators all over the State for conducting trials.

1625. Anab-E-Shahi (Grape).—This variety of grape was introduced from Hyderabad where its performance was excellent.

**MISCEL-
LANEOUS**

1626. The area under grapevine particularly in Bangalore District has increased four-fold (approximately 1,000 acres) as a result of the departmental work.

1627. Twenty-one new varieties of grapes were received from London. In Lalbagh, Bangalore, there were about thirty varieties of grapes under cultivation.

1628. New varieties of beans and tomatoes were introduced from U.S.A., and tried in the nurseries. Among the tomato varieties, Radio and Potentate from Holland were tried and acclimatised. They proved successful and sample quantities of seeds were distributed to several cultivators.

1629. Sweet potatoes (599, 5941 B and U 240 strains) were introduced from America and tried in Lalbagh and other gardens. They were found to be very rich in carotene and calcium content and said to be specially suited to rice-eating public.

1630. Rhizomes of hops were obtained from Kashmir and were under trial at Lalbagh. Their performance was being studied and there were good signs of possibility of acclimating and cultivating them in Bangalore.

1631. *Gliricidia maculata*:—The Department propagated gliricidia in the departmental nurseries and supplied to various parties in rural parts. Intensive efforts were being made to popularise gliricidia everywhere in the districts for purposes of growing it as a green manure crop.

1632. The ornamental plants newly introduced were, the white Bougainvillea from Trinidad, Bougainvillea Mary Palmer, Bougainvillea A. Rao, 60 Hibiscus varieties, 67 canna varieties; among economic plants 18 Eucalyptus varieties and a number of others.

1633. Guavas could be propagated by gootyping using alkathene paper. This method of grafting guava will reduce the cost of guava plant from Rs. 1-25 to Re. 0-25 per graft. This experiment was conducted in Lalbagh.

1634. To educate the public in horticulture, theory and practical classes were conducted in Horticultural Education on every Sunday at Lalbagh, Bangalore and at Mysore. In the average, 100 students were being trained every year. The training course is for one year.

MISCELLANEOUS

Short
Practical
Training
Course.

1635. The training in the practical gardening is also given to those interested daily at Lalbagh Nursery and at Mysore for a stipulated period of 3 or 6 months or even for a longer period. During the year, six lady candidates sent by Social Welfare Board and the Horticultural Assistant deputed from Sourashtra and four students from Chitaldrug completed their training.

1636. 'Earn while you learn scheme' was introduced in 1954 with an object to make the students of the middle school, high schools and colleges to work in farms and thereby teach them the cultivation of fruits and vegetables etc. From their younger days and as an inducement for the students to learn the subject they are paid a small remuneration. This scheme was tried at the Fruit Research Station, Hessarghatta and Horticultural Farm at Maddur.

Earn While
You Learn
Scheme.

1637. The development of school gardening all over the State was taken up with the collaboration of the Director of Public Instruction in Mysore, Bangalore. The recent school garden competitions in Bangalore was found to be over 35 entries as against four or five in the previous year. Where schools were provided with lands by Bhoodan Movement Scheme, starting of fruit and vegetable gardens with the help of student labour was also taken up.

Development
of School
Gardening.

1638. During the year, many research workers, University students and many others have availed the opportunity of getting technical advice from the staff of the botanical garden. Botanical specimens of no commercial value were supplied to many persons and institutions for study.

Technical
Service.

1639. Considerable number of publications mostly on exchange basis or as donations continued to be received regularly.

Library.

1640. A Horticultural Calendar for 1956 containing very valuable information on horticulture was published and distributed to needy horticulturists and horticultural students.

Publications.

1641. The specimens were all periodically cleaned and kept free from damage from insects. A set of dried specimens of leaves of different shapes were given to some local schools for teaching purposes.

Herbarium.

1642. Lalbagh maintained its popularity and reputation as a place of public resort and as a centre of horticultural

Lalbagh.

MISCELLANEOUS

work. In addition to the general routine works in the garden, the lawns were kept in good condition by constant weeding, mowing and rolling.

Horticultural Farm.

1643. The Horticultural Farm, Koramangala, Bangalore, continued to be the chief vegetable growing centre. The revenue and expenditure of the farm were Rs. 28,647-45 and Rs. 25,407-75, respectively during the year.

Mysore Horticultural Society.

1644. The Mysore Horticultural Society, Lalbagh, Bangalore, continued to give all encouragement for the development of horticulture in the State. Horticultural shows were held as usual during February and August.

Fruit Research Station, Hessarghatta, Bangalore.

1645. The Fruit Research Scheme sanctioned by the Indian Council of Agricultural Research and the Government of Mysore in the year 1938, terminated with effect from 1st April 1954. Since then, the question of reorganisation of the Fruit Research Station at Hessarghatta on a permanent basis was pending before Government. The continuance was extended upto 1st April 1957. The season was on the whole favourable for agronomic operations.

1646. During the year, a sum of Rs. 25,389-81 was spent against the sanctioned grants of Rs. 25,688. The total realisation amounted to Rs. 9,943-56.

Horticultural Developments in Districts.

1647. A large number of genuine fruit, avenue, flower and economic plants were propagated in the district nurseries and supplied to farmers in thousands for planting and also new varieties of vegetable and flower seeds were introduced to various places in the districts.

Nandi Hill Station.

1648. The rainfall of the station was 31.44 (33.47) inches. The water position was satisfactory during the year.

1649. The Hill Station continued to be a popular health and summer resort in the State. It attracted a large number of tourists.

1650. The dispensary, sub-post office and a police out-post functioned from 15th March to 15th July every year. Both in and outdoor games were made available for the visitors.

1651. Intensive propaganda was carried on in rural parts in order to bring home to the minds of the farmers the importance of horticulture and to educate them in the

right method of cultivation of fruits, vegetables and horticultural crops, popular literature on the subjects published by the department were supplied to them.

(vii) Information and Publicity.

1652. The Publicity Organisation came in 1924 as a **General.** small unit for giving publicity to Government measures. It was re-organised in 1937 with a view to improving the arrangements for the supply of accurate information and issue tourist and other publicity literature. Since then, different sections, with distinctive functions, have been formed to make the Department fully resilient and responsive enough to be able to cope with the large increase in work that has been planned. After Re-organisation of the State, the activities of the Department have still increased enormously due to additional work connected with the following :—

- (a) Community Radio Scheme (Rural Broadcasting).
- (b) Mass Communication Scheme of Film Publicity through Mobile Publicity Vans.
- (c) Five Year Plan Publicity.
- (d) Organisation of the Exhibitions.

1653. In addition to the above, proposal to constitute a separate Tourist Traffic Advisory Committee, with a view to develop Tourism in the State and also a film unit in the Department to prepare documentaries, etc., was under consideration.

1654. The Department attended to the following work **Functions of the Department.** during the year:—

- (a) Securing the widest Publicity to all Administrative Measures;
- (b) Providing Press Attaches to cover V.I.Ps. visit and to cover the more important tours of Ministers and correctly represent their speeches and activities to the public;
- (c) Securing, by the Photographic Section, visual and authentic news bits to the press and the public;
- (d) Securing wide publicity by increased publications to serve both the intelligentsia and the common people;

MISCELLANEOUS

- (f) Creation of a closer liaison between the Government and the Press ;
- (g) Installing, maintaining and servicing of Community Radio Receiving Sets in various parts of the State ;
- (h) Publicity through Mobile Vans—Mass Communication—in the Districts of Dharwar, Karwar, Belgaum and Bijapur ;
- (i) Undertaking greater propaganda measures in tourists publicity ; and
- (j) Handling advertisements of all Government Departments and Government-owned industrial concerns in newspapers, magazines, etc., and also arranging for other forms of publicity.

The Language Section
(Press Section)

1655. The Language Section was primarily concerned with the scrutiny of newspapers, and translating into the regional language, *i.e.*, Kannada, any matter referred to it by the Publication Section.

1656. Newspapers were scrutinised in two groups, namely all English papers, whether local or mofussil, under Group 1 and all Newspapers published locally in the regional language Kannada and also Tamil and Urdu, under Group 2. Daily abstracts of news were prepared separately in the two groups and submitted to Government for information.

1657. In the absence of a Press Advisory Committee functioning in the State, the work of looking scurrilous writing and publication of objectionable matter in the newspapers was being attended by this Department.

Publication Section
(Periodicals)

1658. *The Mysore Information Bulletin*.—This is a monthly publication which includes the speeches made by distinguished visitors to the State, the Governor and the Ministers. All the Press Notes issued by Government in the course of the month were also included. In addition to this, articles of interest contributed by the Heads of Departments, as also useful articles that are found in the brochures issued by the Union Government from time to time, were edited and incorporated in this Bulletin.

1659. *Mysore Vani*.—(Kannada fortnightly).—This contains not only a record of good activities but also other features of interest to the common reader.

**MISCEL.
LANEOUS**Publication
Section
(Special
publications).

1660. Departmental Bulletins and other special publications.—Under this were included publications like the hand-books relating to the working of the several departments of the State. The booklet "Mysore State 1951", a brochure "Mysore Iron and Steel Works", "Mysore Rajya", etc., and departmental bulletins under "Facts about Mysore" come under this category.

1661. Small Guide Books on places like Srirangapatna, Belur, Halebid, Sravanabelagola, Talkad and Nandi Hill Station have also been made available.

1662. The State Administration Report is also another publication that is attended to by this department.

1663. Tourist Literature.—This includes publication from time to time of folders and pamphlets on Holiday Touring in Mysore, maps of tourist centres in Mysore State, and Air lines to Mysore, besides special publications such as "The Hand Book of Mysore."

1664. The Photographic Section was suitably equipped for taking pictures of important events and Government activities from time to time, as well as pictures of places which are of tourist attraction. Those pictures were reproduced in the Mysore Information Bulletin and other publications issued by the Department.

Photographic
Section.

1665. The Commercial Publicity Section of the Department handled advertisements of all Government Industrial Concerns and Government Departments;

Commercial
Publicity
Section.**(viii) The Mysore Housing Board.**

1666. The Mysore Housing Board Act 1955 came into force on the 1st day of June 1956 and the Mysore Housing Board was constituted on 30th May 1956 for a period of three years with effect from 1st June 1956.

1667. The functions of the Board are (1) the implementation of the Subsidised Industrial Housing Scheme and (2) the Low Income Group Housing Scheme.

1668. Under the Subsidised Industrial Housing Scheme, 286 houses were completed; the outlay incurred during the year was Rs. 13.36 lakhs bringing the total number of houses to 3,048 and total expenditure to Rs. 82,43,426 to end of March since the inception of the Scheme in 1953-54.

Subsidised
Industrial
Housing
Scheme.

MISCELLANEOUS.

Low Income Group Housing Scheme.

1669. Under the Low Income Group Housing Scheme the Government of India sanctioned a loan of Rs. 50 lakhs to the State and out of this allotment, the Government placed a sum of Rs. 49 lakhs at the disposal of the Board for the implementation of the Scheme after reserving rupees one lakh for House Building Loans sanctioned by Heads of Departments to their low-income staff. The allotment of Rs. 49 lakhs was distributed as follows :—

	<i>Rs. in lakhs.</i>
Expenditure on works taken up by the Mysore Housing Board (for construction of houses)	29
Co-operatives (for grant of cash loans)	19
Loans to Local Bodies (for construction of quarters for their staff)	1
	<hr/> 49 <hr/>

1670. The outlay incurred during the year on works in progress under the supervision of the Housing Board was Rs. 13.02 lakhs. The payment made against cash loans issued by the Mysore Provincial House Building Corporation was Rs. 6.64 lakhs for the same period.

1671. Out of 385 houses taken up for construction under Low Income Group Housing Scheme by the Board, 145 houses were completed, 52 were upto roof level, 138 were up to plinth level and 50 were not yet taken up as on 31st March 1957.

1672. Action was taken to expedite the construction of houses and to hand them over to the allottees.

Work done by Co-operatives.

1673. It is reported by the Mysore Provincial Co-operative House Building Corporation that during the year 336 applications were received from loanees, of which 97 were sanctioned, the remaining 239 were under scrutiny. Eighty-six houses are reported to have been completed so far.

Receipts and Expenditure.

1674. The total receipts and expenditure of the Board were Rs. 69,74,391-27 and Rs. 55,01,570-89, respectively. The opening balance and closing balance were Rs. 13,46,070-27 and Rs. 30,18,890-64, respectively.

1675. The establishment of the Housing Board in the State has given an impetus to the execution of housing works in several cities and towns in the State. The question of extending the jurisdiction of the Board to the integrated areas was pursued.

(ix) Recruitment to Public Service.

1676. As a result of the formation of the New State of Mysore with effect from 1st November 1956, the rules of recruitment that were in force in different integrating regions of the New State of Mysore prior to 1st November 1956 have been ordered to be continued to be applied to services of those regions after that date, pending the framing of new rules for the entire State.

1677. The number and percentage of appointments held by Backward Classes, Scheduled Castes and Scheduled Tribes and Advanced Class in the Gazetted and Non-Gazetted Services of the Old State of Mysore as on 1st April 1956 were:—

	Gazetted Service		Non-Gazetted Service	
	Number	Per cent	Number	Per cent
Backward Classes	957	62.56	37,309	66.11
Scheduled Castes and Scheduled Tribes	39	2.54	3,494	6.19
Advanced Class	534	34.90	15,638	27.70
Total	1,530	100.00	56,441	100.00

1678. The Commission dealt with 15,315 references from Government, Heads of Departments and other Unit Officers of recruitment and 65,538 applications from candidates for recruitment to various services. In addition to the above, 540 cases were referred to the Commission by Government unofficially for opinion.

1679. The Commission advertised 370 posts under the services referred to Gazetted, Upper-Subordinate and Subordinate and received 1,793 applications, interviewed 572 candidates and recommended 112 of them. The remaining posts were required to be readvertised on account of paucity of qualified and suitable candidates.

1680. There was no response from qualified candidates for the following posts :—

(1) Special Vacancies (Reserved for Backward Classes).

1681. Urdu Moulvis of High Schools; Foremen, Government Electric Factory; Telugu and Tamil Pandits for High Schools; Herbarium Keeper and Librarian,

MISCELLANEOUS

Gardens Department; Assistant Superintendent, Central Industrial Workshop; Mechanic.

(11) Reserved Vacancies (Reserved for Scheduled Castes and Scheduled Tribes).

1682. Hindi Pandits in High Schools; Assistant Masters in High Schools; Epigraphist in the Archaeological Department; Lecturer in Spinning, S.K.S.J.T. Institute, Driller in the Department of Mines and Geology; Assistant Superintendent, Central Industrial Workshop; Setter in Multigraph Section, Mysore Government Secretariat; Operator in Lal-Bagh; Laboratory Assistant, Forest Research Laboratory; Assistant Foremen, Mysore Government Road Transport Department; Foremen, Government Saw Mills; Power Loom Foreman; Mechanic; Inspector of Weights and Measures; Compiler; Operator for Photo Stet Machine; Trained Mistresses, Class III; Lady Ayurvedic Physicians; Bee-Keeping Demonstrators; Operators, Water Works.

1683. The response was poor in respect of the posts of:—
Physical Culture Instructors, Class II
Carpentry Instructor
Tailoring Instructor
Well-Boring Operator

1684. Approved lists of eligible candidates were issued by the Commission after inviting applications for the following kinds and classes of appointments:

Kind and Class of Appointment	No. of candidates enlisted in the approved lists		
	'A' list (Open to all Classes)	'B' list (Backward Classes)	'C' list (Scheduled Castes and Scheduled Tribes)
Veterinary Inspectors, Grade I ...	3	4	...
Agricultural Inspectors ...	Combined A and B lists of 16 candidates was issued.		
Assistant Surgeons, Class I (Non-Gazetted) Women.	6	11	3
Assistant Surgeons, Class II (Non-Gazetted) Men.	16	66	5
Teachers in Middle Schools, Class II ...	511	1,778	380
Teachers in Kannada Basic Primary Schools, Class II.	666	1,499	124
Typists and Steno-Typists, Grade I ...	18	7	Nil
Typists and Steno-Typists, Grade II ...	5	137	Nil
Teachers in Kannada Primary Schools, Class III.	280
Teachers in Urdu Primary Schools, Class III.	...	74	...

1685. For technical posts, the response from Backward Classes was poor for most of the posts. It was more so from candidates of the Scheduled Castes and Scheduled Tribes for almost all the posts.

1686. Fourteen retrenched local candidates of the Food Supplies Department were recommended to Unit Offices for absorption.

Absorption of
Retrenched
Officials

(x) Religious and Charitable Endowments.

1687. Consequent on the Re-organisation of States, the erstwhile Muzrai Department was named as the Department of Religious and Charitable Endowments.

1688. Special services were conducted in all the Muzrai Institutions on Independence and Republic Days. In connection with the formation of the New State of Mysore from 1st November 1956, it was felt necessary to revise the form of 'Rajasirvada' prescribed for recital in all temples in view of the altered political context in the State. Revised form was approved by Government in their Order No. K8-10328/Muz. 134-56-2, dated 25th October 1956, and necessary circular was issued from this Office to all the Deputy Commissioners, Sub-Division Officers and Tahsildars requesting them to see that 'ದೇವರ ಶ್ರೀಯಃ ಪ್ರಾರ್ಥನಾ ರೂಪವಾದ ಆರ್ಚನವಾದ' is recited in all temples and other institutions from 1st November onwards instead of the 'Rajasirvada.'

1689. The annual car festivals and important utsavams and the urus of Nawab Tippu Sultan and Hyder Ali Khan were conducted satisfactorily according to schedule.

1690. The number of major Muzrai temples in Mysore area has increased from 290 to 311. The number of minor muzrai temples has increased from 1,378 to 1,405. There were 13,065 village muzrai temples. There were 11 major, 55 minor, and 343 village Muzrai Mohamadan Institutions. There were four major, 19 minor and 58 village Jain bastis, 373 mathas and 55 chattrams in the State.

1691. There was no succession to Mutts during the year.

1692. Sri Sringeri Mutt and Jahagir with all its endowments and properties continued to be under the management of Government during the year.

Sri Sringeri
Mutt.

**MISCEL-
LANEOUS**

1693. The income of the Mutt under all heads during the year amounted to Rs. 3,40,234 (Rs. 4,27,901-20). The expenditure charged to service heads amounted to Rs. 2,23,138 (Rs. 3,33,980-47), and the closing balance at the end of the year amounted to Rs. 1,25,133 (Rs. 95,110-34).

1694. The investments at the credit of the Mutt at the close of the year were as follows :—

	Rs.
1. Shares in Sringeri Sharada Bank, Ltd. ...	36,650
2. Areca Marketing Co-operative Society, Shimoga.	1,000
3. Shankara Park Buildings ...	5,50,000
	<hr/> 5,87,650 <hr/>

1695. The total collections of the Jahagir during the year were Rs. 82,286 (Rs. 69,377) out of a total demand of Rs. 1,02,865 (Rs. 94,470).

1696. The Mutt owns 165 buildings including 14 houses recently constructed and rented out in Sri Shankara Park, Bangalore.

1697. The Mutt has been spending a large amount of money for the promotion of the ancient learning and with this end in view, it is running eight patasalas which are responsible for the turning out of a number of eminent scholars every year. Ample opportunities were being offered to students desirous of studying Sanskrit literature by providing free boarding and lodging and stipends for maintenance.

1698. The entire internal administration of the Mutt and its properties vested in His Holiness and the affairs of these institutions were satisfactory.

1699. The Mysore State Charities, Tirupathi was endowed with a cash grant of Rs. 12,649-66 from the State Funds and Rs. 7,349-94 from the Chattram Savings Fund. The total income of the Charities amounted to Rs. 72,862-47.

1700. The State endowments and other endowment sevas and utsavams were conducted satisfactorily.

1701. The other institutions maintained outside the State were the Mysore State Chattram, Banaras (Varanasi); Sri Venkataramana Swami Temple at Tirupati and Sri

**Institutions
outside the
State.**

Ardhanareswaraswami Temple, Tiruchanagadda, Salem District. MISCELLANEOUS

1702. All the Muslim Institutions had been well maintained during the year. Muslim Institutions.

1703. There were 81 Jain Basthis in the State. The Jain Basthis at Sravanabelagola are treated as a single Muzrai Institution and continued to be managed by Sri Swamigalu of the Jain Mutt as the sole Dharmadarsi. The working of the minor and nine village basthis was also satisfactory. Jain Basthis.

1704. The Jain Basthis at Halebidu and Sravanabelagola are regarded as National Monuments. The protection of these basthis like that of the colossal image of Sri Gomateswaraswamy temple vests in the Central Department of Archaeology.

1705. There is a fine Gomateswara image near Kannambadi, Krishnarajapet Taluk.

1706. The receipts during the year amounted to Rs. 20,82,028-21 and the total receipts including the opening balance of Rs. 40,98,313-63 worked out to Rs. 61,80,341-84. The expenditure during the year was Rs. 17,14,664-18 leaving a closing balance of Rs. 44,65,677-72 (Rs. 40,98,313-63). Income and Expenditure of Muzrai Institutions in the Ex-Mysore State.

1707. No transfer of cash grants or inam lands of defunct institutions to the other deserving institutions was made during the year. No fresh grant of lands was sanctioned during the year. Grant of Lands or Cash.

1708. In addition to the cash endowments amounting to Rs. 83,550 made by private individuals for the benefit of the institutions or for religious and charitable purposes or for religious studies, the following immoveable properties were accepted as charitable endowments:— Endowments.

(i) Land S. No. 881/1 measuring 1 acre 5 guntas situated in Hireguntanur Village, Chitradurga Taluk for the sevas in Sri Anjaneyaswamy temple, Hireguntanur.

(ii) A village Muzrai Institution in Chitradurga Taluk was accepted as charitable endowment.

1709. The jatras and cattle shows were conducted successfully during the year. Necessary arrangements were made in all places of jatras and cattle shows to provide for good drinking water, light and sanitary arrangements. Jatras.

**MISCEL-
LANEOUS**

1710. An aggregate sum of Rs. 1,65,052-67 was realised during the year and Rs. 29,987-81 and Rs. 7,077 were spent for sanitary and other arrangements and cattle shows respectively.

**Puduvat
Loans.**

1711. One thousand ninety-four cases of puduvat loans amounting to Rs. 62,576-17 were pending at the beginning of the year.

**Educational
Institutions.**

1712. The following educational institutions continued to be under the management of the Endowment Department during the year:—

1. Sanskrit College, Melkote,
2. Sri Magadi Karnick's Vaidika Dharma Patasala, Basavangudi, Bangalore,
3. Agama classes in Maharaja's Sanskrit College, Mysore.

1713. The Sanskrit College, Bangalore is under the Education Department. Only the Agama classes are under the Endowments Department.

1714. The control of Veda Patasalas and allied institutions were transferred from Muzrai Department to the Director of Public Instruction.

BOMBAY KARNATAK AREA.

1715. The Bombay Public Trusts Act, 1950 came into force there on 21st January 1952 and a Divisional Office is situated at Belgaum. The provisions of the Act are applicable to the religious and charitable trusts of all the communities. Contribution is assessed on all trusts except the charitable trusts which are exclusively for the purpose of advancement and propagation of secular education as well as trusts for medical relief or veterinary treatment of animals. But trustees of all trusts have to obey the provisions of the Act.

COORG TEMPLE FUNDS.

1716. The management of the affairs of the temples in Coorg is governed by the provisions of the Coorg Temple Funds Management Act, 1956.

1717. As usual, jatra and festivals were held at Bhagamandala Padi, Irpur and Palour temples during the year.

HYDERABAD AREA.

1718. The Endowments in this region are administered under the Hyderabad Endowment Regulation, 1349F. and Rules framed thereunder. The Commissioner for Religious and Charitable Endowments in Mysore is functioning as the Nazim-e-awakf under the Hyderabad Endowments Regulations and Rules thereunder.

1719. The Endowments work in Hyderabad area is concerned with the administration of all the religious and charitable institutions except Muslim institution and their property under Mutavallies, as well as under Government control situated in the area.

1720. With the enforcement of the (Central) Muslim Wakf Act 1954, the administration of the Muslim Endowments has been transferred to the Muslim Wakf Board appointed by the Government of Hyderabad.

THE NEW MYSORE STATE.

1721. The Commissioner for Endowments was appointed as the Commissioner for Wakfs for the New State to conduct a survey of Muslim Endowments in the State.

1722. According to Hyderabad Endowments Regulations 1349F, the Registration of all endowed institutions and their properties in the book of Endowments is legally obligatory. The total number of institutions so far registered was 7,265 and the number yet to be registered was 10,415.

1723. The Muslim Wakfs Act, (29 of 1954) came into force in Mysore State with effect from 15th January 1955.

MADRAS AREA.

1724. The provisions of the Madras HR and CE Act 1951 continued to be applicable to these areas even after the reorganisation of States and there was no change in the administration of the religious institutions in these areas under the new set up.

(XI) Stores Purchase Committee.

1725. The total value of orders placed (including the approximate value of materials obtained under annual rate

**MISCEL-
LANEOUS**

contracts) with firms in India during the year amounted to Rs. 3,51,66,106 (Rs. 3,08,45,562). The total value of orders placed with firms in foreign countries amounted to Rs. 92,39,699 (Rs. 76,47,262). The total value of all purchases arranged by the Stores Purchase Committee both from firms in India and in foreign countries during the year amounted to Rs. 4,44,05,805 (Rs. 3,84,92,824). The fluctuation in prices in respect of good number of materials continued as in the previous years. The tendency towards enhancement of prices and delays in delivery continued as usual and the prices quoted by foreign firms were not firm and were generally subject to "PRICE VARIATION CLAUSE". Wherever possible, materials of indigenous manufacture were preferred and orders placed for the same.

1726. In this connection, the Suez Canal Dispute has brought to a considerable extent difficulties both in the case of delivery of goods and also in increase of prices. This resulted in the increase of budget estimates in some of the departments.

1727. The total expenditure of the Stores Purchase Committee, including the contribution of Rs. 4,000 paid to the Mysore Trade Agent's Office in London, amounted to Rs. 98,177 (Rs. 80,820) and the incidence of cost worked out to 200 (209) per cent.

1728. The sale proceeds of the tender forms during the year amounted to Rs. 86,185 (Rs. 54,741-50).

1729. Messrs. South India Corporation (Agencies) Private Ltd., Madras, continued to be the Clearing and Forwarding Agents at Madras during the year. The total tonnage of consignments imported and exported by the Agents during the year was 4,030.25 (5,431). The total expenditure incurred including customs duty, landing charges, harbour dues, commission paid to the Clearing Agents for the transport of consignments to their respective destinations amounted to Rs. 13,02,904 (Rs. 13,32,210-75).

Work done by
the Stores
Purchase
Committee.

1730. After ascertaining their financial stability and business capacity, 365 (306) firms were included in the list of approved suppliers for a period of one year. The number of firms registered for a period five years during

the year was 85 (92). The registration fees realised was Rs. 4,480 (Rs. 4,900).

(xii) Department of Statistics.

1731. The main items of work relating to Agricultural Statistics attended to were (1) Collection and compilation of the rainfall figures recorded in the various rain gauge stations in the State, (2) Agricultural Meteorology, (3) Issuing of weekly, monthly and annual season and crop reports, (4) Issuing of periodical crop forecasts (5), Compilation of statistics relating to areas under different crops, under different classification of land utilisation and different sources of irrigation, (6) Estimation of production of crops by the conventional method of annawari estimation and by the scientific method of crop estimation surveys in the case of important food crops and (7) designing of field experiments and analysis of their results.

1732. The total number of Rain gauge Stations excluding those in Meteorological observatories in the State at the end of the year was 373.

1733. The crop observations were recorded on plants selected by random sampling according to a sampling technique which is being followed at all crop weather stations in India. Ragi and paddy were selected for crop observations at the Agricultural Research Station, Mandya. Crop observations were conducted on paddy, sugarcane and cotton at the crop weather station, Hiriya.

1734. Whenever there was a serious incidence of disease or pest, the intensity of attack was estimated periodically.

1735. The above observations were collected regularly and sent to the Director of Agriculture Meteorology, Poona, for further study.

1736. Weekly and monthly season and crop reports received during the year from the District Authorities were regularly compiled and published in the Mysore Gazette.

Season and
Crop Reports

1737. The Department compiled and sent to the Government of India, Ministry of Food and Agriculture, forecasts of 32 crops for being incorporated in the All India Forecasts.

1738. During the year, both the acreage and production of rice showed an increase of about two per cent over the

MISCELLANEOUS

previous year's acreage and production. The area and production of ragi, however, did not show appreciable changes. Although the area under jowar decreased by about 2·6 per cent, its total production was reduced by 0·9 per cent indicating a fairly normal season for the crop. Both area and production under minor millets and pulses decreased considerably during the year as compared to previous year's area and production of these crops. With regard to cotton, area and production remained practically the same about 24 lakh acres and 3·6 lakh bales (392 lbs. each) respectively. Although the area under castor did not change much, its production decreased by about 2·7 per cent. On the other hand, groundnut, for a slight increase (1·7 per cent), recorded a high increase in production (15·9 per cent).

1739. The total number of Agricultural Farms and Research Stations, on which field experiments on different aspects of Agricultural Research, such as, plant breeding, agronomy, control of pests and diseases were conducted, was 12 in the Old Mysore State. After the Re-organisation of the State from 1st November 1956, the number increased to 27. In addition, a few experiments were laid out in the Agricultural Colleges at Bangalore and Dharwar.

Sample Surveys

1740. At the time of the Re-organisation of the State in November 1956, a number of sample surveys were in progress, at various stages, covering the areas of the Old Mysore State and the areas of the Bombay Karnataka.

Sample Surveys Conducted in the Old Mysore State Region.

1741. During the year ending March 1957, the Department conducted the following pilot surveys:—

(i) A Survey of Large Scale Industrial Concerns in Mysore State.

1742. With a view to collect statistical data on a scientific basis in respect of large scale industrial concerns in the State, a pilot sample survey was conducted during March, April, 1955.

1743. The Industrial Concerns were classified into the following nine strata according to nature of production:—

- (i) Textile, (ii) Engineering, (iii) Mines and Minerals,
- (iv) Process relating to Food, Drinks and Tobacco,
- (v) Chemicals and Dyes, (vi) Papers and Printing, (vii) Process relating to Wood, Stone and Glass, (viii) Hides and Skins and (ix) Ginning and Pressing.

MISCELLANEOUS

Result of the Survey.

1744. The total area occupied by the Industrial Sphere (except mines and minerals) was 3467·3 acres; of this 7·7 per cent was occupied by factory buildings and quarters. The per capita roofing or floor space varies from 77·8 sq. feet in chemicals and dyes industries to 1122·4 sq. feet in wooden, stone and glass industry.

1745. On an average, 96,000 people or (1 per cent of the population of the State) were employed per day during the year 1954 in big industrial concerns. Of this, only 10·4 per cent were women.

1746. About 40 per cent of the total women workers were employed in the Textile Industry and 17 per cent in the Engineering Industry.

1747. The estimated average annual earning of the factory workers during 1954 was Rs. 1,046. It varied from Rs. 257 in Ginning and Pressing Industry to Rs. 1,362 in Mines and Minerals.

1748. Thirty-four point two per cent of the total employees were provided with accomodation. Out of this, 5·8 per cent were rent free and the remaining 28·3 per cent were with rent.

1749. Estimated total investments of all the large scale industrial concerns of Mysore State amounted to Rs. 6,156 lakhs out of which 54 per cent was towards working capital.

1750. The total estimated value of production in all the Industries during 1954 amounted to Rs. 5,521·0 lakhs and that of sale to Rs. 5,788·4 lakhs, viz., Rs. 267·4 lakhs in excess of the production during the year and this show that out of the stocks of finished products left over in the previous year, the articles worth Rs. 267·4 lakhs were sold during 1954.

1751. In case of Mines and Minerals 59·9 per cent of the cost is towards the wages and salaries, the need for purchasing of raw materials being comparatively not so great while in Food, Drink and Tobacco Industry 83·8 per cent is spent on materials alone. In Textile and Engineering Industries also the materials cost 64·3 per cent and 79·1 per cent of the total expenditure, respectively. Other expenses work out to about one tenth of the total cost of production in Textile, Food and Drink but about one-third

Break up of the cost of production in respect of different Industries.

in the Chemical Industry and one-fourth in Paper and Printing Industry.

(ii) A Travel Survey of Bangalore City.

1752. This survey was conducted during September—October 1956. A two and half per cent random sample of the houses in Bangalore City was selected.

1753. The following information was collected in respect of each trip performed by the members of the households in each selected house :—

Origin of trip, destination of trip, nature of trip (regular or occasional), mode of conveyance used, purpose of trip, length of trip, cost of trip, time taken (with break up into time taken in waiting and actual travelling), starting time of the trip, etc.

1754. The estimated total number of trips performed by the people of Bangalore was 10,46,636 per day. On the average, the number of trips was 5.25 per household or 1.20 per person.

1755. Out of every 100 trips performed, 75.7 were by foot, 10.8 by cycle, 8.6 by the City Bus Service and the rest by other conveyances.

1756. Trips by foot cover 51.8 per cent of the total distance covered by all the trips, while the cycle, the City Bus Service, Private cars and jutka cover 19.0 per cent, 16.47 per cent and one per cent, respectively of the total distance.

1757. The average monthly expenditure on conveyance is Rs. 4.10 per family.

(iii) A Sample Survey of Traffic and Canteen Arrangements for the College Students in Bangalore City.

1758. The results of a sample survey of traffic and canteen arrangements in respect of college students in Bangalore City conducted during January—February 1957 were :—

Out of every 100 students, about 44 go to the College by walking, 28 by cycle, 20 by the Bangalore Transport Service Bus and the rest by other conveyances.

1759. The percentage of students who walk is more among boy students than girl students, while the percentage using the Bangalore Transport Service bus is more among the latter. Out of every 100 boy students about 52 walk, 35 use cycle and 11 use the Bangalore Transport Service Bus. Among every 100 girls only 21 go by walking while 53 use the Bangalore Transport Service Bus and about 4 use cycle.

1760. About 2 students among 100 return home by walking, even though they used Bangalore Transport Service or other conveyances while attending the college. Taking into account of students attending college by the Bangalore Transport Service Buses only, then out of every 100 such students only six students return home by walking.

1761. The average expenditure for a student using the Bangalore Transport Service Bus is Rs. 0-29 per day.

1762. Surveys relating to Mulberry growing and Sericulture Industry were taken up during the year. The object of the survey was for working out technical details regarding efficiency of sampling technique, scale of sampling, magnitude of variance between villages and within villages, etc.

1763. "Statistical Outline of Mysore for 1956" was compiled during the year for the re-organised Mysore State and published during the year. It provides fairly comprehensive statistics relating to the different areas that were merged together to form the New State.

1764. A statistical supplement giving figures for the New State was prepared for inclusion in the publication of "Mysore Rajya" which was published in Kannada by the Government on 1st November 1956.

1765. Compilation of current statistics relating to the activities of Government departments in the State to be published in a quarterly bulletin was also taken up during the year.

APPENDICES

APPENDIX I

Statement showing the Receipts and Expenditure of the Mysore State for the year 1956-57.

[In thousands of Rupees omitting 000.]
